**Knowledge and Management Models for Sustainable Growth. Abstracts Book** Daniela Carlucci 2014

**Interpretations of Legal History** Roscoe Pound 1923

**Litigating Fiduciary Duty Claims** Jason R. Domark 2022 "This book is a practical guide for lawyers who are either beginning a fiduciary litigation practice or who are handling a fiduciary duty case in an unfamiliar area"--

**Colloquial Italian** Sylvia Lymbery 2015-08-14 Colloquial Italian: The Complete Course for Beginners has been carefully developed by an experienced teacher to provide a step-by-step course to Italian as it is written and spoken today. Combining a clear, practical and accessible style with a methodical and thorough treatment of the language, it equips learners with the essential skills needed to communicate confidently and effectively in Italian in a broad range of situations. No prior knowledge of the language is required. Colloquial Italian is exceptional; each unit presents a wealth of grammatical points that are reinforced with a wide range of exercises for regular practice. A full answer key, a grammar summary, bilingual glossaries and English translations of dialogues can be found at the back as well as useful vocabulary lists throughout. Key features include: A clear, user-friendly format designed to help learners progressively build up their speaking, listening, reading and writing skills Jargon-free, succinct and clearly structured explanations of grammar An extensive range of focused and dynamic supportive exercises Realistic and entertaining dialogues covering a broad variety of narrative situations Helpful cultural points An overview of the sounds of Italian Balanced, comprehensive and rewarding, Colloquial Italian is an indispensable resource both for independent learners and students taking courses in Italian. Audio material to accompany the course is available to download free in MP3 format from [www.routledge.com/cw/colloquials](http://www.routledge.com/cw/colloquials). Recorded by native speakers, the audio material features the dialogues and texts from the book and will help develop your listening and pronunciation skills.

**Handbook of Research on Management of Cultural Products: E-Relationship Marketing and Accessibility Perspectives** Aiello, Lucia 2014-01-31 An integrated approach to investigate, create, and propose a model for the value creation of cultural products is essential in maintaining its connection with e-relationship marketing; this examination is important in recognizing a common perspective. The Handbook of Research on Management of Cultural Products: E-Relationship Marketing and Accessibility Perspectives examines the potential value of cultural products and how the support of new technologies can enable non-conventional and social-media marketing relationships. This book aims to highlight an emerging subject area in the field of financial management, management of value creation, and marketing that will be essential for scientists, researchers, and practitioners.

**Tourism and Leisure** Harald Pechlaner 2014-07-17 The Festschrift in honor of Prof. Dr. Peter Keller, president of the International Association of Scientific Experts in Tourism (AIEST) since 1994, represents a wide range of tourism research as well as the current state of the ongoing debates in tourism as a scientific research

field. The aim is to cover multiple topics and trends in travelling and to discuss future development possibilities in the leisure industry.

**Cultural Mobility** Stephen Greenblatt 2010 Cultural Mobility offers a model for understanding the patterns of meaning that human societies create. It has emerged under the very distinguished editorial guidance of Stephen Greenblatt and represents a new way of thinking about culture and cultures with which scholars in many disciplines will need to engage.

**Public Value Management, Measurement and Reporting** James Guthrie 2014-11-07 This volume aims to shed light on how public service value is identified, managed, measured and reported. The chapters cover a range of topics, including theoretical reflections, practical case studies and empirical observations aimed at understanding the concept of public value.

**Giornale della libreria, della tipografia, e delle arti e industrie affini** 1985 **Maintaining Sustainable Accounting Systems in Small Business** Carvalho, Luísa Cagica 2018-06-15 Accounting systems and sustainability management are vital for company management and performance. This is particularly difficult for small businesses. As such, it is necessary to understand the features and issues of sustainable accounting systems, with a particular focus on small business. **Maintaining Sustainable Accounting Systems in Small Business** is a critical scholarly resource that explores sustainability accounting systems with small businesses and how the economic, social, and environmental aspects are related to each other in the company's management and performance. Featuring coverage on a broad range of topics such as management control system, integrated reporting, and small and medium enterprises, this book is geared towards entrepreneurs, business managers, academicians, business professionals, and graduate-level students seeking practical information about the different sustainable accounting systems from strategic, organizational, and accounting perspectives.

