André Lefebvre, and the Cars He Created at Voisin and Citroën Gijsbert-Paul Berk 2011-11-01 Together with his colleagues at Citroën, Andre Lefebvre created the Traction Avant (1934), the TUB (1939) - Citroën's first front wheel drive utility van that was succeeded by the H and HY vans (1947) - the Deux Chevaux (1948), and, last but not least, the DS (1955). From 1923 to 1931 Lefebvre also designed several highly original and outstanding competition cars and record-breaking automobiles for Voisin. He even drove some these cars in races and record attempts. It is obvious that during his 16 years with Gabriel Voisin he was very much influenced

by the ideas of this illustrious aviation pioneer and car manufacturer. The experience gained during that period gave him the self-confidence to persuade his successive bosses at Citroën that his unorthodox approach to automobile design was what the company needed; first he convinced André Citroën, later Pierre Michelin, then Pierre-Jules Boulanger, and finally Robert Puiseux and Pierre Bercot. His oeuvre for Citroën alone earns him a place of honour among the great automobile designers of the past century. The fact that most present-day cars still carry the DNA of his design philosophy makes him stand out above other automotive pioneers and innovators. That is why it is amazing that so little is known about this fascinating and brilliant engineer. This book was written in order to remedy that, and to pay tribute to André Lefebvre: the passionate pioneer who left car enthusiasts around the world such

an important heritage.

Ford Escort RS1800 Graham Robson
2008-06-15 The Ford Escort MkII was a worthy successor to the original MkI. It became Ford's most successful rally car and the cars are still winning historic events today. It brought new standards to the sport, inspiring many others to copy it. Contains full details of every 'works' Escort MkII that went rallying, plus driver and personality profiles, and detailed car evolution.

The Fine Art of the Motorcycle Engine

Dave Howe 2008 Daniel Peirce examines the graphic nature of historic engines, using 64 photographs from his 'Up-N-Smoke' engine project. He also tells the story of the project and the years it took to take it from an inspired idea to a tangible reality.

How to Build a Successful Low-Cost Rally Car Philip Young 2009-02-15 Simple, cost-effective, basic and reliable tips to ensure

any rally car stands a chance of reaching the finishing line. If you are planning a road-based rally, don't even think of leaving home before reading this book and implementing the tried and tested mods it describes so well.

British Lorries of the 1960s Malcolm Bobbitt
2009-10 British commercial manufacturers played a prime role in boosting Britain's economy during the 1960s, especially as many vehicles were exported worldwide. British lorries were, therefore, considered as being the workhorses of the world, performing a wide range of duties from heavy haulage to general goods delivery. This highly visual study of British lorries of the 1960s captures in 120 illustrations this often understated but very necessary work, which was undertaken day and night, 365 days a year. The images, many contemporary colour and black and white, include some delightful publicity items in

addition to covering the heritage and preservation scenes. The comprehensive text reveals much about the marques that were everyday names, along with information about Britain's road haulage and commercial vehicle industries. Malcolm Bobbitt is the author of some thirty automotive books and is a member of the Guild of Motoring Writers and the Society of Automotive Historians. This book will rekindle many memories and serve as a reminder of the important role British commercial vehicles played during the 1960s.

Pocket Guide to Britains Farm Model Balers & Combines 1967-2007 David Pullen
2008-11-15 Farm model collecting has become increasingly popular with people of all ages. Britains, a leading manufacturer, have a long and distinctive history of producing these models. This book is the first comprehensive fully illustrated guide

for those interested in collecting them. The book describes all the baler and combine models produced by Britains since they were first added to its farm model range 40 years ago, and also provides details of their development. As well as standard models, this includes details and photographs of prototype and rare models. The history is complemented by a catalog describing the main features, differences, issue dates and codes of each model produced. Each is illustrated with six color photographs showing the model from different angles and the issue packaging.

