Interiors Construction Manual Gerhard Hausladen 2012-12-10 Soccer stadiums, airports, theaters, museums - it falls to very few architects to tackle spectacular building tasks like these. The everyday work of most architects is more often focused on "manageable" projects like the renovation, remodeling, or rebuilding of single- and multi-family houses, schools, and offices. Whatever the nature of the building task, interior construction is always a significant design and qualitative challenge that calls for highly detailed technical expertise. After all, it affects the realm that will be brought to life and utilized by the user when the task is finished, and whose aesthetic and functional serviceability will be put to the test each and every day. The Interior Construction Manual supports planners in their daily work as a practical planning aid and reference work with the relevant standards, guidelines, reference details, and constructional solutions, all illustrated by built example projects. It brings together the crucial facts on all aspects of interior construction and presents the key fundamentals of building physics, fire protection, interior construction systems, and openings. In addition, it offers concrete tips on integrated planning approaches, energy and sustainability issues, materials used in interior construction, hazardous substances, and dealing with building services and light planning.

Microsoft Project 2013 Step by Step Carl Chatfield 2013-03-15 Experience learning made easy - and quickly teach yourself how to manage the complete project life cycle with Project 2013. With Step by Step, you set the pace - building and practicing the skills you need, just when you need them! Work with Project 2013 on your PC or touch-enabled device Build and fine-tune your project plan Schedule tasks and milestones, and assign resources Track progress and costs, and manage variances Troubleshoot delays and budget overruns Customize Gantt chart views, tables, and calendars Learn project-management best practices

The Secret History of the Jesuits Edmond Paris 2011 Secrets the Jesuits don't want Christians to know Out of Europe, a voice is heard from the secular world that documents historically the same information told by ex-priests. The author exposes the Vatican's involvement in world politics, intrigues, and the fomenting of wars throughout history. It appears, beyond any doubt, that the Roman Catholic institution is not a Christian church and never was. The poor Roman Catholic people have been betrayed by her and are facing spiritual disaster. Paris shows that Rome is responsible for the two great world wars. Author Edmond Paris explains why he wrote this book... "The public is practically unaware of the overwhelming responsibility carried by the Vatican and its Jesuits in the start of the two world wars -- a situation which may be explained in part by the gigantic finances at the disposition of the Vatican and its Jesuits, giving them power in so many spheres, especially since the last conflict." "In fact, the part they took in those tragic events has hardly been mentioned until the present time, except by apologists eager to disguise it. It is with the aim of rectifying this and establishing the true facts that we present in this and other books the political activity of the Vatican during the contemporary -- activity which mutually concerns the Jesuits." "This study is based on irrefutable archive documents, publications from well-known political personalities, diplomats, ambassadors and eminent writers, most of whom are Catholics, even attested by the imprimatur." **Fertiliser Essentials** Justin Baird 2021-09-09 Fertiliser Essentials is a deep dive into the importance of fertiliser management to a successful farming enterprise. Whether your primary business is cropping, grazing, or horticulture... there is something for you. Whether you use manufactured or natural fertilisers... there is something for you. And whether you apply fertilisers using a tractor or a drone... there is something for you. Fertiliser Essentials is the quintessential reference work for fertiliser use in Australia in the early 21st Century. Beautifully designed and extensively referenced, it is a must-read for anyone working or

