Unmasking Control

Francisca Fernando 2022-10-07 Revelations from many data leaks, court cases, and media reports are a constant reminder about how easy it is to abuse companies and other types of legal entities for money laundering, terrorist financing, and many other crimes with impunity when the beneficial owners—the real persons who own and

control these legal entities—are hidden. Not knowing beneficial ownership information negatively affects countries' economies. It allows criminals to misuse these entities to hide their identities and the criminal origins of their assets, and to enjoy the proceeds of crimes, which produces all sorts of economic distortions, negatively impacts economic growth, and allows criminals to infiltrate and take control of the legal economy. This book is a guide for practitioners, policymakers, and other researchers to establish comprehensive frameworks for holding beneficial ownership information. It proposes questions to guide strategic thinking and discussion about the establishment of an effective system of beneficial ownership information, for anti-money laundering purposes. This book also sets out how an effective beneficial

Rethinking Infrastructure in Latin America and the Caribbean Marianne Fay

2017-08-02 Latin America and the Caribbean (LAC)

does not have the infrastructure it needs, or deserves, given its income. Many argue that the solution is to spend more; by contrast, this report has one main message: Latin America can dramatically narrow its infrastructure service gap by spending efficiently on the right things. This report asks three questions: what should LAC countries' goals be? How can these goals be achieved as cost-effectively as possible? And who should pay to reach these goals? In doing so, we drop the

'infrastructure gap' loaded from [via.ramtech.uri.edu](https://www.vla.ramtech.uri.edu) on September 27, 2023 by Caliva v Murray

favoring an approach built on identifying the 'service gap'. Benchmarking Latin America in this way reveals clear strengths and weaknesses. Access to water and electricity is good, with the potential for the region's electricity sector to drive competitive advantage; by contrast, transport and sanitation should be key focus areas for further development. The report also identifies and analyses some of the emerging challenges for the region—climate change, increased demand and urbanization—that will put increasing pressure on infrastructure and policy makers alike. Improving the region's infrastructure performance in the context of tight fiscal space will require spending better on well identified priorities. Unlike most infrastructure diagnostics, this report argues that much of what is needed lies outside the infrastructure sector †“ in the form of broader

government issues—from competition policy, to budgeting rules that no longer solely focus on controlling cash expenditures. We also find that traditional recommendations continue to apply regarding independent, well-performing regulators and better corporate governance, and highlight the critical importance of cost recovery where feasible and desirable, as the basis for future commercial finance of infrastructure services. Latin America has the means and potential to do better; and it can do so by spending more efficiently on the right things.

choice and implementation of courses of action. For accountants, the overall purpose of studying this subject is to be able to make proper contributions to the strategic management of whatever organisations they find themselves working in. To do this requires the acquisition and considered use of theory lying well outside the mainstream of financial and accountancy topics. In addition to the core material relating to business strategy, there are strong links to the fields of economics, marketing and human behaviour. Many candidates find business strategy questions particularly difficult, since there is rarely a single correct solution to work towards, nor any kind of format or template that will guide the development of the answer. The most valuable aspect of the P3 Practice and Revision Kit is the guidance given on how to tackle the wide range of questions it provides. This

counter-terrorist financing (AML/CFT) framework on the compliance trajectory of a number of jurisdictions to this framework. The work begins by examining the international financial sector reform and its evolution to inculcate the global framework for AML/CFT regulations. It challenges the resulting uniform AML/CFT due to its paradoxical impact on the compliance trajectory of African countries and emerging economies (ACs/EEs). This is done through an examination of the pre-conditions for effective regulation and compliance drivers for ACs/EEs that reveals the behavioural impact of the AML/CFT standards on the bloc of countries. Through the application of agency theory, it explores the relationship between ACs/EEs on the one hand and the international financial institutions that formulate, disseminate and facilitate compliance with

the global framework for AML/CFT standards on the other. The remaining chapters review empirically the compliance pressures and resulting compliance trajectory of ACs/EEs with the AML/CFT standards. The final part of the book provides a detailed explanation of the compliance challenges of ACs/EEs and the legitimacy concerns that facilitate this. This book offers a new direction on the impact of global AML/CFT standards on ACs/EEs and contributes to the understanding of the conditions under which the global standards are likely to facilitate proactive compliance within these blocs of countries. As such it will be a valuable resource for academics, researchers and policy-makers working in this area.

