Buying Used Vehicles Garland F. Sommer 2007-12 Buying used vehicles sounds like a simple task that most every adult in America has done in their lifetime. This is true except for the fact that in today's inflationary times, a vehicle may well be the second largest purchase a person makes next to their home. What is truly amazing is the very little thought and research typically done by today's average vehicle buyer. Most people go out on a Sunday afternoon and in the space of a few hours, sign a contract for anywhere from \$20,000-\$50,000. This is of course assuming that they decide to buy something new instead of "pre owned." This book is designed to assist the average buyer into the wonderful world of used vehicle purchasing. The ideal of buying used is very frightening to many Americans. The fact is that "buying somebody else's troubles" is reminiscent of many people's attitude. I submit that with the help of a book such as this, a buyer can get a vehicle that will last for many years for a fraction of the cost of buying new. Buying Used Vehicles is not a scientific study by any stretch of the imagination. It is simply a set of experiences put down by an average person with a slightly larger than average amount of purchases and sales to his credit. This book is very short so it would not take a great deal of time to read and absorb, which given the pace of most people's lives these days fits in better than a long textbook on the subject. If just one of the precepts shown herein allows a vehicle buyer to avoid getting stuck with a "lemon" than it probably would be worthwhile. This is the only goal I had in my mind when I put this book together. Some very simple things can sometimes spell the difference between getting a serviceable vehicle and buying a pretty but useless showpiece. In the years I have been buying cars, motorcycles and boats, I have learned that some very common misconceptions exist in the motoring public. One of the biggest is that they learned how to buy vehicles by observing how their parents did it. I was the same way as a young man when things were much simpler and far less legislated. This chronology of vehicle purchases hopefully will illustrate that although fraught with pitfalls, the purchase of something used can be rewarding and very cost efficient. As a somewhat "certifiable" vehicle "nut" I hope that there may be at least a single passage in this work that will help someone avoid the many possible mistakes in buying used. "Good Hunting" to you all!!!!

Cheap Insurance for Your Home, Automobile, Health, & Life Carla Rowley 2008 Insurance takes a huge bite out of the average American's monthly budget, and as stated above, many Americans simply forgo insurance because they consider it out of reach. Shopping for insurance requires more effort than many people want to devote to it. They simply grab the first price they come across or accept routine rate increases when it is important to compare not only the price but also coverage and exclusions among carriers. In this easy to read and comprehensive new book you will learn hundreds of ways to secure and or reduce your health, automobile, life, and home insurance costs. If you do not have or cannot afford insurance, we will show you how to get it at a price you can afford. The Internet and technology have opened up a great new way to search for low cost insurance services; we will give you the Web sites, tell you what to look for and to look out for. There is a great deal you can do right now to cut insurance costs. For example, did you know that installing a theft tracking device in your car can save you up to 35% on your auto insurance and that your credit history can dramatically affect your auto insurance premium. Recent studies have shown that more than 90% of insurers use credit information to create an "insurance risk score," which they then use as a factor to determine your insurance rate. Add a simple home security system to monitor your home, and your insurance rates may be discounted up to 30%, depending upon where you live. Your insurance could end up costing you more if you choose to make monthly payments rather than pay the entire premium annually. Notify your agent if you retire, your children go to school, or you start working from home (when you're not traveling as much your rates will go down). Have you stopped smoking? Lost weight? Started exercising? All of these efforts can have a dramatic effect on your insurance rates. Insurance topics covered in this book are How Insurance Works, Insurance Company Rating, National and Local Firms, Auto, Health, and Disability Insurance, along with work sheets and forms to assist you in your search for the best coverage at the lowest price. YES IT CAN AND IT WILL, IF YOU TAKE WHAT YOU LEARN AND PUT IT TO USE. WITHOUT ACTION, KNOWLEDGE IS USELESS! If you're like the many frustrated consumers world-wide that absolutely hate the idea of purchasing a vehicle, much less actually making it into a dealership only to be bombarded by an overly pushy salesman, then this information is for you. We have created this guide to offer you an alternative to getting taken to the cleaners each time you decide to change up the vehicle you're driving. Dealerships make profit on each and every vehicle they sell along with their other products such as extended service contracts, gap insurance and even financing! The word profit isn't necessarily a bad word but there is a such thing as "a fair profit." How do you know if you're getting a "fair" deal or if you're one of the suckers that's getting screwed? The answer is simple, EDUCATE YOURSELF! We have provided resources that offer a great place to start, but there's still more. You can find reviews online to help you make the decision of what type of vehicle to purchase, what to pay and how much you should get for your trade but that's not all you should know. So what else is there? How about, what is the fair price to pay for an extended warranty, how much is GAP (Guaranteed Asset Protection/Guaranteed Auto Protection) insurance really worth? What about the interest rate that the dealership informs you that you qualify for on this purchase? These are all questions that will be addressed in the following pages and through out my other guides. USA Today Next time I step onto a dealer's lot, I'm going armed with insider information. Inside