**The Family in Past Perspective** Ellen J. Kendall 2021-05-31 This volume takes a more comprehensive view of past familial dynamics than has been previously attempted. By applying interdisciplinary perspectives to periods ranging from the Prehistoric to the Modern, it informs a wider understanding of the term family, and the implications of family dynamics for children and their social networks in the past. Contributors drawn from across the humanities and social sciences present research addressing three primary themes: modes of kinship and familial structure, the convergence and divergence between the idealised image and realities of family life, and the provision of care within families. These themes are interconnected, as the idea and image of family shapes familial structure, which in turn defines the type of care and protection that families provide to their members. The papers in this volume provide new research to challenge assumptions and provoke new ways of thinking about past families as functionally adaptive, socially connected, and ideologically powerful units of society, just as they are in the present. A broad focus on the networks created by familial units also allows the experiences of historically underrepresented women and children to be highlighted in a way that underlines their interconnectedness with all members of past societies. The Family in Past Perspective builds a much-needed bridge across disciplinary boundaries. The wide scope of the book hmakes important contributions, and informs fields ranging from bioarchaeology to women's history and childhood studies.

**Keywords for Children's Literature, Second Edition** Philip Nel 2021-01-12 Introduces key terms, global concepts, debates, and histories for Children's Literature in an updated edition Over the past decade, there has been a proliferation of exciting new work across many areas of children's literature and culture. Mapping this vibrant scholarship, the Second Edition of Keywords for Children's Literature presents original essays on essential terms and concepts in the field. Covering ideas from "Aesthetics" to "Voice," an impressive multidisciplinary cast of scholars explores and expands on the vocabulary central to the study of children's literature. The second edition of this Keywords volume goes beyond disciplinary and national boundaries. Across fifty-nine print essays and nineteen online essays, it includes contributors from twelve countries and an international advisory board from over a dozen more. The fully revised and updated selection of critical writing--more than half of the essays are new to this edition--reflects an intentionally multinational perspective, taking into account non-English traditions and what childhood looks like in an age of globalization. All authors trace their keyword's uses and meanings: from translation to poetry, taboo to diversity, and trauma to nostalgia, the book's scope, clarity, and interdisciplinary play between concepts make this new edition of Keywords for Children's Literature essential reading for scholars and students alike.

**No Kids Allowed** Michelle Ann Abate 2020-10-13 Children's literature isn't just for children anymore. This original study explores the varied forms and roles of children's literature--when it's written for adults. What do Adam Mansbach's Go the F\*\*k to Sleep and Barbara Park's MA! There's Nothing to Do Here! have in common? These large-format picture books are decidedly intended for parents rather than children. In No Kids Allowed, Michelle Ann Abate examines a constellation of books that form a paradoxical new genre: children's literature for adults. Distinguishing these books from YA and middle-grade fiction that appeals to adult readers, Abate argues that there is something unique about this phenomenon. Principally defined by its form and audience, children's literature, Abate demonstrates, engages with more than mere nostalgia when recast for grown-up readers. Abate examines how board books, coloring books, bedtime stories, and series detective fiction written and published specifically for adults question the boundaries of genre and challenge the assumption that adulthood and childhood are mutually exclusive.

