[Hotels of North America](#) Rick Moody 2015-11-10 From the acclaimed Rick Moody, a darkly comic portrait of a man who comes to life in the most unexpected of ways: through his online reviews. Reginald Edward Morse is one of the top reviewers on RateYourLodging.com, where his many reviews reveal more than just details of hotels around the globe -- they tell his life story. The puzzle of Reginald's life comes together through reviews that comment upon his motivational speaking career, the dissolution of his marriage, the separation from his beloved daughter, and his devotion to an amour known only as "K." But when Reginald disappears, we are left with the fragments of a life -- or at least the life he has carefully constructed -- which writer Rick Moody must make sense of. An inventive blurring of the lines between the real and the fabricated, Hotels of North America demonstrates Moody's masterly ability to push the bounds of the novel.

[Generation Kill](#) Evan Wright 2005-02-01 Based on Evan Wright's National Magazine Award-winning story in Rolling Stone, this is the raw, firsthand account of the 2003 Iraq invasion that inspired the HBO® original mini-series. Within hours of 9/11, America's war on terrorism fell to those like the twenty-three Marines of the First Recon Battalion, the first generation dispatched into open-ended combat since Vietnam. They were a new pop-culture breed of American warrior unrecognizable to their forebears—soldiers raised on hip hop, video games and The Real World. Cocky, brave, headstrong, wary and mostly unprepared for the physical, emotional and moral horrors ahead, the “First Suicide Battalion” would spearhead the blitzkrieg on Iraq, and fight against the hardest resistance Saddam had to offer. Hailed as “one of the best books to come out of the Iraq war”(Financial Times), Generation Kill is the funny, frightening, and profane firsthand account of these remarkable men, of the personal toll of victory, and of the randomness, brutality and camaraderie of a new American War.

[Desert Screen](#) Paul Virilio 2005-06-30 Desert Screen is a vision of future war. Paul Virilio identifies the Gulf War as a turning point in history, the last industrial and the first information war. Virilio argues that we live in a world still exhausted from the geopolitics of the Cold War, a world in which the politics of military and media technology seem to preclude the possibility of negotiation and diplomacy. This new translation of an already classic text includes a new interview with Virilio in which he looks back at a decade of war at the speed of light.

[Slow Violence and the Environmentalism of the Poor](#) Rob Nixon 2011-06-01 “Slow violence” from climate change, toxic drift, deforestation, oil spills, and the environmental aftermath of war takes place gradually and often invisibly. Rob Nixon focuses on the inattention we have paid to the lethality of many environmental crises, in contrast with the sensational, spectacle-driven messaging that impels public activism today.

[The Long Walk](#) Brian Castner 2012-07-10 In the tradition of Michael Herr’s Dispatches and works by such masters of the memoir as Mary Karr and Tobias Wolff, a powerful account of war and homecoming. Brian Castner served three tours of duty in the Middle East, two of them as the commander of an Explosive Ordnance Disposal unit in Iraq. Days and nights he and his team—his brothers—would venture forth in heavily armed convoys from their Forward Operating Base to engage in the nerve-racking yet strangely exhilarating work of either disarming the deadly improvised explosive devices that had been discovered, or picking up the pieces when the alert came too late. They relied on an army of remote-controlled cameras and robots, but if that technology failed, a technician would have to don the eighty-pound Kevlar suit, take the Long Walk up to the bomb, and disarm it by hand. This lethal game of cat and mouse was, and continues to be, the real war within America’s wars in Iraq and Afghanistan. But The Long Walk is not just about battle itself. It is also an unflinching portrayal of the toll war exacts on the men and women who are fighting it. When Castner returned home to his wife and family, he began a struggle with a no less insidious foe, an unshakable feeling of fear and confusion and survivor’s guilt that he terms The Crazy. His thrilling, heartbreaking, stunningly honest book immerses the reader in two harrowing and simultaneous realities: the terror and excitement and camaraderie of combat, and the lonely battle against the enemy within—the haunting memories that will not fade, the survival instincts that will not switch off. After enduring what he has endured, can there ever again be such a thing as “normal”? The Long Walk will hook you from the very first sentence, and it will stay with you long after its final gripping page has been turned.

