Latinx Mental Health: From Surviving to Thriving Delgado-Romero, Edward A. 2022-10-14 Despite similar vulnerability to mental illness as the general population, adults within the Latinx community often do not receive treatment for severe mental illnesses. Latinx communities face health disparities and lack of access to mental healthcare due to language barriers, lack of health insurance coverage, lack of cultural competence from healthcare practitioners, and more. It is essential to promote positive mental health practices within the Latinx community and to educate healthcare practitioners in cultural competence. *Latinx Mental Health: From Surviving to Thriving* focuses on the research and practical experiences that foster cultural resilience and strength. Rather than advocating for an assimilative model of coping, this book focuses on the way that Latinx issues can be studied and addressed in a culturally and linguistically appropriate way. This publication seeks to inspire a new generation of mental health researchers and practitioners to engage with the Latinx population in a strength-based way. Covering topics such as LGBTQ+ Latinxs, health disparities, and intergenerational trauma, this premier reference work is an excellent resource for psychologists, psychiatrists, therapists, sociologists, government officials, healthcare professionals, students and faculty of higher education, librarians, researchers, and academicians.

The Bloomsbury Companion to Anarchism Ruth Kinna 2012-06-28 *The Continuum Companion to Anarchism* is a comprehensive reference work to support research in anarchism. The book considers the different approaches to anarchism as an ideology and explains the development of anarchist studies from the early twentieth century to the present day. It is unique in that it highlights the relationship between theory and practice, pays special attention to methodology, presents non-English works, key terms and concepts, and discusses new directions for the field. Focusing on the contemporary movement, the work outlines significant shifts in the study of anarchist ideas and explores recent debates. The Companion will appeal to scholars in this growing field, whether they are interested in the general study of anarchism or in more specific areas. Featuring the work of key scholars, *The Continuum Companion to Anarchism* will be an essential tool for both the scholar and the activist.

Think Like a Feminist: The Philosophy Behind the Revolution Carol Hay 2020-09-01 An audacious and accessible guide to feminist philosophy—its origins, its key ideas, and its latest directions. Think Like a Feminist is an irreverent yet rigorous primer that unpacks over two hundred years of feminist thought. In a time when the word feminism triggers all sorts of responses, many of them conflicting and misinformed, Professor Carol Hay provides this balanced, clarifying, and inspiring examination of what it truly means to be a feminist today. She takes the reader from conceptual questions of sex, gender, intersectionality, and oppression to the practicalities of talking to children, navigating consent, and fighting for adequate space on public transit, without deviating from her clear, accessible, conversational tone. Think Like a Feminist is equally a feminist starter kit and an advanced refresher course, connecting longstanding controversies to today's headlines. Think Like a Feminist takes on many of the essential questions that feminism has risen up to answer: Is it nature or nurture that's responsible for our gender roles and identities? How is sexism connected to racism, classism, homophobia, transphobia, and other forms of oppression? Who counts as a woman, and who gets to decide? Why have men gotten away with rape and other forms of sexual violence for so long? What responsibility do women themselves bear for maintaining sexism? What, if anything, can we do to make society respond to women's needs and desires? Ferocious, insightful, practical, and unapologetically opinionated, Think Like a Feminist is the perfect book for anyone who wants to understand the continuing effects of misogyny in society. By exploring the philosophy underlying the feminist movement, Carol Hay brings today's feminism into focus, so we can deliberately shape the feminist future.

Making Feminist Sense of the Global Justice Movement Catherine Eschle 2010-01-16 Challenging the neglect of feminism in accounts of the global justice movement, this book explores the origins, ideas, and practices of what Catherine Eschle and Bice Maiquashca term "feminist antiglobalization activism." Drawing on fieldwork undertaken at the World Social Forum, the authors argue that feminists constitute a distinct, if diverse, sector of the global justice movement. Taking feminism seriously, the authors conclude, points us toward a richer and more theoretically nuanced understanding of the global justice movement and its struggle to create other possible worlds. Their book thus offers vital insights not only for feminists but also for all those interested in contemporary social movements and in global governance and resistance.

