Double Victory Ronald T. Takaki 2000
 A history of America in World War II is told through the lives of an ethnically diverse group of ordinary Americans struggling for equality at home and fighting for freedom overseas. Takaki's revealing book shows that there were more struggles--and more victories--during WWII than most people ever imagined. 37 photos.

Double Victory Ronald Takaki
 2001-07-30 From a Navajo code talker to a Tuskegee pilot, Takaki examines the many contributions and sacrifices of America's minorities--blacks, Chinese, Native Americans and others--during World War II. Photos.

From Different Shores Ronald T. Takaki 1994 Now featuring a new section on public policy, and a wide range of new essays by many of the liveliest and most exciting figures in ethnic studies, this updated edition of a remarkably successful text introduces students to the diverse points of view on race and ethnicity in the U.S. Arranged in

debate format, the essays address vital questions: How have the experiences of racial minorities in the United States been similar to and different from each other? Is "race" the same as "ethnicity"? How has culture shaped race and ethnic relations? What has been the relationship between race and class? How can race and gender be compared? Moreover, how can racial inequality be explained, and what public policies or strategies are needed to address it? One third of the selections are new, examining affirmative action, welfare dependency, and the Los Angeles riots, and including a debate between Arthur Schlesinger, Jr., and the editor on multicultural curricula and the campus "culture wars." Providing a fresh new look at America's complex and unique ethnic heritage, this text makes an invaluable contribution to any course on race, ethnicity, or social stratification.

A Larger Memory Ronald Takaki
 1998-09-23 A sweeping yet intimate

history of the diverse individuals who, together, make up America. Ronald Takaki uses letters, diaries & oral histories to share their stories. Workers, immigrants, shopkeepers, women, children & others, their lives often separated by ethnic borders, speak side by side as Takaki frames their voices with his own text.

Arrogant Beggar Anzia Yeziarska 1996-02-12 The target of intense critical comment when it was first published in 1927, *Arrogant Beggar's* scathing attack on charity-run boardinghouses remains one of Anzia Yeziarska's most devastating works of social criticism. The novel follows the fortunes of its young Jewish narrator, Adele Lindner, as she leaves the impoverished conditions of New York's Lower East Side and tries to rise in the world. Portraying Adele's experiences at the Hellman Home for Working Girls, the first half of the novel exposes the "sickening farce" of institutionalized charity while portraying the class tensions that divided affluent German American Jews from more recently arrived Russian American Jews. The second half of the novel takes Adele back to her ghetto origins as she explores an alternative model of philanthropy by opening a restaurant that combines the communitarian ideals of Old World shtetl tradition with the contingencies of New World capitalism. Within the context of this radical message, Yeziarska revisits the themes that have made her work famous, confronting complex questions of ethnic identity, assimilation, and female self-realization. Katherine Stubbs's introduction provides a comprehensive and compelling historical, social, and literary context for this extraordinary novel and discusses the critical reaction to its publication

in light of Yeziarska's biography and the once much-publicized and mythologized version of her life story. Unavailable for over sixty years, *Arrogant Beggar* will be enjoyed by general readers of fiction and be of crucial importance for feminist critics, students of ethnic literature. It will also prove an exciting and richly rewarding text for students and scholars of Jewish studies, immigrant literature, women's writing, American history, and working-class fiction.

Hiroshima Ronald Takaki 1996-09-01 The bombing of Hiroshima was one of the pivotal events of the twentieth century, yet this controversial question remains unresolved. At the time, General Dwight Eisenhower, General Douglas MacArthur, and chief of staff Admiral William Leahy all agreed that an atomic attack on Japanese cities was unnecessary. All of them believed that Japan had already been beaten and that the war would soon end. Was the bomb dropped to end the war more quickly? Or did it herald the start of the Cold War? In his probing new study, prizewinning historian Ronald Takaki explores these factors and more. He considers the cultural context of race - the ways in which stereotypes of the Japanese influenced public opinion and policymakers - and also probes the human dimension. Relying on top secret military reports, diaries, and personal letters, Takaki relates international policies to the individuals involved: Los Alamos director J. Robert Oppenheimer, Secretary of State James Byrnes, Secretary of War Henry L. Stimson, and others... but above all, Harry Truman.

the voice of the non-Anglo peoples of the United States--Native Americans, African Americans, Jews, Irish Americans, Asian Americans, Latinos, and others--groups who helped create this country's rich mosaic culture. Now, Ronald Takaki has revised his landmark work and made it even more relevant and important. Among the new additions to the book are: the role of black soldiers in preserving the Union; the history of Chinese Americans from 1900-1941; an investigation into the hot-button issue of "illegal" immigrants from Mexico; and a look at the sudden visibility of Muslim refugees from Afghanistan. This new edition grapples with the raw truth of American history and examines the ultimate question of what it means to be an American.--From publisher description.