**The Autonomy of Labour Law** Alan Bogg 2015-03-26 To what extent is labour law an autonomous field of study? This book is based upon the papers written by a group of leading international scholars on this theme, delivered at a conference to mark Professor Mark Freedland's retirement from his teaching fellowship in Oxford. The chapters explore the boundaries and connections between labour law and other legal disciplines such as company law, competition law, contract law and public law; labour law and legal methodologies such as reflexive governance and comparative law; and labour law and other disciplines such as ethics, economics and political philosophy. In so doing, it represents a cross-section of the most sophisticated current work at the cutting edge of labour law theory.

**Victorian Insolvency** V. Markham Lester 1995 Dr Lester places Victorian management of insolvency in the context of other legal reforms, the relationship between the legal and business communities, and the development of the modern British state.

**Gaining Health** 2006 Introduction -- Challenges -- potential for health gain -- Guiding principles -- Strategic approach -- Framework for action -- Taking action -- The way forward - taking the next steps -- References -- Annex 1, Annex 2.

*Mathematical and Statistical Methods for Actuarial Sciences and Finance* Marco Corazza 2018-07-17 The interaction between mathematicians, statisticians and econometricians working in actuarial sciences and finance is producing numerous meaningful scientific results. This volume introduces new ideas, in the form of four-page papers, presented at the international conference Mathematical and Statistical Methods for Actuarial Sciences and Finance (MAF), held at Universidad Carlos III de Madrid (Spain), 4th-6th April 2018. The book covers a wide variety of subjects in actuarial science and financial fields, all discussed in the context of the cooperation between the three quantitative approaches. The topics include: actuarial models; analysis of high frequency financial data; behavioural finance; carbon and green finance; credit risk methods and models; dynamic optimization in finance; financial econometrics; forecasting of dynamical actuarial and financial phenomena; fund performance evaluation; insurance portfolio risk analysis; interest rate models; longevity risk; machine learning and soft-computing in finance; management in insurance business; models and methods for financial time series analysis, models for financial derivatives; multivariate techniques for financial markets analysis; optimization in insurance; pricing; probability in actuarial sciences, insurance and finance; real world finance; risk management; solvency analysis; sovereign risk; static and dynamic portfolio selection and management; trading systems. This book is a valuable resource for academics, PhD students, practitioners, professionals and researchers, and is also of interest to other readers with quantitative background knowledge.

*Mathematical and Statistical Methods for Actuarial Sciences and Finance* Marco Corazza 2014-08-06 The interaction between mathematicians and statisticians has been shown to be an effective approach for dealing with actuarial, insurance and financial problems, both from an academic perspective and from an operative one. The collection of original papers presented in this volume pursues precisely this purpose. It covers a wide variety of subjects in actuarial, insurance and finance fields, all treated in the light of the successful cooperation between the above two quantitative approaches. The papers published in this volume present theoretical and methodological contributions and their applications to real contexts. With respect to the theoretical and methodological contributions, some of the considered areas of investigation are: actuarial models; alternative testing approaches; behavioral finance; clustering techniques; coherent and non-coherent risk measures; credit scoring approaches; data envelopment analysis; dynamic stochastic programming; financial contagion models; financial ratios; intelligent financial trading systems; mixture normality approaches; Monte Carlo-based methods; multicriteria methods; nonlinear parameter estimation techniques; nonlinear threshold models; particle swarm optimization; performance measures; portfolio optimization; pricing methods for structured and non-structured derivatives; risk management; skewed distribution analysis; solvency analysis; stochastic actuarial valuation methods; variable selection models; time series analysis tools. As regards the applications, they are related to real problems associated, among the others, to: banks; collateralized fund obligations; credit portfolios; defined benefit pension plans; double-indexed pension annuities; efficient-market hypothesis; exchange markets; financial time series; firms; hedge funds; non-life insurance companies; returns distributions; socially responsible mutual funds; unit-linked contracts. This book is aimed at academics, Ph.D. students, practitioners, professionals and researchers. But it will also be of interest to readers with some quantitative background knowledge.

**Tourism, Health, Wellbeing and Protected Areas** Iride Azara 2018-05-14 Around the world, there is mounting evidence that parks and protected areas contribute to a healthy civil society, thus increasing the economic importance of cultural and nature-based tourism. Operating at the intersection of business and the environment, tourism can improve human health and wellbeing as well as serve as a catalyst for increasing appreciation and stewardship of the natural world. While the revenues from nature-based activities help to make the case for investing in park and protected area management; the impacts they have need to be carefully managed, so that visitors do not destroy the natural wonders that attracted them to a destination in the first place. This book features contributions from tourism and recreation researchers and practitioners exploring the relationship between tourism, hospitality, protected areas, livelihoods and both physical and emotional human wellbeing. The book includes sections focused on theory, policy and practice, and case studies, to inform and guide industry decisions to address real-world problems and proactively plan for a sustainable and healthy future.

