The Gospel Truth Patrick T. Rhoads
2020-07-31 The skepticism holding sway in our public society practically screams that one cannot be serious and also be Christian. This work exposes the lie to such skepticism. This book adopts the scientific method to demonstrate the underlying facts recorded in the Gospels. The arguments rely solely upon reason and objective criteria to substantiate their conclusions. This fast-paced work by a nuclear engineering executive with more than thirty-five years of experience will

defy expectations. Rigorous and systematic, this apologetic work is curated with verve, energy, and wit. It will pique the interests of academics and lay audience alike by answering these questions: •Why is the resurrection a necessary but not sufficient condition for the rise of Christianity? •Who founded Christianity? Hint: it was not Saint Paul, as many suppose. •Why did the church retain all of the Hebrew Bible, even though only a small fraction pertains directly to the New Testament? •How does the church rectify the necessity of justice with

the virtue of mercy? •Why did his first followers call Jesus the Christ while fully aware that he did not satisfy the expectations of the Christ in the Hebrew Bible? At the end of the book, readers will ask the same question about Jesus that Jesus asked of the apostles, "Who do you say that I am?"

Quranic Law of Attraction Rusdin S. Rauf

The Psychedelic Gospels Jerry B. Brown 2016-09-15 Reveals evidence of visionary plants in Christianity and the life of Jesus found in medieval art and biblical scripture--hidden in plain sight for centuries • Follows the authors' anthropological adventure discovering sacred mushroom images in European and Middle Eastern churches, including Roslyn Chapel and Chartres • Provides color photos

showing how R. Gordon Wasson's psychedelic theory of religion clearly extends to Christianity and reveals why Wasson suppressed this information due to his secret relationship with the Vatican • Examines the Bible and the Gnostic Gospels to show that visionary plants were the catalyst for Jesus's awakening to his divinity and immortality Throughout medieval Christianity, religious works of art emerged to illustrate the teachings of the Bible for the largely illiterate population. What, then, is the significance of the psychoactive mushrooms hiding in plain sight in the artwork and icons of many European and Middle-Eastern churches? Does Christianity have a psychedelic history? Providing stunning visual evidence from their anthropological

journey throughout Europe and the Middle East, including visits to Roslyn Chapel and Chartres Cathedral, authors Julie and Jerry Brown document the role of visionary plants in Christianity. They retrace the pioneering research of R. Gordon Wasson, the famous "sacred mushroom seeker," on psychedelics in ancient Greece and India, and among the present-day reindeer herders of Siberia and the Mazatecs of Mexico. Challenging Wasson's legacy, the authors reveal his secret relationship with the Vatican that led to Wasson's refusal to pursue his hallucinogen theory into the hallowed halls of Christianity. Examining the Bible and the Gnostic Gospels, the authors provide scriptural support to show that sacred mushrooms were the inspiration for Jesus' revelation of

the Kingdom of Heaven and that he was initiated into these mystical practices in Egypt during the Missing Years. They contend that the Trees of Knowledge and of Immortality in Eden were sacred mushrooms. Uncovering the role played by visionary plants in the origins of Judeo-Christianity, the authors invite us to rethink what we know about the life of Jesus and to consider a controversial theory that challenges us to explore these sacred pathways to the divine. *English as a Global Language* David Crystal 2012-03-29 Written in a detailed and fascinating manner, this book is ideal for general readers interested in the English language. **Indonesia** Library of Congress. Persia in Crisis Rudi Matthee
2011-11-30 I.B.Tauris in association
with the Iran Heritage Foundation The
decline and fall of Safavid Iran is
traditionally seen as the natural
outcome of the unrelieved political
stagnation and moral degeneration
which characterised late Safavid
Iran. "Persia in Crisis" challenges
this view. In this ground-breaking
new book, Rudi Matthee revisits
traditional sources and introduces
new ones to take a fresh look at
Safavid Iran in the century preceding
the fall of Isfahan in 1722, which
brought down the dynasty and ushered
in a long period of turbulence in
Iranian history. Inherently
vulnerable because of the country's
physical environment, its tribal
makeup and a small economic base, the
Safavid state was fatally weakened