the Minds of Car Dealers is a new book written by Ray Lopez, a former car salesman with thirty years of experience in numerous dealerships. Inside the Minds of Car Dealers is, as the title suggests, a 118-page insight into the mind of a car salesman, and contains engagingly-written explanations of what goes on behind the curtain at a car dealer, so to speak. Inside the Minds of Car Dealers offers tips on how to find a good dealer before you even leave the house, explains the head games salesmen play and how they can spot a so-called "auto expert" a mile away-and take him or her for even more money than they will the average consumer. Reading Inside the Minds of Car Dealers, I saw exactly what was going on when I bought my Miata...and my Saab...and my Escort. This book explained what the dealer was doing in each case-and how I was getting taken for every last cent each time! Lopez' writing style is a bit heavy-handed at times, but the information contained in this volume is vital, valuable stuff that'll make your next car buying experience a great deal less stressful. It's \$15.95 well spent. Christopher Jackson Elepent Automotive Reviews What makes someone sell you a clunker? "Inside the minds of Car Dealers: How to Buy Your Next Car Without Fear" is a guide for readers who seek a psychological edge in dealing with the shifty con artists who go by the more politically correct title of car dealers. Written by a man who has played the devil, he offers much in the way of trying to decipher the thoughts on both sides of the deal and does well in arming his readers in how to get the best deal they can and avoid the toxic ones. "Inside the Minds of Car Dealers" is a must for anyone considering purchasing a new vehicle in the near future. Midwest Book Review Library Bookwatch December 2009 5 out of 5 stars A PROFESSIONAL, INFORMATIVE AND USEFUL GUIDE! In 2003, I walked into a Chevrolet showroom to purchase a new car for my daughter. As I look back now, I remember being there from opening to closing. After signing the contract and going through with the deal, I realized that I wasn't prepared, and I could have saved a lot of money. Since that sale, I've read many books and did some research on how to buy a new car, or used car, and what we should know about trading in your car. In comparison to THE CAR BUYER'S BIBLE, HOW TO BUY A CAR, and BUYING A CAR FOR DUMMIES, I found "INSIDE THE MINDS OF CAR DEALERS" to be the most informative guide on this subject. If you want expert advice on buying a car, then it would be logical to obtain information from someone who spent thirty years as a car salesman, who served an estimated 2,800 customers per year. Ray Lopez worked for many top-notch leading dealerships such as Chrysler, Cadillac, and Nissan. Through the experience of his thirty year career, knowledge, and expertise, the author can educate the public on how to be a wise car buyer. I highly recommend this book to anyone who is contemplating on buying a car, or trading in your used car. The author provides excellent information that is extremely helpful in purchasing a car, or trading one in. This book is easy to read and understand, many tips are provided on how to obtain the best deal, and many crucial factors are included as to what to do, and what not to do. Did you ever go to a showroom, and buy a car that you didn't want? Were you ever told by a salesman that you can afford to buy their car? Were you ever disrespected, or mistreated by a car salesman? Were you ever lured into a factory discount? Ever gone for a test drive, but told you can't drive it off the lot due to insurance liability? Ray Lopez can answer these questions and many more, while showing you every trick of the trade that can be used against you, through manipulative schemes. The author reveals the biggest secrets in the car buying industry in this unique, professionally written, informative guide. "INSIDE THE MINDS OF CAR DEALERS" is something you may want to read again-and-again, before walking into that showroom as a potential buyer. You will indeed be prepared, and informed on how to become a composed car buyer. Ray Lopez encourages you to do research, includes resources of what to be aware of, and how to detect signs of being taken advantage of. By Geraldine Ahearn "Author Geri Ahearn" October 5, 2009 (Phoenix, AZ) 5.0 out of 5 stars Very Impressive Amazon Verified Purchase. I bought the book because I wanted to find out the right way to buy a car. I'm going to be ready for a new one in a few months. So I might as well start now on learning all I can about car salesmen. I can't trust them. My goal was to buy one, read it, then buy another, and so on, as long as they had high recommendations and were reasonably priced. I figured I'd spend about \$75 on 5 books. By then I could probably learn everything about how they always end up screwing you. And if it cost me \$75 but saved me \$1000 or more, it would be a worthwhile investment. I saw this book and I liked the title so I thought, why not? I'll take a chance. I'm really glad I did. Inside The Minds Of Car Dealers has everything you'll ever need to know on how to get a really good deal. There was stuff in it that I never even dreamed of that goes at the dealership. And it's not just with the salesman. It's with the sales manager, the way the showroom is laid out and even the dealership's ads for salesmen! Who would've ever thought to start researching there first? But it does make sense. This book explains why you never want to go on the lot with an attitude like you know how to deal. I just found out why my friend ended up paying more for his Focus than I did a couple years ago. We bought ours a few days apart. He told them he knew the exact price they paid for the car and he wouldn't pay anything over that. He ended up paying \$1378 more than me. And the reason is in this book. Too bad for him the book wasn't available back then. There's so much great information in it and it's so easy to read too. None of the sales lingo. Just plain English. And it uncovers even more than you'd ever expect. I'm going to read it a few more times before I get my new car. And I recommend to everyone to buy Inside The Minds Of Car Dealers. It will save you money and a lot of time. And like the title says, you can Buy Your Next Car Without Fear. By Radio Guy November 14, 2009 (Los Angeles)