Fiat 131 Abarth Graham Robson
2008-12-15 When Fiat entered rallying in 1970, its ultimate aim was to become World Rally Champion and the 131 Abarth of 1976-1980 provided the machinery to make that possible. It started winning World rallies within months of being launched, and in 1977, 1978 and 1980 the 'works' team also

won the World Championship for Makes, and set every standard by which Rally Giants were to be judged. Was there ever any doubt that successors like the Lancia Rally 037 and the Delta Integrale would eventually come from the same stable?
Ford Escort RS Cosworth & World Rally Car
Graham Robson 2008-12-15 The Escort RS Cosworth, which started rallying in 1993, was one of the most ingenious designs of all time, and eventually became Ford's most successful since the legendary Escorts of the 1970s. Because it was smaller, lighter, and more nimble than any of the Sierras, the combination of Cosworth power, four-wheel-drive transmission, and an effective aerodynamic package made it a Rally Giant in all conditions. With five World victories in its first season, and success all around the world in later years, it was seen in every continent, in all conditions. To meet a change in regulations, the Escort World

Rally Car took over in 1997, and also enjoyed years of success.

The Triumph Tiger Cub Bible Mike Estall
Incredibly comprehensive, this book is the ultimate reference source to every aspect of these machines, including 22 very detailed model profiles and delivery details of 113,000 individual machines to 153 countries, color schemes and much, much more. It contains full international history of the popular Triumph Tiger Cub & Triumph Terrier motorcycles, technical and design specifications of engine and transmission components, lubrication, fuel and electrical systems.

How to Build & Power Tune Distributor-Type Ignition Systems Des Hammill 2009-07
Expert practical advice from an experienced race engine builder on how to build an ignition system that delivers maximum power reliably. A lot is talked about ignition systems and there is a bewildering choice of

expensive aftermarket parts, which all claim to deliver more power. Des Hammill cuts through the myth and hyperbole and tells readers what really works, so that they can build an excellent system without wasting money on parts and systems that simply don't deliver. Ignition timing and advance curves for modified engines is another minefield for the inexperienced, but Des uses his expert knowledge to tell readers how to optimize the ignition timing of any high-performance engine.

SU Carburettor High-Performance

Manual Des Hammill 2007-02 Millions of cars were equipped with SU carburetors. This book is for those people who wish to tune SU carburetors themselves, irrespective of how many carburetors there are on the engine or what type of engine it is you are dealing with.

How to Illustrate and Design Concept Cars
Adrian Dewey 2011-11-15 The automobile

seems to be as popular now as it ever was. Posters of cars still adorn many a child's bedroom wall, and school exercise books are full of doodles of cars. This book takes those notebook sketches and teaches you how to develop them into the car designs you see in magazines. Using simple to follow step-by-step drawings it guides you from pencil sketch to marker rendering, from doodle to highly visual computer generated artwork. Adrian Dewey has worked on designs as diverse as small sports cars to double decker buses, modified motors to concept Formula 1 cars, using various techniques and styles. In this book, he uses his knowledge of the different styles to guide the reader in creating great artwork and designs of their own. The book shows in detail how to use different materials and how to get the most out of each one, whether it be a great pencil sketch or a photo realistic vector illustration. The book

also features an easy to follow index for quick reference on different types of drawing.

Russian Motor Vehicles Maurice A. Kelly 2009-07 There has been nothing published outside of Russia concerning the activities of its motor industry, by 1937 the Soviets had become the largest producers of motor vehicles in Europe, albeit with the help of Henry Ford The author decided to concentrate on the work of the pioneers in Czarist Russia, for their efforts were more diverse than those of their counterparts in the Soviet era. However, one Soviet motor car which was an indigenous product has been included to illustrate how the industry might have evolved if Henry Ford had not been approached. This is a comprehensive overview of all facets of vehicle production from the early days to the final demise of the Soviet Union. All the manufacturers of motor vehicles, certain accessories, military

machines, and even aero engines are recorded in this unique book.

How to Build Your Own Supercar Brian Thompson 2008-08-15 "Amazing self-build techniques for builders of supercars, kit-cars, racing cars, hot-rods and custom cars. Includes glassfibre moulding techniques, vacuum-forming polycarbonates, creating interior trim, adapting standard mass-production components and much, much more."--t.p.