over the course of the seventeenth
century. Matthee views Safavid Iran
as a network of precarious alliances
subject to perpetual negotiation and
the society they ruled as an uneasy
balance between conflicting forces.
In the later seventeenth century this
delicate balance shifted from
cohesion to fragmentation. An
increasingly detached, palace-bound
shah; a weakening link between the
capital and the outlying provinces;
the regime's neglect of the military
and its shortsighted monetary
policies combined to exacerbate
rather than redress existing
problems, leaving the country with a
ruler too feeble to hold factionalism
and corruption in check and a
military unable to defend its borders
against outside attack by Ottomans
and Afghans. The scene was set for

the Crisis of 1722. This book makes a major contribution to our understanding of Iranian history and the period that led to two hundred years of decline and eclipse for Iran.

Everyday Communists in South Africa's Liberation Struggle Alan Kirkaldy

2021-11-10 This book explores the role of social movements in the Southern African liberation struggle, through the lens of two 'everyday communists'. Focusing on the Communist Party of South Africa (CPSA), the author explores the lives of Ivan and Lesley Schermbrucker, whose contribution to the party was more clandestine than that of leaders such as Bram Fischer and Joe Slovo. They represent how 'ordinary' people could play significant roles based on stances more rooted in common decency

and morality than in Marxist theory. The book also sheds light on the interplay between transnational and national tendencies during the liberation movement, particularly between the 1940s and the 1960s. The Schermbruckers changed their views in response to the shifting national and international political landscape, the rise of Stalinism, and the flight of South African activists into exile from the 1960s. Both fluent in African languages, they were able to create relationships of trust with African members of the CPSA. Examining tensions and conflicts during the liberation struggle, this book provides fresh insights into 'underground' activism.

The Neo-Aramaic Oral Heritage of the Jews of Zakho Oz Aloni 2022-02-10 In 1951, the secluded Neo-Aramaic-

speaking Jewish community of Zakho migrated collectively to Israel. It carried with it its unique language, culture and customs, many of which bore resemblance to those found in classical rabbinic literature. Like others in Kurdistan, for example, the Jews of Zakho retained a vibrant tradition of creating and performing songs based on embellishing biblical stories with Aggadic traditions. Despite the recent growth of scholarly interest into Neo-Aramaic communities, however, studies have to this point almost exclusively focused on the linguistic analysis of their critically endangered dialects and little attention has been paid to the sociological, historical and literary analysis of the cultural output of the diverse and isolated Neo-Aramaic communities of Kurdistan. In this

innovative book, Oz Aloni seeks to redress this balance. Aloni focuses on three genres of the Zakho community's oral heritage: the proverb, the enriched biblical narrative and the folktale. Each chapter draws on the author's own fieldwork among members of the Zakho community now living in Jerusalem. He examines the proverb in its performative context, the rewritten biblical narrative of Ruth, Naomi and King David, and a folktale with the unusual theme of magical gender transformation. Insightfully breaking down these examples with analysis drawn from a variety of conceptual fields, Aloni succeeds in his mission to put the speakers of the language and their culture on equal footing with their speech. Seeking Asylum in Israel Gilad Ben-Nun 2016-12-18 Since 2005, approximately 70,000 asylum-seeking refugees from Sudan and Eritrea have entered Israel. This, along with the highly publicised anti-African immigrant riots in Israel in 2012 and 2014 and the current global refugee crisis, has meant that the issue of African migration has become increasingly controversial. Here Gilad Ben-Nun looks at this phenomenon in its historical and contemporary contexts, and compares it to the wider debates surrounding the Palestinian refugees in the region and the concept of their right of return. He argues that this newer, African migration issue has forced

Israel to move from conceiving of itself as an 'exceptional' state and now has to view itself as a more 'normal' and 'universal' entity. Ranging as far back as Israel's important role in the the ratification drafting of the 1951 Refugee Convention and drawing on a variety of methodologies and sources, Ben-Nun offers a wide-ranging legal, social and historical examination of asylum in Israel, that sheds timely light onto themes of migration and identity across the Middle East. This is essential reading for legal historians and lawyers, as well as scholars working on migration studies and the history and politics of the Middle East.