[Helmet For My Pillow \[Illustrated Edition\]](#) Robert Leckie 2015-11-06 Includes over 220 photos, maps and plans following Robert “Lucky” Leckie’s Pacific War with the 1st Marine Division “Here is one of the most riveting first-person accounts ever to come out of World War II. Robert Leckie enlisted in the United States Marine Corps in January 1942, shortly after the Japanese attack on Pearl Harbor. In Helmet for My Pillow we follow his odyssey, from basic training on

Parris Island, South Carolina, all the way to the raging battles in the Pacific, where some of the war’s fiercest fighting took place. Recounting his service with the 1st Marine Division and the brutal action on Guadalcanal, New Britain, and Peleliu, Leckie spares no detail of the horrors and sacrifices of war, painting an unvarnished portrait of how real warriors are made, fight, and often die in the defense of their country. From the live-for-today rowdiness of marines on leave to the terrors of jungle warfare against an enemy determined to fight to the last man, Leckie describes what war is really like when victory can only be measured inch by bloody inch. Woven throughout are Leckie’s hard-won, eloquent, and thoroughly unsentimental meditations on the meaning of war and why we fight. Unparalleled in its immediacy and accuracy, *Helmet for My Pillow* will leave no reader untouched. This is a book that brings you as close to the mud, the blood, and the experience of war as it is safe to come.”-Print Ed.

*The Invisible Bridge* Rick Perlstein 2015-08-11 The best-selling author of *Nixonland* presents a portrait of the United States during the turbulent political and economic upheavals of the 1970s, covering events ranging from the Arab oil embargo and the era of Patty Hearst to the collapse of the South Vietnamese government and the rise of Ronald Reagan.

*Women in Anthony Swofford’s Jarhead: a Marine’s Chronicle of the Gulf War and other Battles* Lisa-Andrea Glatz 2006-02-02 Seminar paper from the year 2004 in the subject English Language and Literature Studies - Literature, grade: 1, University of Regensburg, course: Proseminar, language: English, abstract: These are the two types into which women can be classificated in the eyes of a Marine. This attitude towards women might be disgusting in the eyes of the reader of Anthony Swofford’s war novel *Jarhead: a Marine’s chronicle of the Gulf War and other battles* (2003) but it seems as if it is normal in the United States Marine Corps, (US MC), to which the author belonged during the first Gulf War. Having grown up in Tachikawa, Japan and having served a ordinary High-School education it is interesting to find out, where this attitude came from and if it already existed in the mind of the author.

**Marines in the Garden of Eden** Richard Lowry 2007-06-05 On March 23, 2003, in the city of An Nasiriyah, Iraq, members of the 507th Maintenance Company came under attack from Iraqi forces who killed or wounded twenty-one soldiers and took six prisoners, including Private Jessica Lynch. For the next week, An Nasiriyah rocked with battle as the marines of Task Force Tarawa fought Saddam's fanatical followers, street by street and building to building, ultimately rescuing Private Lynch.

**Zoot Suit** Kathy Peiss 2011-05-23 ZOOT SUIT (n.): the ultimate in clothes. The only totally and truly American civilian suit. —Cab Calloway, *The Hepster's Dictionary*, 1944 Before the fashion statements of hippies, punks, or hip-hop, there was the zoot suit, a striking urban look of the World War II era that captivated the imagination. Created by poor African American men and obscure tailors, the "drape shape" was embraced by Mexican American pachucos, working-class youth, entertainers, and swing dancers, yet condemned by the U.S. government as wasteful and unpatriotic in a time of war. The fashion became notorious when it appeared to trigger violence and disorder in Los Angeles in 1943—events forever known as the "zoot suit riot." In its wake, social scientists, psychiatrists, journalists, and politicians all tried to explain the riddle of the zoot suit, transforming it into a multifaceted symbol: to some, a sign of social deviance and psychological disturbance, to others, a gesture of resistance against racial prejudice and discrimination. As controversy swirled at home, young men in other places—French zazous, South African tsotsis, Trinidadian saga boys, and Russian stiliagi—made the American zoot suit their own. In *Zoot Suit*, historian Kathy Peiss explores this extreme fashion and its mysterious career during World War II and after, as it spread from Harlem across the United States and around the world. She traces the unfolding history of this style and its importance to the youth who adopted it as their uniform, and at the same time considers the way public figures, experts, political activists, and historians have interpreted it. This outré style was a turning point in the way we understand the meaning of clothing as an expression of social conditions and power relations. *Zoot Suit* offers a new perspective on youth culture and the politics of style, tracing the seam between fashion and social action.

