Pronominal Reference L. Solan 1983-04-30 Linguistic theory has seen a substantial shift in focus during the past decade. Whereas early research in generative grammar sought descriptive adequacy through the proliferation of transformational rules, recent efforts have concentrated on defining systems of principles that restrict the application of a greatly simplified system of rules of grammar. These principles, because of their

broad application within a particular language, and their appearance in a wide range of languages under investigation, are claimed to reflect innate cognitive structures often termed universal grammar. Accompanying this new, and very interesting research in linguistic theory is an interest in certain aspects of the language acquisition process that relate to the theoretical claims. As new insights allow us to hypothesize both more specifically and more plausibly about linguistic universals, the actual facts about linguistic development in young children become increasingly relevant as additional data on which to formulate and test new ideas. This book looks closely at a particular set of linguistic structures with respect to both linguistic theory and language development, exploring the relationship between the theoretical claims and the results of a series of language acquisition experiments. Although work of this sort is often called interdisciplinary, the issues addressed are clearly defined, although not all of them are answered. This book should be of particular interest to linguists, and to psychologists concerned with linguistic and cognitive development.

Yuehua Liu 2008-01-01 Cheng & Tsui's best-loved Chinese textbook series is new, revised, and better than ever!

Who Climbs the Grammar-Tree Rosemarie Tracy 2011-05-03 Over the past few decades, the book series *Linguistische Arbeiten* [Linguistic Studies], comprising over 500 volumes, has made a significant contribution to the development of linguistic theory both in Germany and internationally. The series will continue to deliver new

impulses for research and maintain the central insight of linguistics that progress can only be made in acquiring new knowledge about human languages both synchronically and diachronically by closely combining empirical and theoretical analyses. To this end, we invite submission of high-quality linguistic studies from all the central areas of general linguistics and the linguistics of individual languages which address topical questions, discuss new data and advance the development of linguistic theory.

Into the Fire Dakota Meyer 2012-09-25 "The story of what Dakota did . . . will be told for generations."—President Barack Obama, from remarks given at Meyer's Medal of Honor ceremony In the fall of 2009, Taliban insurgents ambushed a patrol of Afghan soldiers and Marine advisors in a mountain village called Ganjigal. Firing from entrenched positions, the enemy was positioned to wipe out one hundred men who were pinned down and were repeatedly refused artillery support. Ordered to remain behind with the vehicles, twenty-one year-old Marine corporal Dakota Meyer disobeyed orders and attacked to rescue his comrades. With a brave driver at the wheel, Meyer stood in the gun turret exposed to withering fire, rallying Afghan troops to follow. Over the course of the five hours, he charged into the valley time and again. Employing a variety of machine guns, rifles, grenade launchers, and even a rock, Meyer repeatedly repulsed enemy attackers, carried wounded Afghan soldiers to safety, and provided cover for dozens of others to escape—supreme acts of valor and determination. In the end, Meyer and four stalwart

comrades—an Army captain, an Afghan sergeant major, and two Marines—cleared the battlefield and came to grips with a tragedy they knew could have been avoided. For his actions on that day, Meyer became the first living Marine in three decades to be awarded the Medal of Honor. *Into the Fire* tells the full story of the chaotic battle of Ganjigal for the first time, in a compelling, human way that reveals it as a microcosm of our recent wars. Meyer takes us from his upbringing on a farm in Kentucky, through his Marine and sniper training, onto the battlefield, and into the vexed aftermath of his harrowing exploits in a battle that has become the stuff of legend. Investigations ensued, even as he was pitched back into battle alongside U.S. Army soldiers who embraced him as a fellow grunt. When it was over, he returned to the States to confront living with the loss of his closest friends. This is a tale of American values and upbringing, of stunning heroism, and of adjusting to loss and to civilian life. We see it all through Meyer's eyes, bullet by bullet, with raw honesty in telling of both the errors that resulted in tragedy and the resolve of American soldiers, U.S. Marines, and Afghan soldiers who'd been abandoned and faced certain death. Meticulously researched and thrillingly told, with nonstop pace and vivid detail, *Into the Fire* is the unvarnished story of a modern American hero. Praise for *Into the Fire* "A story of men at their best and at their worst . . . leaves you gaping in admiration at Medal of Honor winner Dakota Meyer's courage."—National Review "Meyer's dazzling bravery wasn't momentary or impulsive but deliberate and sustained."—The Wall Street Journal "[A] cathartic, heartfelt account . . . Combat memoirs don't get any more personal."—Kirkus Reviews "A great contribution to the discussion of an agonizingly complex

subject."—The Virginian-Pilot "Black Hawk Down meets Lone Survivor."—Library Journal

Imagining India in Modern China Gal Gvili 2022-10-11 Winner, 2023 Harry Levin Prize, American Comparative Literature Association Beginning in the late Qing era, Chinese writers and intellectuals looked to India in

search of new literary possibilities and anticolonial solidarity. In their view, India and China shared both an illustrious past of cultural and religious exchange and a present experience of colonial aggression. These writers imagined India as an alternative to Western imperialism—a Pan-Asian ideal that could help chart an escape route from colonialism and its brutal grasp on body and mind by ushering in a new kind of modernity in Asian terms. Gal Gvili examines how Chinese writers' image of India shaped the making of a new literature and spurred efforts to achieve literary decolonization. She argues that multifaceted visions of Sino-Indian connections empowered Chinese literary figures to resist Western imperialism and its legacies through novel forms and genres. However, Gvili demonstrates, the Global North and its authority mediated Chinese visions of Sino-Indian pasts and futures. Often reading Indian literature and thought through English translations, Chinese writers struggled to break free from deeply ingrained imperialist knowledge structures. *Imagining India in Modern China* traces one of the earliest South-South literary imaginaries: the hopes it inspired, the literary rejuvenation it launched, and the shadow of the North that inescapably haunted it. By unearthing Chinese writers' endeavors to decolonize literature and thought as well as the indelible marks that imperialism left on their minds, it offers new perspective on the possibilities and limitations of anticolonial movements and South-South solidarity.
