Charles Gates Dawes Annette B. Dunlap 2016-09-15 Charles Gates Dawes: A Life is the first comprehensive biography of an American in whose fascinating story contemporary readers can follow the struggles and triumphs of early twentieth-century America and Europe. Dawes is most known today as vice president of the United States under Calvin Coolidge, but he also distinguished himself and his hometown of Evanston, Illinois, on the world stage with the 1925 Nobel Peace Prize. This engrossing biography traces how, when the punitive armistice that

ended the First World War resulted in a disabled, restive Germany, Dawes's diplomatic legerdemain averted war through a renegotiation of Germany's debt repayments. Dawes's diplomatic and political achievements, however, were only the illustrious capstones to a multifaceted career that included military service, law, finance, and business on the local, state, national, and global stages. In every arena of his life, he combined the social graces of the Gilded Age with the spirit of service of the Progressive Era. Despite his life of disciplined service, Dawes was an ebullient and irrepressible figure. Dawes's salty language

was often colorful fodder for tabloid and magazine writers of his era. In this captivating biography, Annette B. Dunlap recounts the story of an original American who enlightened and enlivened his world. This book was published in cooperation with the Evanston History Center and with generous support from the Tawani Foundation.

Grit Greg Donaghy 2015-05-01 "I am not afraid to be called a politician," declared Paul Martin Sr., defending his life's work in politics. "Next to preaching the word of God, there is nothing nobler than to serve one's fellow countrymen in government." This book examines Martin's remarkable career as a liberal reformer and cabinet minister who tackled the issues of his day with consummate political skill and gritty determination. Though some mocked his ambition and doubted his progressive politics, his resolute championing of health care and pension rights, new meanings for Canadian citizenship, and internationalism in world affairs would leave its mark on Canada's political landscape.

National Movement and Politics in Orissa, 1920-1929 Pritish Acharya 2008-03-11 This book is a comprehensive study of the nationalist movement and politics in Orissa during the 1920s. It examines the national movement in the late nineteenth century and the first two decades of the twentieth century prior to the launch of the Civil Disobedience Movement by focusing on the regional peculiarities, especially the Oriya linguistic and cultural identity movement. Based on extensive research, it reflects upon the emergence of a class of new intelligentsia as an opinion maker of the society, its concern for societal needs, the divergent trends within it, the commonalities and differences among them and the organizational linkages between the local intelligentsia and the nationalists. Despite the contradictions, the author argues that the local and national aspirations were not antagonistic but complemented each other, as witnessed during the Calcutta Congress of 1928, establishing the Indian National Congress' twin commitments on the question of regional identity and national liberation. National Movement and Politics in Orissa: 1920-29 is a valuable contribution to the discourse on the nationalist movement and will be of great interest to students and scholars of modern Indian history as well as to the social

science academia.

Lunch-Bucket Lives Craig Heron 2015-06-03 Lunch-Bucket Lives takes the reader on a bumpy ride through the history of Hamilton's working people from the 1890s to the 1930s. It ambles along city streets, peers through kitchen doors and factory windows, marches up the steps of churches and fraternal halls, slips into saloons and dance halls, pauses to hear political speeches, and, above all, listens for the stories of men, women, youths, and children from families where people relied mainly on wages to survive. Heron takes wage-earning as a central element in working-class life, but also looks beyond the workplace into the households and neighbourhoods—settlement patterns and housing, marriage, child care, domestic labour, public health, schooling, charity and social work, popular culture, gender identities, ethnicity and ethnic conflict, and politics in various forms—presenting a comprehensive view of working-class life in the first half of the twentieth century. This book has been published with the help of a grant from the Federation for the Humanities and Social Sciences, through the Awards to Scholarly Publications Program, using funds provided by the Social Sciences and Humanities Research Council of Canada.

The Royal Navy in the Age of Austerity 1919-22 G. H. Bennett 2016-10-06 This book thoroughly explores and analyses naval policy during the period of austerity that followed the First World War. During this post-war period, as the Royal Navy identified Japan its likely opponent in a future naval war, the British Government was forced to "tighten its belt" and cut back on naval expenditure in the interests of "National Economy". G.H. Bennett draws connections between the early 20th century and the present day, showing how the same kind of connections exist between naval and foreign policy, the provision of ships for the Royal Navy, business and regional prosperity and employment. *The Royal Navy in the Age of Austerity 1919-22* engages with a series of important historiographical debates relating to the history of the Royal Navy, the failures of British Defence policy in the inter-war period and the evolution of British foreign policy after 1919, together with more

mundane debates about British economic, industrial, social and political history in the aftermath of the First World War. It will be of great interest to scholars and students of British naval history.

