*Race and Multiraciality in Brazil and the United States* G. Reginald Daniel 2010-11-01

**Who Is Black?** F. James Davis 2010-11-01 This volume is the Tenth Anniversary Edition of a book that was honored in 1992 as an Outstanding Book by the Gustavus Myers Center for the Study of Human Rights in the United States. Reprinted many times since its first publication in 1991, *Who Is Black?* has become a staple in college classrooms throughout the United States, helping students understand this nation's history of miscegenation and the role that the one-drop rule has played in it. In this special anniversary edition, the author brings the story up to date in an epilogue. There he highlights some revealing responses to *Who Is Black?* and examines recent challenges to the one-drop rule, including the multiracial identity movement and a significant change in the census classification of racial and ethnic groups.

**Unlawful Orders: A Portrait of Dr. James B. Williams, Tuskegee Airman, Surgeon, and Activist (Scholastic Focus)** Barbara Binns 2022-10-18

Barbara Binns presents the inspiring story of one man in his struggle for racial equality in the field of battle and the field of medicine. The Tuskegee Airmen heroically fought for the right to be officers of the US military so that they might participate in World War II by flying overseas to help defeat fascism. However, after winning that battle, they faced their next great challenge at Freeman Field, Iowa, where racist white officers barred them from entering the prestigious Officers' Club that their rank promised them. The Freeman Field Mutiny, as it became known, would eventually lead to the desegregation of the US armed forces, forever changing the course of American history and race relations. One Black officer who refused to give in to the bigotry at Freeman Field was James Buchanan "JB" Williams. JB grew up the son of sharecroppers, but his loving family and insuppressible intellect drove him to push boundaries placed on Black Americans in the early twentieth century. JB's devotion to the betterment of others took him from the classroom where he learned to be a doctor, to serving as a medic in the US military and eventually joining the elite Tuskegee Airmen, where he fought to change the minds of all who believed Black men couldn't make good soldiers. But JB's greatest contribution came in his role as doctor and Civil Rights activist after the war, where he continued to push past injustices placed on Black Americans. Critically acclaimed author Barbara Binns tells the story of one man's remarkable life, and in doing so, explores the trials of the

brave Black freedom fighters who defended the world against racism and bigotry, both on the front lines and at home.

*Resistance and Empowerment in Black Women's Hair Styling* Elizabeth Johnson 2016-04-08 Elizabeth Johnson's *Resistance and Empowerment in Black Women's Hair Styling* develops the argument that one way Black women define themselves and each other, is by the way they style/groom their hair via endorsement by the media through advertisement, idealized identification of Black female celebrities, and encouragement by professional celebrity hair stylists who serve as change agents. As a result, hair becomes a physical manifestation of their self-identity, revealing a private and personal mindset. Her research answers the following questions: What is the relationship between Black females' choice of hairstyles/grooming and transmitted messages of aesthetics by the dominant culture through culturally specific magazines?; What role do the natural hair blogs/vlogs play as a change agent in encouraging or discouraging consumers grooming their hair in its natural state?; What impact does a globalized consumer market of Black hair care products have on Hispanic/Latinas and Bi-Racial women?; Are Black female Generation Y members more likely to receive backlash for failure to conform their hair to dominant standards in their hair adornment in the workplace? Johnson thus demonstrates that the major concern from messages sent to Black women about their hair is its impact on Black identity. Thus, the goal of Black women should be to break with hegemonic modes of seeing, thinking, and being for full liberation. This critical and deep consciousness will debunk the messages told to Black women that their kinky, frizzy, thick hair is undesirable, bad, unmanageable, and shackling.

[Who is Black?](#) Floyd James Davis 1991 How does a person get defined as a black, both socially and legally, in the United States? This is the first comprehensive study of the so-called "one-drop rule" that defines as black any person having at least one black ancestor. *Who is Black?* provides both a history and an analysis of miscegenation in the United States, showing how a black person is defined, how this definition emerged from the slave South to become the nation's definition with the backing of state and federal courts, how the definition works in everyday life, and what the consequences of the definition are. According to the one-drop rule, anyone with at least one African black ancestor is black, even if the individual appears to be white. The rule originated during the era of slavery in the South and has come to be taken for granted, strongly supported by blacks and whites alike. No other nation defines

