Strategic Communications in Africa Hugh Mangeya 2021-12-24 Strategic communication is a pre-requisite for the achievement of organisational goals, and an effective strategic communication plan is vital for organisational success. However, systems and models dominant in the West may not necessarily be best suited for the sub-Saharan Africa reality, where many organisations lack adequate financial resources to develop and implement an effective strategic communication plan. This book examines current practices in sub-Saharan Africa, as well as the challenges faced and the intersection with culture. It packages inspiring debates, experiences and insights relating to strategic communication in all types of institutions, including private and public sector organisations, governmental organisations and NGOs, political parties as well as social movements in the sub-Saharan context. It explores how culture is integral to the attainment of strategic communication goals, and diverse case studies across socio-economic contexts offer insights into the successes of organisations across Africa, including Zimbabwe, Tanzania, Lesotho and Nigeria. This unique edited collection is a valuable resource for worldwide scholars, researchers and students of strategic communication and organisational studies, as well as related fields including public relations, advertising, political and health communication and international studies.

Breaking Down the Wall Margarita Espino Calderon 2019-09-11 It was a dark and stormy night in Santa Barbara. January 19, 2017. The next day's inauguration drumroll played on the evening news. Huddled around a table were nine Corwin authors and their publisher, who together have devoted their careers to equity in education. They couldn't change the weather, they couldn't heal a fractured country, but they did have the power to put their collective wisdom about EL education upon the page to ensure our multilingual learners reach their highest potential. Proudly, we introduce you now to the fruit of that effort: *Breaking Down the Wall: Essential Shifts for English Learners' Success*. In this first-of-a-kind collaboration, teachers and leaders, whether in small towns or large urban centers, finally have both the research and the practical strategies to take those first steps toward excellence in educating our culturally and linguistically diverse children. It's a book to be celebrated because it means we can throw away the dark glasses of deficit-based approaches and see children who come to school speaking a different home language for what they really are: learners with tremendous assets. The authors' contributions are arranged in nine chapters that become nine tenets for teachers and administrators to use as calls to actions in their own efforts to realize our English learners' potential: 1. From Deficit-Based to Asset-Based 2. From Compliance to Excellence 3. From Watering Down to Challenging 4. From Isolation to Collaboration 5. From Silence to Conversation 6. From Language to Language, Literacy, and Content 7. From Assessment of Learning to Assessment for and as Learning 8. From

Monolingualism to Multilingualism 9. From Nobody Cares to Everyone/Every Community Cares Read this book; the chapters speak to one another, a melodic echo of expertise, classroom vignettes, and steps to take. To shift the status quo is neither fast nor easy, but there is a clear process, and it's laid out here in Breaking Down the Wall. To distill it into a single line would go something like this: if we can assume mutual ownership, if we can connect instruction to all children's personal, social, cultural, and linguistic identities, then all students will achieve.

The Grip of God Rebecca Hazell 2013-07-23 The Grip of God is the first novel in an epic historical trilogy, The Tiger and the Dove. Set in the thirteenth century, its heroine, Sofia, is a young princess of Kievan Rus. She begins her story by recounting her capture in battle and life of slavery to a young army captain in the Mongol armies that are flooding Europe. Not only is her life shattered, it is threatened by the bitter rivalries in her new master's powerful family, and shadowed by the leader of the Mongol invasion, Batu Khan, Genghis Khan's grandson. How will she learn to survive in a world of total war, much less rediscover the love she once took for granted? Always seeking to escape and menaced by outer enemies and inner turmoil, where can she find safe haven even if she can break free? Clear eyed and intelligent, Sofia could be a character from The Game of Thrones, but she refuses to believe that life is solely about the strong dominating the weak or about taking endless revenge. Her story is based on actual historical events, which haunt her destiny. Like an intelligent Forrest Gump, she reflects her times. But as she matures, she learns to reflect on them as well, and to transcend their fetters. In doing so, she recreates a lost era for us, her readers.