interested in modern agriculture. In full colour and 224 pages. Originally produced in the mid 1990s, Fertiliser Essentials is the fifth edition of this seminal publication. The fifth edition is divided into four sections: 1. Soils and fertilisers 2. Major elements 3. Micronutrients and natural fertilisers 4. Equipment, precision and calculations The aims of the book are: · to give land managers a basic knowledge of the principles of fertiliser use · to show how these principles can be used in growing crops and pastures. The book covers some horticultural and viticultural topics, but these are not dealt with in detail · to examine the environmental effects of fertilisers · to briefly introduce alternatives to traditional fertiliser strategies. TABLE OF CONTENTS Part 1 Soils and fertilisers Chapter 1. Introduction Chapter 2. Safety Chapter 3. Understanding fertiliser terms Chapter 4. Soil testing Chapter 5. Healthy soils and nutrient management Chapter 6. Acid soils and the pH connection Chapter 7. Plant nutrition Chapter 8. Possible crop nutrition problems Part 2 major elements Chapter 9. The major element Nitrogen Chapter 10. Nitrogen in pastures Chapter 11. Nitrogen for crops Chapter 12. The major element Phosphorus Chapter 13. Phosphorus for pastures Chapter 14. Phosphorus for crops Chapter 15. The major element Potassium Chapter 16. The major element Sulfur Part 3 micronutrients and natural fertilisers Chapter 17. Micronutrients Chapter 18. The micronutrient Molybdenum Chapter 19. The micronutrient Boron Chapter 20. The micronutrient Zinc Chapter 21. The micronutrient Selenium Chapter 22. The micronutrient Cobalt Chapter 23. The micronutrient Copper Chapter 24. The micronutrient Manganese Chapter 25. The micronutrient chlorine Chapter 26. The micronutrient Iron Chapter 27. Naturally-derived fertilisers Part 4 equipment, precision and calculations Chapter 28. Application equipment Chapter 29. Precision Agriculture Chapter 30. Calculating fertiliser costs and rates Chapter 31. Scenarios Chapter 32. Nutrient program checklist Glossary Appendix 1. Managing work health and safety (WHS) risks Appendix 2. Relative tolerance of various crops and pastures to acid soils Appendix 3. Relative tolerance of crops and pastures to soil salinity Appendix 4. Fertiliser manufacturer product card Appendix 5. Nutrient removal by crops# Appendix 6 Legume inoculant groups Appendix 7. Bout width and application rate Appendix 8. Industry organisations Appendix 9. Record templates **Value-Oriented Leadership in Theory and Practice** Jessica Lange 2023-04-17 This book provides a holistic view of the topic of values-based leadership by bridging the important gap between understanding theory and applying it in practice. Based on theoretically sound contributions from experts, a systematic understanding is developed: What are values in general and what do they mean in a business context? What does value orientation mean? How does it work in the different areas of leadership? Practice-oriented contributions by experienced practitioners offer orientation for value-oriented leadership in every kind of company, from the small to the large. From structural familiarization with corporate leadership to day-to-day values-based interactions with employees in people management, you can find helpful inspiration in this book. This book is attractive in its comprehensibility and authenticity. It is about experiencing the life of values in a company as really meaningful, necessary and feasible.

Alfalfa Management Guide D. J. Undersander 2011 The Alfalfa Management Guide is designed especially for busy growers, with to-the-point recommendations, useful images of diseased plants and pests, and quick-reference tables and charts. Revised in 2011, this edition of Alfalfa Management Guide covers the latest strategies for alfalfa establishment, production, and harvest-soil testing, fertilizing, integrated pest management, rotation, and more.

Designing Case Studies J. Blatter 2012-05-30 The authors explore three ways of conducting causal analysis in case studies. They draw on established practices as well as on recent innovations in case study methodology and integrate these insights into coherent approaches. They highlight the core features of each approach and provide advice on each step of the research process.

THE MALLEUS MALEFICARUM Heinrich Kramer and James Sprenger 2017-08-10 The Malleus Maleficarum is probably one of the most notorious books of Catholic Church history. Originally put out when the Inquisition was in full force, this book and the text it contains condemned thousands of innocent people to needless deaths. Most of what today's society and culture thinks of the witches and the occult comes from these pages. Although this text is largely misguided and inaccurate from even a scriptural standpoint, the fact remains that it has molded our views on those who practice occult arts in many ways. Take a look into the past!

Guide To Lucerne Jakob Christoph Heer 2022-10-27 This work has been selected by scholars as being culturally important, and is part of the knowledge base of civilization as we know it. This work is in the "public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Intelligent Learning Infrastructure for Knowledge Intensive Organizations Miltiadis D. Lytras 2006-01-01 Discusses the convergence of knowledge and learning management and provides state-of-the art knowledge with a semantic web perspective.