**The Secret Way to War** Mark Danner 2006 Publisher Description

*Jarhead* Anthony Swofford 2005-11-11 Anthony Swofford's *Jarhead* is the first Gulf War memoir by a frontline infantry marine, and it is a searing, unforgettable narrative. When the marines -- or "jarheads," as they call themselves -- were sent in 1990 to Saudi Arabia to fight the Iraqis, Swofford was there, with a hundred-pound pack on his shoulders and a sniper's rifle in his hands. It was one misery upon another. He lived in sand for six months, his girlfriend back home betrayed him for a scrawny hotel clerk, he was punished by boredom and fear, he considered suicide, he pulled a gun on one of his fellow marines, and he was shot at by both Iraqis and Americans. At the end of the war, Swofford hiked for miles through a landscape of incinerated Iraqi soldiers and later was nearly killed in a booby-trapped Iraqi bunker. Swofford weaves this experience of war with vivid accounts of boot camp (which included physical abuse by his drill instructor), reflections on the mythos of the marines, and remembrances of battles with lovers and family. As engagement with the Iraqis draws closer, he is forced to consider what it is to be an American, a soldier, a son of a soldier, and a man. Unlike the real-time print and television coverage of the Gulf War, which was highly scripted by the Pentagon, Swofford's account subverts the conventional wisdom that U.S. military interventions are now merely surgical insertions of superior forces that result in few American casualties. *Jarhead* insists we remember the Americans who are in fact wounded or killed, the fields of smoking enemy corpses left behind, and the continuing difficulty that American soldiers have reentering civilian life. A harrowing yet inspiring portrait of a tormented consciousness struggling for inner peace, *Jarhead* will elbow for room on that short shelf of American war classics that includes Philip Caputo's *A Rumor of War* and Tim O'Brien's *The Things They Carried*, and be admired not only for the raw beauty of its prose but also for the depth of its pained heart.

**Buddhism for Dudes** Gerry Stribling 2015-08-25 A tough former Marine leads Buddhist basic training for the average Joe. In *Buddhism for Dudes*, Gerry “Strib” Stribling, former Marine and all-around good guy, answers questions on life and living with a healthy dose of Buddhist wisdom for the regular guy. Strib takes a good look at who the Buddha was, meditation, karma, and more. With good humor and without sentimentalism, he explains these down-to-earth insights in everyday language. Showing how Buddhism boldly approaches life’s problems head on, unflinching and alert—like a soldier in a forward listening post in the dark of night—Strib emphasizes the Buddhist call to moral action for the good of oneself and others.

**New Dawn** Richard S. Lowry 2010-05-10 This award-winning “powerful narrative history” presents a vividly detailed chronicle of grueling combat operations in Fallujah during the Iraq War (Midwest Book Review). Few places are as closely associated with blood, sacrifice, and valor as the ancient city Fallujah, forty miles west of Baghdad. This sprawling concrete jungle was the scene of two major U.S. combat operations in 2004. The first, Operation Vigilant Resolve, was an aborted effort by U.S. Marines to punish the city’s insurgents. The second, Operation Phantom Fury, was launched seven months later. Also known as the Second Battle for Fallujah, Operation Phantom Fury was a protracted house-to-house and street-to-street conflict that began on November 7th and continued unabated for seven bloody weeks. It was the largest fight of Operation Iraqi Freedom and the heaviest urban combat since the Battle of Hue City, Vietnam in 1968. By the time the fighting ended, more than 1,400 insurgents were dead, along with ninety-five Americans (and another 1,000 wounded). In *New Dawn*, military historian Richard Lowry draws on archival research, as well as the personal recollections of nearly 200 soldiers and Marines who participated in the battles for Fallujah, from the commanding generals who planned the operations to the privates who kicked in the doors. The result is a gripping narrative of individual sacrifice and valor that also documents the battles for future military historians. Winner of the Military Writers Society of America Gold Medal for History

from afar -- Virginia Kindwall, the daughter of the general who runs the base. Virginia is tough and sophisticated beyond her years, and when she falls in with the Japanese underground her dealings result in her disappearance and Severin is forced to return to America. 2006. Unhappily married and living in San Francisco, Severin's life is turned upside-down by the arrival of a postcard from General Kindwall, now dying in a hospital in Vietnam, asking him to find his daughter before he dies. But the search for Virginia will take him back to the country of his youth, and to unexpected consequences for both. Suffused with the same intensity of emotion and facility with language as *Jarhead*, Anthony Swofford's debut novel marks the arrival of a major new voice in fiction.