a black person in this fashion. Davis provides a comparison of the one-drop rule with six other ways of defining the status of racially mixed persons in societies around the world, from Latin America to South Africa. No other racially (biologically) distinctive minority group in the United States is subject to a one-drop rule. The concept of "passing as white," which reflects the one-drop rule, applies only to persons with some African black ancestry. As a consequence, persons with even very small fractions of black ancestry cannot be assimilated in the United States as people with one-fourth or less American Indian or East Asian ancestry can be. Davis discusses the dilemmas of racial identity experienced by well-known public figures, including Lena Home, Adam Clayton Powell, and Walter White of the NAACP. Conflicts over color in the black community are also discussed, along with such further problems as collective anxieties, the racial identity of transracially adopted children, different modes of adjustment to ambiguities about racial identity, and personal traumas. Finally, the question of potential changes in the one-drop rule is considered in order to demonstrate how entrenched the rule now is in the black community as well as the white, and why.

*Microaggressions in Everyday Life* Derald Wing Sue 2020-04-21 The essential, authoritative guide to microaggressions, revised and updated The revised and updated second edition of *Microaggressions in Everyday Life* presents an introduction to the concept of microaggressions, classifies the various types of microaggressions, and offers solutions for ending microaggressions at the individual, group, and community levels. The authors—noted experts on the topic—explore the psychological effects of microaggressions on both perpetrators and targets. Subtle racism, sexism, and heterosexism remain relatively invisible and potentially harmful to the wellbeing, self-esteem, and standard of living of many marginalized groups in society. The book examines the manifestations of various forms of microaggressions and explores their impact. The text covers: researching microaggressions, exploring microaggressions in education, identifying best practices teaching about microaggressions, understanding microaggressions in the counseling setting, as well as guidelines for combating microaggressions. Each chapter concludes with a section called "The Way Forward" that provides guidelines, strategies, and interventions designed to help make our society free of microaggressions. This important book: Offers an updated edition of the seminal work on microaggressions Distinguishes between microaggressions and macroaggressions Includes new information on social media as a key site where microaggressions occur Presents updated qualitative and quantitative findings Introduces the concept of microinterventions Contains new coverage throughout the text with fresh examples and new research findings from a wide range of studies Written for students, faculty, and practitioners of psychology, education, social work, and related disciplines, the revised edition of *Microaggressions in Everyday Life* illustrates the impact microaggressions have on both targets and perpetrators and offers suggestions to eradicate microaggressions.

*Rethinking Prison Reentry* Tony Gaskew 2014-08-26 *Rethinking Prison Reentry: Transforming Humiliation into Humility* describes a prison-based education pedagogy designed to address a prevalent racial politics of shaming, self-segregation, and transgenerational learned helplessness. So many incarcerated black men face insurmountable psychosocial obstacles when attempting to make the successful transition back into ownership of their lives. Tony Gaskew confronts the issue of redemption and reconciliation head-on by critically examining the “triads of culpability” when it comes to crime and justice in America: (1) of those who commit crimes; (2) of those who enforce criminal laws; and (3) of those who stand by and do nothing. He explores the growth of a black counterculture of crime that has created modern-day killing fields across urban neighborhoods and challenges the incarcerated black men trapped within its socially constructed lies, helping them to draw upon the strength of their cultural privilege to transform from criminal offender into incarcerated student. **Politics beyond Black and White** Lauren D. Davenport 2018-03-29 The US is transforming into a multiracial society: today one-in-six new marriages are interracial and the multiple-race population is the fastest-growing youth group in the country. In *Politics Beyond Black and White*, Lauren D. Davenport examines the ascendance of multiracial identities and their implications for American society and the political landscape. Amassing unprecedented evidence, this book systematically investigates how race is constructed and how it influences political behavior. Professor Davenport shows that biracials' identities are the product of family, interpersonal interactions, environment, and, most compellingly, gender stereotypes and social class. These identities, in turn, shape attitudes across a range of political issues, from affirmative action to same-sex marriage, and multiracial identifiers are shown to be culturally and politically progressive. But the book also reveals lingering prejudices against race-mixing, and that intermarriage and identification are highly correlated with economic prosperity. Overall findings suggest that multiracialism is poised to dismantle some racial boundaries, while reinforcing others.

