Field Guide to Knitting Jackie Pawlowski 2015-03-31 At last, a field guide to identifying and working more than 200 knitting stitches, from stockinette to Orenburg lace! There are so many intriguing ways to knit yarn that it's often tough to pick the right stitch. Help is on the way with Field Guide to Knitting, the stitch dictionary that belongs in every knitting bag. This handy go-to reference book takes a comprehensive look at knit and purl stitches as well as cables, laces, ribs, and edge treatments. Learn to tell k2togs from ssk's and to differentiate between ribbed basketweave and basket cable. Each entry reveals the history of the stitch, the best stitch gauge for achieving pattern definition, the garments most suited to the pattern, and more. Complete patterns for executing the stitch (and its variations) are also included. More than 200 full-color photographs make it easy to compare how stitches will look before committing yarn to needles. Whether you just need to know if moss stitch is the same as seed stitch or you're planning a complicated Aran sweater, Field Guide to Knitting has all the answers.

Porkenstein Kathryn Lasky 2002 Lonely after the Big Bad Wolf ate his brothers, Dr. Smart Pig tries to invent a friend--with surprising results.

Fundamentals of Computer Organization and Architecture Mostafa Abd-El-Barr 2005-02-22 This is the first book in the two-volume set offering comprehensive coverage of the field of computer organization and architecture. This book provides complete coverage of the subjects pertaining to introductory courses in computer organization and architecture, including: * Instruction set architecture and design * Assembly language programming * Computer arithmetic * Processing unit design * Memory system design * Input-output design and organization * Pipelining design techniques * Reduced Instruction Set Computers (RISCs) The authors, who share over 15 years of undergraduate and graduate level instruction in computer architecture, provide real world applications, examples of machines, case studies and practical experiences in each chapter.

Dreaming in Code Scott Rosenberg 2008-02-26 Our civilization runs on software. Yet the art of creating it continues to be a dark mystery, even to the experts. To find out why it's so hard to bend computers to our will, Scott Rosenberg spent three years following a team of maverick software developers--led by Lotus 1-2-3 creator Mitch Kapor--designing a novel personal information manager meant to challenge market leader Microsoft Outlook. Their story takes us through a maze of abrupt dead ends and exhilarating breakthroughs as they wrestle not only with the abstraction of code, but with the unpredictability of human behavior-- especially their own.

Crochet Jane Davis 2009-04-29 Your one-stop reference for a lifetime of happy crocheting! It's amazing that a simple hook and yarn can yield such diverse results, from thick, cozy Afghans to delicate lace doilies. Crochet The Complete Guide contains everything you need to get started or take your projects to the next level--from advice on selecting the best yarn types and colors for your projects, to easy-to-follow instructions for creating sophisticated edgings, lacework and three-dimensional textures, to multi-color effects, ruffles, flowers and much more! • 150+ illustrated stitch patterns, from classic patterns to new and unusual designs--arranged by type and style, and color-coded for easy browsing • directions for a wide range of crochet styles, including Tunisian crochet, beaded crochet and CroKnit • 7 timeless projects to make as shown, or customize by substituting pattern stitches found throughout the book • a getting-started section that covers tools, materials and basic techniques A must-have guide for crocheters of all skill levels, this little book will satisfy your itch to stitch!

DocBook 5: The Definitive Guide Norman Walsh 2010-04-20 If you need a reliable tool for technical documentation, this clear and concise reference will help you take advantage of DocBook, the popular XML schema originally developed to document computer and hardware projects. DocBook 5.0 has been expanded and simplified to address documentation needs in other fields, and it's quickly becoming the tool of choice for many content providers. DocBook 5: The Definitive Guide is the complete, official documentation of DocBook 5.0. You'll

find everything you need to know to use DocBook 5.0's features-including its improved content model-whether you're new to DocBook or an experienced user of previous versions. Learn how to write DocBook XML documents Understand DocBook 5.0's elements and attributes, and how they fit together Determine whether your documents conform to the DocBook schema Learn about options for publishing DocBook to various output formats Customize the DocBook schema to meet your needs Get additional information about DocBook editing and processing