**Storm on the Horizon** David Morris 2005-08-30 On January 29, 1991, Saddam Hussein hurled three crack armored divisions into Saudi Arabia, determined to stop the American attempt to liberate Kuwait before it began. Caught without warning in the path of the Iraqi juggernaut were small groups of U.S. Marines and Special Forces soldiers, their weapons no match for the Iraqi tanks bearing down on them. Based on scores of firsthand reports and newly declassified documents, *Storm on the Horizon* is a riveting account of how these elite fighting men not only escaped the Iraqi onslaught but fought their way to victory with true American grit. From the ferocious desert attacks to the desperate street fighting in Khafji, Marine David Morris captures the ordeal through the eyes of men who fought it, giving readers a front-row seat to the bloodiest battle of the Gulf War.

**Simulation, Hyperreality and the Gulf War(s)** Markus Kienscherf 2007-12 Essay from the year 2004 in the subject American Studies - Culture and Applied Geography, grade: Distinction, University of Newcastle upon Tyne (School of English Literature, Language and Linguistics), course: Theorizing the Past, 16 entries in the bibliography, language: English, abstract: "How do things stand with the real event, then, if reality is everywhere infiltrated by images, virtuality and fiction?", asks Jean Baudrillard in his *The Spirit of Terrorism* (Baudrillard 2003:27-28) He already seems to know the answer to this, apparently, purely rhetorical question. Or does he? Baudrillard has become (in)famous for his controversial claim that we are living in an age of simulation and hyperreality, or what he calls the 'third order of simulacra' (Baudrillard 1993:50). The following paper will try to disentangle some of Baudrillard's arguments clustering around ideas of the simulacrum, hyperreality and simulation. Arguing that the last two gulf wars constitute concrete examples of simulation and hyperreality, both in terms of the (hyper)real events on the ground and in terms of the images bombarding our living rooms, it will, then, explore these events in the light of Baudrillard's ideas. In *Simulacra and Simulation* Baudrillard argues that in our current era of simulation the real is preceded by, and generated from, models, in a free play of signifiers which only refer to other signifiers (Baudrillard 1994:1-2). This constitutes the "third order of simulacra", in contrast to the 'second order' which was still dominated by production and a market law of value (Baudrillard 1993:50). Baudrillard uses the term value in both its economic and linguistic sense. Drawing on Marx and Sausurre he differentiates between two dimensions of value. First, there is a structural aspect corresponding to Marx's idea of exchange value. Each sign within a signifying system or each commodity within a system of exchange can be related to each other sign or commodity - "the structural di

*What It Is Like to Go to War* Karl Marlantes 2011-08-30 “A precisely crafted and bracingly honest” memoir of war and its aftershocks from the New York Times–bestselling author of *Matterhorn* (The Atlantic). In 1968, at the age of twenty-three, Karl Marlantes was dropped into the highland jungle of Vietnam, an inexperienced lieutenant in command of forty Marines who would live or die by his decisions. In his thirteen-month tour he saw intense combat, killing the enemy and watching friends die. Marlantes survived, but like many of his brothers in arms, he has spent the last forty years dealing with his experiences. In *What It Is Like to Go to War*, Marlantes takes a candid look at these experiences and critically examines how we might better prepare young soldiers for war. In the past, warriors were prepared for battle by ritual, religion, and literature—which also helped bring them home. While contemplating ancient works from Homer to the Mahabharata, Marlantes writes of the daily contradictions modern warriors are subject to, of being haunted by the face of a young North Vietnamese soldier he killed at close quarters, and of how he finally found a way to make peace with his past. Through it all, he demonstrates just how poorly prepared our nineteen-year-old warriors are for the psychological and spiritual aspects of the journey. In this memoir, the New York Times–bestselling author of *Matterhorn* offers “a well-crafted and forcefully argued work that contains fresh and important insights into what it’s like to be in a war and what it does to the human psyche” (The Washington Post).