New Books on Women and Feminism 2012

Sport, Animals, and Society James Gillett 2013-12-17 This book advances current literature on the role and place of animals in sport and society. It explores different forms of sporting spaces, examines how figures of animals have been used to racialize the human athlete, and encourages the reader to think critically about animal ethics, animals in space, time and place, and the human-animal relationship. The chapters highlight persistent dichotomies in the use of and collaboration with animals for sport, and present strategies for moving forward in the study of interspecies relations.

Academic Women Michelle Ronksley-Pavia 2023-02-09 In this collection, both individually and collectively, the authors explore the gendering of women's experiences in academia through the lens of narratives of lived experience. This is a cogent theme throughout the book, reflecting on women's experiences as intersectional-always raced, classed, gendered, nuanced and complex. Jointly, the chapters provide important insights into individual and collective contemporary women's experiences in academia from international perspectives, such as gender equity, barriers to success, and achievement. This comprehensive volume provides a reference point for all women and their colleagues working in universities and colleges across the world.

Tiger King: Murder, Mayhem and Madness Jaimie Baron 2021-12-08 The third volume in the Docalogue series, this book explores the significance of the documentary series *Tiger King: Murder, Mayhem and Madness* (2020), which became 'must-see-TV' for a newly captive audience during the global Covid-19 pandemic. The series – a true-crime, tabloid spectacle about a murder-for-hire plot within the big cat trade – prompts interesting questions about which documentaries become popular in particular moments and why. However, it also raises important questions related to the medium specificity of documentary in the streaming era, as well as the ethics of both human and animal representation. By combining five distinct perspectives on the Netflix documentary series, this book offers a complex and cumulative discourse about *Tiger King's* significance in multiple areas including, but not limited to, animal studies, queer theory, genre studies, labor relations, and digital culture. Students and scholars of film, media, television, and cultural studies will find this book extremely valuable in understanding the significance of this larger-than-life true-crime documentary series.

Politics and Government for Beginners 2018-01-29 Learn about different types of government (democracy, monarchy, dictatorship), about how laws are made, but also about how politics has an impact into every day life (who pays for schools and hospitals for example). Become a citizen and understand why adults fight a lot every four years thanks to this book which uses infographics and snippets of information to make non-fiction fun!

Producing Islams(s) in Canada Amélie Barras 2022-01-10 During the last twenty years, public interest in Islam and how Muslims express their religious identity in Western societies has grown exponentially. In parallel, the study of Islam in the Canadian academy has grown in a number of fields since the 1970s, reflecting a diverse range of scholarship, positionalities, and politics. Yet, academic research on Muslims in Canada has not been systematically assessed. In *Producing Islam(s)* in Canada, scholars from a wide range of disciplines come together to explore what is at stake regarding portrayals of Islam(s) and Muslims in academic scholarship. Given the centrality of representations of Canadian Muslims in current public policy and public imaginaries, which effects how all Canadians experience religious diversity, this analysis of knowledge production comes at a crucial time.

Mobilities of Labour and Capital in Asia Preet S. Aulakh 2020-02-20 Explores the mobilities of capital and labour in the contemporary global economy. Using an analytical framework around three dimensions related to the forms, institutions, and spatialities of mobility, it examines the interrelationships between mobilities of capital and labour at multiple levels of analyses.

Woman's Embodied Self Joan C. Chrisler 2017 Using various psychological theories, this book examines women's complex relations with their bodies and how attitudes toward the body affect women's sense of self. It also suggests ways to achieve a positive embodied self *The Art of Feminism* Lucinda Gosling 2018-12-25 A survey of feminist art from suffrage posters to The Dinner Party and beyond: "Lavishly produced images . . . indispensable to scholars, critics and artists." —*Art Monthly* Once again, women are on the march. And since its inception in the nineteenth century, the women's movement has harnessed the power of images to transmit messages of social change and equality to the world. From highlighting the posters of the Suffrage Atelier, through the radical art of Judy Chicago and Carrie Mae Weems, to the cutting-edge work of Sethembele Msezane and Andrea Bowers, this comprehensive international survey traces the way feminists have shaped visual arts and media throughout history. Featuring more than 350 works of art, illustration, photography, performance, and graphic design—along with essays examining the legacy of the radical canon—this rich volume showcases the vibrancy of the feminist aesthetic over the past century and a half.