Sustainable Tourism: Breakthroughs in Research and Practice Management Association, Information Resources 2018-12-07 Many countries rely on cultural sites and destinations to support their economies. However, they are faced with the ongoing challenge of sustaining tourist attractions and maintaining the equilibrium between the local community and tourist populations. Sustainable Tourism: Breakthroughs in Research and Practice features current research that takes an in-depth look at cooperative strategies and governance for conserving and promoting tourism within both developed and developing economies. Highlighting a range of topics such as tourism development, environmental protection, and responsible hospitality, this publication is an ideal reference source for entrepreneurs, business managers, economists, business professionals, policymakers, academicians, researchers, and graduate-level students interested in the latest research on sustainable tourism.

Extracorporeal Shock Wave Lithotripsy Rolf Schmutz 2018-11-27 This book is a comprehensive guide to extracorporeal stone wave lithotripsy (ESWL) that includes a step-by-step approach for treating every possible kidney stone position. The book has an easy to read structure that will help readers understand ESWL quickly. Written by leading experts who have used ESWL to treat over 23000 patients, this book brings together years of practical knowledge and expertise in one concise volume. The book aims to utilise this knowledge and allow people to independently carry out kidney stone treatment on patients. Diagrams and illustrations show the methods and techniques needed in ESWL, as well as the potential complications.

Guide to the International Sale of Goods Convention 2010
The Official (ISC)2 Guide to the SSCP CBK Adam Gordon 2016-04-27 The fourth edition of the Official (ISC)2® Guide to the SSCP CBK® is a comprehensive resource providing an in-depth look at the seven domains of the SSCP Common Body of Knowledge (CBK). This latest edition provides an updated, detailed guide that is considered one of the best tools for candidates striving to become an SSCP. The book offers step-by-step guidance through each of SSCP's domains, including best practices and techniques used by the world's most experienced practitioners. Endorsed by (ISC)² and compiled and reviewed by SSCPs and subject matter experts, this book brings together a global, thorough perspective to not only prepare for the SSCP exam, but it also provides a reference that will serve you well into your career.

Guide to Lucerne, the Lake, and Its Environs Jakob Christoph Heer 1893
Innovation in Low-tech Firms and Industries Hartmut Hirsch-Kreinsen 2008-01-01 This very valuable book collects together excellent empirical essays on what amounts to a silent majority in advanced industrial societies: low and medium tech manufacturing industries. Such industries employ more people and make a larger contribution to aggregate value creation than their more lauded high-tech counterparts and moreover, they constitute extremely important customer industries for such higher tech producers. They may be neglected, but they are not going away indeed, this volume shows that they are growing and adapting to the new competitive challenges of globalization. Attending to the dynamics of innovation and change in this large sector is crucial for understanding processes of social and economic restructuring in Europe today. The essays in this volume are the first place to look for insight into this extremely important area of political economic life in Europe. Gary Herrigel, University of Chicago, US Innovation in Low-Tech Firms and Industries challenges the currently fashionable notion that the advent of a knowledge-based economy demands that all social resources should be diverted to high-technology industries. Hirsch-Kreinsen and Jacobson point out these constitute a small part of even the most advanced economies. Attention has been diverted from the important innovation processes which occur in low and medium technology (LMT) sectors. This volume calls on us to achieve a much better and wiser balance in our industrial policy. Terrence McDonough, National University of Ireland, Galway The authors of this book make an urgently needed provocative point: ordinary engineering and technology (low-tech) continue to be of greater importance, in our knowledge society , than high-tech activities, and they may be similarly demanding by the competence they require and produce. This counteracts the exaggerated hype about high-tech firms or activities. The high-tech classification itself is highly arbitrary and often superficial. The authors show in what way low-tech activities and firms are important, and how they can be cultivated to buttress the economic strength of industrial and post-industrial nations. Researchers and policymakers, please take note! Arndt Sorge, Wissenschaftszentrum Berlin, Germany and University of Groningen, The Netherlands It is a general understanding that the advanced economies are currently undergoing a fundamental transformation into knowledge-based societies. There is a firm belief that this is based on the development of high-tech industries. Correspondingly, in this scenario low-tech sectors appear to be less important. A critique of this widely held belief is the starting point of this book. It is often overlooked that many of the current innovation activities are linked to developments inside the realm of low-tech. Thus the general objective of the book is to contribute to a discussion concerning the relevance of low-tech industries for industrial innovativeness in the emerging knowledge economy. Providing examples of both theoretical and empirical research in this area, Innovation in Low-tech Firms and Industries will be of great interest to postgraduate students and academic researchers in innovation studies. It will also appeal to policy makers in the field of innovation policy as well as industrial economists and sociologists interested in traditional industries in advanced economies.