WAN Survival Guide Howard Berkowitz 2001-05-29 Ensure that your WAN can handle the latest technologies with this must-have strategy guide If a Wide Area Network (WAN) isn't set up properly, it won't be able to meet the needs of the applications being used in the Local Area Network (LAN). And with the emergence of new technologies such as VPNs, multi-service networks, and the mobility of corporate users, the costs involved with running a WAN have changed dramatically. Written by an expert on WAN design, this book provides a comprehensive strategy for choosing the best technologies available for your WAN. It includes analysis of business requirements for WANs, end-user and service provider requirements, and the capabilities and tradeoffs of the available technologies. The book also covers the realities and limitations of QoS, security, multi-service networks, virtual networks, VPNs, multi-homing, roaming, and mobility.

Guide to Literary Agents 2016 Chuck Sambuchino 2015-08-17 THE BEST RESOURCE AVAILABLE FOR FINDING A LITERARY AGENT No matter what you're writing--fiction or nonfiction, books for adults or children--you need a literary agent to get the best book deal possible from a traditional publisher. Guide to Literary Agents 2016 is your essential resource for finding that literary agent and getting your book bought by the country's top publishers. Along with listing information for more than 1,000 literary agents who represent writers and their books, this new, updated edition of GLA includes: • A one-year subscription to the literary agents content on WritersMarket.com. • Secrets to why agents stop reading your submission. Four literary agents review writers' unpublished first pages and give honest feedback. The agents examine 10 different first-page submissions and explain if and when they would stop reading. • "New Agent Spotlights"--profiles of literary reps actively building their client lists right now. • Success stories: 13 debut authors explain their paths to publication so you can learn from their success and see what they did right. • Answers to 19 frequently asked questions about query letters and submissions. • Informative how-to articles on synopsis writing, voice and craft, characters, platform and blogging, nonfiction book proposals, and more. + Includes exclusive access to the webinar "30 Tips for Getting an Agent" by Elizabeth Kracht of Kimberly Cameron & Associates *Please note: The e-book version of this title does not include a one-year subscription to WritersMarket.com. "The first book I ever bought when I began my publishing journey was the Guide to Literary Agents. And it's one of the first things I recommend to any aspiring writer." --Renee Ahdieh, author of The Wrath and the Dawn (2015), the first of a two-book deal from Penguin/Putnam "I found my literary agent in Guide to Literary Agents. The GLA was one of the best writing investments I ever made." --Jessica Lidh, author of debut novel The Number 7 (Merit Press)

Buying Guide 2008 Consumer Reports 2007-11-13

A Gent From Bear Creek Robert E. Howard 2014-08-10 "A Gent from Bear Creek" is the title of both an original short story, as well as a novel created by combining several previous short stories with some new material; the previously published short stories were altered a little to create chapters with a continuous story line, and new material was added as additional chapters. The the new stories are: "Striped Shirts And Busted Hearts", "Meet Cap'n Kidd", "Educate Or Bust", and "When Bear Creek Came To Chawed Ear".

Made to Crave Action Plan Study Guide with Dvd Lysa TerKeurst 2012-02-07 A follow-up to the New York Times bestselling book and group study--Made to Crave--this six-session video-based study will help women who

found their 'want to' in the Made to Crave study master the 'how to' of living a healthy physical life as well as a rich and full relationship with God.

Psychology and Social Problems (Psychology Revivals) Michael Argyle 2014-01-27 First published in 1964, Psychology and Social Problems looks at a changing society and research into problems of the time. Many of the themes in the book, such as delinquency, mental health and racial conflict, are still familiar and current topics of discussion today. Social scientists had carried out extensive research into problems of urgent public concern, yet their findings were not widely known or understood and they had often been diffident in advocating policies based on their conclusions. Michael Argyle discussed the recent psychological and social research bearing on the origins of aggression, delinquency, mental disorder, racial and international prejudice, and industrial discontent; he went on to consider the implications of these studies for prevention and control and for the guidance of social change. This sophisticated and well-documented critique is presented with such lucidity and verve that it will appeal equally to laymen and to students and professional workers and can now be enjoyed in its historical context.