Pau Hana Ronald Takaki 1984-03-01 "A scholarly work but as readable as a novel, this is the first history of plantation life as experienced by the laborers themselves. The oppressive round-the-clock conditions under which they worked will make you glad they fought back in one huge strike; Takaki charts this conflict well." -- San Francisco Chronicle

Race, Ethnicity, Gender, and Class

Joseph F. Healey 2011-11-04 Joseph F. Healey's *Race, Ethnicity, Gender, and Class*, Sixth Edition builds upon the bestselling status of the prior editions, praised for the author's writing style and the various effective pedagogical features that ensure students engage with core concepts in a meaningful way. With many updates and revisions, this edition once again uses sociological theory to tell the story of race and other socially constructed inequalities in the United States with consistency and clarity. Chapter-ending current debates based on the writings of prominent scholars

spark classroom discussion on important issues, and first-person accounts, "Narrative Portraits," are threaded throughout the text to bring life to a variety of topics.

An African American and Latinx History of the United States

Paul Ortiz 2018-01-30 An intersectional history of the shared struggle for African American and Latinx civil rights. Spanning more than two hundred years, *An African American and Latinx History of the United States* is a revolutionary, politically charged narrative history, arguing that the "Global South" was crucial to the development of America as we know it. Scholar and activist Paul Ortiz challenges the notion of westward progress as exalted by widely taught formulations like "manifest destiny" and "Jacksonian democracy," and shows how placing African American, Latinx, and Indigenous voices unapologetically front and center transforms US history into one of the working class organizing against imperialism. Drawing on rich narratives and primary source documents, Ortiz links racial segregation in the Southwest and the rise and violent fall of a powerful tradition of Mexican labor organizing in the twentieth century, to May 1, 2006, known as International Workers' Day, when migrant laborers--Chicana/os, Afrocubanos, and immigrants from every continent on earth--united in resistance on the first "Day Without Immigrants." As African American civil rights activists fought Jim Crow laws and Mexican labor organizers warred against the suffocating grip of capitalism, Black and Spanish-language newspapers, abolitionists, and Latin American revolutionaries coalesced around movements built between people from the United States and people from Central America and the Caribbean. In stark contrast to

the resurgence of "America First" rhetoric, Black and Latinx intellectuals and organizers today have historically urged the United States to build bridges of solidarity with the nations of the Americas. Incisive and timely, this bottom-up history, told from the interconnected vantage points of Latinx and African Americans, reveals the radically different ways that people of the diaspora have addressed issues still plaguing the United States today, and it offers a way forward in the continued struggle for universal civil rights. 2018 Winner of the PEN Oakland/Josephine Miles Literary Award

A Different Mirror for Young People
Ronald Takaki 2012-10-30 A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American

story.

Can We All Get Along? Paula McClain 2018-05-04
In a nation built by immigrants and bedeviled by the history and legacy of slavery and discrimination, how do we, as Americans, reconcile a commitment to equality and freedom with persistent inequality and discrimination? And what can we do about it? This widely acclaimed text by Paula D. McClain, with new coauthor Jessica D. Johnson Carew, provides a comprehensive and accessible overview of the historical and contemporary political experience of the major groups-African Americans, Latinos, Asian Americans,

and American Indians-in the United States. It explores the similarities and differences in these groups' representation and participation in law, politics, and policymaking, discusses the enduring issues and concerns that they face, and examines intra- and inter-group competition and coalition-building in the face of enduring conflict and inequality. The seventh edition has been thoroughly revised and updated to include coverage of President Barack Obama's second term, the 2016 election, police brutality and Black Lives Matter, and the Dakota Access Pipeline protest movement. With a brand-new chapter on the intersections of race and gender, *Can We All Get Along?* remains unparalleled in its comparative coverage of the current landscape of minority politics in the United States.