The Ultimate VB .NET and ASP.NET Code Book Karl Moore 2008-01-01 Well-known programmer Karl Moore provides hundreds of useful, real-world code snippets

showing developers how to take real advantage of the true secrets behind the programming language. The attraction of this book is the idea that someone picks up the book, looks at the outline and sees three or four things that they didn't know how to do.

Swiss Democracy W. Linder 2010-04-20 An updated 3rd edition of this authoritative analysis of Swiss democracy, the institutions of federalism, and consensus democracy through political power sharing. Linder analyzes the scope and limits of citizens' participation in direct democracy, which distinguishes Switzerland from most parliamentary systems.

LSD, My Problem Child Albert Hofmann 2017-09-27 This is the story of LSD told by a concerned yet hopeful father, organic chemist Albert Hofmann, Ph.D. He traces LSD's path from a promising psychiatric research medicine to a recreational drug sparking hysteria and prohibition. In LSD: My Problem Child, we follow Dr. Hofmann's trek across Mexico to discover sacred plants related to LSD, and listen in as he corresponds with other notable figures about his remarkable discovery. Underlying it all is Dr. Hofmann's powerful conclusion that mystical experiences may be our planet's best hope for survival. Whether induced by LSD, meditation, or arising spontaneously, such experiences help us to comprehend "the wonder, the mystery of the divine, in the microcosm of the atom, in the macrocosm of the spiral nebula, in the seeds of plants, in the body and soul of people." More than sixty years after the birth of Albert Hofmann's problem child, his vision of its true potential is more relevant, and more needed, than ever.

Microsoft Project 2013 Step by Step Carl S. Chatfield 2013 A guide to the project management tool covers such topics as creating tasks and assign constraints, estimating project costs, resolving scheduling problems, creating project reports, and consolidating projects.

Guide to Lucerne Jakob Christoph Heer 2014-03 This is a reproduction of a book published before 1923. Take Back Your Life! Sally McGhee 2007-06-13 Take control of the unrelenting e-mail, conflicting commitments, and endless interruptions-and take back your life! In this popular book updated for Microsoft Office Outlook 2007, productivity experts Sally McGhee and John Wittry show you how to reclaim what you thought you'd lost forever-your work-life balance. Now you can benefit from McGhee Productivity Solutions' highly-regarded corporate education programs, learning simple but powerful techniques for rebalancing your personal and professional commitments using Outlook 2007. Empower yourself to: Clear away distractions, tie up loose ends, and focus on what's really important to you. Take charge of your productivity using techniques designed by McGhee Productivity Solutions and implemented by numerous Fortune 500 companies. Balance your home and work priorities by exploiting the enhanced productivity, organizational, and search capabilities in Outlook 2007. Go beyond just coping and surviving to taking charge of your time-and transform your life today!

