100 Alien Invaders Gill Williams 2011 100 Alien Invaders exposes one of the greatest threats to the planet after climate change and overpopulation. Animals and plants are perfectly harmless in their native areas, but become a menace when they colonise new territories - often out-competing native species and, in some instances, drastically affecting the ecology. What's more, it is humankind that is largely responsible. Some species, such as killer bees and cane toads, are obvious terrors. Others, such as the water hyacinth, pose a more insidious threat. Read this book and you'll never look at house sparrows or hedgehogs in the same way again. 100 Alien Invaders is a warts-and-all exposé of 100 of the most destructive alien species on the planet.

Maine Amphibians and Reptiles Malcolm L. Hunter 1999 Maine

Amphibians and Reptiles describes each species in prose that is substantial and authoritative, yet clear and engaging. Where does each species live? What do they eat and what eats them? When, where, and how do they reproduce? These and scores of other questions are covered in accounts for each species, along with detailed drawings showing them in their natural setting and range-maps based on the latest data from throughout the region. Tips for finding these species, conservation issues, exotic species, and other topics are covered in additional chapters. Of particular note is the enclosed compact disc, narrated and produced by

well-known naturalist Lang Elliott, that will make it easy to learn to identify all the frogs and toads by their songs. The CD also includes a long unnarrated series of frog choruses.

American Roadkill Don H. Corrigan 2021-11-03 Slaughtered along our highways, roadkill may be observed regularly, but aren't likely to be given much thought. Research scientists, animal rights activists, roadkill artists, writers, ethicists and lyricists, however, are increasingly sounding the alarm. They report that we are killing the very animals we love, and are driving many of them to the brink of extinction. Detailing the death and destruction of mammals, reptiles, amphibians, and insect pollinators, this study examines the ways in which we are thus jeopardizing our own futures. Beginning in the Model T era, biologists counted the common carnage of the time--cottontails, woodchucks, and squirrels, mostly. That record-keeping continues today. Beyond the bleak statistics, zoologists are rerouting migratory paths of animals and are advocating for cat and dog companions. This book illuminates both our successes and failures in keeping animals out of harm's way and what those efforts reflect about ourselves and our capacity to care enough to alter the road ahead.

The Sparrow's Blade Kenneth R. Lewis 2011-02 In the aftermath of having survived an encounter with pedophile serial killer Uriah Beek almost three years earlier, two still healing couples reconnect at Christmas time in the small Oregon coast city of Cutter Point. Kevin Kearnes, the city's former police chief, now a special agent with Homeland Security, is returning to Cutter Point with Britt McGraw and his two young sons to marry Britt on the same beach where he first kissed her. Thud Compton, Kearnes' old sergeant, and now Cutter Point's new chief, has invited them to stay at the Compton home. However, the Kearnes' are not the only ones traveling to Cutter Point for the holidays. Some very bad men are coming to town and instead of bearing gifts, they are planning on taking one for themselves; an old military sword from WWII rusting away inside its display case in the local library which, after 9/11, is now worth a million dollars on the world black market for war artifacts. Russian mobsters "Little Nikki" Kravchenko and Vlasi Voronov will happily accept half that much in payment from Phillip Peeters, the man who has hired them to steal it. But to college student Darius Ono, who has already failed at one attempt to take it, the sword is priceless and reclaiming it will restore honor to the name of his dead great uncle "The Emperor's Sparrow." Although they don't yet know it, Kevin Kearnes and Thud Compton are about to face their greatest

threat ever when they are forced to pursue the murderous men who have stolen The Sparrow's Blade.