Acts of Occupation Janice Cavell 2011-01-01 In *Acts of Occupation*, historians Cavell and Noakes deliver the engrossing story of Canada's early days of Arctic policy. Drawing on a wealth of previously untapped archival sources, they show how one explorer's self-serving ambition fueled unfounded paranoia about Denmark's designs on the north, and ultimately served as the catalyst for Canada's active administrative occupation of the Arctic. A compelling tale that throws new light on a transformative period in Canadian Arctic policy-making, *Acts of Occupation* offers much-needed historical context for contemporary debates on northern sovereignty.

Creating a Modern Countryside James Murton 2011-11-01 In the early 1900s, British Columbia embarked on a brief but intense effort to manufacture a modern countryside. The government wished to reward Great War veterans with new lives: settlers would benefit from living in a rural community, considered a more healthy and moral alternative to urban life. But the fundamental reason for the land resettlement project was the rise of progressive or "new liberal" thinking, as reformers advocated an expanded role for the state in guaranteeing the prosperity and economic security of its citizens. James Murton examines how this process unfolded, and demonstrates how the human-environment relationship of the early twentieth century shaped the province as it is today.

Espionage: Past, Present and Future? Wesley K. Wark 2012-12-06 Highlights of the volume include pioneering essays on the methodology of intelligence studies by Michael Fry and Miles Hochstein, and the future perils of the surveillance state by James Der Derian. Two leading authorities on the history of Soviet/Russian intelligence, Christopher Andrew and Oleg Gordievsky, contribute essays on the final days of the KGB. Also, the mythology surrounding the life of Second World War intelligence chief, Sir William Stephenson, *The Man Called Intrepid*, is penetrated in a persuasive revisionist account by Timothy Naftali. The

collection is rounded off by a series of essays devoted to unearthing the history of the Canadian intelligence service.

Canada's Residential Schools: The History, Part 1, Origins to 1939

Commission de vérité et réconciliation du Canada 2016-01-01 Between 1867 and 2000, the Canadian government sent over 150,000 Aboriginal children to residential schools across the country. Government officials and missionaries agreed that in order to “civilize and Christianize” Aboriginal children, it was necessary to separate them from their parents and their home communities. For children, life in these schools was lonely and alien. Discipline was harsh, and daily life was highly regimented. Aboriginal languages and cultures were denigrated and suppressed. Education and technical training too often gave way to the drudgery of doing the chores necessary to make the schools self-sustaining. Child neglect was institutionalized, and the lack of supervision created situations where students were prey to sexual and physical abusers. Legal action by the schools’ former students led to the creation of the Truth and Reconciliation Commission of Canada in 2008. The product of over six years of research, the Commission’s final report outlines the history and legacy of the schools, and charts a pathway towards reconciliation. Canada’s Residential Schools: The History, Part 1, Origins to 1939 places Canada’s residential school system in the historical context of European campaigns to colonize and convert Indigenous people throughout the world. In post-Confederation Canada, the government adopted what amounted to a policy of cultural genocide: suppressing spiritual practices, disrupting traditional economies, and imposing new forms of government. Residential schooling quickly became a central element in this policy. The destructive intent of the schools was compounded by chronic underfunding and ongoing conflict between the federal government and the church missionary societies that had been given responsibility for their day-to-day operation. A failure of leadership and resources meant that the schools failed to control the tuberculosis crisis that gripped the schools for much of this period.

Alarmed by high death rates, Aboriginal parents often refused to send their children to the schools, leading the government adopt ever more coercive attendance regulations. While parents became subject to ever more punitive regulations, the government did little to regulate discipline, diet, fire safety, or sanitation at the schools. By the period’s end the government was presiding over a nation-wide series of firetraps that had no clear educational goals and were economically dependent on the unpaid labour of underfed and often sickly children.

