Why the left loses Manwaring, Rob 2017-11-01 Social Democracy is on the back-foot, and increasingly centre-left political parties are struggling to win office. Bringing together a range of leading academics and experts on social democratic politics and policy, Why the left loses offers an international, comparative view of the changing political landscape, examining the degree to which the centre-left project is exhausted and is able to renew its message in a neo-liberal age. Using case studies from the UK, Germany, Spain, France, Australia and New Zealand contributors argue that despite different local and specific contexts, the mainstream centre-left is beset by a range of common challenges. Analysis focuses on institutional and structural factors, the role of key individuals, especially party leaders, and the atrophy of progressive ideas in explaining why the centre-left is currently in retreat. Why the Left Loses is aimed at stimulating wider debate about the fortunes of the centre-left.

Achtung-Panzer! Heinz Guderian 1995 This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent

mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World

War. Published in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued,

quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two

years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he

had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and

extensive background notes by the modern English historian Paul Harris.