**First to Fight** V H Krulak 1999-02-22 In this riveting insider's chronicle, legendary Marine General "Brute" Krulak submits an unprecedented examination of U.S. Marines—their fights on the battlefield and off, their extraordinary esprit de corps. Deftly blending history with autobiography, action with analysis, and separating fact from fable, General Krulak touches the very essence of the Corps: what it means to be a Marine and the reason behind its consistently outstanding performance and reputation. Krulak also addresses the most basic but challenging question of all about the Corps: how does it manage to survive—even to flourish—despite overwhelming political odds and, as the general writes, ""an extraordinary propensity for shooting itself in the foot?"" To answer this question Krulak examines the foundation on which the Corps is built, a system of intense loyalty to God, to country, and to other Marines. He also takes a close look at Marines in war, offering challenging accounts of their experiences in World War II, Korea, and Vietnam. In addition, he describes the Corps's relationship to other services, especially during the unification battles following World War II, and offers new insights into the decision-making process in times of crisis. First published in hardcover in 1984, this book has remained popular ever since with Marines of every rank.

**Jarhead** Anthony Swofford 2003 "Swofford weaves this experience of war with vivid accounts of boot camp (which included physical abuse by his drill instructor), reflections on the mythos of the marines, and remembrances of battles with lovers and family. **Top Secret! What 100 Brave Critics Say about Jarhead** Benjamin Rell 2013-01 In this book, we have hand-picked the most sophisticated, unanticipated, absorbing (if not at times crackpot!), original and musing book reviews of "Jarhead: A Marine's Chronicle of the Gulf War and Other Battles." Don't say we didn't warn you: these reviews are known to shock with their unconventionality or intimacy. Some may be startled by their biting sincerity; others may be spellbound by their unbridled flights of fantasy. Don't buy this book if: 1. You don't have nerves of steel. 2. You expect to get pregnant in the next five minutes. 3. You've heard it all.

**Love My Rifle More than You: Young and Female in the U.S. Army** Kayla Williams 2006-09-17 “Brave, honest, and necessary.”—Nancy Pearl, NPR Seattle Kayla Williams is one of the 15 percent of the U.S. Army that is female, and she is a great storyteller. With a voice that is “funny, frank and full of gritty details” (New York Daily News), she tells of enlisting under Clinton; of learning Arabic; of the sense of duty that fractured her relationships; of being surrounded by bravery and bigotry, sexism and fear; of seeing 9/11 on Al-Jazeera; and of knowing she would be going to war. With a passion that makes her memoir “nearly impossible to put down” (Buffalo News) Williams shares the powerful gamut of her experiences in Iraq, from caring for a wounded civilian to aiming a rifle at a child. Angry at the bureaucracy and the conflicting messages of today’s military, Williams offers us “a raw, unadulterated look at war” (San Antonio Express News) and at the U.S. Army. And she gives us a woman’s story of empowerment and self-discovery.

**Basrah, Baghdad, and Beyond** Nicholas E. Reynolds 2005 This is the story of the Marine Corps in the major combat phase of Operation Iraqi Freedom (OIF). It tells how the Marine Expeditionary Force (MEF) planned and prepared for war in 2002 and deployed to theater in early 2003, and then how it crossed the line of departure and fought its way to Baghdad--and beyond. Written by Marine Corps historian Col. Nicholas Reynolds, this first overview of the history of OIF is solidly grounded in oral history interviews and buttressed by official reports and firsthand journals. It describes not only the execution of the original plan but some of the unusual additions carried out by the Marines, including a small mission sent to Kurdistan to work with local fighters and a task force sent to seize Saddam Hussein's hometown of Tikrit. The book draws to a close with the commanders analyzing the lessons learned in this "transformational" war as the last Marine left the theater in the fall of 2003. While not intended as finished history, this authoritative analysis of what happened will prove useful to students of Marine Corps history and operations and easily accessible to the general reader who wants to understand what the Marines did in a historical context. It is certain to stimulate further research and healthy debate. Comprehensive notes are included for the reader who wants to learn more about a particular part of the war.

**Jarhead** Anthony Swofford 2003 A memoir of the Gulf War by a front-line infantry marine recounts his struggles with the conflict on the front lines, his battles with fear and suicide, his brushes with death, and his identity as a soldier and an American.

*Sunrise Over Fallujah* Walter Dean Myers 2010-02-01 Robin "Birdy" Perry, a new army recruit from Harlem, isn't quite sure why he joined the army, but he's sure where he's headed: Iraq. Birdy and the others in the Civilian Affairs Battalion are supposed to help secure and stabilize the country and successfully interact with the Iraqi people. Officially, the code name for their maneuvers is Operation Iraqi Freedom. But the young men and women in the CA unit have a simpler name for it: WAR

**One Bullet Away** Nathaniel Fick 2006 An ex-Marine captain shares his story of fighting in a recon battalion in both Afghanistan and Iraq, beginning with his brutal training on Quantico Island and following his progress through various training sessions and, ultimately, conflict in the deadliest conflicts since the Vietnam War.