Concentrating on King Lear, Hamlet, Othello, and Macbeth, de Sousa's examination of the home provides a fresh look at material that has been the topic of fierce debate. Through a combination of textual readings and a study of early modern housing conditions, accompanied by analyses that draw on anthropology, architecture, art history, the study of material culture, social history, theater history, phenomenology, and gender studies, this book demonstrates how Shakespeare explores the materiality of the early modern house and evokes domestic space to convey interiority, reflect on the habits of the mind, interrogate everyday life, and register elements of the tragic journey. Specific topics include the function of the disappearance of the castle in King Lear, the juxtaposition of home-centered life in Venice and nomadic, 'unhoused' wandering in Othello, and the use of special lighting effects to reflect this relationship, Hamlet's psyche in response to physical space, and the redistribution of domestic space in Macbeth. Images of the house, home, and household become visually and emotionally vibrant, and thus reflect, define, and support a powerful tragic narrative. **Capitalism and Desire** Todd McGowan 2016-09-20 Despite creating vast inequalities and propping up reactionary world regimes, capitalism has many passionate defenders--but not because of what it withholds from some and gives to others. Capitalism dominates, Todd McGowan argues, because it mimics the structure of our desire while hiding the trauma that the system inflicts upon it. People from all backgrounds enjoy what capitalism provides, but at the same time are told more and better is yet to come. Capitalism traps us through an incomplete satisfaction that compels us after the new, the better, and the more. Capitalism's parasitic relationship to our desires gives it the illusion of corresponding to our natural impulses, which is how capitalism's defenders characterize it. By understanding this psychic strategy, McGowan hopes to divest us of our addiction to capitalist enrichment and help us rediscover enjoyment as we actually experienced it. By locating it in the present, McGowan frees us from our attachment to a better future and the belief that capitalism is an essential outgrowth of human nature. From this perspective, our economic, social, and political worlds open up to real political change. Eloquent and enlivened by examples from film, television, consumer culture, and everyday life, Capitalism and Desire brings a new, psychoanalytically grounded approach to political and social theory.

**Writing Robert Greene** Professor Edward Gieskes 2013-04-28 Robert Greene, contemporary of Shakespeare and Marlowe and member of the group of six known as the "University Wits," is the subject of this essay collection, the first to be dedicated solely to his work. Although in his short lifetime Greene published some three dozen prose works, composed at least five plays, and was one of the period's most recognized-even notorious-literary figures, his place within the canon of Renaissance writers has been marginal at best. Writing Robert Greene offers a reappraisal of Greene's career and of his contribution to Elizabethan culture. Rather than drawing lines between Greene's work for the pamphlet market and for the professional theatres, the essays in the volume imagine his writing on a continuum. Some essays trace the ways in which Greene's poetry and prose navigate differing cultural economies. Others consider how the full spectrum of his writing contributes to an emergent professional discourse about popular print and theatrical culture. The volume includes an annotated bibliography of recent scholarship on Greene and three valuable appendices (presenting apocrypha; edition information; and editions organized by year of publication).

**Play time** Daisy Black 2020-11-17 This book presents an important re-theorisation of gender and anti-Semitism in medieval biblical drama. It charts conflicts staged between dramatic personae in plays that represent theological transitions, including the Incarnation, Flood, Nativity and Bethlehem slaughter. Interrogating the Christian preoccupation with what it asserted was a superseded Jewish past, it asks how models of supersession and typology are subverted when placed in dramatic dialogue with characters who experience time differently. The book employs theories of gender, performance, anti-Semitism, queer theory and periodisation to complicate readings of early theatre's biblical matriarchs and patriarchs. Dealing with frequently taught plays as well as less familiar material, the book is essential reading for specialist, undergraduate and postgraduate researchers working on medieval performance, gender and queer studies, Jewish-Christian studies and time.

**China in Ethiopia** Aaron Tesfaye 2020-04-01 Examines China's involvement in Ethiopia as the latter embarks on modernization and economic development. This comprehensive study of China-Ethiopia relations examines why China—an economic and emerging global power—has built relations with Ethiopia and why Ethiopia has responded by singling out China as a partner in its quest for economic development. Using middle-range theory and field research, Aaron Tesfaye focuses on three sets of phenomena: political, economic, and strategic. He explores the following questions: Why are China and Ethiopia building relations at this juncture of globalization? What motivates China's role in helping build Ethiopia's infrastructure, and is Ethiopia's debt to China sustainable? What can Ethiopia offer China in terms of strategic interest in the Horn of Africa and the Red Sea littoral, which is now the most sought out area for military bases by regional and international forces? Tesfaye argues that China's ability to meet Africa's tremendous demand for capital and technology is a reflection of its economic and military rise and evidence that the Asian Century has arrived, ushering in a new global reality. "This is an excellent contribution to South-South relations in general, and China-Africa scholarship in particular." – Edson Ziso, author of A Post State-Centric Analysis of China-Africa Relations: Internationalisation of Chinese Capital and State-Society Relations in Ethiopia