Rick Steves Portugal Rick Steves 2017-05-30 Tour Lisbon's cobbled lanes, cruise the Douro River, and soak up the sun on Algarve beaches: with Rick Steves on your side, Portugal can be yours! Inside Rick Steves Portugal you'll find: Comprehensive coverage for spending a week or more exploring Portugal Rick's strategic advice on how to get the most out of your time and money, with rankings of his must-see favorites Top sights and hidden gems, from the the bone chapel of Évora and the palaces of Sintra to seaside street food and lush vineyards How to connect with culture: Chat with locals in charming small towns, enjoy a dinner of fresh seafood stew, or spend an evening at a bluesy fado bar Beat the crowds, skip the lines, and avoid tourist traps with Rick's candid, humorous insight The best places to eat, sleep, and relax with a glass of local port Self-guided walking tours of lively neighborhoods and incredible museums Detailed maps for exploring on the go Useful resources including a packing list, a Portuguese phrase book, a historical overview, and recommended reading Over 400 bible-thin pages include everything worth seeing without weighing you down Complete, up-to-date information on Lisbon, Sintra, Salema, Cape Sagres, Lagos, Tavira, Évora, Nazaré, Batalha, Fátima, Alcobaça, Óbidos, Coimbra, Porto, Peso de Régua, Pinhão, and more Make the most of every day and every dollar with Rick Steves Portugal.

Research Design in Business and Management Stefan Hunziker 2021-12-07 The present book project on Research Design, which is planned in English, is intended to create an innovative textbook that can be used at university undergraduate and graduate levels in internationally oriented education in the German-speaking countries. This textbook shall provide comprehensive guidance for students when tackling their (applied) research papers. Instead of reiterating qualitative and quantitative methods it focuses on how to come up with an appropriate research design that allows the student to make the intended intellectual contribution. Starting from the desired (hypothetical) conclusion or statement the student will be guided through the process of finding the appropriate Research Question that will be answered by such a statement and the required Research Design consisting of data collection and data analysis, that allows for such a statement as the conclusion of the study. Common Research Designs in Business and Management, i.e. well beyond the standard Research Designs of Social Sciences and curtailed to the focus area, will be described with regard to their suitability to answer specific kinds of questions as well as the idiosyncrasies of the these Designs and their impact on the written research reports. Examples for each Research Design will be provided as well as guidance about how to write about such research.

Lucerne (Switzerland) - Wink Travel Guide Wink Travel Wink Travel Guide 2019-04 Lucerne (Luzern in German, Lozärn in Swiss-German, Lucerna in Italian) is a beautiful small city in the heartland of Switzerland, across the lake from Altdorf, where legend has it William Tell shot an apple off his son's head. In addition to being a fine place to visit in and of itself Lucerne is a great base from which to explore famous Swiss sites such as Mount Rigi and the Rütli Meadow. The first city to join the Swiss Confederation, today Lucerne is a lovely small city with a thriving tourism industry, owing mainly to its status as a gateway to Central Switzerland. The city became a center of Swiss history and legend. Tourism in Lucerne has a distinguished history dating from the mid 19th century, with Mark Twain among them. In "A Tramp Abroad" he recalls the nascent souvenir business, and other budding examples of the tourism trade. Wink Travel Guides introduce you to the best world travel destinations, in a clear and concise way, illustrated by photos.

Cluster Munitions and International Law Alexander Breitegger 2012-03-12 This book offers a comprehensive argument for why pre-existing international law on cluster munitions was inadequate to deal with the full scope of humanitarian consequences associated with their use. The book undertakes an interdisciplinary legal analysis of restraints and prohibitions on the use of cluster munitions under international humanitarian law, human rights law, and international criminal law, as well as in relation to the recently adopted Convention on Cluster Munitions (CCM). The book goes on to offer an in-depth substantive and procedural analysis of the negotiations which led to the 2008 CCM, in part based on the author's experiences as an adviser to Cluster Munitions Coalition-Austria. Cluster Munitions and International Law is essential reading for practitioners and scholars of International Law, including International Humanitarian, Human Rights, International Criminal or Disarmament Law and anyone interested in legal and humanitarian perspectives on cluster munitions legislation and policy. It is unique in bringing a practitioner's perspective to a scholarly work.

