A Bookman's Catalogue Vol. 2 M-End T. Bose 2011-11-01 The Colbeck collection was formed over half a century ago by the Bournemouth bookseller Norman Colbeck. Focusing primarily on British essayists and poets of the nineteenth century from the Romantic Movement through the Edwardian era, the collection features nearly 500 authors and lists over 13,000 works. Entries are alphabetically arranged by author with copious notes on the condition and binding of each copy. Nine appendices provide listings of selected

periodicals, series publications, anthologies, yearbooks, and topical works.

Pioneers, Passionate Ladies, and Private Eyes Larry E Sullivan 2013-02-01 Despite efforts of contemporary reformers to curb the availability of dime novels, series books, and paperbacks, *Pioneers, Passionate Ladies, and Private Eyes* reveals how many readers used them as means of resistance and how fictional characters became models for self-empowerment. These literary genres, whose value has long been underestimated, provide fascinating insight into the formation of American popular culture and identity. Through these mass-produced, widely read books, *Deadwood Dick, Old Sleuth, and Jessie James,*

became popular heroes that fed the public's imagination for the last western frontier, detective tales, and the myth of the outlaw. Women, particularly those who were poor and endured hard lives, used the literature as means of escape from the social, economic, and cultural suppression they experienced in the nineteenth century. In addition to the insight this book provides into texts such as "The Bride of the Tomb," the Nick Carter Series, and Edward Stratemeyer's rendition of the Lizzie Borden case, readers will find interesting information about: the roles of illustrations and covers in consumer culture Bowling Green's endeavor to digitize paperback and pulp magazine covers bibliographical problems in collecting and controlling series books the effects of mass market fiction on young girls Louisa May Alcott's pseudonym and authorship of three dime novels special collections competition among publishers A collection of work presented at a symposium held by the Library

Screen Comedy and Online Audiences Inger-Lise Kalviknes Bore 2017-06-14 The question of why we laugh (or don't laugh) has intrigued scholars since antiquity. This book contributes to that debate by exploring how we evaluate screen comedy. What kinds of criteria do we use to judge films and TV shows that are meant to be funny? And what might that have to do with our social and cultural backgrounds, or with wider cultural ideas about film, TV, comedy, quality and entertainment? The book examines these questions through a study of audience responses posted to online facilities such as Twitter, Facebook, review sites, blogs and message boards. Bore's analysis of these responses considers a broad range of issues, including how audiences perceive the idea of "national" comedy; what they think of from

female comedians; how they evaluate romcoms, sitcoms and web comedy; what they think is acceptable to joke about; what comedy fans get excited about; how fans interact with star comedians; and what comedy viewers really despise. The book demonstrates some of the ways in which we can adapt theories of humour and comedy to examine the practices of contemporary screen audiences, while offering new insights into how they negotiate the opportunities and constrictions of different online facilities to share their views and experiences.

The Philosophy of TV Noir

Steven Sanders 2008-01-01

Film noir reflects the fatalistic themes and visual style of hard-boiled novelists and many émigré filmmakers in 1940s and 1950s America, emphasizing crime, alienation, and moral ambiguity. In *The Philosophy of TV Noir*, Steven M. Sanders and Aeon J. Skoble argue that the legacy of film noir classics such as *The Maltese Falcon*, *Kiss Me Deadly*, and *The Big Sleep* is also found in episodic television from the mid-1950s to the present. In this first-of-its-kind collection, contributors from philosophy, film studies, and literature raise fundamental questions about the human predicament, giving this unique volume its moral resonance and demonstrating why television noir deserves our attention. The introduction traces the development of TV noir and provides an overview and evaluation of the book's thirteen essays, each of which discusses an exemplary TV noir series. Realism, relativism, and integrity are discussed in essays on *Dragnet*, *Naked City*,

The Fugitive, and *Secret Agent*.

Existentialist themes of authenticity, nihilism, and the search for life's meaning are addressed in essays on *Miami Vice*, *The Sopranos*, *Carnivale*, and *24*. The methods of crime scene investigation in *The X-Files* and *CSI* are examined, followed by an exploration of autonomy, selfhood, and interpretation in *The Prisoner*, *Twin Peaks*, *The X-Files*, and *Millennium*. With this focus on the philosophical dimensions of crime, espionage, and science fiction series, *The Philosophy of TV Noir* draws out the full implications of film noir and establishes TV noir as an art form in its own right.