*Critical Race Theory* Richard Delgado 2000 In this wide-ranging second edition, Richard Delgado and Jean Stefancic bring together the finest, most illustrative, and highly accessible articles in the fast-growing legal genre of Critical Race Theory. In challenging orthodoxy, questioning the premises of liberalism, and debating sacred wisdoms, Critical Race Theory scholars writing over the past few years have indelibly changed the way America looks at race. This edition contains treatment of all the topics covered in the first edition, along with provocative and probing questions for discussion and detailed suggestions for additional reading, all of which set this fine volume apart from the field. In addition, this edition contains five new substantive units -- crime, critical race practice, intergroup tensions and alliances, gay/lesbian issues, and transcending the black-white binary paradigm of race. In each of these areas, groundbreaking scholarship by the movement's founding figures as well as the brightest new stars provides immediate entre to current trends and developments in critical civil rights thought.

**Stamped from the Beginning** Ibram X. Kendi 2016-04-12 The National Book Award winning history of how racist ideas were created, spread, and deeply rooted in American society. Some Americans insist that we're living in a post-racial society. But racist thought is not just alive and well in America -- it is more sophisticated and more insidious than ever. And as award-winning historian Ibram X. Kendi argues, racist ideas have a long and lingering history, one in which nearly every great American thinker is complicit. In this deeply researched and fast-moving narrative, Kendi chronicles the entire story of anti-black racist ideas and their staggering power over the course of American history. He uses the life stories of five major American intellectuals to drive this history: Puritan minister Cotton Mather, Thomas Jefferson, abolitionist William Lloyd Garrison, W.E.B. Du Bois, and legendary activist Angela Davis. As Kendi shows, racist ideas did not arise from ignorance or hatred. They were created to justify and rationalize deeply entrenched discriminatory policies and the nation's racial inequities. In shedding light on this history, *Stamped from the Beginning* offers us the tools we need to expose racist thinking. In the process, he gives us reason to hope.

**Between the World and Me** Ta-Nehisi Coates 2015-07-14 #1 NEW YORK TIMES BESTSELLER • NATIONAL BOOK AWARD WINNER • NAMED ONE OF TIME'S TEN BEST NONFICTION BOOKS OF THE DECADE • PULITZER PRIZE FINALIST • NATIONAL BOOK CRITICS CIRCLE AWARD FINALIST • ONE OF OPRAH'S "BOOKS THAT HELP ME THROUGH" • NOW AN HBO ORIGINAL SPECIAL EVENT Hailed by Toni Morrison as “required reading,” a bold and personal literary exploration of America’s racial history by “the most important essayist in a generation and a writer who changed the national political conversation about race” (Rolling Stone) NAMED ONE OF THE MOST INFLUENTIAL BOOKS OF THE DECADE BY CNN • NAMED ONE OF PASTE’S BEST MEMOIRS OF THE DECADE • NAMED ONE OF THE TEN BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • The Washington Post • People • Entertainment Weekly • Vogue • Los Angeles Times • San Francisco Chronicle • Chicago Tribune • New York • Newsday • Library Journal • Publishers Weekly In a profound work that pivots from the biggest questions about American history and ideals to the most intimate concerns of a father for his son, Ta-Nehisi Coates offers a powerful new framework for understanding our nation’s history and current crisis. Americans have built an empire on the idea of “race,” a falsehood that damages us all but falls most heavily on the bodies of black women and men—bodies exploited through slavery and segregation, and, today, threatened, locked up, and murdered out of all proportion. What is it like to inhabit a black body and find a way to live within it? And how can we all honestly reckon with this fraught history and free ourselves from its burden? *Between the World and Me* is Ta-Nehisi Coates’s attempt to answer these questions in a letter to his adolescent son. Coates shares with his son—and readers—the story of his awakening to the truth about his place in the world through a series of revelatory experiences, from Howard University to Civil War battlefields, from the South Side of Chicago to Paris, from his childhood home to the living rooms of mothers whose children’s lives were taken as American plunder. Beautifully woven from personal narrative, reimagined history, and fresh, emotionally charged reportage, *Between the World and Me* clearly illuminates the past, bravely confronts our present, and offers a transcendent vision for a way forward.