A Companion to Spinoza Yitzhak Y. Melamed 2021-07-06 An unparalleled collection of original essays on Benedict de Spinoza's contributions to philosophy and his enduring legacy A Companion to Spinoza presents a panoramic view of contemporary Spinoza studies in Europe and across the Anglo-American world. Designed to stimulate fresh dialogue between the analytic and continental traditions in philosophy, this extraordinary volume brings together 53 original essays that explore Spinoza's contributions to Western philosophy and intellectual history. A diverse team of established and emerging international scholars discuss new themes and classic topics to provide a uniquely comprehensive picture of one of the most influential metaphysicians of all time. Rather than simply summarizing the body of existing scholarship, the Companion develops new ideas, examines cutting-edge scholarship, and suggests directions for future research. The text is structured around six thematically-organized sections, exploring Spinoza's life and background, his contributions to metaphysics and natural philosophy, his epistemology, politics, ethics, and aesthetics, the reception of Spinoza in the work of philosophers such as Kant, Schelling, Schopenhauer, and Hegel, and more. This unparalleled research collection combines a timely overview of the current state of research with deep coverage of Spinoza's philosophy, legacy, and influence. Part of the celebrated Blackwell Companions to Philosophy series, A Companion to Spinoza is an ideal text for advanced courses in modern philosophy, intellectual history, and the history of metaphysics, and an indispensable reference for researchers and scholars in Spinoza studies.

Designing Small Parks Ann Forsyth 2005-10-24 Designing Small Parks: A Manual for Addressing Social and Ecological Concerns provides guidelines for building better parks by integrating design criteria with current social and natural science research. Small parks are too often relegated to being the step-child of municipal and metropolitan open space systems because of assumptions that their small size and isolation limits their recreational capacity and makes them ecologically less valuable than large city and county parks. This manual is arranged around twelve topics that represent key questions, contradictions, or tensions in the design of small parks. Topics cover fundamental issues for urban parks, natural systems, and human aspects. Also included are useful case studies with alternative design solutions using three different approaches for integrating research findings into small urban park design.

The Doves Necklace Raja Alem 2016-05-03 When the body of a young woman is discovered in the Lane of Many Heads, an alley in modern-day Mecca, no one will claim it, as they are ashamed of her nakedness. As Detective Nasser pursues his investigation of the case, seemingly all of Mecca chimes in—including the Lane of Many Heads itself—in this “surreal, meditative take on a murder mystery” (The Guardian, Best Books of Summer). Nasser initially suspects that the dead woman is Aisha, one of the residents of the area, and searches her emails for clues. The world she paints embraces everything from crime and religious extremism to the exploitation of foreign workers by a mafia of building contractors, who are destroying the historic areas of the city. Another view reveals the city through the eyes of Yusuf, Aisha's neighbor, increasingly frustrated by the accelerating pace of change. As gripping as classic noir, nuanced as a Nabokov novel, and labyrinthine as the alleys of Mecca itself, this brilliant fever dream of a novel masterfully reveals a city and a civilization in all its contradictions, at once beholden to brutal customs and uneasily coming to terms with new traditions.

Doves, Diplomats, and Diabetes Milind Watve 2012-08-30 Darwinian medicine looks at the ecological and evolutionary roots of disease. A disease is an interaction between a genome and its biotic or abiotic environment and therefore a disease is essentially an ecological process. Good understanding of ecology and a Darwinian way of thinking can give us novel and useful perspectives on health and disease. If we understand the disease process better, we can certainly prevent, control as well as treat diseases in a better way. Although the thought that the origins of obesity and type 2 diabetes (T2D) might lie in our hunter gatherer adaptations is not new, research over the last decade makes us rethink many of the classical concepts. Brain and behavior is increasingly being recognized as central to all the endocrine, metabolic and immunological changes that earmark type 2 diabetes and other metabolic syndrome disorders. A major change in paradigm appears to be on the horizon and the proposed book intends to speed up the paradigm shift by raising important questions, pointing out flaws and inadequacies in the prevalent paradigm and stimulating radical rethinking which would redirect and refine the line of research as well as bring some fundamental changes in drug discovery and clinical practice.