Violence in the Black Imagination Ronald T. Takaki 1993-07-01 1992 has been an explosive year for racial relations in the United States--from the reactions to the Rodney King verdict to debate about Malcolm X and the film portrayal of his role in American history. What relations do the recent events in Los Angeles have to the Watts Riots in 1965? *Violence in the Black Imagination* shows that these recent events force us to understand the history of racism in America and its legacy of antagonism and violence. Ronald T. Takaki presents three short novels of major

African-American leaders in the nineteenth century: Frederick Douglass, the leading black abolitionist; Martin Delany, the father of black nationalism; and William Wells Brown, a pioneer of the black novel. The novels are accompanied by substantive essays which provide both biographical information on the author and explore the common theme of their work--the issue of black revolutionary violence in antebellum America. The work includes a new preface which examines the 1992 South Central Los Angeles racial explosion in relationship to Martin Luther King, Jr., Malcolm X, and the 1965 Watts Riot.

Site-Seeing Aesthetics Lene M. Obama's Political Saga Mary L. Rucker 2013-07-11 The scope and theme of this book are political, polemical, sociological, and ideological. The book lays a historical foundation to explain the reason Obama has not had a successful political relationship with Congressional Republicans. The author relies on systemic racism to explain Obama's political saga with the Congressional Republicans. In spite of the GOP's obstructionist tactics, Obama still goes on to win re-election.

The Transnational History of a Chinese Family Haiming Liu 2005
Family and home are one word--jia--in the Chinese language. Family can be separated and home may be relocated, but jia remains intact. It signifies a system of mutual obligation, lasting responsibility, and cultural values. This strong yet flexible sense of kinship has enabled many

Chinese immigrant families to endure long physical separation and accommodate continuities and discontinuities in the process of social mobility. Based on an analysis of over three thousand family letters and other primary sources, including recently released immigration files from the National Archives and Records Administration, Haiming Liu presents a remarkable transnational history of a Chinese family from the late nineteenth century to the 1970s. For three generations, the family lived between the two worlds. While the immigrant generation worked hard in an herbalist business and asparagus farming, the younger generation crossed back and forth between China and America, pursuing proper education, good careers, and a meaningful life during a difficult period of time for Chinese Americans. When social instability in China and hostile racial environment in America prevented the family from being rooted in either side of the Pacific, transnational family life became a focal point of their social existence. This well-documented and illustrated family history makes it clear that, for many Chinese immigrant families, migration does not mean a break from the past but the beginning of a new life that incorporates and transcends dual national boundaries. It convincingly shows how transnationalism has become a way of life for Chinese American families.

Scenes of Subjection: Terror, Slavery, and Self-Making in Nineteenth-Century America Saidiya Hartman 2022-10-11 The groundbreaking debut by the award-winning author of *Wayward Lives, Beautiful Experiments*, revised and updated. Saidiya Hartman has been praised as “one of our most brilliant contemporary thinkers” (Claudia Rankine, *New York Times Book Review*) and “a lodestar for a

generation of students and, increasingly, for politically engaged people outside the academy” (Alexis Okeowo, *The New Yorker*). In *Scenes of Subjection*—Hartman’s first book, now revised and expanded—her singular talents and analytical framework turn away from the “terrible spectacle” and toward the forms of routine terror and quotidian violence characteristic of slavery, illuminating the intertwining of injury, subjugation, and selfhood even in abolitionist depictions of enslavement. By attending to the withheld and overlooked at the margins of the historical archive, Hartman radically reshapes our understanding of history, in a work as resonant today as it was on first publication, now for a new generation of readers. This 25th anniversary edition features a new preface by the author, a foreword by Keeanga-Yamahtta Taylor, an afterword by Marisa J. Fuentes and Sarah Haley, notations with Cameron Rowland, and compositions by Torkwase Dyson.

Diversity and Society Joseph F. Healey 2011-03-02 Derived in part from Joseph F. Healey’s best-selling text *Race, Ethnicity, Gender, and Class*, this accessible 10-chapter text teaches concepts and theories through current, engaging topics, such as the Obama election and presidency and the economic recession. An analysis of minority-dominant relations is presented clearly, reinforced through case studies, and enhanced through gender and comparative perspectives. Particular emphasis is given to the history of race and ethnicity in the United States with more coverage than any other brief text.