**Ethnic Identity** Anya Peterson Royce 1982

*The Way Out* Ted Williams III 2014-08-08 The African-American community represents a paradox of sorts. While collective success has been achieved in many areas, African-Americans still disproportionately suffer from a variety of social ills. The residual effects from years of slavery and exclusion from the major institutions of American life are still trenchant. Yet, there is hope. As we move forward into a new millennium, our greatest answers can be found by exploring

the past. The Christian faith has served as a sustaining force that has been the backbone of this community for generations. This faith, along with a holistic commitment to family, political participation, education, and entrepreneurship, are the key to its future. The *Way Out* tackles this issue with a mature voice that represents a juxtaposition of faith and public policy. It rejects the culture of partisan gridlock, racial division, and religious cynicism by fostering a fresh and pluralistic discourse about the greatest solutions for our most pressing civic challenges. From the experienced policymaker to the common citizen wanting to make a difference, *The Way Out* provides tangible solutions through which we can all find ways to engage. It stands firmly at the intersection of religion, race, politics, and culture to light a clear path forward.

**The Negro Motorist Green Book** Victor H. Green The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of business and new business places are started giving added employment to members of our race.

**Crimes Against Humanity in the Land of the Free: Can a Truth and Reconciliation Process Heal Racial Conflict in America?** Imani Michelle Scott *In Our Own Voices, Redux* Teresa Y. Neely 2018-06-01 In the 20-year reboot of Neely and Abif’s 1996 *In Our Own Voices*, fifteen of the original contributors revisit their stories alongside the fifteen new voices that have been added. This Collective represents a wide range of life and library experiences, gender fluidities, sexualities, races, and other visible and invisible identities.

**Recognizing Race and Ethnicity** Kathleen J. Fitzgerald 2014-02-18 Despite radical changes over the last century, race remains a central organizing principle in U.S. society, a key arena of inequality, and the subject of ongoing conflict and debate. In a refreshing new introduction to the sociology of race, *Recognizing Race and Ethnicity* encourages students to think differently by challenging the notion that we are, or should even aspire to be, color-blind. In this text, Kathleen Fitzgerald considers how the continuing significance of race manifests in both significant and obscure ways by looking across all racial/ethnic groups within the socio-historical context of institutions and arenas, rather than discussing each group by group. Incorporating recent research and contemporary theoretical perspectives, she guides students to examine racial ideologies and identities as well as structural racism; at the same time, she covers topics like popular culture, sports, and interracial relationships that will keep students engaged. *Recognizing Race and Ethnicity* provides unparalleled coverage of white privilege while remaining careful to not treat "white" as the norm against which all other groups are defined. *Recognizing Race and Ethnicity* makes it clear that, in a time when race and racism are constantly evolving in response to varied social contexts, societal demands, and political climates, we all must learn to recognize race if we are to get beyond it.

**Learning Race, Learning Place** Erin N. Winkler 2012-11-15 In an American society both increasingly diverse and increasingly segregated, the signals children receive about race are more confusing than ever. In this context, how do children negotiate and make meaning of multiple and conflicting messages to develop their own ideas about race? *Learning Race, Learning Place* engages this question using in-depth interviews with an economically diverse group of African American children and their mothers. Through these rich narratives, Erin N. Winkler seeks to reorient the way we look at how children develop their ideas about race through the introduction of a new framework—comprehensive racial learning—that shows the importance of considering this process from children’s points of view and listening to their interpretations of their experiences, which are often quite different from what the adults around them expect or intend. At the children’s prompting, Winkler examines the roles of multiple actors and influences, including gender, skin tone, colorblind rhetoric, peers, family, media, school, and, especially, place. She brings to the fore the complex and understudied power of place, positing that while children’s racial identities and experiences are shaped by a national construction of race, they are also specific to a particular place that exerts both direct and indirect influence on their racial identities and ideas.