The Blackwell Guide to Feminist Philosophy Eva Feder Kittay 2008-04-30 *The Blackwell Guide to Feminist Philosophy* is a definitive introduction to the field, consisting of 15 newly-contributed essays that apply philosophical methods and approaches to feminist concerns. Offers a key view of the project of centering women's experience. Includes topics such as feminism and pragmatism, lesbian philosophy, feminist epistemology, and women in the history of philosophy.

Ibsen in Practice Frode Helland 2015-03-26 The volume reveals an astonishing richness in the theatrical approaches to Ibsen across the world: it considers political theatre, institutional 'high art', theatre for development, queer and transgender theatre, Brechtian techniques, puppetry, post-dramatic theatre, rural village performance and avant-garde touring companies. Investigating varied renegotiations of his drama, including the work of Thomas Ostermeier in Germany and other parts of the world, versions of A Doll's House from Chile and China, The Wild Duck in Iran and productions of Peer Gynt in Zimbabwe and Egypt, Frode Helland provides a deeper understanding of a cross-cultural Ibsen. The volume gives an in-depth analysis of the practice of Ibsen in relation to political, social, ideological and economic forces within and outside of the performances themselves, and demonstrates the incredible diversity of his work in local situations.

New Books on Women, Gender and Feminism 2012

A Little F'd Up Julie Zeilinger 2012-04-17 Young women today have a bad reputation, and for good reason: They're sexting their classmates, they spend more time on FaceBook than they do in class, and their appetite for material possessions and reality TV is matched only by their overwhelming apathy about important social and political issues. Right? Wrong. FBomb blog creator Julie Zeilinger debunks these (and

other) myths about modern youth in *A Little F'd Up*, the first book about feminism for young women in their teens and twenties to actually be written by one of their peers. In this accessible handbook, Zeilinger takes a critical, honest, and humorous look at where young feminists are as a generation, and where they're going—and she does so from the perspective of someone who's in the trenches right alongside her readers. Fun, funny, and engaging, *A Little F'd Up* is a must-read for the growing number of intelligent, informed young women out there who are ready to start finding their voice—and changing the world.

The Guy's Guide to Feminism Michael Kaufman 2011-10-25 Written by and for men, the ultimate guide to becoming a strong male ally in the 21st century In just one generation, age-old ideas about women have been swept aside . . . but what does that have to do with men? Authors Michael Kaufman and Michael Kimmel, two of the world's leading male advocates of gender equality, believe it has everything to do with them -- and that it's crucial to educate men about feminism in order for them to fully understand just how important and positive these changes have been for them. Kaufman and Kimmel address these issues in *The Guy's Guide to Feminism*. Hip and accessible, it contains nearly a hundred entries -- from "Autonomy" to "Zero Tolerance" -- written in varying tones (humorous, satirical, irreverent, thoughtful, and serious) and in many forms ("top ten" lists, comics, interviews, mini-stories, and more). Each topic celebrates the ongoing gains that are improving the lives of women and girls -- and what that really means for men. Informal and fun yet substantive and intelligent, *The Guy's Guide to Feminism* illustrates how understanding and supporting feminism can help men live richer, fuller, and happier lives.

The Political Body Andrea Giunta 2023-03-28 "This book discusses how some works of art produced in Latin America in the sixties, seventies, and eighties forged a different understanding of the female body, understood as space for the expression of a dissident subjectivity in relation to socially normalized places. Representations of art and of feminist activism interrogated the disciplining of the female body that entails as well the disciplining of the male body. Before a history of highly regulated artistic representations--regardless of the occasional exceptions a historian might point out--images erupted that questioned the social and institutional naturalization of the feminine and the masculine"--

Gender & Sexuality For Beginners Jamee Garbacik 2013-06-11 What does sexual orientation mean if the very categories of gender are in question? How do we measure equality when our society's definitions of "male" and "female" leave out much of the population? There is no consensus on what a "real" man or woman is, where one's sex begins and ends, or what purpose the categories of masculine and feminine traits serve. While significant strides have been made in recent years on behalf of women's, gay and lesbian rights, there is still a large division between the law and day-to-day reality for LGBTQIA and female-identified individuals in American society. The practices, media outlets and institutions that privilege heterosexuality and traditional gender roles as "natural" need a closer examination. *Gender & Sexuality For Beginners* considers the uses and limitations of biology in defining gender. Questioning gender and sex as both categories and forms of compulsory identification, it critically examines the issues in the historical and contemporary construction, meaning and perpetuation of gender roles. *Gender & Sexuality For Beginners* interweaves neurobiology, psychology, feminist, queer and trans theory, as well as historical gay and lesbian activism to offer new perspectives on gender inequality, ultimately pointing to the clear inadequacy of gender categories and the ways in which the sex-gender system oppresses us all.