Military Aspects of Hydrogeology Edward P. F. Rose 2012 This book contains 20 papers from authors in the UK, USA, Germany and Austria. Historically, it gives examples of the influence of groundwater on battlefield tactics and fortress construction; describes how groundwater was developed for water supply and overcome as an obstacle to military engineering and cross-country vehicular movement by both sides in World Wars I and II; and culminates with examples of the application of hydrogeology to site boreholes in recent conflicts, notably in Afghanistan. Examples of current research described include hydrological model development; the impact of variations in soil moisture on explosive threat detection and cross-country vehicle mobility; contamination arising from defence sites and its remediation; privatization of water supplies; and the equitable allocation of resources derived from an international transboundary aquifer.

Day of the Giants Lester Del Rey 1959

Dzur Steven Brust 2010-01-18 In which Vlad Taltos confronts the Left Hand of the Jhereg...and discovers the game has more players than he thought Vlad Taltos, short-statured, short-lived human in an Empire of tall, long-lived Dragaerans, has always had to keep his wits about him. Long ago, he made a place for himself as a captain of the Jhereg, the noble house that runs the rackets in the great imperial city of Adrilankha. But love, revolution, betrayal, and revenge ensued, and for years now Vlad has been a man on the run, struggling to stay a step ahead of the Jhereg who would kill him without hesitation. Now Vlad's back in Adrilankha. The rackets he used to run are now under the control of the mysterious "Left Hand of the Jhereg"—a secretive cabal of women who report to no man. His ex-wife needs his help. His old enemies aren't sure whether they want to kill him, or talk to him and then kill him. A goddess may be playing tricks with his memory. And the Great Weapon he's carrying seems to have plans of its own... Picking up directly where *Issola* left off, *Dzur* gives us Vlad Taltos at his best—swashbuckling storytelling with a wry and gritty edge. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

Voices of Time Eduardo Galeano 2007-04-01 A striking mosaic of memories, observations, and legends that together reveal the author's own story and a grand, compassionate vision of life itself In this kaleidoscope of reflections, renowned South American author Eduardo Galeano ranges widely, from childhood to love, music, plants, fear, indignity, and indignation. In the signal style of his bestselling and much-admired *Memory of Fire* trilogy—brief fragments that build steadily into an organic whole—Galeano offers a rich, wry history of his life and times that is both calmly philosophical and fiercely political. Beginning with blue algae, the earliest of life forms, these 333 vignettes alight on the Galeano family's immigration to Uruguay in the early twentieth century, the fate of love letters intercepted by a military dictatorship, abuses by the rich and powerful, the latest military outrages, and the author's own encounters with all manner of living matter, including generals, bums, dissidents, soccer stars, ducks, and trees. Out of these meditations emerges neither anger nor bitterness, but a celebration of a blessed life in a harsh world. Poetic and passionate, scathing and lyrical, delivered with Galeano's inimitable mix of gentle comedy and fierce moral judgment, *Voices of Time* is a deeply personal statement from a great and beloved writer.

Legal Research, Analysis, and Writing Joanne Banker Hames 2011 LEGAL RESEARCH, ANALYSIS, AND WRITING, 4/e fully integrates the basics of legal research, analysis, and writing, bringing together all the basic knowledge and tools students need to research and analyze a legal problem and communicate the results in diverse forms of legal memoranda. It provides many highly realistic research and writing exercises, as well as new tools designed to help students become more effective writers. Throughout, it clarifies the interrelationships among legal research, analysis, and writing, enabling students to experience the total process as it is performed in practice. Reflecting today's new realities, this edition also contains extensive new coverage of Internet-based research on both free and fee-based sites.