**The Black Towns** Norman L. Crockett 1979

**Names, Naming, and the Law** I. M. Nick 2023-09-29 Across many social and commercial domains, governments regulate the official names used to identify individuals, groups, places, companies & products, and even diseases. This innovative volume investigates the relationship between names and the law, with its significant implications for identity (individual, familial, race, ethnicity, gender, species, brand & product industry, etc.) and status (social, scientific, economic, and political). I. M. Nick introduces the state of the art on this interdisciplinary topic<sup>3/4</sup> providing a diachronic and synchronic view of onomastics and the law<sup>3/4</sup> and expert contributors examine seminal Anglo-American legal cases to demonstrate how name polices relate to broader questions of power, privilege, and politics. Each chapter offers an overview of key issues in onomastics and language policy across multiple geo-cultural contexts, and applies the interdisciplinary insights to real-world policies. This book is a valuable resource for scholars of legal linguistics, forensic linguistics, onomastics, language policy, and cultural studies.

*Race and Ethnicity in America* John Iceland 2017-02-14 *Race and Ethnicity in America* examines patterns and trends in racial and ethnic inequality over recent decades. John Iceland shows how color lines have generally softened over time in the United States but deep-seated inequalities remain—generally, blacks, American Indians, and some Hispanics fare less well than others. Among these groups, the underlying causes of the disadvantages vary, ranging from the legacy of racism, current discrimination, differences of human capital, the unfolding process of immigrant incorporation, and cultural responses to structural conditions. Throughout the book, Iceland also demonstrates that the ways Americans define racial and ethnic groups, along with changing patterns of identification in the U.S. population, influence our understanding of patterns and trends in racial and ethnic inequality. The *Sociology in the Twenty-First Century Series* introduces students to a range of sociological issues of broad interest in the United States today, with each volume addressing topics such as family, race, immigration, gender, education, and social inequality. These books—intended for classroom use—will highlight findings from current, rigorous research and demographic data while including stories about people’s experiences to illustrate major themes in an accessible manner. Learn more at *The Sociology in the Twenty-First Century Series*.

**Communities in Action** National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

**Deadly Injustice** Devon Johnson 2015-12-11 "Uses the Trayvon Martin case as a springboard to examine race, crime, and justice in our criminal justice system. Contributors explore how race and racism inform how Americans think about criminality; how crimes are investigated and prosecuted; and how highly publicized criminal cases go on to shape public views about offenders and the criminal process"--

**Minority-dominant Relations** Floyd James Davis 1978

*Tell Me Who You Are* Winona Guo 2019-06-04 An eye-opening exploration of race in America In this deeply inspiring book, Winona Guo and Priya Vulchi recount their experiences talking to people from all walks of life about race and identity on a cross-country tour of America. Spurred by the realization that they had nearly completed high school without hearing any substantive discussion about racism in school, the two young women deferred college admission for a year to collect first-person accounts of how racism plays out in this country every day--and often in unexpected ways. In *Tell Me Who You Are*, Guo and Vulchi reveal the lines that separate us based on race or other perceived differences and how telling our stories--and listening deeply to the stories of others--are the first and most crucial steps we can take towards negating racial inequity in our culture. Featuring interviews with over 150 Americans accompanied by their photographs, this intimate toolkit also offers a deep examination of the seeds of racism and strategies for effecting change. This groundbreaking book

will inspire readers to join Guo and Vulchi in imagining an America in which we can fully understand and appreciate who we are.

**Critical Perspectives on Racial and Ethnic Differences in Health in Late Life** National Research Council 2004-10-16 In their later years, Americans of different racial and ethnic backgrounds are not in equally good-or equally poor-health. There is wide variation, but on average older Whites are healthier than older Blacks and tend to outlive them. But Whites tend to be in poorer health than Hispanics and Asian Americans. This volume documents the differentials and considers possible explanations. Selection processes play a role: selective migration, for instance, or selective survival to advanced ages. Health differentials originate early in life, possibly even before birth, and are affected by events and experiences throughout the life course. Differences in socioeconomic status, risk behavior, social relations, and health care all play a role. Separate chapters consider the contribution of such factors and the biopsychosocial mechanisms that link them to health. This volume provides the empirical evidence for the research agenda provided in the separate report of the Panel on Race, Ethnicity, and Health in Later Life.

