in a wider discursive space than is usually the case and treats it as an object of theoretical enquiry, rather than as a commercial label. The editors and distinguished group of contributors offer a range of approaches and case studies whose organizing principle is the developing idea of polycentrism as applied to cinema. They refine and redefine key concepts in film studies, including identification and identity, narrative and realism, allegory and the national project, auteurism and the popular, art and genre. They re-evaluate how cinema shapes and responds to the philosophical, cultural and political effects of transnationalism and cosmopolitanism in the age of the moving image, and explore the interconnectedness of films produced worldwide, as well as the links between cinema and other visual cultural forms. The contributors include: John Caughie, Felicia Chan, Tiago de Luca, Rajinder Dudrah, Song Hwee Lim, Laura Mulvey, Lucia Nagib, Geoffrey Nowell-Smith, Chris Perriam, Ashish Rajadhyaksha, Paul Julian Smith, and Ismail Xavier.

[Museum Matters Miruna Achim 2021-08-24 This is a book about objects. Stones, ruins, bones, mummies, mannequins, statues, photographs, fakes, instruments, and natural history specimens all formed part of Mexico's National Museum complex at different moments across two centuries of collecting and display. Museum Matters traces the emergence, consolidation, and dispersal of this national museum complex by telling the stories of its objects. Objects that have been separated over time are brought back together in this book in order to shed light on the interactions and processes that have forged things into symbols of science, aesthetics, and politics. The contributors to this volume illuminate how collections came into being or ceased to exist over time, or how objects moved in and out of collections and museum spaces. They explore what it means to move things physically and spatially, as well as conceptually and symbolically. Museum Matters unravels the concept of the national museum. By unmaking the spaces, frameworks, and structures that form the complicated landscape of national museums, this volume brings a new way to understand the storage, displays, and claims about the Mexican nation's collections today. Contributors Miruna Achim, Christina Bueno, Laura Cházaro, Susan Deans-Smith, Frida Gorbach, Haydeé López Hernández, Carlos Mondragón, Bertina Olmedo Vera, Sandra Rozental, Mario Rufer](#)

**Sustenance for the Body & Soul** Dr Debra D Andrist 2021-10-27 The food-secure and/or privileged worldwide no longer eat and drink simply to maintain life itself. They have the advantage and choice to regard "sustenance" not just as fuel for the body/machine but as a source of pleasure and entertainment for the mind/intellect. This enhanced concept of "sustenance" embraces all the senses: visual, auditory, olfactory, gustatory and tactile, thus including not just food & drink but ceremonies & art forms dealing with them. This book explores the substantive ways food & drink impact human existence. The work comprises five parts: medicine; ceremonies; literature & cinema; art & artists; space/architecture & advertising/art. Food & drink start with the physical, morph into nutrition, the most basic requirements for organic life, but progress from the beginning of physical process to ceremony and expression. The result and the experience highlight physiological and sensual concepts, and indeed, preference. Food & drink staples are determined by geographic availability and cuisine & beverage are closely associated with culture & ethnicity. Contributor exploration is wide-ranging: Aztec, Mexican & Spanish medicine; African & Roman Catholic rites; cookbook discourse and socio-gender influence; literature, including cultural comparisons of cooking and cooks; preparation & representation of food & drink as artistic endeavours, including by Latin American women, and types of inspirational "fodder", especially in the context of Picasso's art in Spain & France, & Spanish wine museums & labelling. Sustenance for the Body & Soul is the seventh book in the Hispanic Worlds series, details of which are available on the press website.