Today's Technician Chris Hadfield 2009-07-26 The theory and service of modern automotive engines is at the heart of this new edition of TODAY'S TECHNICIAN: AUTOMOTIVE ENGINE REPAIR & REBUILDING, International Edition. Thoroughly enhanced and updated, this book includes information on variable valve timing systems, hybrid and other advanced technology vehicles. Readers will learn how components are designed and how they function to support engine operation through the help of realistic line drawings and well-structured photographs that engage them in the parts and pieces of today's automotive engines. The newly revised fourth edition includes more engine performance diagnostic information, as well as current NATEF content to help readers adequately prepare for the ASE certification exam in Engine Repair.

Refashioning Nature David Goodman 2002-09-26 This book examines the development of the modern food system around contemporary agriculture, food processing, ecological systems and changes in women's employment in challenging our perception of our position within a natural system.

The Sense of Wonder Rachel Carson 2017-05-30 First published a half-century ago, Rachel Carson's award-winning *The Sense of Wonder* remains the classic guide to introducing children to the marvels of nature In 1955, acclaimed conservationist Rachel Carson—author of *Silent Spring*—began work on an essay that she would come to consider one of her life's most important projects. Her grandnephew, Roger Christie, had visited Carson that summer at her cottage in Maine, and together they had wandered the surrounding woods and tide pools. Teaching Roger about the natural wonders around them, Carson began to see them anew herself, and wanted to relate that same magical feeling to others who might hope to introduce a child to the beauty of nature. "If a child is to keep alive his inborn sense of wonder," writes Carson, "he needs the companionship of at least one adult who can share it, rediscovering with him the joy, excitement and mystery of the world we live in." Now available in paperback, *The Sense of Wonder* is a timeless volume that will be passed on from generation to generation, as treasured as the memory of an early-morning walk when the song of a whippoorwill was heard as if for the first time. Featuring serene color photographs from renowned photographer Nick Kelsh, "this beautifully illustrated edition makes a fine gift for new and prospective mothers and fathers" (Gregory McNamee), and helps us all to tap into the extraordinary power of the natural world.

Stories in Stone Jelle Zeilinga de Boer 2011-05-01 In a series of entertaining essays, geoscientist Jelle Zeilinga de Boer describes how early settlers discovered and exploited Connecticut's natural resources. Their successes as well as failures form the very basis of the state's history: Chatham's gold played a role in the acquisition of its Charter, and Middletown's lead helped the colony gain its freedom during the Revolution. Fertile soils in the Central Valley fueled the state's development into an agricultural power house, and iron ores discovered in the western highlands helped trigger its manufacturing eminence. The Statue of Liberty, a quintessential symbol of America, rests on Connecticut's Stony Creek granite. Geology not only shaped the state's physical landscape, but also provided an economic base and played a cultural role by inspiring folklore, paintings, and poems. Illuminated by 50 illustrations and 12 color plates, *Stories in Stone* describes the marvel of Connecticut's geologic diversity and also recounts the impact of past climates, earthquakes, and meteorites on the lives of the people who made Connecticut their home.

Security Metrics, A Beginner's Guide Caroline Wong 2011-10-06 Security Smarts for the Self-Guided IT Professional "An extraordinarily thorough and sophisticated explanation of why you need to measure the

effectiveness of your security program and how to do it. A must-have for any quality security program!" —Dave Cullinane, CISSP, CISO & VP, Global Fraud, Risk & Security, eBay Learn how to communicate the value of an information security program, enable investment planning and decision making, and drive necessary change to improve the security of your organization. *Security Metrics: A Beginner's Guide* explains, step by step, how to develop and implement a successful security metrics program. This practical resource covers project management, communication, analytics tools, identifying targets, defining objectives, obtaining stakeholder buy-in, metrics automation, data quality, and resourcing. You'll also get details on cloud-based security metrics and process improvement. Templates, checklists, and examples give you the hands-on help you need to get started right away. *Security Metrics: A Beginner's Guide* features: Lingo—Common security terms defined so that you're in the know on the job IMHO—Frank and relevant opinions based on the author's years of industry experience Budget Note—Tips for getting security technologies and processes into your organization's budget In Actual Practice—Exceptions to the rules of security explained in real-world contexts Your Plan—Customizable checklists you can use on the job now Into Action—Tips on how, why, and when to apply new skills and techniques at work Caroline Wong, CISSP, was formerly the Chief of Staff for the Global Information Security Team at eBay, where she built the security metrics program from the ground up. She has been a featured speaker at RSA, ITWeb Summit, Metricon, the Executive Women's Forum, ISC2, and the Information Security Forum.