**Way Down in the Hole** Angela J. Hattery 2022-10-14 Based on ethnographic observations and interviews with prisoners, correctional officers, and civilian staff conducted in solitary confinement units, Way Down in the Hole explores the myriad ways in which daily, intimate interactions between those locked up twenty-four hours a day and the correctional officers charged with their care, custody, and control produce and reproduce hegemonic racial ideologies. Smith and Hattery explore the outcome of building prisons in rural, economically depressed communities, staffing them with white people who live in and around these communities, filling them with Black and brown bodies from urban areas and then designing the structure of solitary confinement units such that the most private, intimate daily bodily functions take place in very public ways. Under these conditions, it shouldn't be surprising, but is rarely considered, that such daily interactions produce and reproduce white racial resentment among many correctional officers and fuel the racialized tensions that prisoners often describe as the worst forms of dehumanization. Way Down in the Hole concludes with recommendations for reducing the use of solitary confinement, reforming its use in a limited context, and most importantly, creating an environment in which prisoners and staff co-exist in ways that recognize their individual humanity and reduce rather than reproduce racial antagonisms and racial resentment.

**Illicit Love** Ann McGrath 2015-10-19 Illicit Love is a history of love, sex, and marriage between Indigenous peoples and settler citizens at the heart of two settler colonial nations, the United States and Australia. Award-winning historian Ann McGrath illuminates interracial relationships from the late eighteenth to the early twentieth century through stories of romance, courtship, and marriage between Indigenous peoples and colonizers in times of nation formation. The romantic relationships of well-known and ordinary interracial couples provide the backdrop against which McGrath discloses the "marital middle ground" that emerged as a primary threat to European colonial and racial supremacy in the Atlantic and Pacific Worlds from the Age of Revolution to the Progressive Era. These relationships include the controversial courtship between white, Connecticut-born Harriett Gold and southern Cherokee Elias Boudinot; the Australian missionary Ernest Gribble and his efforts to socially segregate the settler and aboriginal population, only to be overcome by his romantic impulses for an aboriginal woman, Jeannie; and the irony of Cherokee leader John Ross's marriage to a white woman, Mary Brian Stapler, despite his opposition to interracial marriages in the Cherokee Nation; and the efforts among ordinary people in the imperial borderlands of both the United States and Australia to circumvent laws barring interracial love, sex, and marriage. Illicit Love reveals how marriage itself was used by disparate parties for both empowerment and disempowerment and came to embody the contradictions of imperialism. A tour de force of settler colonial history, McGrath's study demonstrates vividly how interracial relationships between Indigenous and colonizing peoples were more frequent and threatening to nation-states in the Atlantic and Pacific worlds than historians have previously acknowledged.

**How to Be a (Young) Antiracist** Ibram X. Kendi 2023-01-31 The #1 New York Times bestseller that sparked international dialogue is now a book for young adults! Based on the adult bestseller by Ibram X. Kendi, and co-authored by bestselling author Nic Stone, How to be a (Young) Antiracist will serve as a guide for teens seeking a way forward in acknowledging, identifying, and dismantling racism and injustice. The New York Times bestseller How to be an Antiracist by Ibram X. Kendi is shaping the way a generation thinks about race and racism. How to be a (Young) Antiracist is a dynamic reframing of the concepts shared in the adult book, with young adulthood front and center. Aimed at readers 12 and up, and co-authored by award-winning children's book author Nic Stone, How to be a (Young) Antiracist empowers teen readers to help create a more just society. Antiracism is a journey--and now young adults will have a map to carve their own path. Kendi and Stone have revised this work to provide anecdotes and data that speaks directly to the experiences and concerns of younger readers, encouraging them to think critically and build a more equitable world in doing so.

*In the Wake* Christina Sharpe 2016-10-21 In this original and trenchant work, Christina Sharpe interrogates literary, visual, cinematic, and quotidian representations of Black life that comprise what she calls the "orthography of the wake." Activating multiple registers of "wake"—the path behind a ship, keeping watch with the dead, coming to consciousness—Sharpe illustrates how Black lives are swept up and animated by the afterlives of slavery, and she delineates what survives despite such insistent violence and negation. Initiating and describing a theory and method of reading the metaphors and materiality of "the wake," "the ship," "the hold," and "the weather," Sharpe shows how the sign of the slave ship marks and haunts contemporary Black life in the diaspora and how the specter of the hold produces conditions of containment, regulation, and punishment, but also something in excess of them. In the weather, Sharpe situates anti-Blackness and white supremacy as the total climate that produces premature Black death as normative. Formulating the wake and "wake work" as sites of artistic production, resistance, consciousness, and possibility for living in diaspora, *In the Wake* offers a way forward.