Rethinking Corporatization and Public Services in the Global South David A. McDonald 2014-04-10 After three

decades of privatization and anti-state rhetoric, government ownership and public management are back in vogue. This book explores this rapidly growing trend towards 'corporatization' - public enterprises owned and operated by the state, with varying degrees of autonomy. If sometimes driven by neoliberal agendas, there exist examples of corporatization that could herald a brighter future for equity-oriented public services. Drawing on original case studies from Asia, Africa and Latin America, this book critically examines the histories, structures, ideologies and social impacts of corporatization in the water and electricity sectors, interrogating the extent to which it can move beyond commercial goals to deliver progressive public services.

The first collection of its kind, *Rethinking Corporatization and Public Services in the Global South* offers rich empirical insight and theoretical depth into what has become one of the most important public policy shifts for essential services in the global South. *Love Your Enemies* Arthur C. Brooks 2019-03-12 NATIONAL BESTSELLER To get ahead today, you have to be a jerk, right? Divisive politicians. Screaming heads on television. Angry campus activists. Twitter trolls. Today in America, there is an "outrage industrial complex" that prospers by setting American against American, creating a "culture of contempt"—the habit of seeing people who disagree with us not as merely incorrect, but as worthless and defective. Maybe, like more than nine

out of ten Americans, you dislike it. But hey, either you play along, or you'll be left behind, right? Wrong. In *Love Your Enemies*, social scientist and author of the #1 New York Times bestseller *From Strength to Strength* Arthur C. Brooks shows that abuse and outrage are not the right formula for lasting success. Brooks blends cutting-edge behavioral research, ancient wisdom, and a decade of experience leading one of America's top policy think tanks in a work that offers a better way to lead based on bridging divides and mending relationships. Brooks' prescriptions are unconventional. To bring America together, we shouldn't try to agree more. There is no need for mushy moderation, because disagreement is the secret to excellence. Civility and tolerance shouldn't be our goals,

because they are hopelessly low standards. And our feelings toward our foes are irrelevant; what matters is how we choose to act. *Love Your Enemies* offers a clear strategy for victory for a new generation of leaders. It is a rallying cry for people hoping for a new era of American progress. Most of all, it is a roadmap to arrive at the happiness that comes when we choose to love one another, despite our differences.

The Social and Cultural Contexts of Historic Writing Practices Philip John Boyes 2021 Writing is not just a set of systems for transcribing language and communicating meaning, but an important element of human practice, deeply embedded in the cultures where it is present and fundamentally interconnected with all other aspects of human life. 'The

Social and Cultural Contexts of Historic Writing Practices' explores these relationships in a number of different cultural contexts and from a range of disciplinary perspectives, including archaeological, anthropological and linguistic. It offers new ways of approaching the study of writing and integrating it into wider debates and discussions about culture, history and archaeology.

The Transnational Middle East Leïla Vignal 2016-10-04 The Middle East has been undergoing new crises since the powerful socio-political uprisings known as the Arab Spring took place in several countries in 2011. Some countries are experiencing a long-term collapse of their political and social structures out of internal conflicts and external interventions.

The Transnational Middle East posits that, in the Middle East, the development of regional dynamics, of processes and circulations of all kinds, can be documented. In this regard, the approaches it develops – ‘bottom-up’ regionalisation, ‘globalisation from below’ – allow for a better understanding of the ways in which the Middle East is part of global transformations. The book analyses how, through their practices, Middle East societies elaborate a regional space which is not institutionalised. Based on fieldwork in the Middle East, the book provides venues for further theoretical elaboration on globalisation and contemporary societies, as well as on processes of regionalisation. It draws on the emergence of genuine regional spaces

of culture, art, economic activity, human circulation – which supplement and do not contradict other infra-national, national, or global social processes. As in other areas of the world, these transformations are to a large extent the mode of the Middle East's insertion into globalisation. In this respect, they go against standard narratives of the supposed 'exceptionalism' of the region. This book will be a great contribution to comparative politics, Middle Eastern studies, globalisation and international relations.

Law, Politics and Rights Tiyanjana Maluwa 2013-11-29 The essays in this collection, drawing upon Kader Asmal's inspirational role, explore various aspects of constitutionalism, human rights, democracy, and international criminal justice and

the ICC, among other topics. Some of the discussions also offer accounts of Asmal's contribution to international law-making processes and legal activism.

