Loch Down Abbey Beth Cowan-Erskine 2021-04-15 'Perfect if you loved THE THURSDAY MURDER CLUB' - reader review 'An entertaining romp and a fascinating insight into the weird and wonderful ways of the British aristocracy' S.J. Bennett, author of The Windsor Knot It's the 1930s and a mysterious illness is spreading over Scotland. But the noble and ancient family of Inverkillen, residents of Loch Down Abbey, are much more concerned with dwindling toilet roll supplies and who will look after the children now that Nanny has regretfully (and most inconveniently) departed this life. Then Lord Inverkillen, Earl and head of the family, is found dead in mysterious circumstances. The inspector declares it an accident but Mrs MacBain, the head housekeeper, isn't so convinced. As no one is allowed in or out because of the illness, the residents of the house - both upstairs and downstairs - are the only suspects. With the Earl's own family too busy doing what can only be described as nothing, she decides to do some digging - in between chores, of course - and in doing so uncovers a whole host of long-hidden secrets, lies and betrayals that will alter the dynamics of the household for ever. Perfect for fans of Downton Abbey, Agatha Christie and Richard Osman's The Thursday Murder Club, LOCH DOWN ABBEY is a playful, humorous mystery that will keep you glued to the page! READERS LOVE LOCH DOWN ABBEY! 'Beautifully written . . . this is a joyous read that will stay with me for a long time' - 5 STARS 'The ending took me completely by surprise but in the best way' - 5 STARS 'If you want to escape for a while, this is definitely a good book for that' - 5 STARS 'This very funny and unputdownable novel is a sure winner from start to finish! To be enjoyed without moderation.' - 5 STARS 'It's amazing what secrets are hidden . . . Excellent :)' - 5 STARS

Transhumanism - Engineering the Human Condition Roberto Manzocco 2019-03-11 This book is designed to offer a comprehensive high-level introduction to transhumanism, an international political and cultural movement that aims to produce a “paradigm shift” in our ethical and political understanding of human evolution. Transhumanist thinkers want the human species to take the course of evolution into its own hands, using advanced technologies currently under development – such as robotics, artificial intelligence, biotechnology, cognitive neurosciences, and nanotechnology – to overcome our present physical and mental limitations, improve our intelligence beyond the current maximum achievable level, acquire skills that are currently the preserve of other species, abolish involuntary aging and death, and ultimately achieve a post-human level of existence. The book covers transhumanism from a historical, philosophical, and scientific viewpoint, tracing its cultural roots, discussing the main philosophical, epistemological, and ethical issues, and reviewing the state of the art in scientific research on the topics of most interest to transhumanists. The writing style is clear and accessible for the general reader, but the book will also appeal to graduate and undergraduate students.

Prolegomena to the Study of Greek Religion Jane Ellen Harrison 1922

L'espresso 2002 Politica, cultura, economia.

Roth Unbound Claudia Roth Pierpont 2013-10-22 A critical evaluation of Philip Roth—the first of its kind—that takes on the man, the myth, and the work Philip Roth is one of the most renowned writers of our time. From his debut, Goodbye, Columbus, which won the National Book Award in 1960, and the explosion of Portnoy's Complaint in 1969 to his haunting reimagining of Anne Frank's story in The Ghost Writer ten years later and the series of masterworks starting in the mid-eighties—The Counterlife, Patrimony, Operation Shylock, Sabbath's Theater, American Pastoral, The Human Stain—Roth has produced some of the great American literature of the modern era. And yet there has been no major critical work about him until now. Here, at last, is the story of Roth's creative life. Roth Unbound is not a biography—though it contains a wealth of previously undisclosed biographical details and unpublished material—but something ultimately more rewarding: the exploration of a great writer through his art. Claudia Roth Pierpont, a staff writer for The New Yorker, has known Roth for nearly a decade. Her carefully researched and gracefully written account is filled with remarks from Roth himself, drawn from their ongoing conversations. Here are insights and anecdotes that will change the way many readers perceive this most controversial and galvanizing writer: a young and unhappily married Roth struggling to write; a wildly successful Roth, after the uproar over Portnoy, working to help writers from Eastern Europe and to get their books known in the West; Roth responding to the early, Jewish—and the later, feminist—attacks on his work. Here are Roth's family, his inspirations, his critics, the full range of his fiction, and his friendships with such figures as Saul Bellow and John Updike. Here is Roth at work and at play. Roth Unbound is a major achievement—a highly readable story that helps us make sense of one of the most vital literary careers of the twentieth and twenty-first centuries.

