The Airplane Graveyard Brandi Mueller 2018-12-04 Extraordinary images, never before published in book form, of the forgotten American WWII Airplanes at the bottom of the Kwajalein Atoll lagoon, from award-winning underwater photographer Brandi Mueller. At the end of WWII, around 150 American airplanes, all veterans of the Pacific war, were dumped in the lagoon of Kwajalein Atoll, Marshall Islands. A master diver and superb underwater photographer, Brandi Mueller has dived to depths of 120 feet to capture rare images of these forgotten war birds, many looking as if they could still take off and return to the war-torn skies at any moment. Encrusted in coral, these haunting aircraft are now home to a colorful array of tropical Pacific marine life, including fish, turtles, and even the occasional shark. Discover the stories of these historic aircraft, their heroic role in the Pacific Theater of WWII, and how and why they ended up here. In *The Airplane Graveyard*, Brandi takes you below the ocean's surface to discover the forgotten remains of Douglas SBD Dauntless, Vought F4U Corsair, Curtiss SB2C Helldiver, Curtiss C-46 Commando, Grumman F4F Wildcats, Grumman TBF Avengers, and an astounding eleven PBJ-1 Mitchell Medium Bombers. The haunting images are accompanied by a text that includes a historical account of the aircraft by military historian Alan Axelrod. *Memoirs* Edward Teller 2009-09-09 Edward Teller is perhaps best known for his belief in freedom through strong defense. But this extraordinary memoir at last reveals the man behind the headlines--passionate and humorous, devoted and loyal. Never before has Teller told his story as fully as he does here. We learn his true position on everything from the bombing of Japan to the pursuit of weapons research in the post-war years. In clear and compelling prose, Teller chronicles the people and events that shaped him as a scientist, beginning with his early love of music and math, and continuing with his study of quantum physics under Werner Heisenberg. He also describes his relationships with some of the century's greatest minds--Einstein, Bohr, Fermi, Szilard, von Neumann--and offers an honest assessment of the development of the atomic and hydrogen bombs, the founding of Lawrence Livermore Laboratory, and his complicated relationship with J. Robert Oppenheimer. Rich and humanizing, this candid memoir describes the events that led Edward Teller to be honored or abhorred, and provides a fascinating perspective on the ability of a single individual to affect the course of history.

Credit and Exchange Rate-Based Stabilization May Khamis 2006 This paper examines the behavior of private sector credit in chronic inflation countries that undergo exchange rate-based inflation stabilizations. It concludes that these programs are characterized by a strong increase in private sector credit, both in absolute terms and as a fraction of real economic activity. Empirical results using data for Mexico, Chile, Argentina, and Israel support a negative statistically significant relationship between credit and inflation for Mexico, Argentina, and Chile, but not for Israel. In addition, for both Chile and Mexico, dummy variables representing periods of inflation stabilization are positive and statistically different from zero indicating a stronger expansion in private sector credit during stabilization. These results could potentially explain the consumption boom that is usually present in the early stages of these programs.

The Pocket Guide to the Panasonic Lumix LX100 Rob Knight 2015-12-28 The Panasonic LUMIX LX100 is a compact zoom camera designed with the enthusiast and advanced photographer in mind. For those shooters looking for a very capable camera with a small profile—especially when compared to a DSLR—the LX100 hits the mark, and it does so without compromise in quality. With its Four Thirds sensor, its 24–75mm focal range, and its Leica f/1.7–2.8 lens, the LX100 has received much high praise. In fact, DP Review awarded the camera its highest ever score in its camera class and called it “one of the best photographers’ cameras on the market and probably the best zoom compact ever made.” In addition, the inclusion of 4k video and 4k photo mode put the LX100 in a class by itself. The Pocket Guide to the Panasonic LUMIX LX100 is a quick and to-the-point companion guide to help you make the most of this highly capable advanced camera. The basic operation of the LX100 is fairly straightforward for those photographers with an understanding of exposure and composition—adjusting the aperture and shutter speed are simple enough. But there are many next-generation features, functions, and customizable setups that even a seasoned photographer might overlook or not take full advantage of—features that, when implemented, could make all the difference in getting the shot. In this concise guide, Panasonic LUMIX Luminary Rob Knight shares his real-world experience with the LX100. Rob doesn’t spend time rehashing the basics of the exposure triangle; instead, he dives into a curated collection of the LX100’s best features and capabilities that he uses regularly. Some of the topics covered include: • The best focus modes and settings based on the shooting situation • Customizable Function (Fn) button and Control Dial options • In-Camera RAW processing • Shooting in Silent mode • Multiple exposures and panoramas • 4k photo mode • Wi-Fi settings and features • And much more! Rob also discusses the coolest and best features of the LX100 that truly make a difference in how you use the camera, such as back-button focus, the pros and cons of electronic vs. mechanical shutter, how to customize the camera so it feels like you have a kit bag of prime lenses rather than a continuous zoom, and using external flash. Finally, Rob includes his favorite camera settings, setups, and suggestions for specific shooting situations, such as street photography, travel photography, macro photography, and timelapse photography.

Beyond the Pale Rudyard Kipling 2014-10-11 Joseph Rudyard Kipling (30 December 1865 – 18 January 1936 was an English short-story writer, poet, and novelist. He wrote tales and poems of British soldiers in India and stories for children. He was born in Bombay, in the Bombay Presidency of British India, and was taken by his family to England when he was five years old.Kipling's works of fiction include The Jungle Book (a collection of stories which includes "Rikki-Tikki-Tavi"), the Just So Stories (1902), Kim (1901), and many short stories, including "The Man Who Would Be King" (1888). His poems include "Mandalay" (1890), "Gunga Din" (1890), "The Gods of the Copybook Headings" (1919), "The White Man's Burden" (1899), and "If-" (1910). He is regarded as a major innovator in the art of the short story; his children's books are enduring classics of children's literature; and one critic described his work as exhibiting "a versatile and luminous narrative gift".Kipling was one of the most popular writers in England, in both prose and verse, in the late 19th and early 20th centuries. Henry James said: "Kipling strikes me personally as the most complete man of genius (as distinct from fine intelligence) that I have ever known." In 1907, he was awarded the Nobel Prize in Literature, making him the first English-language writer to receive the prize, and its youngest recipient to date. Among other honours, he was sounded out for the British Poet Laureateship and on several occasions for a knighthood, all of which he declined.Kipling's subsequent reputation has changed according to the political and social climate of the age and the resulting contrasting views about him continued for much of the 20th century. George Orwell called him a "prophet of British imperialism". Literary critic Douglas Kerr wrote: "He [Kipling] is still an author who can inspire passionate disagreement and his place in literary and cultural history is far from settled. But as the age of the European empires recedes, he is recognised as an incomparable, if controversial, interpreter of how empire was experienced. That, and an increasing recognition of his extraordinary narrative gifts, make him a force to be reckoned with.