Information Assurance and Security Education and Training Ronald C. Dodge 2013-07-03 This book constitutes the refereed proceedings of the 8th IFIP WG 11.8 World Conference on Security Education, WISE 8, held in Auckland, New Zealand, in July 2013. It also includes papers from WISE 6, held in Bento Gonçalves, Brazil, in July 2009 and WISE 7, held in Lucerne, Switzerland in June 2011. The 34 revised papers presented were carefully reviewed and selected for inclusion in this volume. They represent a cross section of applicable research as well as case studies in security education.

Emerging Innovative Marketing Strategies in the Tourism Industry Ray, Nilanjan 2015-08-03 The continuous growth and expansion of the travel sector has brought about a greater need to understand and improve its various promotional tactics. Effectively employing these methods will benefit all manner of travel destinations and attract a larger number of tourists to these locations. *Emerging Innovative Marketing Strategies in the Tourism Industry* is an authoritative title comprised of the latest scholarly research on effective promotional tools and practices within the tourism sector. Featuring expansive coverage on a variety of topics from the use of information technology and digital tools to tourist motivation and economic considerations, this publication is an essential reference source for students, researchers, and practitioners seeking research on the latest applications, models, and approaches for promotion in the travel industry. This publication features valuable, research-based chapters across a broad range of relevant topics including, but not limited to, consumer search behavior, customer relationship management, smart technologies, experiential tourist products, leisure services, national brand images, and employment generation.

Nutrient Deficiencies of Field Crops Prakash Kumar 2013-12-06 Nutrient imbalance in soils is an emerging threat to sustainable agriculture: intensive cultivation, use of poor quality groundwater, depletion of soil organic matter and excessive use of fertilizers are major reasons for poor soil fertility worldwide. This necessitates correct diagnosis of plant nutrient deficiencies to avoid further use of pesticides in cases where pests or pathogens that are not in fact the cause of poor crop health. Richly illustrated with 600 colour photographs, this book is a visual field identification guide for symptoms of most common nutrient deficiencies in field crops, covering all their stages of occurrence. Detailed descriptions and suggested for management practices are given with each entry.

Towards Just Gender Relations Gunter Prüller-Jagenteufel 2019-06-17 All over the world there is the move towards just gender relations - even if the odds seem to be less hopeful than a decade ago. This poses a special task for Christians and Churches in service of the marginalised who engage in the fight for justice. The articles collected in this volume provide insights from two intercultural theological conferences. The topic for the European-Asian dialogue focuses on "Gender and Ecclesiology". The European dialogue between western and eastern Central European countries has a special aim for gender theories and their theological and political implications. The book presents contributions from different perspectives and shows how the Christian churches can contribute to gender justice.

Lucerne, Switzerland B G Preston 2021-03-05 Lucerne, Switzerland and the Lake Lucerne Region A beautiful city surrounded by breathtaking scenery. Lucerne is a popular destination for many reasons. Located in central Switzerland, this historic city has much to offer just by itself. When adding in the incredible mountains, lake journeys, and outdoor activities, the area provides amazing experiences at every turn. This Starting-Point Guide covers Lucerne, much of the Lake Lucerne area, and many mountain adventures ranging from tall mountain peaks to low-key family adventures. You will find details in this guide on suggested day trips, Lucerne city attractions, where to stay, which mountain to explore, and much more. A guide for travelers who wish to use one city such as Lucerne as their basecamp to travel the area and not move from town to town as they travel through Europe. You will find numerous graphs, maps, and photographs to help orient you to this historic area. Guidance on how to get around town and an orientation to the most popular sites is included. This guide focuses on the city and nearby attractions. This is not a complete guide to all of central Switzerland. Such a guide would go beyond the suggested scope of staying in one town and having enjoyable day trips from there.