ICGR 2023 6th International Conference on Gender Research Professor Sandra Moffett 2023-04-20

Criminological Skills and Research for Beginners Laura Caulfield 2018-04-19 *Criminological Skills and Research for Beginners* is a comprehensive and engaging guide to research methods in Criminology, and the skills required for academic success. Written specifically for undergraduate students and novice researchers, this book has been designed as a lively and accessible guide to planning, conducting and reporting research in the subject. It emphasises practical skills required in studying Criminology, the importance of criminological research, and places related methodology firmly in the context of students' broader study of the discipline, before moving on to provide a detailed guide to the actual processes of research. It is common for Criminology undergraduates to feel intimidated at the prospect of conducting their own research, and these students typically struggle to see the relevance of research methods to their own studies. This book speaks directly to the needs of such students, and includes contemporary examples and case studies that bring a topic that is often thought of as dry to life, providing a thorough and accessible practical guide that students can return to at each stage of their research, all the way through to their dissertation. This book covers: an examination of the theoretical, political and ethical debates in criminological research; a complete guide to planning criminological research, assisting student researchers in identifying their research questions, choosing their research methods and critiquing the available literature; guidance on the practicalities and processes of collecting data; a discussion of the process of analysing data and writing up research. New to the second edition is a brand new section on research skills in Criminology, including detailed coverage of writing skills, referencing, dissertations and research reports, presentation skills and revision. The book also offers additional coverage of the politics of criminological research and the presentation of official crime statistics. Including an extensive glossary and an integrated companion website with extra examples, exercises and videos to further develop students' understanding, this book is essential reading for any undergraduate on a Criminological Research Methods or Research Skills course, or for anyone in need of practical guidance on any or all of the various stages involved in conducting thorough and effective criminological research.

Critical Theory Today Lois Tyson 2012-09-10 *Critical Theory Today* is the essential introduction to contemporary critical theory. It provides clear, simple explanations and concrete examples of complex concepts, making a wide variety of commonly used critical theories accessible to novices without sacrificing any theoretical rigor or thoroughness. This new edition provides in-depth coverage of the most common approaches to literary analysis today: feminism, psychoanalysis, Marxism, reader-response theory, new criticism, structuralism and semiotics, deconstruction, new historicism, cultural criticism, lesbian/gay/queer theory, African American criticism, and postcolonial criticism. The chapters provide an extended explanation of each theory, using examples from everyday life, popular culture, and literary texts; a list of specific questions critics who use that theory ask about literary texts; an interpretation of F. Scott Fitzgerald's *The Great Gatsby* through the lens of each theory; a list of questions for further practice to guide readers in applying each theory to different literary works; and a bibliography of primary and secondary works for further reading.

Financial Literacy Education Asta Zokaityte 2017-06-26 This book explores the issue of consumer financial education, responding to increased interest in, and calls to improve peoples' financial literacy skills and abilities to understand and manage their money. New conceptual frameworks introduced in the book offer academic audiences an innovative way of thinking about the project on financial literacy education. Using the concepts of 'edu-regulation' and 'financial knowledge democratisation' to analyse the financial education project in the UK, the book exposes serious, and often ignored, limitations to using information and education as tools for consumer protection. It challenges the mainstream representation of financial literacy education as a viable solution to consumer financial exclusion and poverty. Instead, it argues that the project on financial literacy education fails to acknowledge important dependences between consumer financial behaviour and the socio-economic, political, and cultural context within which consumers live. Finally, it reveals how these international and national calls for ever greater financial education oversimplify and underestimate the complexity of consumer financial decision-making in our modern times.

