with lamenting in
silence my own unmerited
indignities and man's
injustice. But since, in
driving me away from
them, they remove the
source of all human
blessings, and let in a
deluge of calamities on
themselves, I am more
inclined to bewail their
misfortune, than
complain of ill usage to
myself; and I am reduced
to the necessity of
weeping over and
commiserating those whom
I wished to view rather
as objects of
indignation than of
pity. For though rudely
to reject one who loves
them as I do, may appear
to be savage cruelty; to
feel an aversion for one
who has deserved so well
of them, base
ingratitude; to trample
on one who has nursed
and fostered them with
all a parent's care, an
unnatural want of filial
affection; yet

voluntarily to renounce
so many and so great
advantages as I always
bring in my train, to go
in quest of evils
infinite in number and
shocking in nature, how
can I account for such
perverse conduct, but by
attributing it to
downright madness? We
may be angry with the
wicked, but we can only
pity the insane. What
can I do but weep over
them? And I weep over
them the more bitterly,
because they weep not
for themselves. No part
of their misfortune is
more deplorable than
their insensibility to
it. It is one great step
to convalescence to know
the extent and
inveteracy of a disease.

as uniquely powerful tools for communicating important information at a glance. Although dashboards are potentially powerful, this potential is rarely realized. The greatest display technology in the world won't solve this if you fail to use effective visual design. And if a dashboard fails to tell you precisely what you need to know in an instant, you'll never use it, even if it's filled with cute gauges, meters, and traffic lights. Don't let your investment in dashboard technology go to waste. This book will teach you the visual design skills you need to create dashboards that communicate clearly, rapidly, and compellingly.