We Are Not Yet Equal Carol Anderson 2020-08-06 This young adult adaptation of the *New York Times* bestselling *White Rage* is essential antiracist reading for teens. An

NAACP Image Award finalist A Kirkus Reviews Best Book of the Year A NYPL Best Book for Teens History texts often teach that the United States has made a straight line of progress toward Black equality. The reality is more complex: milestones like the end of slavery, school integration, and equal voting rights have all been met with racist legal and political maneuverings meant to limit that progress. *We Are Not Yet Equal* examines five of these moments: The end of the Civil War and Reconstruction was greeted with Jim Crow laws; the promise of new opportunities in the North during the Great Migration was limited when blacks were physically blocked from moving away from the South; the Supreme Court's landmark 1954 *Brown v. Board of Education* decision was met with the shutting down of public schools throughout the South; the Civil Rights Act of 1964 and Voting Rights Act of 1965 led to laws that disenfranchised millions of African American voters and a War on Drugs that disproportionately targeted blacks; and the election of President Obama led to an outburst of violence including the death of Black teen Michael Brown in Ferguson, Missouri as well as the election of Donald Trump. Including photographs and archival imagery and extra context, backmatter, and resources specifically for teens, this book provides essential history to help work for an equal future.

American Ethnic History Jason J. McDonald 2007-05-25 This book provides a new framework for examining and comprehending the varied historical experiences of ethnic groups in the United States. Thematically organized and comparative in outlook, it explores how historians have grappled with questions that bear upon a key aspect of the American experience:

ethnicity. How did the United States come to have such an ethnically diverse population? What contribution, if any, has this ethnic diversity made to the shaping of American culture and institutions? How easily and at what levels have ethnic and racial minorities been incorporated, if at all, into the social and economic structures of the United States? Has incorporation been a uniform process or has it varied from group to group? As well as providing readers with an accessible yet authoritative introduction to the field of American ethnic history, the book serves as a valuable reference tool for more experienced researchers. Key Features: *Adopts a comparative and thematic approach that helps to demystify this complex and controversial subject.* Provides an orderly and readable introduction to the main issues and debates surrounding the topic.* Detailed and broad-ranging discussion of historiography enables readers to find more specialized works on topics in which they are interested.

Under the Affluence Tim Wise 2015-09-21 "Tim Wise is one of the great public moralists in America today. In his bracing new book, *Under the Affluence*, he brilliantly engages the roots and ramifications of radical inequality in our nation, carefully detailing the heartless war against the poor and the swooning addiction to the rich that exposes the moral sickness at the heart of our culture. Wise's stirring analysis of our predicament is more than a disinterested social scientific treatise; this book is a valiant call to arms against the vicious practices that undermine the best of the American ideals we claim to cherish. *Under the Affluence* is vintage Tim Wise: smart, sophisticated, conscientious, and righteously indignant at the betrayal of millions

of citizens upon whose backs the American Dream rests. This searing testimony for the most vulnerable in our nation is also a courageous cry for justice that we must all heed."—Michael Eric Dyson, author of *The Black Presidency: Barack Obama and the Politics of Race in America*

Tim Wise is one of America's most prolific public intellectuals. His critically acclaimed books, high-profile media interviews, and year-round speaking schedule have established him as an invaluable voice in any discussion on issues of race and multicultural democracy. In *Under the Affluence*, Wise discusses a related issue: economic inequality and the demonization of those in need. He reminds us that there was a time when the hardship of fellow Americans stirred feelings of sympathy, solidarity for struggling families, and support for policies and programs meant to alleviate poverty. Today, however, mainstream discourse blames people with low income for their own situation, and the notion of an intractable "culture of poverty" has pushed our country in an especially ugly direction. Tim Wise argues that far from any culture of poverty, it is the culture of predatory affluence that deserves the blame for America's simmering economic and social crises. He documents the increasing contempt for the nation's poor, and reveals the forces at work to create and perpetuate it. With clarity, passion and eloquence, he demonstrates how America's myth of personal entitlement based on merit is inextricably linked to pernicious racial bigotry, and he points the way to greater compassion, fairness, and economic justice. Tim Wise is the author of many books, including *Dear White America* and *Colorblind*.

Strangers from a Different Shore
Professor Department of Ethnic

Studies Ronald Takaki 2012-11 In an extraordinary blend of narrative history, personal recollection, & oral testimony, the author presents a sweeping history of Asian Americans. He writes of the Chinese who laid tracks for the transcontinental railroad, of plantation laborers in the canefields of Hawaii, of "picture brides" marrying strangers in the hope of becoming part of the American dream. He tells stories of Japanese Americans behind the barbed wire of U.S. internment camps during World War II, Hmong refugees tragically unable to adjust to Wisconsin's alien climate & culture, & Asian American students stigmatized by the stereotype of the "model minority." This is a powerful & moving work that will resonate for all Americans, who together make up a nation of immigrants from other shores.