Implementing co-investment and network sharing Marc Bourreau 2020-05-26 This CERRE report investigates the benefits and drawbacks of telecom infrastructure sharing. The authors have analysed the practice in 12 European countries* and provide recommendations to fairly and efficiently implement co-investment & network sharing agreements in Europe. The new European Electronic Communications Code introduces new regulatory provisions to stimulate investment in next-generation access networks and help to achieve the Gigabit Society targets for the European Union. One of the key new provisions is co-investment for very-high-capacity networks as an alternative to access remedies. As of today, co-investment agreements for the deployment of fast broadband fixed infrastructures have already been implemented in a few European countries. In France, in urban and suburban areas operators are obliged by existing regulations to open to potential co-investors any new fibre infrastructure that they want to roll out, with different modalities for urban and suburban areas. In Portugal, the regulator has not set up similar obligations, but Vodafone and NOS struck a commercial co-investment deal in 2017 to share dark fibre for around 2.6 million homes. Co-investment agreements have also taken place in Italy, Spain and Switzerland. With the new Code, more co-investment agreements are likely to emerge. In mobile markets, network sharing agreements are also very common, both mandated and voluntary, and can take different forms, ranging from sharing of cell sites to sharing of Radio Access Networks (RANs) and spectrum. The deployment of the new 5G mobile technology makes it necessary for operators to share even more of their infrastructure. From a public policy point of view, allowing for infrastructure sharing - where infrastructure sharing encompasses both co-investment and network sharing - involves trade-offs. For example, infrastructure sharing allows operators to share costs - e.g., costs to upgrade or deploy networks, but also operating costs - which may improve their ability to invest, improve coverage and accelerate roll-out - a clear benefit. But, on the other hand, there is the concern that in certain circumstances infrastructure sharing agreements may harm competition, for example, by reducing infrastructure-based competition, and hence investment incentives, or by facilitating collusion between co-investors. The market context (e.g., the market positions of the partners) is a strong determinant of the potential benefits and costs of an agreement. The implementation details of the agreement also matter. The general objective of this report is to discuss the implementation aspects of infrastructure sharing that may affect the trade-off between the benefits of infrastructure sharing, in terms of faster and wider rollout of high-speed networks in particular, and the potential downsides, in terms of reduced investment incentives or softened market competition. We studied the following Implementation aspects: the operational model adopted for infrastructure sharing, whether to regulate or leave the agreement to the market, the interplay between infrastructure sharing and other regulatory provisions, how to price access by late co-investors, and the specificities of infrastructure sharing agreements with business users. Our analysis shows that from a social point of view, infrastructure sharing has the following potential benefits: 1) Sharing of deployment costs, leading to faster and wider coverage and higher quality; 2) Sharing of operational costs, leading to lower prices; 3) Enhanced competition, benefiting consumers in terms of lower prices; 4) Facilitated entry for third-party operators. In the absence of infrastructure sharing, the counterfactual differs depending on the type of technology (fixed or mobile) and the market context (i.e., the dominance of partners). In the fixed market, with SMP operators, but also under the new co-investment provisions in the EECC, the counterfactual involves some access obligations. For fixed infrastructure sharing with non-SMP operators, where sharing occurs on a voluntary basis, the counterfactual would rather involve no access obligation. In the mobile market, the counterfactual situation would involve no access obligation and most (if not

all) nationwide networks investing independently to upgrade their networks. The market context and the type of technology deployed (fixed or mobile) will affect the magnitude of potential benefits and drawbacks. The implementation of an infrastructure sharing agreement will also affect the potential benefits and costs of infrastructure sharing. Therefore, we have analysed how an agreement should be implemented to maximize benefits while minimizing potential costs. Finally, in this report, we discussed the experience in various European countries regarding mobile network sharing and fixed co-investment, with a review of the relevant legal cases when available. The legal cases show that infrastructure sharing agreements are generally viewed favourably by competition authorities as fostering faster network roll-out and increased competition, and that there is not one single form of cooperation that is favoured by competition authorities. The cases show that infrastructure sharing transactions, regardless of the form, must take the following anti-competitive effects into account: - The infrastructure sharing involving new network investment should result in more and faster total network roll-out, or more and faster network upgrades, than would otherwise be the case in the absence of cooperation. - As a general matter, infrastructure sharing with limited geographic scope will create fewer competition concerns than sharing covering large parts of a country; sharing in rural areas will create fewer issues than sharing in urban areas. - Sharing of passive network elements will raise fewer competition issues than sharing active network elements, such as RAN sharing. - The pricing of wholesale inputs (passive and active infrastructure, maintenance services) should be analysed both with regard to their impact on the retail pricing strategy of the parties (the risk of price coordination), but also with regard to access prices charged to third party operators (risk of foreclosure). - Where some party's incentives are not aligned with its contractual investment or maintenance obligations, there is a significant risk of anticompetitive behaviour regardless of what is written in the contract. Therefore, infrastructure sharing deals should be avoided or carefully scrutinized where there is a mismatch in incentives (for example, if one of the parties already has a cable network in a zone covered by the party's co-investment commitment). - Restrictions to third party access to infrastructure should be eliminated or reduced to the strict minimum necessary for the infrastructure sharing involving new network investment to be viable. - The competitive impact on third party operators of infrastructure sharing will also depend on the existence or not of regulated wholesale access remedies, as well as in co-investment projects the openness to further co-investors. - Information exchange must be limited to what is strictly necessary, including if necessary the organization of internal Chinese walls.