Bureaucratic Rivalry in Mangrove Forest Policy and Management Md.

Faisal Abedin Khan 2021-10-18 Since the Earth Summit of 1992, the concept of sustainable development has gained rapid interest in global policy debate—which incurs effective policy solutions in any forest management. Mangroves are coastal forests, commonly found in the tropics and subtropics, where they fulfil many necessary functions from the productive, protective, and social points of view. A large number of multidisciplinary actors ranging from international to local level are actively engaged with perceived

issues concentrated on mangrove forest policies irrespective of any geographical location. Nonetheless, given their financial, technical, and expertise-related means, the active actors are expected to have a considerable degree of conflicts and competition showing formal and informal influences over policy issues. Moreover, by allocating financial means and sub-delegating authoritative power, actors at multiple jurisdictions may gain power and serve interests in mangrove governance. Hence, the study attempts to describe and explain the bureaucratic rivalry among the actors in mangrove forest policy and management at the meta-level. In doing so, the author employed the Sundarbans of Bangladesh – the world's largest contiguous tract of

mangrove forest – as an illustrative case in policy formulation and implementation.

My Father's Paradise Ariel Sabar
2009-10-13 In a remote corner of the world, forgotten for nearly three thousand years, lived an enclave of Kurdish Jews so isolated that they still spoke Aramaic, the language of Jesus. Mostly illiterate, they were self-made mystics and gifted storytellers and humble peddlers who dwelt in harmony with their Muslim and Christian neighbors in the mountains of northern Iraq. To these descendants of the Lost Tribes of Israel, Yona Sabar was born. Yona's son Ariel grew up in Los Angeles, where Yona had become an esteemed professor, dedicating his career to preserving his people's traditions. Ariel wanted nothing to do with his

father's strange immigrant heritage—until he had a son of his own. Ariel Sabar brings to life the ancient town of Zakho, discovering his family's place in the sweeping saga of Middle-Eastern history. This powerful book is an improbable story of tolerance and hope set in what today is the very center of the world's attention.

Gender-Based Violence in Migration

Jane Freedman 2022-10-27 With
contributions from a diverse array of
international scholars, this edited
volume offers a renewed understanding
of gender-based violence (GBV) by
examining its social and political
dimensions in migration contexts.
This book engages micro, meso, and
macro levels of analysis by
foregrounding a conceptualization of
GBV that addresses both its
interpersonal and structural causes.
Chapters explore how GBV frameworks
and migration management intersect,
bringing to the forefront the
specific inequalities these
intersections produce for migrant
women. Drawing upon several
disciplines, the authors engage in
co-writing a critical engagement
which proposes an original
understanding of how the concepts of

intersectionality, vulnerability and precarity speak to each other from a feminist perspective. This volume will be of interest to scholars/researchers and policymakers in Gender Studies, Migration and Refugee Studies, Sociology, Political Science, Trauma Studies, Human Rights and Socio-Legal Studies.

The Palgrave Handbook of Disability and Citizenship in the Global South

Brian Watermeyer 2018-08-11 This handbook questions, debates and subverts commonly held assumptions about disability and citizenship in the global postcolonial context. Discourses of citizenship and human rights, so elemental to strategies for addressing disability-based inequality in wealthier nations, have vastly different ramifications in societies of the Global South, where

resources for development are limited, democratic processes may be uncertain, and access to education, health, transport and other key services cannot be taken for granted. In a broad range of areas relevant to disability equity and transformation, an eclectic group of contributors critically consider whether, when and how citizenship may be used as a lever of change in circumstances far removed from UN boardrooms in New York or Geneva. Debate is polyvocal, with voices from the South engaging with those from the North, disabled people with nondisabled, and activists and politicians intersecting with researchers and theoreticians. Along the way, accepted wisdoms on a host of issues in disability and international development are enriched and

problematized. The volume explores what life for disabled people in low and middle income countries tells us about subjects such as identity and intersectionality, labour and the global market, family life and intimate relationships, migration, climate change, access to the digital world, participation in sport and the performing arts, and much else.