Theorizing Equity in the Museum Bronwyn Bevan
2021-08-30 Theorizing Equity in the Museum integrates the perspectives of learning researchers and museum practitioners to shed light on the deep-seated structures that must be accounted for if the field is to move past aspirations and rhetoric and towards more inclusive practices. *Downloaded from www.vla.ramtech.uri.edu on October 2, 2023 by Arnold f Boyle*

during a time when museums around the world were being forced to reckon with their institutional practices of exclusion; their histories of colonization, both cultural and intellectual; and, for many, their tenuous business models, the chapters leverage a range of theoretical perspectives to explore lived experiences of working in the museum towards changing the museum. Theories of spatial justice, critical pedagogy, culturally relevant pedagogy, critical race theory, and others are used to consider how the museum's dominant cultural structures and norms collide with museum professionals' aspirations for inclusive practices. The chapters present a mix of empirical research and reflections, which collectively operate to theorize the museum as a potential force for enriching, empowering, and transforming an inclusive public's relationship with some of our most powerful ideas and aspirations. But first they must change, from the inside out.

decidedly different view. Prizewinning historian Thomas A. Guglielmo draws together more than a decade of extensive research to tell sweeping yet personal stories of race and the military; of high command and ordinary GIs; and of African Americans, white Americans, Asian Americans, Latinos, and Native Americans. Guglielmo argues that the military built not one color line, but a complex tangle of them. Taken together, they represented a sprawling structure of white supremacy. Freedom struggles arose in response, democratizing portions of the wartime military and setting the stage for postwar desegregation and the subsequent civil rights movements. But the costs of the military's color lines were devastating. They impeded America's war effort; undermined the nation's rhetoric of the Four Freedoms; further naturalized the concept of race; deepened many whites' investments in white supremacy; and further fractured the American people.

was, however, another prominent and influential strand of the idea which has, until now, been largely overlooked. This book seeks to address this oversight and establish new avenues of study by revealing and examining 'everyday' heroism; acts of life-risking bravery, undertaken by otherwise ordinary individuals, largely in the course of their daily lives and within quotidian surroundings. Adopting an interdisciplinary approach, John Price charts and investigates the growth and development of this important discourse, presenting in-depth case studies of The Albert Medal and the Carnegie Hero Fund alongside a nationwide analysis of heroism monuments and an exploration of radical approaches to the concept. Unlike its military and imperial counterparts, everyday heroism embraced the heroine and this study reflects that with an examination of female heroism. Discovering why certain individuals or acts were accorded the status of being 'heroic' also provides insights

Black Cowboys in the American West Bruce A. Glasrud
2016-09-28 Who were the black cowboys? They were drovers, foremen, fiddlers, cowpunchers, cattle rustlers, cooks, and singers. They worked as wranglers, riders, ropers, bulldoggers, and bronc busters. They came from varied backgrounds—some grew up in slavery, while free blacks often got their start in Texas and Mexico. Most who joined the long trail drives were men, but black women also rode and worked on western ranches and

farms. The first overview of the subject in more than fifty years, *Black Cowboys in the American West* surveys the life and work of these cattle drivers from the years before the Civil War through the turn of the twentieth century. Including both classic, previously published articles and exciting new research, this collection also features select accounts of twentieth-century rodeos, music, people, and films. Arranged in three sections—"Cowboys on the Range," "Performing Cowboys," and "Outriders of the Black Cowboys"—the thirteen chapters illuminate the great diversity of the black cowboy experience. Like all ranch hands and riders, African American cowboys lived hard, dangerous lives. But black drovers were expected to do the roughest, most dangerous work—and to do it without complaint. They faced discrimination out west, albeit less than in the South, which many had left in search of autonomy and freedom. As cowboys, they could escape the

Black cowhands remain an integral part of life in the West, the descendants of African Americans who ventured west and helped settle and establish black communities. This long-overdue examination of nineteenth- and twentieth-century black cowboys ensures that they, and their many stories and experiences, will continue to be known and told.