Critical Perspectives on Black Women and College Success Lori D. Patton 2017-01-12 In this comprehensive volume, research-based chapters examine the experiences that have shaped college life for Black undergraduate women, and invite readers to grapple with the current myths and definitions that are shaping the discourses surrounding them. Chapter authors ask valuable questions that are critical for advancing the participation and success of Black women in higher education settings and also provide actionable recommendations to enhance their educational success. Perspectives about Black undergraduate women from various facets of the higher education spectrum are included, sharing their experiences in academic and social settings, issues of identity, intersectionality, and the services and support systems that contribute to their success in college, and beyond. Presenting comprehensive, theoretically grounded, and thought-provoking scholarship, *Critical Perspectives on Black Women and College Success* is a definitive resource for scholarship and research on Black undergraduate women.

Feminism Sally J. Scholz 2012-12-01 Feminism is arguably the most significant social movement of the last century and it is far from over. But what appears as a single, unified movement on behalf of women's liberation is really a fascinating coalition of social and political causes, goals, and ideals. By highlighting the themes that form the enduring nexuses between the three waves, taking powerful examples from feminist campaigns, and tackling timely issues such as genocide and war rape, Scholz invites us to join in with the lively debates and always germane challenges of feminism.

A Beginner's Guide to Language and Gender Allyson July 2008-02-05 *A Beginner's Guide to Language and Gender* offers a broad and accessible introduction to the study of gender and language use for those new to the subject. The book introduces the theoretical and practical perspectives, including relevant frameworks necessary to understand ways in which language interacts with gender/sex in various settings, including: in media, in schools, in places of business, in places of worship, and at home.

Over Researched Places Cat Button 2022-05-30 The book explores the implications that research-density has on the people and places researched, on the researchers, on the data collected and knowledge produced, and on the theories that are developed. It examines the effects that research-density has on the people and places researched, on the researchers, on the data collected and knowledge produced, and on the theories that are developed. By weaving together experiences from a variety of countries and across disciplinary boundaries and research methods, the volume outlines the roots of over-research, where it comes from and what can be done about it. The book will be useful for social science students and researchers working in ethnographic disciplines such as Human Geography, Anthropology, Urban Planning, and Sociology and seeking to navigate the tricky 'absent present' of already existing research on their fields of exploration.

The Beginner's Guide to Being A Trans Ally Christy Whittlesey 2021-10-21 What does cisgender mean? What are people saying when they refer to "assigned" gender? Why is it not OK to say "preferred pronouns"? What is cis privilege? If you're curious about the answers to these questions and want to learn more, this book is for you. This easy-to-read guide offers information and advice to anyone wanting to understand more about trans experiences. It explains what gender identity is and arms you with the correct terminology to use. Filled with real-life examples and FAQs, it offers helpful strategies to navigate respectful conversations, speak up against transphobia and create inclusive relationships and spaces. It's the ideal tool for anyone wanting to become a better ally to transgender and/or nonbinary people.

Education Pack "all different - all equal" 2021 Rui Gomes 2021-11-22 It is easy to say "I have no prejudices". "I'm not racist, so it has

nothing to do with me”, “I didn’t invite those refugees”. It is hard to say “I may not be to blame for what happened in the past but I want to take responsibility for making sure it doesn’t continue in the future”. The Education Pack “all different - all equal” was originally produced in 1995 as an educational resource for the European youth campaign against racism, antisemitism, xenophobia and intolerance. Soon after its publication it became a reference work for those involved in intercultural education and training with young people across Europe and beyond. Translated into many languages, it remains today one of the most successful and most sought after publications of the Council of Europe. The usefulness of the pack stems from the variety and creativity of the methodologies proposed. More than twenty years after the “all different - all equal” campaign, the role plays, simulation exercises, case studies and cooperative group work that it proposes remain an inspiration to many youth workers, trainers, teachers and other people actively involved in intercultural education. European societies continue to suffer from a growth of racist hostility and intolerance towards minorities and foreigners; the necessity for intercultural youth work remains undiminished and the relevance of this pack remains unquestionable. Little bit has been changed in this new edition of the pack, apart from an updating of references. Most changes are visible and usable only in the online version, which offers relevant links with other resources for human rights education which continue the legacy of the campaign: equality in dignity and rights, respect for broader appreciation of diversity.