**Da capo** Antonio Morena 2010-01-01 This Seventh Edition of the best-selling intermediate Italian text, DA CAPO, reviews and expands upon all aspects of Italian grammar while providing authentic learning experiences (including new song and video activities) that provide students with engaging ways to connect with Italians and Italian culture. Following the guidelines established by the National Standards for Foreign Language Learning, DA CAPO develops Italian language proficiency through varied features that accommodate a variety of teaching styles and goals. The Seventh Edition emphasizes a well-rounded approach to intermediate Italian, focusing on balanced acquisition of the four language skills within an updated cultural framework. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*Agriculture, Forestry and Fishery Statistics* Edward Cook 2020 Agriculture, forestry and fishery statistics provides a selection of recent, topical data. Information is presented for the European Union (EU) and its Member States, and is supplemented (when available) with data for the United Kingdom, EFTA members, candidate countries to the EU and potential candidates. This publication aims to cover some of the most popular data within the domain of agriculture, forestry and fishery statistics as well as some of the wider food chain. It may be viewed as an introduction to European statistics in this area and provides a starting point for those who wish to explore the broad range of data that are freely available on Eurostat's website.

**Parliamo Italiano Workbook and Lab Manual** Brancifort 1997-08 "This combined Workbook/Laboratory Manual is an integrated part of the Parliamo italiano! program. It is designed to reinforce the new material in each textbook unit and to provide practice in the skills you will need to communicate effectively in Italian.

**Corporate Governance in Banking and Investor Protection** Belén Díaz Díaz 2018-01-02 This book explores the status quo of corporate governance in banking and investor protection from both theoretical and practical perspectives. Bringing together original conclusions with a regional and international focus, it provides a timely and comprehensive overview of the effectiveness of corporate governance in the financial sector and an assessment of investor protection. It also includes a number of examples and case studies to illustrate the findings. The book compares corporate governance in the banking and financial industries before and after the financial crisis, and helps to evaluate the effect of the recommendations and regulations that have been developed in the interim.

**Innovative Management Perspectives on Confronting Contemporary Challenges** Demetris Vrontis 2015-01-04 In view of the prolonged financial meltdown and the resulting clash of socio-economic interests, both between nations and within societies, unforeseen challenges have to be met by contemporary managers. The current

organizational, financial, political and social situation calls for innovative, out-of-the-box solutions, while also presenting a unique opportunity for management scholars, practitioners and policy makers to work out and bring forward creative and imaginative, as well as realistic, responses to problems. Appealing to scholars, students, researchers and practitioners, and covering a wide spectrum of organizational types and institutions, this book provides scientific evidence, direction and insight on issues associated with confronting challenges related to the contemporary socio-economic scenario. In this respect, the book presents conceptual and empirical research, putting forward a wide range of paradigms and ideas transcending conventional theory, on finding innovative solutions to contemporary business and managerial challenges. It brings forward contemporary theoretical underpinnings across an array of sectors and organizational structures, while also presenting their practical implementations.

**Statistical Methods and Applications from a Historical Perspective** Fabio Crescenzi 2014-06-19 The book showcases a selection of peer-reviewed papers, the preliminary versions of which were presented at a conference held 11-13 June 2011 in Bologna and organized jointly by the Italian Statistical Society (SIS), the Institute national Institute of Statistics (ISTAT) and the Bank of Italy. The theme of the conference was "Statistics in the 150 years of the Unification of Italy." The celebration of the anniversary of Italian unification provided the opportunity to examine and discuss the methodological aspects and applications from a historical perspective and both from a national and international point of view. The critical discussion on the issues of the past has made it possible to focus on recent advances, considering the studies of socio-economic and demographic changes in European countries.