Book Arts of Isfahan Alice Taylor 1995-12-01 In the seventeenth century, the Persian city of Isfahan was a crossroads of international trade and diplomacy. Manuscript paintings produced within the city's various cultural, religious, and ethnic groups reveal the vibrant artistic legacy of the Safavid Empire. Published to coincide with an exhibition at the Getty Museum, Book Arts of Isfahan offers a fascinating account of the ways in which the artists of Isfahan used their art to record the life around them and at the same time define their own

identities within a complex society. Veritas Ariel Sabar 2021-06-29 From the National Book Critics Circle Award-winning author comes the gripping true story of a sensational religious forgery and the scandal that shook Harvard. In 2012, Dr. Karen King, a star religion professor at Harvard, announced a breathtaking discovery just steps from the Vatican: she'd found an ancient scrap of papyrus in which Jesus calls Mary Magdalene "my wife." The mysterious manuscript, which King provocatively titled "The Gospel of Jesus's Wife," had the power to topple the Roman Catholic Church. It threatened not just the all-male priesthood, but centuries of sacred teachings on marriage, sex, and women's leadership, much of it premised on the hallowed tradition of a celibate

Jesus. Award-winning journalist Ariel Sabar covered King's announcement in Rome but left with a question that no one seemed able to answer: Where in the world did this history-making papyrus come from? Sabar's dogged sleuthing led from the halls of Harvard Divinity School to the former headquarters of the East German Stasi before landing on the trail of a Florida man with an unbelievable past. Could a motorcycle-riding pornographer with a fake Egyptology degree and a prophetess wife have set in motion one of the greatest hoaxes of the century? A propulsive tale laced with twists and trapdoors, Veritas is an exhilarating, globe-straddling detective story about an Ivy League historian and a college dropout—and how they worked together to pass off an audacious forgery as a

long-lost piece of the Bible.

Legal Ethics and Professionalism 2014
And Justice For All Stephen Ellmann 2020-07-15
And Justice For All: Arthur Chaskalson and the Struggle for Equality in South Africa is a biography of a remarkable life lived in service both to law and to the struggle for social change and justice. The social change it describes is the victory over apartheid, which was won on several fronts and through the efforts of people in many nations, but an important one of those fronts lay in the courts of South Africa itself. Arthur Chaskalson enters the historical record in 1963, when he

and a team of talented lawyers represented Nelson Mandela in the historic Rivonia Trial. Chaskalson organized legal and non-profit organizations and served as the first president of South Africa's Constitutional Court, which would eventually lead to the deconstruction of apartheid legislation. In exploring his life and career, we appreciate more clearly the roles lawyers can play in social change and the achievement of a just social order, and at the same time we gain insight into the combination of upbringing, experience, and character that shapes a man first into a 'cause lawyer' and then into a path-breaking and foundation-laying judge.

An Aesthetic Education in the Era of Globalization Gayatri Chakravorty Spivak 2013-05-06 During the past twenty years, the world's most renowned critical theorist—the scholar who defined the field of postcolonial studies—has experienced a radical reorientation in her thinking. Finding the neat polarities

of tradition and modernity, colonial and postcolonial, no longer sufficient for interpreting the globalized present, she turns elsewhere to make her central argument: that aesthetic education is the last available instrument for implementing global justice and democracy. Spivak's unwillingness to sacrifice the ethical in the name of the aesthetic, or to sacrifice the aesthetic in grappling with the political, makes her task formidable. As she wrestles with these fraught relationships, she rewrites Friedrich Schiller's concept of play as double bind, reading Gregory Bateson with Gramsci as she negotiates Immanuel Kant, while in dialogue with her teacher Paul de Man. Among the concerns Spivak addresses is this: Are we ready to forfeit the wealth of

the world's languages in the name of global communication? Even a good globalization (the failed dream of socialism) requires the uniformity which the diversity of mother-tongues must challenge, Spivak writes. The tower of Babel is our refuge. In essays on theory, translation, Marxism, gender, and world literature, and on writers such as Assia Djebar, J. M. Coetzee, and Rabindranath Tagore, Spivak argues for the social urgency of the humanities and renews the case for literary studies, imprisoned in the corporate university. Perhaps, she writes, the literary can still do something.