Successful Qualitative Research Virginia Braun 2013-03-22 *Shortlisted for the BPS Book Award 2014 in the Textbook Category* *Winner of the 2014 Distinguished Publication Award (DPA) from the Association for Women in Psychology (AWP)* Successful Qualitative Research: A Practical Guide for Beginners is an accessible, practical textbook. It sidesteps detailed theoretical discussion in favour of providing a comprehensive overview of strategic tips and skills for starting and completing successful qualitative research. Uniquely, the authors provide a ‘patterns framework’ to qualitative data analysis in this book, also known as ‘thematic analysis’. The authors walk you through a basic thematic approach, and compare and contrast this with other approaches. This discussion of commonalities, explaining why and when each method should be used, and in the context of looking at patterns, will provide you with complete confidence for your qualitative research journey. Key features of this textbook: Full of useful tips and strategies for successful qualitative work, for example considering the nervous student not just the beginner student. Skills-based, utilising a range of pedagogical features to encourage you to apply particular techniques and learn from your experience. The authors use the same dataset throughout - reproduced in full (with associated research materials) on the companion website - to help you make comparisons across different analytical approaches. A comprehensive suite of student support materials, including practice exam questions, can be found online at www.sagepub.com/braunandclarke. This textbook will be an essential textbook for undergraduates and postgraduates taking a course in qualitative research or using qualitative approaches in a research project. Electronic Inspection Copy available for instructors here

Simone de Beauvoir Alison Holland 2002 Simone de Beauvoir was among the 20th century’s most influential thinkers. She was a philosopher at the forefront of existentialism, a pioneering thinker on women and feminism in *The Second Sex*, the writer of prize-winning fiction, an autobiographical writer, and a committed political activist. Introducing her life and work in a straightforward, jargon-free way, this guide offers readings of her fiction, explores the many facets of her thought, and assesses her contribution to the intellectual debate.

A Beginner’s Guide to Building Better Worlds Gahman, Levi 2022-05-31 This ambitious book offers radical alternatives to conventional ways of thinking about the planet’s most pressing challenges, ranging from alienation and exploitation to state violence and environmental injustice. Bridging real-world examples of resistance and mutual aid in Zapatista territory with big-picture concepts like critical consciousness, social reproduction and decolonisation, the authors encourage readers to view themselves as co-creators of the societies they are a part of – and ‘be Zapatistas wherever they are’. Written by a diverse team of first-generation authors, this book offers an emancipatory set of anti-colonial ideas related to both refusing liberal bystanding and collectively constructing better worlds and realities.

Global Politics Ben Whitham 2023-03-31 In turbulent global times, your study of this subject is increasingly necessary and urgent. Featuring a new chapter on critical theories, and revised to take a less Eurocentric approach to concepts and case studies, this new edition allows you to tackle global politics’ important concepts, debates and problems: -How can theories help us to understand the politics of a global pandemic? -Do we live in a ‘post-truth’ world of ‘fake news’ and disinformation? -Does international aid work? -Does the United States remain a global hegemon? -What is the Anthropocene and how does it shape global politics? -Are global politics constrained by a ‘North-South’ divide? -What are the possible futures of global politics – and the politics of outer space? Delving into topics as diverse as anarchy, intersectionality, Confucianism, and neoconservatism, boxed features give you confidence in political analysis: -Focus on: learn more about the global colour line or the tragedy of the commons -Key figures: discuss the ideas of Hans Morgenthau, Frantz Fanon or bell hooks - Debating: argue whether the United Nations are obsolete, or whether nuclear weapons promote peace -Global politics in action: apply your learning to the migration crisis in Europe or the Arab Spring -Approaches to: consider human rights or the Covid-19 pandemic from the

perspective of realist, liberal, postcolonial, Marxist, feminist, constructivist and post-structuralist theory -Global actors: understand the significance of Black Lives Matter, Amnesty International or the International Monetary Fund. Spanning the development of global politics, from the early origins of globalization through to the return of multipolarity in the twenty-first century, this is an essential text for undergraduates studying global politics and international relations.