Unfolding Islamophobic Racism in American Fiction Humaira Riaz 2022

Unfolding Islamophobic Racism in American Fiction explores Islamophobia as a manifestation of racism by deconstructing selected literary works. Through the works of Lorraine Adams, John Updike and Don DeLillo, the author proposes a thorough discursive understanding of Islam as a code of life.

Race and Theology Dr. Elaine A.

Robinson 2012-10-01 White privilege and racial injustice persist in the Church; and despite a commitment to promote justice for all, racism is a reality of life, and has been since before the founding of our nation. In addition throughout most of our nation's history, theology, as a discipline, has remained silent about racism and, at its worst, overtly supported racist practices. This book, examines: 1) what racism is and how it functions, especially in the contemporary setting; 2) how the United States has claimed to be God's chosen nation, yet systematically

disadvantages persons of color; 3) how theology's silence sustains racial injustice in the Church, rather than excises it; and 4) how reformulating theological discourse can contribute to racial justice within ecclesial communities and the larger landscape of society. The Horizons in Theology series offers brief but highly engaging essays on the major concerns and questions in theological studies. Each volume addresses in a clear and concise style the scope and contours of a fundamental question as it relates to theological inquiry and application; sketches the nature and significance of the subject; and opens the broader lines of discussion in suggestive, evocative, and programmatic ways. Written by senior scholars in the field, and ideally suited as supplements in the classroom, Horizons will be an enduring series that brings into plain language the big questions of theology. It will inspire a new generation of students to eagerly embark on a journey of reflective study.

A Young People's History of the United States Howard Zinn 2011-01-04
A Young People's History of the United States brings to US history the viewpoints of workers, slaves, immigrants, women, Native Americans, and others whose stories, and their impact, are rarely included in books for young people. A Young People's History of the United States is also a companion volume to *The People Speak*, the film adapted from *A People's History of the United States* and *Voices of a People's History of the United States*. Beginning with a look at Christopher Columbus's arrival through the eyes of the Arawak Indians, then leading the reader through the struggles for workers' rights, women's rights, and civil rights during the nineteenth and twentieth centuries, and ending with the current protests against continued American imperialism, Zinn in the volumes of *A Young People's History of the United States* presents a radical new way of understanding America's history. In so doing, he reminds readers that America's true

greatness is shaped by our dissident voices, not our military generals. *Race in North America* Audrey Smedley 2018-04-20 This sweeping work traces the idea of race for more than three centuries to show that 'race' is not a product of science but a cultural invention that has been used variously and opportunistically since the eighteenth century. Updated throughout, the fourth edition of this renowned text includes a compelling new chapter on the health impacts of the racial worldview, as well as a thoroughly rewritten chapter that explores the election of Barack Obama and its implications for the meaning of race in America and the future of our racial ideology. Covering Canadian Crime Chris Richardson 2016-01-01 Crime reporting, in one form or another, is as old as crime itself. Almost all young reporters have spent some time on this beat, and their work affects all of us. *Covering Canadian Crime* offers a deep and detailed look at perennial issues in crime reporting and how changes in technology, business practices, and professional ethics are affecting today's crime coverage. Social media in the courtroom, the stigmatization of mental illness, the influence of police media units, the practice of knocking on victims' doors, the culture of masculinity in the newsroom: these are among the topics of discussion, explored from various disciplinary perspectives and combined with poignant interviews and thought-provoking introspection from seasoned journalists such as Christie Blatchford, Timothy Appleby, Linden MacIntyre, Kim Bolan, and Peter Edwards. A critical account of the challenges involved in crime reporting in ethical, informed, and powerful ways, *Covering Canadian Crime* poses the questions that

the public at large need to ask and to answer.

Latino Immigrants in the United States

Ronald L. Mize 2012-02-06 This timely and important book introduces readers to the largest and fastest-growing minority group in the United States - Latinos - and their diverse conditions of departure and reception. A central theme of the book is the tension between the fact that Latino categories are most often assigned from above, and how those defined as Latino seek to make sense of and enliven a shared notion of identity from below. Providing a sophisticated introduction to emerging theoretical trends and social formations specific to Latino immigrants, chapters are structured around the topics of Latinidad or the idea of a pan-ethnic Latino identity, pathways to citizenship, cultural citizenship, labor, gender, transnationalism, and globalization. Specific areas of focus include the 2006 marches of the immigrant rights movement and the rise in neoliberal nativism (including both state-sponsored restrictions such as Arizona's SB1070 and the hate crimes associated with Minutemen vigilantism). The book is a valuable contribution to immigration courses in sociology, history, ethnic studies, American Studies, and Latino Studies. It is one of the first, and certainly the most accessible, to fully take into account the plurality of experiences, identities, and national origins constituting the Latino category.