Dandyism and Transcultural Modernity Hsiao-yen Peng 2015-01-28

This book views the Neo-Sensation mode of writing as a traveling genre, or style, that originated in France, moved on to Japan, and then to China. The author contends that modernity is possible only on “the transcultural site”—transcultural in the sense of breaking the divide between past and present, elite and popular, national and regional, male and female, literary and non-literary, inside and outside. To illustrate the concept of transcultural modernity, three icons are highlighted on the transcultural site: the dandy, the flaneur, and the translator. Mere flaneurs and flaneuses simply float with the tide of heterogeneous information on the transcultural site, whereas the dandy/flaneur and the cultural translator, propellers of modernity, manage to bring about transformative creation. Their performance marks the essence of transcultural modernity: the self-consciousness of working on the threshold, always testing the limits of boundaries and tempted to go beyond them. To develop the concept of dandyism—the quintessence of transcultural modernity—the Neo-Sensation gender triad formed by the dandy, the modern girl, and the modern boy is laid out. Writers discussed include Liu Na’ou, a Shanghai dandy par excellence from Taiwan, Paul Morand, who looked upon Coco Chanel the female dandy as his perfect other self, and Yokomitsu Riichi, who developed the theory of Neo-Sensation from Kant’s the-thing-in-itself.

A Narrow Vision Brian Titley 2011-11-01 In A Narrow Vision, Brian Titley chronicles Scott's career in the Department of Indian Affairs and evaluates developments in Native health, education, and welfare between 1880 and 1932. He shows how Scott's response to challenges such as the making of treaties in northern Ontario, land claims in British Columbia, and the status of the Six Nations caused persistent difficulties and made Scott's term of office a turbulent one. Scott could never accept that Natives had legitimate grievances and held adamantly to the view that his department knew best.

The Grenfell Medical Mission Jennifer J. Connor 2019-01-30 Dr Wilfred Grenfell, physician and folk hero, recruited thousands of volunteer workers for his Newfoundland and Labrador seamen's mission, many of them Americans from Ivy League institutions. As the medical mission grew to become the International Grenfell Association, establishing institutions along the Labrador and northern Newfoundland coasts, Americans also became resident staff leaders in the region, and Grenfell himself married an American, Anne MacClanahan, who led mission activities. The Grenfell Medical Mission and American Support in Newfoundland and Labrador, 1890s-1940s reveals the nature and extent of support from Americans throughout the distributed privately run social enterprise until the 1940s, before the region joined Canada. Essays explore the organization's claims to share an Anglo-Saxon heritage with the United States, American reaction to its financial scandal and creation of an incorporated association, its promotion of sport and masculinity, and the development of education and schools in the region and the mission. The organization's strong ties to the United States are exemplified by Grenfell's friendship with American physician John Harvey Kellogg; the donation of clothing from American donors; the work of one American woman on her affiliated mission unit; the impact of American philanthropy and training on the construction of the mission's main hospital in St Anthony; and the superior American-accredited health care facilities and their clinical achievements. From its corporate base in New York City, the International Grenfell Association blended contemporary social movements and adopted American notions of

philanthropy. The Grenfell Medical Mission and American Support in Newfoundland and Labrador, 1890s-1940s offers the first thorough history of an iconic health and social organization in Atlantic Canada. *Espionage* Wesley K. The Cross and the Rising Sun A. Hamish Ion 2006-01-01 Drawing on both Canadian and Japanese sources, this book investigates the life, work, and attitudes of Canadian Protestant missionaries in Japan, Korea, and Taiwan (the three main constituent parts of the pre-1945 Japanese empire) from the arrival of the first Canadian missionary in East Asia in 1872 until 1931. Canadian missionaries made a significant contribution to the development of the Protestant movement in the Japanese Empire. Yet their influence also extended far beyond the Christian sphere. Through their educational, social, and medical work; their role in introducing new Western ideas and social pursuits; and their outspoken criticism of the brutalities of Japanese rule in colonial Korea and Taiwan, the activities of Canadian missionaries had an impact on many different facets of society and culture in the Japanese Empire. Missionaries residing in the Japanese Empire served as a link between citizens of

Japan and Canada and acted as trusted interpreters of things Japanese to their home constituents.