Off-Road Giants! Andy Westlake 2008-11-15 A fascinating and nostalgic compilation of rider profiles written over a three year period, which originally appeared in *Classic Motorcycle* magazine, and is now accompanied by a new set of over 100 photographs. All of the riders featured became top achievers in their field, although, for some, it was their first interview. During the 1950s and 60s, scrambling especially drew huge crowds to

meetings all across the country, and, thanks to TV coverage such as BBC Grandstand Trophy, and ITV's World of Sport, many of the competitors featured in this book became household names. Each chapter includes the competition years of the riders, and also gives an overview of their careers, and conveys their enthusiasm for the sport. Motor Racing at Nassau in the 1950s & 1960s Terry O'Neil 2008-11-15 Motor Racing at Nassau is a collection of images that complements the descriptive account of the Bahamas Speed Weeks. It conveys in pictures the roller-coaster story of the eclectic mix of people and their cars that came to Nassau to enjoy each other's company at the end of the motor racing season in America. From its stuttering start in 1954, though its halcyon days in the late 1950s, to its demise in 1966, top drivers from America and Europe came to compete in the races.

Ford Small Block V8 Racing Engines
1962-1970 Des Hammill 2014-03-15 While many will be familiar with 1960 Ford racing programmes using the very compact pushrod Small Block V8, few know the facts behind the technology employed at Ford during this time. This book gives insight to the confident, logical approach of engineers working at Ford's Engine & Foundry Division. Engineers who made outstanding technical decisions, leading to many major motorsport events being won using larger capacity derivatives of the 1961 221ci Small Block V8 production engine, a power unit introduced by Ford mid-1961 for use in 1962 model year intermediate Fairlanes and Mercurys. The Sportscar & Kitcar Suspension & Brakes High-Performance Manual Des Hammill 2008-09-15 How to get the best from sportscars/kit cars with wishbone front suspension, coil springs and telescopic shocks. Includes 'chassis' integrity, geometry, ride height, camber, castor, kpi, springs, shockers, testing & adjustment. **Alpine & Renault** Roy Smith 2010-06-15 Sports prototype racing is about endurance, for the drivers, for the teams and for the companies involved. In this story we see the effort, the blood, the sweat and the tears, reputations won and lost, life and also death. The cars, some of the most evocative ever seen, are described in detail. We see stunningly beautiful, creative, slippery aerodynamic designs that allowed Alpine to

take many class wins and outright victories in championship racing, from 1963 to 1969. You will feel the passion and dedication for racing from interviews with the men involved, illustrated with dramatic period photographs.

The BMW Boxer Twins Bible Ian Falloon
2009-02-15 The air-cooled boxer BMW twins were among the most significant motorcycles of the late 1970s and 1980s, providing an unparalleled combination of comfort, reliability, and performance. Written by a world-renowned motorcycle journalist and featuring 190 colour photographs, here is the authoritative work on these machines.

Daimler V8 S.P. 250 Brian Long
2008-01-15 Today very much part of the classic car scene around the world, the Daimler SP250 sports car has a fascinating and eventful history. The idea of staid and traditional Daimler building an open sports

car is surprising enough in itself: that the car should be fiberglass-bodied, V8 engined and have a daring futuristic appearance stretches credibility to the limit...but that's exactly what the company did produce between 1959 and 1964. A bold new design, the "Dart" as it was originally to be called, should have been struggling Daimler's savior and a springboard to a range of new models, including saloons and coupes. Things didn't quite work out that way and Daimler was acquired by Jaguar, which led to the SP250's Edward Turner-designed V8 engine being used in a Daimler-badged version of the Jaguar MkII saloon. Here is the full story of the SP250 including concept, development and production history. Also covered are related models, specials, buying and restoration, chassis numbers, production numbers, color schemes, clubs and specialists. Altogether a source book of essential information for SP250 and Daimler

enthusiasts.
