Teaching Translation from Spanish to English Allison Beeby Lonsdale 1996 While many

professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of directionality and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence, student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting

and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.

Experiencias y reflexiones sobre la docencia en la ingeniería en tiempos de COVID-19.

Lecciones aprendidas Manuel Lucas Miralles
2021-12-10 Desde que el 13 de marzo de 2020 se anunciara el estado de alarma en el territorio español y, como consecuencia, la suspensión de la actividad educativa y formativa presencial en todos los niveles de enseñanza del país, nuestra forma de trabajar, relacionarnos, vivir... ha cambiado. El mundo académico y la docencia universitaria no han sido una excepción. Este documento muestra una recopilación de experiencias y reflexiones del profesorado de la Escuela Politécnica Superior de Elche sobre la

docencia en estos tiempos tan inciertos mostrando su capacidad de respuesta, compromiso, dedicación y amor por la profesión. Más allá de pretender ser un libro didáctico, con esta iniciativa se intenta dejar un registro histórico de las situaciones tan extraordinarias que nos ha tocado vivir; reflexionar sobre cómo impartimos las clases y dónde hemos llegado a nivel metodológico. También busca ser una puesta en común que sirva para conocer, aprender y beneficiarnos de las experiencias vividas de los compañeros y compañeras. En el libro se muestran diferentes acciones de Innovación docente encaminadas a superar las barreras impuestas por el distanciamiento social. Encontramos una apuesta generalizada por facilitar el trabajo autónomo como vía para el aprendizaje significativo del estudiantado. Ejemplos de estas acciones de innovación son la creación de laboratorios virtuales 3D, simuladores de circuitos o correctores automáticos de problemas. La gamificación

también está presente en diferentes capítulos del libro con el empleo de herramientas como Socrative, Kahoot o, incluso, la descripción de una Escape room. El empleo de la Tecnologías de la Información y la Comunicación (TICs) y los medios tecnológicos al alcance es un asunto transversal. El proceso de decisión de esta innovación docente se presenta en un capítulo atendiendo al análisis de habilidades inherentes a los procesos de cambio, que tienen que ver con la gestión emocional, el liderazgo y la comunicación presentes en estrategias de coaching y mentoring. Además, se incluye un ejemplo de internacionalización virtual de la docencia en este periodo en el que la movilidad ha estado muy limitada. Mención aparte merece una cuestión esencial de este nuevo paradigma docente, como es la evaluación. Si bien mayoritariamente se apuesta por la evaluación continua, la puesta en práctica es muy diversa, así como la forma de realizar las pruebas. Incluso se presentan conclusiones discrepantes en

diferentes capítulos, lo que da muestra de la complejidad de la cuestión y enriquece la discusión. Los resultados en la mayoría de casos se refieren a la comparativa de las tasas académicas alcanzadas entre los modos docentes experimentados: presencial, online y dual. También se presentan diferentes resultados de encuestas de opinión del estudiantado en términos de valoración de la calidad docente, de respaldo de las acciones de innovación o de la carga de trabajo percibida. Como si de una novela se tratara, a lo largo de los diferentes capítulos, el documento cuenta una historia común con sus personajes principales (estudiantes y profesorado) y personajes secundarios (gestores, personal de administración y servicios, familias, etc). Se muestra el contexto y el acontecimiento desencadenante de los hechos (el citado episodio pandémico). Los escenarios y ambientes de trabajo son parte esencial de lo narrado. Se identifican los momentos clave para la puesta en

práctica de nuevas metodologías docentes y de la evaluación del estudiantado. Finalmente se encuentra el desenlace del viaje que ha sido la docencia de estos dos últimos cursos, sacando conclusiones de los resultados académicos y de la opinión del estudiantado. Con todo eso se ha hecho una lectura en positivo extrayendo las lecciones aprendidas. En relación al tono, por momentos encontraremos capítulos con un análisis científico y otros con narraciones mucho más personales. La incertidumbre, el drama, la crítica (autocrítica la mayoría de veces) y hasta el humor están presentes en este trabajo que ha sido un placer coordinar y que confiamos también lo sea su lectura.

Indigenous Peoples' Food Systems Harriet V. Kuhnlein 2009 Today, globalisation and homogenisation have replaced local food cultures. The 12 case studies presented in this book show the wealth of knowledge in indigenous communities in diverse ecosystems, the richness of their food resources, the inherent strengths of

the local traditional food systems, how people think about and use these foods, the influx of industrial and purchased food, and the circumstances of the nutrition transition in indigenous communities. The unique styles of conceptualising food systems and writing about them were preserved. Photographs and tables accompany each chapter.

Youth Daniela Trucco 2016 This book offers a portrayal of the opportunities for social inclusion

afforded to young people in Latin America and the Caribbean, with a view to building stronger youth policies in the region. The youth population must be included in development processes if progress is to be made towards more egalitarian societies because of what they mean in relation to dependency rates and the needs and issues particular to this stage of life. ECLAC construes the process of inclusion in society from a rights based perspective that transcends the basic pillars of education and employment to encompass other dimensions of social inclusion that are crucial for young people to progress not only in the objective parameters of inclusion, but also in subjective ones, so that they can feel part of a society they help to build. It examines education and the transition towards employment, access to health and important health-related considerations for this age group, the increasingly violent contexts facing youth, the cultural sphere --with particular attention to digital culture-- and political participation by

young people, all from the perspective of coordinated sectoral policies.

Extra-grammatical Morphology in English Elisa

Mattiello 2013-01-30 Extra-grammatical morphology is a hitherto neglected area of research, highly marginalised because of its irregularity and unpredictability. Yet many neologisms in English are formed by means of extra-grammatical mechanisms, such as abbreviation, blending and reduplication, which therefore deserve both greater attention and more systematic study. This book analyses such phenomena.