Spying on Canadians Gregory S. Kealey 2017-03-17 Award winning author Gregory S. Kealey's study of Canada's security and intelligence community before the end of World War II depicts a nation caught up in the Red Scare in the aftermath of the Bolshevik Revolution and tangled up with the imperial interests of first the United Kingdom and then the United States. Spying on Canadians brings together over twenty five years of research and writing about political policing in Canada. Through its use of the Dominion Police and later the RCMP, Canada repressed the labour movement and the political left in defense of capital. The collection focuses on three themes; the nineteenth-century roots of political policing in Canada, the development of a national security system in the twentieth-century, and the ongoing challenges associated with research in this area owing to state secrecy and the inadequacies of access to information legislation. This timely collection alerts all Canadians to the need for the vigilant defence of civil liberties and human rights in the face of the ever increasing intrusion of the state into our private lives in the name of countersubversion and counterterrorism.

Border Jumping and Migration Control in Southern Africa Francis Musoni 2020-04-07 With the end of apartheid rule in South Africa and the ongoing economic crisis in Zimbabwe, the border between these Southern African countries has become one of the busiest inland ports of entry in the world. As border crossers wait for clearance, crime, violence, and illegal entries have become rampant. Francis Musoni observes that border jumping has become a way of life for many of those who live on both sides of the Limpopo River and he explores the reasons for this, including searches for better paying jobs and access to food and clothing at affordable prices. Musoni sets these actions into a framework of illegality. He considers how countries have failed to secure their borders, why passports are denied to travelers, and how border jumping has become a phenomenon with a long history, especially in Africa. Musoni emphasizes cross-border travelers' active participation in the making of

this history and how clandestine mobility has presented opportunity and creative possibilities for those who are willing to take the risk.

Noncooperation in India David Hardiman 2021-03-15 The Noncooperation Movement of 1920-22, led by Mahatma Gandhi, challenged every aspect of British rule in India. It was supported by people from all levels of the social hierarchy and united Hindus and Muslims in a way never again achieved by Indian nationalists. It was remarkably nonviolent. In all, it was one of the major mass protests of modern times. Yet there are almost no accounts of the entire movement, although many aspects of it have been covered by local-level studies. This volume both brings together and builds on these studies, looking at fractious all-India debates over strategy; the major grievances that drove local-level campaigns; the ways leaders braided together these streams of protest within a nationalist agenda; and the distinctive features of popular nonviolence for a righteous cause. David Hardiman's previous volume, *The Nonviolent Struggle for Indian Freedom*, examined the history of nonviolent resistance in the Indian nationalist movement. The present volume takes his study forward to examine the culmination of this first surge of struggle. While the campaign of 1920-22 did not achieve its desired objective of immediate self-rule, it did succeed in shaking to the core the authority of the British in India.

British Fascism Kenneth Lunn 2015-10-16 The continuing interest in the history, ideas, structure and development of fascism in Britain in the twentieth century appears to show little sign of diminishing. This collection of essays, first published in 1980, deals in some depth with new evidence and interpretations of the phenomenon of British fascism and provides a reassessment of some of the major issues that have caused controversy, examines the diverse nature of British fascism and suggests areas which need further research. The early essays identify certain elements of British fascism, particularly anti-semitism, which

produced the ideology of the inter-war organisations calling themselves 'fascist'. Stress is laid on the British roots rather than the European influences of Italy or Germany, and the book also considers the Imperial Fascist League, a competitor of the British Union of Fascists in the 1930s. The second section of the book deals with particular aspects of the BUF. Considering its ideology and tactics, there are studies of anti-semitism, economic thought and the public order question. Presenting new research and fresh interpretations of existing material, this important volume considers many of the crucial and unanswered questions surrounding British fascism.

Severing the Ties that Bind Katherine Pettipas 1994-10-28 Religious ceremonies were an inseparable part of Aboriginal traditional life, reinforcing social, economic, and political values. However, missionaries and government officials with ethnocentric attitudes of cultural superiority decreed that Native dances and ceremonies were immoral or un-Christian and an impediment to the integration of the Native population into Canadian society. Beginning in 1885, the Department of Indian Affairs implemented a series of amendments to the Canadian Indian Act, designed to eliminate traditional forms of religious expression and customs, such as the Sun Dance, the Midewiwin, the Sweat Lodge, and giveaway ceremonies. However, the amendments were only partially effective. Aboriginal resistance to the laws took many forms; community leaders challenged the legitimacy of the terms and the manner in which the regulations were implemented, and they altered their ceremonies, the times and locations, the practices, in an attempt both to avoid detection and to placate the agents who enforced the law. Katherine Pettipas views the amendments as part of official support for the destruction of indigenous cultural systems. She presents a critical analysis of the administrative policies and considers the effects of government suppression of traditional religious activities on the whole spectrum of Aboriginal life, focussing on the experiences of the Plains Cree from the mid-1880s to 1951, when the regulations pertaining to religious practices were removed from the Act. She shows how the destructive effects of the legislation are still felt in Aboriginal