West of Kabul, East of New York Tamim Ansary 2003-03-01 A passionate personal journey through two cultures in conflict Shortly after militant Islamic terrorists destroyed the World Trade Center, Tamim Ansary of San Francisco sent an e-mail to twenty friends, telling how the threatened U.S. reprisals against Afghanistan looked to him as an Afghan American. The message spread, and in a few days it had reached, and affected, millions of people-Afghans and Americans, soldiers and pacifists, conservative Christians and talk-show hosts; for the message, written in twenty minutes, was one Ansary had been writing all his life. *West of Kabul, East of New York* is an urgent communiqué by an American with "an Afghan soul still inside me," who has lived in the very different worlds of Islam and the secular West. The son of an Afghan man and the first American woman to live as an Afghan, Ansary grew up in the intimate world of Afghan family life, one never seen by outsiders. No sooner had he emigrated to San Francisco than he was drawn into the community of Afghan expatriates sustained by the dream of returning to their country -and then drawn back to the Islamic world himself to discover the nascent phenomenon of militant religious fundamentalism. Tamim Ansary has emerged as one of the most eloquent voices on the conflict between Islam and the West. His book is a deeply personal account of the struggle to reconcile two great civilizations and to find some point in the imagination where they might meet.

Blauner's incisive writing on race relations has drawn a wide and varied audience. Whether his topic is the Watts riots in 1965, Chicano culture, or the tension between Blacks and Jews, his work is remarkable for its originality and candor. Beginning with the key essays of his landmark book, *Racial Oppression in America*, this volume makes the case that race and racism still permeate every aspect of American experience. Blauner launched his concept of internal colonialism in the turbulent 1960's, a period in which many Americans worried that racial conflicts would propel the country into another civil war. The notion that the systematic oppression of people of color in the United States resembles the situation of colonized populations in Third World countries still informs much of the academic research on race as well as public discourse. Indeed, today's critical race and whiteness studies are deeply indebted to Blauner's work on internal colonialism and the pervasiveness of white privilege. Offering a radical perspective on the United States' racial landscape, Bob Blauner forcefully argues that we ignore the persistence of oppression and our continui

A Different Mirror for Young People
Ronald Takaki 2012-10-16 A longtime professor of Ethnic Studies at the University of California at Berkeley, Ronald Takaki was recognized as one of the foremost scholars of American ethnic history and diversity. When the first edition of *A Different Mirror* was published in 1993, Publishers Weekly called it "a brilliant revisionist history of America that is likely to become a classic of multicultural studies" and named it one of the ten best books of

the year. Now Rebecca Stefoff, who adapted Howard Zinn's best-selling *A People's History of the United States* for younger readers, turns the updated 2008 edition of Takaki's multicultural masterwork into *A Different Mirror for Young People*. Drawing on Takaki's vast array of primary sources, and staying true to his own words whenever possible, *A Different Mirror for Young People* brings ethnic history alive through the words of people, including teenagers, who recorded their experiences in letters, diaries, and poems. Like Zinn's *A People's History*, Takaki's *A Different Mirror* offers a rich and rewarding "people's view" perspective on the American story.

A Different Mirror Ronald Takaki
2012-06-05 Takaki traces the economic and political history of Indians, African Americans, Mexicans, Japanese, Chinese, Irish, and Jewish people in America, with considerable attention given to instances and consequences of racism. The narrative is laced with short quotations, cameos of personal experiences, and excerpts from folk music and literature. Well-known occurrences, such as the Triangle Shirtwaist Factory Fire, the Trail of Tears, the Harlem Renaissance, and the Japanese internment are included. Students may be surprised by some of the revelations, but will recognize a constant thread of rampant racism. The author concludes with a summary of today's changing economic climate and offers Rodney King's challenge to all of us to try to get along. Readers will find this overview to be an accessible, cogent jumping-off place for American history and political science plus a guide to the myriad other sources identified in the notes.