**Multiracial Americans and Social Class** Kathleen Odell Korgen 2010-04-27 As the racial hierarchy shifts and inequality between Americans widens, it is important to understand the impact of social class on the rapidly growing multiracial population. Multiracial Americans and Social Class is the first book on multiracial Americans to do so and fills a noticeable void in a growing market. In this book, noted scholars examine the impact of social class on the racial identity of multiracial Americans, in highly readable essays, from a range of sociological perspectives. In doing so, they answer the following questions: Who is multiracial? How does class influence racial identity? How does social class status vary among multiracial populations? Do you need to be middle class in order to be an "honorary white"? What is the relationship between social class, culture, and race? How does the influence of social class compare across multiracial backgrounds? What are multiracial Americans' explanations for racial inequality in the United States? Multiracial Americans and Social Class is a key text for undergraduate and postgraduate students, researchers, and academics in the fields of sociology, race and ethnic studies, social stratification, race relations, and cultural studies.

**Gospel Without Borders** Jim Rothenz 2015-03-04 To what degree does culture facilitate or distort the Christian faith, the gospel of Jesus, and the life of the church? In America, the distortion is enormous. Gospel Without Borders carefully examines the complex intersection of culture and faith in America, providing insights that allow for better understanding and a more genuine experience of biblical and historic Christianity. Gospel Without Borders analyzes the formative and interactive roles that human nature and cultural history play in contemporary expressions of Christianity in America. It outlines their profound but little appreciated influence upon the shape and scope of Christian faith within society-at-large, the church, and the lives of individuals. The study illuminates the dimensions of a largely unheralded gospel message characterized by unimpeded faith that fully accords with the kingdom Jesus stridently proclaimed. It

outlines the dimensions of faith freed from the disappointing forms of "culturalized" Christianity that always prove insufficient on a personal level and woefully inadequate to the demands of contemporary life within our globalizing world. Today's world can only be effectively impacted through a "gospel without borders"--a compelling gospel most Americans have yet to hear, and too many Christians--of every cultural and denominational background--have yet to fully embrace.

*Getting Respect* Michèle Lamont 2018-11-27 A comparative look at how discrimination is experienced by stigmatized groups in the United States, Brazil, and Israel Racism is a common occurrence for members of marginalized groups around the world. Getting Respect illuminates their experiences by comparing three countries with enduring group boundaries: the United States, Brazil and Israel. The authors delve into what kinds of stigmatizing or discriminatory incidents individuals encounter in each country, how they respond to these occurrences, and what they view as the best strategy—whether individually, collectively, through confrontation, or through self-improvement—for dealing with such events. This deeply collaborative and integrated study draws on more than four hundred in-depth interviews with middle- and working-class men and women residing in and around multiethnic cities—New York City, Rio de Janeiro, and Tel Aviv—to compare the discriminatory experiences of African Americans, black Brazilians, and Arab Palestinian citizens of Israel, as well as Israeli Ethiopian Jews and Mizrahi (Sephardic) Jews. Detailed analysis reveals significant differences in group behavior: Arab Palestinians frequently remain silent due to resignation and cynicism while black Brazilians see more stigmatization by class than by race, and African Americans confront situations with less hesitation than do Ethiopian Jews and Mizrahi, who tend to downplay their exclusion. The authors account for these patterns by considering the extent to which each group is actually a group, the sociohistorical context of intergroup conflict, and the national ideologies and other cultural repertoires that group members rely on. Getting Respect is a rich and daring book that opens many new perspectives into, and sets a new global agenda for, the comparative analysis of race and ethnicity.

**The Atlas of AI** Kate Crawford 2021-04-06 The hidden costs of artificial intelligence, from natural resources and labor to privacy and freedom What happens when artificial intelligence saturates political life and depletes the planet? How is AI shaping our understanding of ourselves and our societies? In this book Kate Crawford reveals how this planetary network is fueling a shift toward undemocratic governance and increased inequality. Drawing on more than a decade of research, award-winning science, and technology, Crawford reveals how AI is a technology of extraction: from the energy and minerals needed to build and sustain its infrastructure, to the exploited workers behind “automated” services, to the data AI collects from us. Rather than taking a narrow focus on code and algorithms, Crawford offers us a political and a material perspective on what it takes to make artificial intelligence and where it goes wrong. While technical systems present a veneer of objectivity, they are always systems of power. This is an urgent account of what is at stake as technology companies use artificial intelligence to reshape the world.