The Memory of Fire Trilogy Eduardo Galeano 2014-04-29 All three books in the American Book Award—winning *Memory of Fire Trilogy* available in a single volume for the first time. Eduardo Galeano's *Memory of Fire Trilogy* defies categorization—or perhaps creates its own. It is a passionate, razor-sharp, lyrical history of North and South America, from the birth of the continent's indigenous peoples through the end of the twentieth century. The three volumes form a haunting and dizzying whole that resurrects the lives of Indians, conquistadors, slaves, revolutionaries, poets, and more. The first book, *Genesis*, pays homage to the many origin stories of the tribes of the Americas, and paints a verdant portrait of life in the New World through the age of the conquistadors. The second book, *Faces and Masks*, spans the two centuries between the years 1700 and 1900, in which colonial powers plundered their newfound territories, ultimately giving way to a rising tide of dictators. And in the final installment, *Century of the Wind*, Galeano brings his story into the twentieth century, in which a fractured continent enters the modern age as popular revolts blaze from North to South. This celebrated series is a landmark of contemporary Latin American writing, and a brilliant document of culture.

Management Chuck Williams 2002-08

Blunders in International Business David A. Ricks 2009-02-09 This new edition of *Blunders in International Business* is significantly updated and revised, full of interesting anecdotes, including dozens of new international business blunders. David Ricks has uncovered many informative and entertaining blunders that will make this book hard to put down. Features blunders from well-known corporations American Express, McDonalds, Toyota, GM, Sharwoods, Jolly Green Giant, Bacardi, Puff, AOL, BMW, and many others. Conserves its well-liked, concise format. Several well-known blunders from previous editions have been replaced in order to update the lessons learned.

Experts provide hundreds of smart ways to save money and find the best values in computers, plasma televisions, cell phones and service, cameras, DVD players, and more.

How to Worry Less About Money John Armstrong 2012-05-10 Our relationship with money is one that lasts a lifetime, yet traditionally books on the subject tend to take one of two routes: a) how to get more, or b) how to deal with less. John Armstrong turns these approaches upside down, and looks not at money itself, but at how we relate to it and the meaning we attach to it. How does it drive us and frighten us? Can it change the world for the better? And how much do we actually need? Offering surprising and helpful new insights, this book will encourage you to redefine your feelings about money, and ultimately enable you to discover what is really important to you in life. One in the new series of books from *The School of Life*, launched May 2012: *How to Stay Sane* by Philippa Perry *How to Find Fulfilling Work* by Roman Krznaric *How to Worry Less About Money* by John Armstrong *How to Change the World* by John-Paul Flintoff *How to Thrive in the Digital Age* by Tom Chatfield *How to Think More About Sex* by Alain de Botton

Computer engineering Moshe Morris Mano 1988

The Stone Man Lester Dent 2020-09-11 Doc Savage and his fearless friends find a black arrowhead that leads a trail to the treacherous Spad Ames in the Arizona Badlands. There they encounter the mysterious men who live through the mists - men who can turn flesh into stone. We are happy to announce this classic book. Many of the books in our collection have not been published for decades and are therefore not broadly available to the readers. Our goal is to access the very large literary repository of general public books. The main contents of our entire classical books are the original works. To ensure high quality products, all the titles are chosen carefully by our staff. We hope you enjoy this classic.