Influence of Management Accounting in Creating Sustainable Competitive Advantage in Commercial Banks

Nickson Moseki Ongaki Current management accounting techniques have not been widely accepted as a means to develop a competitive advantage. The information obtained from the literature reviewed and the results from an empirical study that involved a sample of forty respondents from Equity Bank found that the modern management accounting practices provide very important skills and techniques in building competitiveness. The practices play an important role in the planning, developing, implementing

and evaluating strategic competitive policies that result in a competitive advantage. The study outlines the importance of management accounting practices in providing strategies that lead to the creation of a competitive advantage in an organisation. However, the conclusions are drawn on a conceptual level and a future empirical investigation is needed to substantiate these claims further. The study also sets a foundation for more focused research into the importance of modern management accounting practices in developing a competitive advantage especially in the banking sector.

CIMA E3 BPP Learning Media 2012-08-01 CIMA offers a business qualification with a finance focus, aiming to produce members with accounting prowess who are skilled in strategic decision-making. 98% of its members work in **Financial Strategy Bpp Pdf Pdf upload Caliva v Murray**

business, the highest proportion of any worldwide accountancy body. Paper E3 'Enterprise Strategy' is a wide-ranging exam that includes aspects of strategic analysis, choice and implementation. To pass, candidates need both technical knowledge and the ability to apply their knowledge to specific scenarios. The syllabus is split into four areas: * Interacting with the Competitive Environment (20%) * Change Management (20%) * Evaluation of Strategic Options (30%) * Implementation of Strategic Plans (30%) The first section explores the impact and influence of an organisation's environment on its strategy. An organisation needs to take account of its environmental context as well as its own internal capabilities when assessing the strategic options available to it. Having identified these options, it then **Downloaded from via.ramtech.uri.edu on September 27, 2023 by Caliva v Murray**

evaluate them to decide which is the most appropriate to pursue. The E3 syllabus recognises that implementing strategic plans involves managing change, and 20% of the syllabus is now devoted to issues involved in managing the change process. Change Management has not previously been examined at Strategic Level in the CIMA exams. The final section of the syllabus looks at the ways organisations control and measure the performance of the strategies they have implemented. The E3 Study Text provides you with comprehensive coverage of the principles of business strategy and how they can be applied to design and implement enterprise strategies. The Text also offers a range of short case studies which illustrate how business strategy ideas are applied in the real world. The United Nations Convention Against Corruption

Cecily Rose
2019-01-17 The United Nations Convention against Corruption includes 71 articles, and takes a notably comprehensive approach to the problem of corruption, as it addresses prevention, criminalization, international cooperation, and asset recovery. Since it came into force more than a decade ago, the Convention has attracted nearly universal participation by states. As a global and comprehensive convention, which establishes new rules in several areas of anti-corruption law and helps shape domestic laws and policies around the world, this treaty calls for scholarly study. This volume helps to fill a gap in existing academic literature by providing an invaluable reference work on the Convention. It provides

systematic coverage of the treaty, with each chapter discussing the relevant travaux préparatoires, the text of the final article, comparisons with other anti-corruption treaties, and available information about domestic implementing legislation and enforcement.

This commentary is designed to serve as a reference work for academics, lawyers, and policy-makers working in the anti-corruption field, and in the fields of transnational criminal law and domestic criminal law. Contributors include anti-corruption experts, scholars, and legal practitioners from around the globe.