Clothing Sacred Scriptures David Ganz

2018-12-03 According to a longstanding interpretation, book religions are agents of textuality and logocentrism. This volume inverts the traditional perspective: its focus is on the strong dependency between scripture and aesthetics, holy books and material artworks, sacred texts and ritual performances. The contributions, written by a group of international specialists in Western, Byzantine, Islamic and Jewish Art, are committed to a comparative and transcultural approach. The authors reflect upon the different strategies of »clothing« sacred texts with precious materials and elaborate forms. They show how the pretypographic cultures

of the Middle Ages used book ornaments as media for building a close relation between the divine words and their human audience. By exploring how art shapes the religious practice of books, and how the religious use of books shapes the evolution of artistic practices this book contributes to a new understanding of the deep nexus between sacred scripture and art.

War and Peace in Islam Ghazi bin Muhammad (Prince of Jordan.) 2013 Written by a number of Islamic religious authorities and Muslim scholars, this work presents the views and teachings of mainstream Sunni and Shi'i Islam on the subject of jihad. It authoritatively presents jihad as it is understood by the majority of the world's 1.7 billion Muslims in the world today, and supports this understanding with

extensive detail and scholarship. No word in English evokes more fear and misunderstanding than "jihad." To date the books that have appeared on the subject in English by Western scholars have been either openly partisan and polemical or subtly traumatized by so many acts and images of terrorism in the name of jihad and by the historical memory of nearly 1,400 years of confrontation between Islam and Christianity. Though jihad is the central concern of *War and Peace in Islam: The Uses and Abuses of Jihad*, the range of the essays is not confined exclusively to the study of jihad. The work is divided into three parts: *War and Its Practice*, *Peace and Its Practice*, and *Beyond Peace: The Practice of Forbearance, Mercy, Compassion and Love*. The book aims to reveal the

real meaning of jihad and to rectify many of the misunderstandings that surround both it and Islam's relation with the "Other."

A History of South Africa Leonard Thompson 2014-04-29 A magisterial history of South Africa, from the earliest known human inhabitation of the region to the present. Lynn Berat updates this classic text with a new chapter chronicling the first presidential term of Mbeki and ending with the celebrations of the centenary of South Africa's ruling African National Congress in January 2012. "A history that is both accurate and authentic, written in a delightful literary style."—Archbishop Desmond Tutu "Should become the standard general text for South African history. . . . Recommended for college classes and

anyone interested in obtaining a historical framework in which to place events occurring in South Africa today."—Roger B. Beck, *History: Reviews of New Books African Migrants and the Refugee Crisis* Olayiwola Abegunrin 2020-11-12 This book discusses African migration and the refugee crisis. Economic, political and social tension in the Middle East and in many parts of the Global South has induced historic mass migration across national and international borders. The situation is especially dire in Africa, where a sizable number of Africans have chosen or have been forced to leave their countries of origin for Europe and North America. Written by an international team of scholars, this edited book traces the refugee crisis around the world, telling the

necessary story of forced migration, intentional exclusion, and human insecurity from an Afrocentric lens. The volume is divided into three sections. Section I places African migration within the broader contexts of international history, law, economics, and policy. Section II discusses cases of African migration to Europe, Latin America, and the Mediterranean. Section III considers negative consequences of mass African migration, including the restriction and criminalization of migration, post-traumatic stress disorder, and gender-based violence. A compelling account of risk, resilience, and global power dynamics, this volume will be useful to students and researchers interested in African studies, migration, peace and conflict studies, and policy as well

as professionals, practitioners, NGOs, IGOs, governmental and humanitarian organizations. **Collecting and Provenance** Andrea M. Gáldy 2021-06-21 This collection of essays highlights the enduring significance of provenance and its implications for historians and art historians, as well as students and researchers engaged in museum studies. It also offers an opportunity to demonstrate its relevance to other fields of expertise, such as conservation, visual culture studies, aesthetics, authentication and connoisseurship versus technology as a means of establishing attributions and detecting forgeries. Provenance is still of vital importance to jurisdiction, whether it concerns property law or ownership. It also

remains topical because of the ongoing debates over looted art in

the 1930s and 1940s and the illicit trade in antiquities conducted from Iraq and Syria by terrorist groups.