**Spain, a Global History** Luis Francisco Martinez Montes 2018-11-12 From the late fifteenth to the nineteenth centuries, the Hispanic Monarchy was one of the largest and most diverse political communities known in history. At its apogee, it stretched from the Castilian plateau to the high peaks of the Andes; from the cosmopolitan cities of Seville, Naples, or Mexico City to Santa Fe and San Francisco; from Brussels to Buenos Aires and from Milan to Manila. During those centuries, Spain left its imprint across vast continents and distant oceans contributing in no minor way to the emergence of our globalised era. This was true not only in an economic sense—the Hispano-American silver peso transported across the Atlantic and the Pacific by the Spanish fleets was arguably the first global currency, thus facilitating the creation of a world economic system—but intellectually and artistically as well. The most extraordinary cultural exchanges took place in practically every corner of the Hispanic world, no matter how distant from the metropolis. At various times a descendant of the Aztec nobility was translating a Baroque play into Nahuatl to the delight of an Amerindian and mixed audience in the market of Tlatelolco; an Andalusian Dominican priest was writing the first Western grammar of the Chinese language in Fuzhou, a Chinese city that enjoyed a trade monopoly with the Spanish Philippines; a Franciscan friar was composing a piece of polyphonic music with lyrics in Quechua to be played in a church decorated with Moorish-style ceilings in a Peruvian valley; or a multi-ethnic team of Amerindian and Spanish naturalists was describing in Latin, Spanish and local vernacular languages thousands of medicinal plants, animals and minerals previously unknown to the West. And, most probably, at the same time that one of those exchanges were happening, the members of the School of Salamanca were laying the foundations of modern international law or formulating some of the first modern theories of price, value and money, Cervantes was writing Don Quixote, Velázquez was painting Las Meninas, or Goya was exposing both the dark and bright sides of the European Enlightenment. Actually, whenever we contemplate the galleries devoted to Velázquez, El Greco, Zurbarán, Murillo or Goya in the Prado Museum in Madrid; when we visit the National Palace in Mexico City, a mission in California, a Jesuit church in Rome or the Intramuros quarter in Manila; or when we hear Spanish being spoken in a myriad of accents in the streets of San Francisco, New Orleans or Manhattan we are experiencing some of the past and present fruits of an always vibrant and still expanding cultural community. As the reader can infer by now, this book is about how Spain and the larger Hispanic world have contributed to world history and in particular to the history of civilisation, not only at the zenith of the Hispanic Monarchy but throughout a much longer span of time.

adored adventure. In November, 1930, she was thrilled to realize her dream of traveling to the United States to live in San Francisco, Detroit, and New York. Still, leaving her family and her country for the first time was monumental. Only twenty-three and newly married to the already world-famous forty-three-year-old Diego Rivera, she was at a crossroads in her life and this new place, one filled with magnificent beauty, horrific poverty, racial tension, anti-Semitism, ethnic diversity, bland Midwestern food, and a thriving music scene, pushed Frida in unexpected directions. Shifts in her style of painting began to appear, cracks in her marriage widened, and tragedy struck, twice while she was living in Detroit. Frida in America is the first in-depth biography of these formative years spent in Gringolandia, a place Frida couldn't always understand. But it's precisely her feelings of being a stranger in a strange land that fueled her creative passions and an even stronger sense of Mexican identity. With vivid detail, Frida in America recreates the pivotal journey that made Senora Rivera the world famous Frida Kahlo.

As famous for her self-portraits and haunting imagery as she was for her marriage to another famous artist, Diego Rivera, this strong and courageous painter was inspired by the ancient culture and history of her beloved homeland, Mexico. Her paintings continue to inform and inspire popular culture around the world.

**Automated Grammatical Error Detection for Language Learners** Claudia Leacock 2010-05-11 It has been estimated that over a billion people are using or learning English as a second or foreign language, and the numbers are growing not only for English but for other languages as well. These language learners provide a burgeoning market for tools that help identify and correct learners' writing errors. Unfortunately, the errors targeted by typical commercial proofreading tools do not include those aspects of a second language that are hardest to learn. This volume describes the types of constructions English language learners find most difficult -- constructions containing prepositions, articles, and collocations. It provides an overview of the automated approaches that have been developed to identify and correct these and other classes of learner errors in a number of languages. Error annotation and system evaluation are particularly important topics in grammatical error detection because there are no commonly accepted standards. Chapters in the book describe the options available to researchers, recommend best practices for reporting results, and present annotation and evaluation schemes. The final chapters explore recent innovative work that opens new directions for research. It is the authors' hope that this volume will contribute to the growing interest in grammatical error detection by encouraging researchers to take a closer look at the field and its many challenging problems. Table of Contents: Introduction / History of Automated Grammatical Error Detection / Special Problems of Language Learners / Language Learner Data / Evaluating Error Detection Systems / Article and Preposition Errors / Collocation Errors / Different Approaches for Different Errors / Annotating Learner Errors / New Directions / Conclusion