**Hotels, Hospitals, and Jails** Anthony Swofford 2012-06-05 The publication of *Jarhead* launched a new career for Anthony Swofford, earning him accolades for its gritty and unexpected portraits of the soldiers who fought in the Gulf War. It spawned a Hollywood movie. It made Swofford famous and wealthy. It also nearly killed him. Now with the same unremitting intensity he brought to his first memoir, Swofford describes his search for identity, meaning, and a reconciliation with his dying father in the years after he returned from serving as a sniper in the Marines. Adjusting to life after war, he watched his older brother succumb to cancer and his first marriage disintegrate, leading him to pursue a lifestyle in Manhattan that brought him to the brink of collapse. Consumed by drugs, drinking, expensive cars, and women, Swofford lost almost everything and everyone that mattered to him. When a son is in trouble he hopes to turn to his greatest source of wisdom and support: his father. But Swofford and his father didn't exactly have that kind of relationship. The key, he realized, was to confront the man-a philandering, once hard-drinking, now terminally ill Vietnam vet he had struggled hard to understand and even harder to love. The two stubborn, strong-willed war vets embarked on a series of RV trips that quickly became a kind of reckoning in which Swofford took his father to task for a lifetime of infidelities and abuse. For many years Swofford had considered combat the decisive test of a man's greatness. With the understanding that came from these trips and the fateful encounter that took him to a like-minded woman named Christa, Swofford began to understand that becoming a father himself might be the ultimate measure of his life. Elegantly weaving his family's past with his own present-nights of excess and sexual conquest, visits with injured war veterans, and a near-fatal car crash-Swofford casts a courageous, insistent eye on both his father and himself in order to make sense of what his military service meant, and to decide, after nearly ending it, what his life can and should become as a man, a veteran, and a father.

As engagement with the Iraqis drew near, he was forced to consider what it means to be an American, a soldier, a son of a soldier, and a man.

*Marine Corps Tactical Publication MCTP 3-01A Scouting and Patrolling July 2020* United States Governmen Us Marine Corps 2020-08-31 This is United States Marine Corps USMC manual Marine Corps Tactical Publication MCTP 3-01A Scouting and Patrolling July 2020. The evolution of modern warfare prompts the need for advanced and modernized tactics which provide Marines with enhanced scouting and patrolling procedures. Essential in meeting this requirement was the integration of Marine Corps Interim Publication (MCIP) 3-02.1i, Combat Hunter with Marine Corps Tactical Publication (MCTP) 3-01A, Scouting and Patrolling. As witnessed during Operations Iraqi Freedom and Enduring Freedom, the combat tested tactics, techniques, and procedures (TTP) contained herein have matured into effective tools, which-when paired with enhanced scouting techniques and a hunter's mindset to "always be the hunter, never the prey"-are highly effective in conducting patrols. This mindset continues to be taught throughout the training and education continuum for both officers and enlisted Marines alike, from entry-level training to professional military education. Scouting and patrolling skills are an essential part of all tactical operations which assist the commander in developing a deeper understanding of the operational environment, locating threats, determining enemy or adversary intentions, and developing effective methods for targeting them. Marines must be able to make rapid and effective decisions, as well as identify threats from inside or outside of friendly areas. All Marines, regardless of military occupational specialty, should be capable of effectively participating in basic patrolling missions. Therefore, the TTP included herein are applicable across the Marine air-ground task force. This publication supersedes MCTP 3-01A, Scouting and Patrolling, dated 17 April 2001, erratum dated 2 May 2016 and cancels MCIP 3-02.1i, Combat Hunter, dated 4 February 2011.