Delivering Tourism Intelligence Philip L. Pearce 2019-11-08 This volume demonstrates that tourism research can deliver quality implications for a range of stakeholders. Contributions from authors across the continents serve to illustrate ways in which academic analysis can, and does, result in action.

Microsoft Project 2016 Step by Step Carl Chatfield 2016-04-08 The quick way to learn Microsoft Project 2016! This is learning made easy. Get more done quickly with Project 2016. Jump in wherever you need answers-brisk lessons and colorful screenshots show you exactly what to do, step by step. Quickly start a new plan, build task lists, and assign resources Share your plan and track your progress Capture and fine-tune work and cost details Use Gantt charts and other views and reports to visualize project schedules Share resources across multiple plans and consolidate projects Master project management best practices while you learn Project Look up just the tasks and lessons you need

Guide to Lucerne Jakob Christoph Heer 2018-10-15 This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

A Companion to the History of the Book Simon Eliot 2011-08-24 A COMPANION TO THE HISTORY OF THE BOOK A COMPANION TO THE HISTORY OF THE BOOK Edited by Simon Eliot and Jonathan Rose "As a stimulating overview of the multidimensional present state of the field, the Companion has no peer." Choice "If you want to understand how cultures come into being, endure, and change, then you need to come to terms with the rich and often surprising history Of the book ... Eliot and Rose have done a fine job. Their volume can be heartily recommended. " Adrian Johns, Technology and Culture From the early Sumerian clay tablet through to the emergence of the electronic text, this Companion provides a continuous and coherent account of the history of the book. A team of expert contributors draws on the latest research in order to offer a cogent, transcontinental narrative. Many of them use illustrative examples and case studies of well-known texts, conveying the excitement surrounding this rapidly developing field. The Companion is organized around four distinct approaches to the history of the book. First, it introduces the variety of methods used by book historians and allied specialists, from the long-established discipline of bibliography to newer IT-based approaches. Next, it provides a broad chronological survey of the forms and content of texts. The third section situates the book in the context of text culture as a whole, while the final section addresses broader issues, such as literacy, copyright, and the future of the book. Learning with Technologies and Technologies in Learning Michael E. Auer 2022-09-12 Education has always been one of the cornerstones for societal evolution and economic growth. We are currently witnessing a significant transformation in the development of education and especially post-secondary education. The use of technology impacts the way educational content is presented and acquired in many areas. The designs of immersive educational worlds and the combination of rational and emotional educational experiences that cannot be designed in the same way in the traditional classroom will come increasingly into focus. Seen in this way the book also contributes to generalize the experience of the COVID-19 crisis and its impact to quality of learning and education. Scientifically based statements as well as excellent experiences (best practice) are necessary. This book contains scientific papers in the fields of: The future of learning Eruptive technologies in learningPedagogy of online learning Deep learning vs machine learning: opportunities and challengesReimagining and rapid transition of learning Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, schoolteachers, learning industry, further and continuing education lecturers, etc.