**Dreamers** Yuyi Morales 2018-09-04 We are resilience. We are hope. We are dreamers. Yuyi Morales brought her hopes, her passion, her strength, and her stories with her, when she came to the United States in 1994 with her infant son. She left behind nearly everything she owned, but she didn't come empty-handed. From the author-illustrator of Bright Star, Dreamers is a celebration of making your home with the things you always carry: your resilience, your dreams, your hopes and history. It's the story of finding your way in a new place, of navigating an unfamiliar world and finding the best parts of it. In dark times, it's a promise that you can make better tomorrows. This lovingly-illustrated picture book memoir looks at the myriad gifts migrants bring with them when they leave their homes. It's a story about family. And it's a story to remind us that we are all dreamers, bringing our own strengths wherever we roam. Beautiful and powerful at any time but given particular urgency as the status of our own Dreamers becomes uncertain, this is a story that is both topical and timeless. The lyrical text is complemented by sumptuously detailed illustrations, rich in symbolism. Also included are a brief autobiographical essay about Yuyi's own experience, a list of books that inspired her (and still do), and a description of the beautiful images, textures, and mementos she used to create this book. A parallel Spanish-language edition, Soñadores, is also available. Winner of the Pura Belpré Illustrator Award! **María Izquierdo and Frida Kahlo** Nancy Deffebach 2015-08-15 María Izquierdo (1902-1955) and Frida Kahlo (1907-1954) were the first two Mexican women artists to achieve international recognition. During the height of the Mexican muralist movement, they established successful careers as easel painters and created work that has become an integral part of Mexican modernism. Although the iconic Kahlo is now more famous, the two artists had comparable reputations during their lives. Both were regularly included in major exhibitions of Mexican art, and they were invariably the only women chosen for the most important professional activities and honors. In a deeply informed study that prioritizes critical analysis over biographical interpretation, Nancy Deffebach places Kahlo's and Izquierdo's oeuvres in their cultural context, examining the ways in which the artists participated in the national and artistic discourses of postrevolutionary Mexico. Through iconographic analysis of paintings and themes within each artist's oeuvre, Deffebach discusses how the artists engaged intellectually with the issues and ideas of their era, especially Mexican national identity and the role of women in society. In a time when Mexican artistic and national discourses associated the nation with masculinity, Izquierdo and Kahlo created images of women that deconstructed gender roles, critiqued the status quo, and presented more empowering alternatives for women. Deffebach demonstrates that, paradoxically, Kahlo and Izquierdo became the most successful Mexican women artists of the modernist period while most directly challenging the prevailing ideas about gender and what constitutes important art.

**Dangerous Curves** Isabel Molina-Guzman 2010-02-01 With images of Jennifer Lopez's butt and America Ferrera's smile saturating national and global culture, Latina bodies have become an ubiquitous presence. *Dangerous Curves* traces the visibility of the Latina body in the media and popular culture by analyzing a broad range of popular media including news, media gossip, movies, television news, and online audience discussions. Isabel Molina-Guzmán maps the ways in which the Latina body is gendered, sexualized, and racialized within the United States media using a series of fascinating case studies. The book examines tabloid headlines about Jennifer Lopez's indomitable sexuality, the contested authenticity of Salma Hayek's portrayal of Frida Kahlo in the movie *Frida*, and America Ferrera's universally appealing yet racially sublimated Ugly Betty character. *Dangerous Curves* carves out a mediated terrain where these racially ambiguous but ethnically marked feminine bodies sell everything from haute couture to tabloids. Through a careful examination of the cultural tensions embedded in the visibility of Latina bodies in United States media culture, Molina-Guzmán paints a nuanced portrait of the media's role in shaping public knowledge about Latina identity and Latinidad, and the ways political and social forces shape media representations.

**Textual and Contextual Voices of Translation** Cecilia Alvstad 2017-10-15 The notion of voice has been used in a number of ways within Translation Studies. Against the backdrop of these different uses, this book looks at the voices of translators, authors, publishers, editors and readers both in the translations themselves and in the texts that surround these translations. The various authors go on a hunt for translational agents' voice imprints in a variety of textual and contextual material, such as literary and non-literary translations, book reviews, newspaper articles, academic texts and e-mails. While all stick to the principle of studying text and context together, the different contributions also demonstrate how specific textual and contextual circumstances require adapted methodological solutions, ending up in a collection that takes steps in a joint direction but that is at the same time complex and pluralistic. The book is intended for scholars and students of Translation Studies, Comparative Literature, and other disciplines within Language and Literature.