Blood Crazy Simon Clark 2014-10-28 It is a quiet, uneventful Saturday in Doncaster. Nick Aten, and his best friend Steve Price – troubled seventeen year olds – spend it as usual hanging around the sleepy town, eating fast food and planning their revenge on Tug Slatter, a local bully and their arch-enemy. But by Sunday, Tug Slatter becomes the last of their worries because somehow overnight civilization is in ruins. Adults have become murderously insane – literally. They're infected with an uncontrollable urge to kill the young. Including their own children. As Nick and Steve try to escape the deadly town covered with the mutilated bodies of kids, a group of blood-thirsty adults ambushes them. Just a day before they were caring parents and concerned teachers, today they are savages destroying the future generation. Will Nick and Steve manage to escape? Is their hope that outside the Doncaster borders the world is 'normal' just a childish dream? *Blood Crazy*, first published in 1995, is a gripping, apocalyptic horror from Simon Clark.

Progeny Shaun Hutson 2020-11-05

Can you imagine what it would be like not to have any memory of your first ten years of life?

Jake Howard knows how that feels. He's a successful psychiatrist and writer. He has an apparently adoring lover and the respect of his peers. But he also has a huge gap where his childhood memories should be. What's more, Jake is tormented by the worst kind of nightmares. Nightmares he's not even sure are his.

Tormented by dreams and visions that threaten his sanity, he must find their source in order to understand and banish them.

His hunt will take him to a run-down seaside town, to the place where he was raised and also forty years back in time, to what he must confront to release himself from the grip of the visions and also to discover the hidden memories.

The Calculus of Variations and Functional Analysis

However, he will discover things about himself he did not dare imagine. Things he really didn't want to know.

And he will also discover that not everyone is what they appear to be. Those revelations will expose a darkness and horror that no one should have to confront.

Sometimes a lie is preferable.

Some truth is best left undiscovered...

L. P. Lebedev 2003 This volume is aimed at those who are concerned about Chinese medicine - how it works, what its current state is and, most important, how to make full use of it. The audience therefore includes clinicians who want to serve their patients better and patients who are eager to supplement their own conventional treatment. The authors of the book belong to three different fields, modern medicine, Chinese medicine and pharmacology. They provide information from their areas of expertise and concern, attempting to make it comprehensive for users. The approach is macroscopic and philosophical; readers convinced of the philosophy are to seek specific assistance.

Introduction to Psychology Rita L. Atkinson 1999

Re-Figuring Theology Stephen H. Webb 1991-07-03 Here is a rhetorical treatment of Karl Barth's early theology. Although scholars have long noted the rhetorical power of Barth's work, calling it volcanic and explosive, this book uses rhetoric to illuminate the peculiar nature of his prose. It displays a Barth whose prose is radically unstable and inseparable from his theological arguments. The author connects Barth's early theology to the Expressionism of the Weimar Republic. He develops an original theory of figures of speech, relying on the philosophies of Paul Ricoeur and Hayden White, to delve more deeply into the particular configurations of Barth's writings. Nietzsche's hyperbole and Kierkegaard's irony are examined as rhetorical precedents of Barth's style. The closing chapter surveys Barth's later, realistic theology and then suggests ways in which his earlier tropes, especially the figures of excess and self-negation, can serve to enable theology to speak today.

How to Have an Enemy Melissa Florer-Bixler 2021-07-20 Does Jesus' call to love our enemies mean that we should remain silent in the face of injustice? Jesus called us to love our enemies. But to befriend an enemy, we first have to acknowledge their existence, understand who they are, and recognize the ways they are acting in opposition to God's good news. In *How to Have an Enemy: Righteous Anger and the Work of Peace*, Melissa Florer-Bixler looks closely at what the Bible says about enemies--who they are, what they do, and how Jesus and his followers responded to them. The result is a theology that allows us to name our enemies as a form of truth-telling about ourselves, our communities, and the histories in which our lives are embedded. Only then can we grapple with the power of the acts of destruction carried out by our enemies, and invite them to lay down their enmity, opening a path for healing, reconciliation, and unity. Jesus named and confronted his enemies as an essential part to loving them. In this provocative book, Florer-Bixler calls us to do the same.