Feminism Is... DK 2019-02-12 A lively and accessible book for teens on the history, pioneers, theories, questions, arguments, and daily reality of feminism today. What is feminism? Combining insightful text with graphic illustrations, this engaging book introduces young adult readers to a subject that should matter to everyone. Posed as a series of questions, *Feminism Is...* tackles the most intriguing and relevant topics, such as “Are all people equal?”, “Do boys and girls learn the same things?” and “Why do women earn less than men?” Find out what equality for women really means, get a short history of feminism, and take a look at the issues that affect women at work, in the home, and around sex and identity. Meet, too, some great women, such as Gloria Steinem, Frida Kahlo, and Malala Yousafzai, “rebel girls” who refused to accept the status quo of their day and blazed a trail for others to follow. With more than 50 questions that address key feminist concerns, *Feminism Is...* takes on the issues in informative, thought-provoking ways.

Understanding the Music Industries Chris Anderton 2012-12-14 Everyone knows music is big business, but do you really understand how ideas and inspiration become songs, products, downloads, concerts and careers? This textbook guides students to a full understanding of the processes that drive the music industries. More than just an expose or ‘how to’ guide, this book gives students the tools to make sense of technological change, socio-cultural processes, and the constantly shifting music business environment, putting them in the front line of innovation and entrepreneurship in the future. Packed with case studies, this book: • Takes the reader on a journey from Glastonbury and the X-Factor to house concerts and crowd-funded releases; • Demystifies management, publishing and recording contracts, and the world of copyright, intellectual property and music piracy; • Explains how digital technologies have changed almost all aspects of music making, performing, promotion and consumption; • Explores all levels of the music industries, from micro-independent businesses to corporate conglomerates; • Enables students to meet the challenge of the transforming music industries. This is the must-have primer for understanding and getting ahead in the music industries. It is essential reading for students of popular music in media studies, sociology and musicology.

Transforming: Updated and Expanded Edition with Study Guide Austen Hartke 2023-03-21 In 2014, *Time* magazine announced that America had reached “the transgender tipping point,” suggesting that transgender issues would become the next civil rights frontier. Years later, many people—even many LGBTQIA+ allies—still lack understanding of gender identity and the transgender experience. Into this void, trans biblical scholar Austen Hartke brings a biblically based, educational, and affirming resource to shed light and wisdom on gender expansiveness and Christian theology. This new edition offers updated terminology and statistics, plus new materials for congregational study, preaching, and pastoral care. *Transforming* deftly weaves ancient and modern stories that will change the way readers think about gender, the Bible, and the faith to which Jesus calls us. Hartke helps readers visualize a more inclusive Christianity, equipping them with the language, understanding, confidence, and tools to change both the church and the world.

Feminist Studies Nina Lykke 2010-04-05 In this book, feminist scholar Nina Lykke highlights current issues in feminist theory, epistemology and methodology. Combining introductory overviews with cutting-edge reflections, Lykke focuses on analytical approaches to gendered power differentials intersecting with other processes of social in/exclusion based on race, class, and sexuality. Lykke confronts and contrasts classical stances in feminist epistemology with poststructuralist and postconstructionist feminisms, and also brings bodily materiality into dialogue with theories of the performativity of gender and sex. This thorough and needed analysis of the state of Feminist Studies will be a welcome addition to scholars and students in Gender and Women’s Studies and Sociology.

Critical Humanism Ken Plummer 2021-09-01 We live in a mutilated world and our humanity seems irrevocably damaged. Many critics suggest we have reached the end of humanity. In this challenging book, Ken Plummer suggests that such claims may be premature; instead, what we need is a new transformative understanding of humanity. Critical Humanism critically reflects upon and reimagines humanism for the twenty-first century. What is now required is a fresh, wide-ranging imaginary of an open, worldly, plural and caring humanity. It needs to take a critical stance towards older, often divisive ideas of what it means to be human, while reconnecting to a wider understanding of the rich diversity of life in the pluriverse. In an age of post- and transhumanist turns, Plummer provides a personal, political and passionate call for thinkers, researchers and activists to not turn their backs on humanism. We need instead to create a vital new political imaginary of being human in a connected planet. We simply cannot afford to be anti-human or posthuman. Restoring our belief in humanity has never been more important for edging towards a better world for all.