**The Black Panther Party (reconsidered)** Charles Earl Jones 1998 This new collection of essays, contributed by scholars and former Panthers, is a groundbreaking work that offers thought-provoking and pertinent observations about the many facets of the Party. By placing the perspectives of participants and scholars side by side, Dr. Jones presents an insider view and initiates a vital dialogue that is absent from most historical studies.

**Women of Color Political Elites in the U.S.** Nadia E. Brown 2023-03-31 This volume presents a detailed and in-depth examination of women of color political elites in the United States in varying levels of office and non-elected positions. Through innovative data, novel theoretical frameworks, and compelling arguments, the chapters in this book explore how women of color political elites are changing, challenging, or upending the status quo in American politics. Beyond an additive approach of either race or gender the authors in this volume employ an intersectional lens to explore the complexities of governing, running for office, and adjudicating in a diversifying America. This book will be of great value to upper-level students, researchers, and academics of political science interested in women’s and gender studies, political leadership as well as race and ethnic studies. The chapters in this book were originally published as a special issue of Journal of Women, Politics, and Policy.

**Theism and Public Policy** A. Pinn 2014-12-04 Does theism dominant the language and practices of public life in the United States? This volume explores this question from a humanist perspective, and in so doing it provides insight into the relationship of religion to public policy, and offers ways to advance a more democratic and secular public arena.

*Adoption in a Color-blind Society* Pamela Anne Quiroz 2007 Adoption in a Color-blind Society illustrates how the political economy of private domestic adoption intersects with the political economy of racism to generate quite different demands for infants and children of different races and how the private adoption arena responds to these demands. This book argues that rather than moving towards a color-blind democracy, we instead live in a context where race continues to matter substantially, particularly in arenas 'closest to home.'

**Understanding Racial and Ethnic Differences in Health in Late Life** National Research Council 2004-09-08 As the population of older Americans grows, it is becoming more racially and ethnically diverse. Differences in health by racial and ethnic status could be increasingly consequential for health policy and programs. Such differences are not simply a matter of education or ability to pay for health care. For instance, Asian Americans and Hispanics appear to be in better health, on a number of indicators, than White Americans, despite, on average, lower socioeconomic status. The reasons are complex, including possible roles for such factors as selective migration, risk behaviors, exposure to various stressors, patient attitudes, and geographic variation in health care. This volume, produced by a multidisciplinary panel, considers such possible explanations for racial and ethnic health differentials within an integrated framework. It provides a concise summary of available research and lays out a research agenda to address the many uncertainties in current knowledge. It recommends, for instance, looking at health differentials across the life course and deciphering the links between factors presumably producing differentials and biopsychosocial mechanisms that lead to impaired health.

*How Far is America From Here?* 2005-01-01 How Far is America From Here? approaches American nations and cultures from a comparative and interdisciplinary perspective. It is very much at the heart of this comparative agenda that “America” be considered as a hemispheric and global matter. It discusses American identities relationally, whether the relations under discussion operate within the borders of the United States, throughout the Americas, and/or worldwide. The various articles here gathered interrogate the very notion of “America”: which, whose America, when, why now, how? What is meant by “far”—distance, discursive formations, ideals and ideologies, foundational narratives, political conformities, aberrations, inconsistencies? Where is here—positionality, geographies, spatial compressions, hegemonic and subaltern loci, disciplinary formations, reflexes and reflexivities? These questions are addressed with regard to the multiple Americas within the USA and the bi-continental western hemisphere, as part of and beyond inter-American cultural relations, ethnicities across the national and cultural plurality of America, mutual constructions of North and South, borderlands, issues of migration and diaspora. The larger contexts of globalization and America’s role within this process are also discussed, alongside issues of geographical exploration, capital expansion, integration, transculturalism, transnationalism and global flows, pre-Columbian and contemporary Native American cultures, the Atlantic slave trade, the environmental crisis, U.S. literature in relation to Canadian or Latin American literature, religious conflict both within the Americas and between the Americas and the rest of the world, with such issues as American Zionism, American exceptionalism, and the discourse of/on terror and terrorism.
