Cry Zimbabwe Peter Stiff 2004 The mostly untold story of Koevoet - the South African Police's highly successful counter-insurgency unit. Initially based on the Selous Scouts of Rhodesia, it was formed in 1979 and deployed in Namibia until independence in 1989 when it was disbanded as a sop to the UN. During its almost ten year existence it fought in 1,615 contacts and killed or captured 3,225 of SWAPO's PLAN soldiers - the equivalent of almost six battalions of troops. But it paid a high price in blood and lost almost 160 policemen killed in action with another 949 wounded - more grievous casualties than any other South African fighting unit since World War II.--Publisher's website.

Grave Bound T. R. Graves 2013-03-04 Emily Riddle has lived her entire life inside a patriarchal commune led by her father. There are many rules, but the most important one, 'keep it in the commune', is the most difficult for her to follow... especially since the only people willing to champion her cause live on the outside. When Emily learns her father has promised her to Lorenzo, a perverted man who has plans for her that extend well beyond marriage and kids, she rebels. Regardless of the consequences, she refuses to marry someone who'd rather beat her than caress her. A day of hooky that starts out as a tiny act of defiance - sneaking out of the commune for a swim - turns into a day filled with hope. After spending time with Levi, a man camping near the lake, she finds what true romance looks like and catches a glimpse into a future that's filled with love and admiration rather than hate and submission. That tiny peek is enough to change the course of Emily's existence and makes it nearly impossible for her to go back to the commune and pretend she'll ever be able to tolerate the life chosen for her instead of the life she longs for. One that includes Levi. Fighting to escape the commune, its leaders, and her fiancé proves to be more dangerous than Emily expected. The secrets she knows, as the leader's daughter, will either follow her to the grave or send her - and Levi - there.

Complementizer Semantics in European Languages Kasper Boye 2016-07-11

Complementizers may be defined as conjunctions that have the function of identifying clauses as complements. In recent years, it has become increasingly clear that they have additional functions. Some of these functions are semantic in the sense that they represent conventional contributions to the meanings of the complements. The present book puts a focus to these semantic complementizer functions.

The Numinous Legacy Adair Butchins 2002 Where is God in the universe if anywhere? Why did God make germs? Why should we be so special? Could the universe have been different? This is a book that brings home, in no uncertain fashion, the

discrepancy between the universe envisaged by the ancient sages and prophets and that of modern scientific cosmology, where the possibility of divine intervention looks less and less likely. Butchins demonstrates with clarity how the scientific method may be used, despite certain drawbacks, in an attempt to verify objective truth. It describes how the effect of the Copernican Revolution in the seventeenth century has steadily undermined the basic structure of the three great monotheistic religions of our day, Judaism, Christianity, and Islam, especially with respect to their eschatological concepts. The Eastern religions, being less anthropomorphic, are less affected. The theistic argument from design is shown to be powerful enough to have caused disagreement among present-day scientists, in spite of the strictures of Professor Dawkins. In general, the book attempts to make some sense of the structure of the universe in terms of our own consciousness; it behoves the reader to consider the [General Properties of Matter](#) S. The Best of Borneo Travel Victor T. King 1992 The Best of Borneo Travel is just that, a fascinating collection of colorful travel notes by Westerners--from those who first visited this Indonesian island-nation in the the sixteenth century to writers still enthralled by Borneo today. Through the eyes of these European explorers, merchants, administrators, and adventurers we see the kinds of images that captivated the popular imagination of Europe, as well as the stereotypes that developed regarding Borneo's "exotic" peoples and cultures. We witness first-hand the wonders of the equatorial rainforest: animals such as the orang utan, the beautiful flowers and trees that abound along the rivers and rapids, majestic mountains like Kinabalu, sacred to the Borneans. And in some of the nineteenth century accounts we see a reflection of the prevailing social Darwinism of the period--the "natural" assertion of Western political, military, and economic superiority over the "Wild Men of Borneo." Nevertheless, many travelers to Borneo

writing here remarked on the wealth and cultural sophistication of the native peoples, and after the first flush of colonialism, the accounts returning to Europe become more balanced--while the interest in the new and strange continues, it is tempered with descriptions of people that are, as people are everywhere, "just like us."

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

It's a legacy of silence many women in Morayo's family share. Only Auntie Morenike--once protected by her own mother--provides Morayo with a safe home, and a sense of female community which sustains Morayo as she grows into a young woman in bustling, politically charged, often violent Nigeria.

The Language of Gaming Astrid Ensslin 2012 This innovative text examines videogames and gaming from the point of view of discourse analysis. In particular, it studies two major aspects of videogame-related communication: the ways in which videogames and their makers convey meanings to their audiences, and the ways in which gamers, industry professionals, journalists and other stakeholders talk about games. In doing so, the book offers systematic analyses of games as artefacts and activities, and the discourses surrounding them. Focal areas explored in this book include: • aspects of videogame textuality and how games relate to other texts • the formation of lexical terms and use of metaphor in the language of gaming • gamer slang and 'buddylects' • the construction of game worlds and their rules, of gamer identities and communities • dominant discourse patterns among gamers and how they relate to the nature of gaming • the multimodal language of games and gaming • the ways in which ideologies of race, gender, media effects and language are constructed. Informed by the very latest scholarship and illustrated with topical examples throughout, *The Language of Gaming* is ideal for students of applied linguistics, videogame studies and media studies who are seeking a wide-ranging introduction to the field.

Forensic Investigator Esther McKay 2009-08-03 FORENSIC INVESTIGATOR Geoff Bernasconi had always been passionate about his job as a policeman in rural New South Wales and, from the earliest days of his career, went the extra mile, both for victims of crime and for their families. But one night in 1984, he was called to investigate the scene of an horrific car accident in which an entire family had been wiped out - and which it was impossible for him to forget. Geoff's day-to-day working life became a catalogue of tragedies, some of which involved people close to him, and he found himself spiralling downwards in the grip of post-traumatic stress disorder. When Esther McKay, fellow forensic investigator and author of the best-selling *Crime Scene*, heard that Geoff has been awarded maximum compensation for his suffering, she knew immediately this was a story that needed to be told. This is a harrowing account of what it is like to work on the front-line of crime and tragedy as a forensic investigator. But it is also the inspiring story of someone who has been exposed to sights and experiences many of us can hardly even imagine, yet has emerged from the darkness to begin his journey to recovery.

Karukku Pämä 2014 In 1992 when a Dalit woman left the convent and wrote her autobiography, the Tamil publishing industry found her language unacceptable. So Bama Faustina published her milestone work *Karukku* privately in 1992--a passionate and important mix of history, sociology, and the strength to remember. *Karukku* broke barriers of tradition in more ways than one. The first autobiography by a Dalit woman writer and a classic of subaltern writing, it is a bold and poignant tale of life outside mainstream Indian thought and function. Revolving around the main theme of caste oppression within the Catholic Church, it portrays the tension between the self and the community, and presents Bama's life as a process of self-reflection and recovery from social and institutional betrayal. The English translation, first published in 2000 and recognized as a new alphabet of experience, pushed Dalit writing into high relief. This second edition includes a Postscript in which Bama relives the dramatic movement of her leave-taking from her chosen vocation and a special note "Ten Years Later".