*Revisiting Italy* Rebecca Butler 2021-05-06 With the rise of mass tourism, Italy became increasingly accessible to Victorian women travellers not only as a locus of artistic culture but also as a site of political enquiry. Despite being outwardly denied a political voice in Britain, many female tourists were conspicuous in their commitment to the Italian campaign for national independence, or Risorgimento (1815–61). Revisiting Italy brings several previously unexamined travel accounts by women to light during a decisive period in this political campaign. Revealing the wider currency of the Risorgimento in British literature, Butler situates once-popular but now-marginalized writers: Clotilda Stisted, Janet Robertson, Mary Pasqualino, Selina Bunbury, Margaret Dunbar and Frances Minto Elliot alongside more prominent figures: the Shelley-Byron circle, the Brownings, Florence Nightingale and the Kemble sisters. Going beyond the travel book, she analyses a variety of forms of travel writing including unpublished letters, privately printed accounts and periodical serials. Revisiting Italy focuses on the convergence of political advocacy, gender ideologies, national identity and literary authority in women's travel writing. Whether promoting nationalism through a maternal lens, politicizing the pilgrimage motif or reviving gothic representations of a revolutionary Italy, it identifies shared touristic discourses as temporally contingent, shaped by commercial pressures and the volatile political climate at home and abroad.

**Beyond Catholicism** Fabrizio De Donno 2013-12-18 The essays within Beyond Catholicism trace the interconnections of belief, heresy, and mysticism in Italian culture from the Middle Ages to today. **Domestic Life and Domestic Tragedy in Early Modern England** Catherine Richardson 2013-07-19 In a theatre which self-consciously cultivated its audiences' imagination, how and what did playgoers 'see' on the stage? This book reconstructs one aspect of that imaginative process. It considers a range of printed and documentary evidence - the majority previously unpublished - for the way ordinary individuals thought about their houses and households. It then explores how writers of domestic tragedies engaged those attitudes to shape their representations of domesticity. It therefore offers a new method for understanding theatrical representations, based around a truly interdisciplinary study of the interaction between literary and historical methods. The plays she cites include Arden of Faversham, Two Lamentable Tragedies, A Woman Killed With Kindness, and A Yorkshire Tragedy.

*Functional Somatic Symptoms in Children and Adolescents* Kasia Kozłowska 2020-09-30 This open access book sets out the stress-system model for functional somatic symptoms in children and adolescents. The book begins by exploring the initial encounter between the paediatrician, child, and family, moves through the assessment process, including the formulation and the treatment contract, and then describes the various forms of treatment that are designed to settle the child's dysregulated stress system. This approach both provides a new understanding of how such symptoms emerge – typically, through a history of recurrent or chronic stress, either physical or psychological – and points the way to effective assessment, management, and treatment that put the child (and family) back on the road to health and well-being.

**The Bloomsbury Companion To Lexicography** Howard Jackson 2013-10-10 The Bloomsbury Companion to Lexicography offers the definitive guide to a key area of linguistic study. Each companion is a comprehensive reference resource featuring an overview of key topics, research areas, new directions and a manageable guide to beginning or developing research in the field. Lexicography, as the practice of compiling dictionaries, has a long tradition that has been, for much of the time, largely independent of linguistics. The direct influence of linguistics on lexicography goes back around 50 years, though longer in the case of learners' dictionaries. The present volume aims to reflect on the research that has been and is being done in lexicography and to point the way forward. It tackles, among other topics, the critique of dictionaries in the electronic medium, the future of historical lexicography in the electronic mode with special reference to the online Oxford English Dictionary, and e-lexicography in general.