**Special Educational Needs and Inclusive Practices** Fabio Dovigo 2017-01-28 "Today, school is becoming a rapidly changing learning environment. Thinking about students as a homogeneous population is no longer allowed, as diversity – in terms of culture, language, gender, family organisation, learning styles and so on – has emerged as a key challenge for education today. The debate on Special Educational Needs largely reflects this challenge, as working in school implies careful reconsideration of what we mean by "normal" and "special". Current educational intervention is generally based on a deficit and "within-child" model of facing SEN, whereas very little attention is given to the role of learning environments. The focus is on the child more than on the whole class, and on cognition and technical provisions more than on affective, sociocultural and community dimensions of learning. Conversely, regarding students and their needs as "hidden voices" allows us to adopt a transformative approach which sees diversity as a stimulus for the development of educational practices that might benefit all children and help school to become an inclusive and "moving" organisation. The aim of the book is twofold: on the one hand, it offers a systematic overview of the inclusive education state-of-the-art in six countries (Germany, Italy, Norway, Sweden, UK, and USA) based on the contributions by well-known scholars such as Christy Ashby, Barbara Brokamp, Fabio Dovigo, Kari Nes, Mara Westling Allodi, Tony Booth, and Beth Ferri; on the other hand, the book analyses five cases of good practices of inclusion related to different subjects and school levels."

**Improving Business Reporting** Giovanni Frattini 2007

*Law and Agroecology* Massimo Monteduro 2015-05-06 This book represents a first attempt to investigate the relations between Law and Agroecology. There is a need to adopt a transdisciplinary approach to multifunctional agriculture in order to integrate the agroecological paradigm in legal regulation. This does not require a super-law that hierarchically purports to incorporate and supplant the existing legal fields; rather, it calls for the creation of a trans-law that progressively works to coordinate interlegalities between different legal fields, respecting their autonomy but emphasizing their common historical roots in the process. Law, the rural phenomenon as a whole, reflects the plurality and interdependence of different complex systems based jointly on the land as a central point of reference. "Rural" is more than "agricultural": if agriculture is understood traditionally as an activity aimed at exploiting the land for the production of material goods for use, consumption and private exchange, rurality marks the reintegration of agriculture into a broader sphere, one that is not only economic, but also social and cultural; not only material, but also ideal, relational, historical, and symbolic; and not only private, but also public. In approaching law, the natural and social sciences first became specialized, multiplied, and compartmentalized in a plurality of first-order disciplines; later, they began a process of integration into Agroecology as a second-order, multi-perspective and shared research platform. Today, Agroecology is a transdiscipline that integrates other fields of knowledge into the concept of agroecosystems viewed as socio-ecological systems. However, the law seems to still be stuck in the first stage. Following a reductionist approach, law has deconstructed and shattered the universe of law into countless, disjointed legal elementary particles, multiplying the planes of analysis and, in particular, keeping Agricultural Law and Environmental Law two separate fields.

**Impact of Economic Crisis on Education and the Next-generation Workforce** Patricia Ordóñez de Pablos 2016 Provides comprehensive coverage of the complexities and challenges of the learning process in the context of higher education and the role information technologies can play in mobile and distance learning. The volume discusses the challenges for education, higher education and reforms, mobile and distance learning, problems in the current labour market, and the role of faculty with respect to workforce training.

**Bank Risk, Governance and Regulation** Elena Beccalli 2015-08-18 This book presents research from leading researchers in the European banking field to explore three key areas of banking. In Bank Risk, Governance and Regulation, the authors conduct micro- and macro- level analysis of banking risks and their determinants. They explore areas such as credit quality, bank provisioning, deposit guarantee schemes, corporate governance and cost of capital. The book then goes on to analyse different aspects of the relationship between bank risk management, governance and performance. Lastly the book explores the regulation of systemic risks posed by banks, and examines the effects of novel regulatory sets on bank conduct and profitability. The research in this book focuses on aspects of the European banking system; however it also offers wider insight into the global banking space and offers comparisons to international banking systems. The study provides in-depth insight into many areas of bank risk, governance and regulation, before finally addressing the question: which banking strategies are actually feasible?

*Tourism Competitiveness in the Italy-France Cross-border Area* Iacopo Cavallini 2017 This book presents the objectives, main steps and results of a European cooperation project, focusing on the importance of scientific competencies for the exploitation of the synergies and complementarities between tourism and other priority sectors for the sustainable socio-economic development of a given macro-region. This book also highlights the role of the European Union Funds for regional competitiveness with a practical guide of the most important EU instruments for financing projects on tourism, specifically connected with research and other priority sectors.