[The Marines of Montford Point](#) Melton A. McLaurin 2009-11-05 With an executive order from President Franklin Roosevelt in 1941, the United States Marine Corps--the last all-white branch of the U.S. military--was forced to begin recruiting and enlisting African Americans. The first black recruits received basic training at the segregated Camp Montford Point, adjacent to Camp Lejeune, near Jacksonville, North Carolina. Between 1942 and 1949 (when the base was closed as a result of President Truman's 1948 order fully desegregating all military forces) more than 20,000 men trained at Montford Point, most of them going on to serve in the Pacific Theatre in World War II as members of support units. This book, in conjunction with the documentary film of the same name, tells the story of these Marines for the first time. Drawing from interviews with 60 veterans, *The Marines of Montford Point* relates the experiences of these pioneers in their own words. From their stories, we learn about their reasons for enlisting; their arrival at Montford Point and the training they received there;

their lives in a segregated military and in the Jim Crow South; their experiences of combat and service in World War II, Korea, and Vietnam; and their legacy. The Marines speak with flashes of anger and humor, sometimes with sorrow, sometimes with great wisdom, and always with a pride fostered by incredible accomplishment in the face of adversity. This book serves to recognize and to honor the men who desegregated the Marine Corps and loyally served their country in three major wars.

**Code Talker** Chester Nez 2011-09-06 The first and only memoir by one of the original Navajo code talkers of WWII. His name wasn't Chester Nez. That was the English name he was assigned in kindergarten. And in boarding school at Fort Defiance, he was punished for speaking his native language, as the teachers sought to rid him of his culture and traditions. But discrimination didn't stop Chester from answering the call to defend his country after Pearl Harbor, for the Navajo have always been warriors, and his upbringing on a New Mexico reservation gave him the strength—both physical and mental—to excel as a marine. During World War II, the Japanese had managed to crack every code the United States used. But when the Marines turned to its Navajo recruits to develop and implement a secret military language, they created the only unbroken code in modern warfare—and helped assure victory for the United States over Japan in the South Pacific. INCLUDES THE ACTUAL NAVAJO CODE AND RARE PICTURES

[Creating a Veteran-Friendly Campus: Strategies for Transition and Success](#) Robert Ackerman 2011-10-11 As the United States? wars in Afghanistan and Iraq continue, increasing numbers of students who experienced combat will enroll in colleges and universities. There is mounting evidence that these veterans will require support unique to their needs beyond the processing of financial aid paperwork from the Veterans Administration. Obviously, combat frequently inflicts injuries, both physical and mental, that will require attention, but veterans are a unique population in other ways as well. Soldiers experience extraordinary bonding in wartime, and colleges can provide opportunities for that fellowship to be a source of support and connection. Female veterans will bring a new, nontraditional perspective to campus, and student service organizations should pay careful attention. There is also a significant group of students who leave for service and return?under the best of circumstances, they need accommodation to succeed. Institutions of higher education traditionally have responded to the needs of special student populations by developing programs and offering services. This volume contains information about programmatic initiatives that can help create a welcoming environment for veterans, one that encourages serious, creative involvement. The authors bring broad experience and deliberate consideration to bear on questions that are only becoming more important to the entire spectrum of American colleges and universities. This is the 126th volume of the Jossey-Bass higher education quarterly report series *New Directions for Student Services*, an indispensable resource for vice presidents of student affairs, deans of students, student counselors, and other student services professionals. Each issue of *New Directions for Student Services* offers guidelines and programs for aiding students in their total development: emotional, social, physical, and intellectual.

*Jarhead* Anthony Swofford 2008-12-09 A harrowing yet inspiring portrait of a tormented consciousness struggling for reconciliation and peace, JARHEAD is authentic, revelatory and brilliantly crafted. Anthony Swofford's grandfather fought in WWII; his father fought in Vietnam; and he - a directionless, testosterone-battered teenager - became a scout/sniper in the marines and fought in the Gulf War. His account of that time is also part of a lineage - after Wilfred Owen, Norman Mailer, Michael Herr and Tim O'Brien, it brings the raw and searing tradition of soldiers' stories up to date.

**Dear Mr. President** Gabe Hudson 2007-12-18 Everybody's Gulf War Syndrome is a little bit different. Or so believes Larry, who returns home from Desert Storm to find his hair gone and his bones rapidly disintegrating. Then there's Lance Corporal James Laverne of the US Marines, who grows a third ear in Kuwait. And in the audaciously comic novella "Notes from a Bunker Along Highway 8," a Green Beret deserts his team after seeing a vision of George Washington, only to find a new calling—administering aid to wounded Iraqi civilians; he's hindered only by the furtive nature of his mission and an unruly band of chimpanzees. Together these narratives form a bracing amalgamation of devastating humor and brilliant cultural observation, in which Gabe Hudson fearlessly explores the darker implications of American military power.