Fallen Monuments and Contested Memorials Juilee Decker 2023-07-05 Fallen Monuments and Contested Memorials examines how the modification, destruction, or absence of monuments and memorials can be viewed as performative acts that challenge prescribed, embodied narratives in the public realm. Bringing together international, multidisciplinary approaches, the chapters in this volume interrogate the ways in which memorial constructions disclose implicitly and explicitly the proxy battle for public memory and identity, particularly since 2015. Acknowledging the ways in which the past – which is given agency through monuments and memorials – intrudes into daily life, this volume offers perspectives from researchers that answer questions about the roles of monuments and memorials as persistent, yet mutable, works whose meanings are not fixed but are, rather, subject to processes of continual re-interpretation. By using monuments and memorials as lenses through which to view race, memory, and the legacies of war, power, and subjugation, this volume demonstrates how these works, and their visible representations of entitlement, possession, control, and authority, can offer the opportunity to pose and answer questions about whose memory matters and what our symbols say about who we are and what we value. Fallen Monuments and Contested Memorials is essential reading for scholars and students studying cultural heritage, history, art history, and public history. It will be particularly useful to those with an interest in public monuments and memorials; colonial and post-colonial history; memory studies; and nationalism, race, and ethnic studies.

Representing the Sporting Past in Museums and Halls of Fame Murray G. Phillips 2013-06-17 We live in a "museum age," and sport museums are part of this phenomenon. In this book, leading international sport history scholars examine sport museums including renowned institutions like the Olympic Museum in the Swiss city of Lausanne, the Babe Ruth Birthplace and Museum in Baltimore, the Marylebone Cricket Club Museum in London, the Croke Park Museum in Dublin, and the Whyte Museum in Banff. These institutions are examined in a broad context of understanding sport museums as an identifiable genre in the "museum age", and more specifically in terms of how the sporting past is represented in these museums. Historians explain, debate and critique sport museums with the intention of understanding how this important form of public history represents sport for audiences who see museums as institutions that are inherently reliable and trustworthy.

Why Noah Chose the Dove Isaac Bashevis Singer 1987-09-01 "Singer's retelling from the Old Testament gives a new dimension to the story of the Flood. Children will enjoy hearing the different animals praise their own special qualities so that each will be assured a place on Noah's Ark. Of course, all are taken on board, but because the dove is the only one that did not boast, Noah makes the bird his messenger. Commenting that there are more doves in the world today than there are ferocious beasts, Singers says, "The dove lives happily without fighting. It is the bird of peace." Eric Carle's brightly colored collages make this an inviting addition to collections." -School Libaray Journal "Eric Carle, who has a special way with animals, contributes sumptuous pictures to a book which is not to be missed." -Publishers Weekly "This great storyteller has put a new and mildly moral twist on the story of Noah's Ark...and Eric Carle does not disappoint. His cut-out portraits of the animals are colorful and vigorous, and, combined with his paintings, varied and provocative. This is good stuff for hungry little eyes." -The Boston Globe

Dove Robin L. Graham 1991 In 1965, 16-year-old Robin Lee Graham began a solo around-the-world voyage from San Pedro, California, in a 24-foot sloop. Five years and 33,000 miles later, he returned to home port with a wife and daughter and enough extraordinary experiences to fill this bestselling book, *Dove*. **Yesterday, Today, and Tomorrow** Roslyn Arlin Mickelson 2017-11-14 *Yesterday, Today, and Tomorrow* provides a compelling analysis of the forces and choices that have shaped the trend toward the resegregation of public schools. By assembling a wide range of contributors—historians, sociologists, economists, and education scholars—the editors provide a comprehensive view of a community's experience with desegregation and economic development. Here we see resegregation through the lens of Charlotte, North Carolina, once a national model of successful desegregation, and home of the landmark Swann desegregation case, which gave rise to school busing. This book recounts the last forty years of Charlotte's desegregation and resegregation, putting education reform in political and economic context. Within a decade of the Swanncase, the district had developed one of the nation's most successful desegregation plans, measured by racial balance and improved academic outcomes for both black and white students. However, beginning in the 1990s, this plan was gradually dismantled. Today, the level of resegregation in Charlotte has almost returned to what it was prior to 1971. At the core of Charlotte's story is the relationship between social structure and human agency, with an emphasis on how yesterday's decisions and actions define today's choices.