**Accounting Ethics Education** Margarida M. Pinheiro 2020-11-05 Accounting Ethics Education: Teaching Virtues and Values gathers a diversity of contributions from invited, well-known experts. It promotes a comprehensive reflection around how ethics can and should be taught to accounting students, discussing and highlighting the most updated research on accounting ethics education, and it is

an essential reference in the field. The subject of accounting ethics education is critical to foster ethical awareness that may prevent the way in which one acts or behaves, especially towards others. The point is that accounting education cannot exist without ethical education and accountants must be technically proficient and ethically sensible since ethical behavior is vital to the status and credibility of the accountancy profession. And this sensibility must be developed while the future professional is still cultivating his or her moral and intellectual structure within the school learning environment: character and practical reasoning are crucial because they include not only knowledge of rules and principles, and their correct application but also values and virtues. Examining multiple perspectives, Accounting Ethics Education: Teaching Virtues and Values advances the scholarly debate by providing cutting-edge and insightful research vital for all those interested and immersed in these matters. It begins with a historical perspective of accounting ethics education and continues by exploring challenges, opportunities and developments in the area. It will be of great value to academics, students, researchers and professionals in the fields of accounting, accounting education and ethics.

**The ABC's of AutoLISP** George Omura 1990 This book is for users who want to unleash the full power of AutoCAD through the AutoLISP programming language. In nontechnical terms, the reader is shown how to store point locations, create new commands, and manipulate coordinates and text.

**Confessions of Zeno** Italo Svevo 1989

**Partisan Wedding** Renata Vigano 1999 World War II stories on Italian women in the Resistance as heroines and traitors, and the way they exploited their femininity. In Red Flag, a woman hides guns by covering them with a soiled sanitary napkin.

**Valuing Professional Practices and Licenses** Ronald L. Brown 1987

**The Higher Education System** Burton R. Clark 1986-08-06 How can we compare national systems of higher education, since their organization varies from country to country? Clark identifies the basic elements common to all such systems, and proceeds to thematic comparisons among a number of countries.

**101 Management Models** Marijn Mulders 2019-11-08 Management models: many students will come across them in their studies, yet it is only when actually working with them that the function and benefit of management models are revealed. 101 Management Models gives a comprehensive overview of traditional models as well as innovations in management models. To allow quick access to the models, several indexes are provided, arranged by objective, discipline and author. All models are discussed in a transparent format: the fundamentals of the management model; its application; the result; the pitfalls. This intuitive and accessible textbook will be useful for all students of management - particularly those coming at the topic from another background such as economics or engineering and is supported by a

companion website: <http://www.managementmodels-englishedition.noordhoff.nl/>

**Operational Risk Management in Banks** Giuliana Birindelli 2017-07-26 This book focuses on several topical issues related to the operational risk management in bank: regulation, organisation and strategy. It analyses the connections between the different key-players involved in the operational risk process and the most relevant implications, both operational and strategic, arising from the implementation of the prudential framework.

**Outcome-Based Performance Management in the Public Sector** Elio Borgonovi

2017-07-17 This book highlights the use of an outcome-oriented view of performance to frame and assess the desirability of the effects produced by adopted policies, so to allow governments not only to consider effects in the short, but also the long run. Furthermore, it does not only focus on policy from the perspective of a single unit or institution, but also under an inter-institutional viewpoint. This book features theoretical and empirical research on how public organizations have evolved their performance management systems toward outcome measures that may allow one to better deal with wicked problems. Today, 'wicked problems' characterize most of governmental planning involving social issues. These are complex policy problems, underlying high risk and uncertainty, and a high interdependency among variables affecting them. Such problems cannot be clustered within the boundaries of a single organization, or referred to specific administrative levels or ministries. They are characterized by dynamic complexity, involving multi-level, multi-actor and multi-sectoral challenges. In the last decade, a number of countries have started to develop new approaches that may enable to improve cohesion, to effectively deal with wicked problems. The chapters in this book showcase these approaches, which encourage the adoption of more flexible and pervasive governmental systems to overcome such complex problems. Outcome-Based Performance Management in the Public Sector is divided into five parts. Part 1 aims at shedding light on problems and issues implied in the design and implementation of "outcome-based" performance management systems in the public sector. Then Part 2 illustrates the experiences, problems, and evolving trends in three different countries (Scotland, USA, and Italy) towards the adoption of outcome-based performance management systems in the public sector. Such analyses are conducted at both the national and local government levels. The third part of the book frames how outcome-based performance management can enhance public governance and inter-institutional coordination. Part 4 deals with the illustration of challenges and results from different public sector domains. Finally the book concludes in Part 5 as it examines innovative methods and tools that may support decision makers in dealing with the challenges of outcome-based performance management in the public sector. Though the book is specifically focused on a research target, it will also be useful to practitioners and master students in public administration .