communities today, and offers insight into current issues of Aboriginal spirituality, including access to and use of religious objects held in museum repositories, protection of sacred lands and sites, and the right to indigenous religious practices in prison.

Dziga Vertov John MacKay 2018 For 60 years, the Soviet filmmaker Dziga Vertov, creator of the famed *Man with a Movie Camera* (1929), has been recognized as a founding figure of documentary, avant-garde, and political-propaganda film. This book addresses Vertov's formative years in prerevolutionary and Soviet Russia, alongside his interests in music, poetry and technology.

Bankers and Empire Peter James Hudson 2017-04-27 From the end of the nineteenth century until the onset of the Great Depression, Wall Street embarked on a stunning, unprecedented, and often bloody period of international expansion in the Caribbean. A host of financial entities sought to control banking, trade, and finance in the region. In the process, they not only trampled local sovereignty, grappled with domestic banking regulation, and backed US imperialism—but they also set the model for bad behavior by banks, visible still today. In *Bankers and Empire*, Peter James Hudson tells the provocative story of this period, taking a close look at both the institutions and individuals who defined this era of American capitalism in the West Indies. Whether in Wall Street minstrel shows or in dubious practices across the Caribbean, the behavior of the banks was deeply conditioned by bankers' racial views and prejudices. Drawing deeply on a broad range of sources, Hudson reveals that the banks' experimental practices and projects in the Caribbean often led to embarrassing failure, and, eventually, literal erasure from the archives.

Colonialism on the Prairies Blanca Tovias 2012 Colonialism on the

Prairies spans a century in the history of the Blackfoot First Nations of present-day Montana and Alberta. Now available in paperback, the book maps out specific ways in which Blackfoot culture persisted amid the drastic transformations of colonization, with its concomitant forced assimilation in both the United States and Canada. It portrays the strategies and tactics adopted by the Blackfoot in order to navigate political, cultural, and social change during the hard transition from traditional lifeways to life on the reserves and reservations. Cultural continuity is the thread that binds the book's four case studies, encompassing Blackfoot sacred beliefs and ritual, dress practices, the transmission of knowledge, and the relationship between oral stories and contemporary fiction. Blackfoot voices emerge forcefully from an extensive array of primary and secondary sources, resulting in an inclusive history wherein both Blackfoot and non-Blackfoot scholarship enter into dialogue. Colonialism on the Prairies combines historical research with literary criticism, a strategy that is justified by the interrelationship between Blackfoot history and the stories from their oral tradition. Chapters are devoted to examining cultural continuity, discussing the ways in which oral stories continue to inspire contemporary Native American fiction. This interdisciplinary study is a celebration of Blackfoot culture and knowledge that seeks to reevaluate the past by documenting Blackfoot resistance and persistence across a

wide spectrum of cultural practice. The book is essential reading for all scholars working in the fields of Native American studies, colonial and postcolonial history, ethnology, and literature. (Series: A Sussex Library of Study - First Nations and the Colonial Encounter)

Dominion of Race Laura Madokoro 2017-06-09 How has race shaped Canada's international encounters and its role in the world? In *Dominion of Race*, leading scholars demonstrate the necessity of placing race at the centre of the narratives of Canadian international history. Destabilizing conventional understandings of Canada in the world, they expose how race-thinking has informed priorities and policies, positioned Canada in the international community, and contributed to a global order rooted in racial beliefs. By demonstrating that race is a fundamental component of Canada and its international history, this book calls for reengagement with the histories of those marginalized in, or excluded from, the historical record.

Routledge Library Editions: Racism and Fascism Various 2021-06-23 This set gathers together a collection of out-of-print titles, all classics in their field. Reissued for the first time in some years, they offer an insightful reference resource to a variety of topics.