Wonder R. J. Palacio 2017-09-26 Auggie Pullman, who was born with extreme facial abnormalities, goes from being home-schooled to entering fifth grade at a private middle school in Manhattan, which entails enduring the taunting and fear of his classmates.

How Literature Saved My Life David Shields 2013-02-05 “Reading How Literature Saved My Life is like getting to listen in on a really great, smart, provocative conversation. The book is not straightforward, it resists any single interpretation, and it seems to me to constitute nothing less than a new form.” —Whitney Otto In this wonderfully intelligent, stunningly honest, painfully funny book, acclaimed writer David Shields uses himself as a representative for all readers and writers who seek to find salvation in literature. Blending confessional criticism and anthropological autobiography, Shields explores the power of literature (from Blaise Pascal's Pensées to Maggie Nelson's Bluets,

Renata Adler's Speedboat to Proust's Remembrance of Things Past) to make life survivable, maybe even enduring. Shields evokes his deeply divided personality (his “ridiculous” ambivalence), his character flaws, his woes, his serious despairs. Books are his life raft, but when they come to feel un-lifelike and archaic, he revels in a new kind of art that is based heavily on quotation and consciousness. And he shares with us a final irony: he wants “literature to assuage human loneliness, but nothing can assuage human loneliness. Literature doesn't lie about this—which is what makes it essential.” A captivating, thought-provoking, utterly original way of thinking about the essential acts of reading and writing.

Tales from Nature: Ladybird Magali Alltiogbé 2019-03-19 Join ladybird as she helps gardeners with their aphids and camouflages herself from a swooping bird. But where should she hide her little eggs? Introducing nature to little ones, Tales From Nature provides simple, entertaining storylines with an animal character as the focus. Bright and colorful illustrations are sure to engage young children as they learn about each animal's day, from a cute description, to what it eats, and where it lives. Simple, engaging text explains nature in a playful way for little ones. Each page includes a window or a flap to encourage children to read on and discover more.

Loss and the Other in the Visionary Work of Anna Maria Ortese Vilma De Gasperin 2014-03 Combines theme and genre analysis in a study of the Italian author, from her first literary writings in the 1930s to her novels in the 1990s. **Perché il tempo vola** Alan Burdick 2018-05-11 Perché siamo più produttivi quando abbiamo molto da fare mentre nei momenti di relax ci pare di non riuscire a combinare niente? Perché ci sembra che la nostra prima storia d'amore sia durata molto più a lungo di quanto sia avvenuto in realtà? Possiamo in qualche modo controllare e plasmare la nostra percezione dello scorrere dei giorni, delle ore, dei secondi? E ancora, che forma ha il tempo? È una retta, come la freccia di Zenone e il suo tragitto impossibile? È un cerchio, come il ciclico calendario dei Maya? O ha il volto dell'astronauta Scott Kelly che, tornato sulla Terra dopo aver passato 520 giorni in orbita, era invecchiato 5 millisecondi in meno rispetto al gemello rimasto a casa? Alan Burdick ci invita a un curioso viaggio nel mondo del tempo: dalle meridiane e dalle clessidre ad acqua dell'antichità all'invenzione del secondo; dall'utc, il Tempo Universale Coordinato, che regola tutti gli orologi del pianeta, alle scoperte sul ritmo circadiano, il nostro naturale orologio interno; dalle teorie di Einstein sulla dilatazione temporale al caso del musicista Clive Wearing che, persa d'improvviso la memoria, si ritrovò a vivere in un eterno presente. Con Perché il tempo vola il Saggiatore propone un'originale riflessione attorno alla dimensione che forse più di tutte influisce sulla nostra vita affettiva e lavorativa. Un percorso che attraversa la fisica, la filosofia e la letteratura, unendo sant'Agostino e Richard Feynman, il «presente specioso» di William James e i viaggi nel futuro di H.G. Wells, gli esperimenti di Michel Siffre – che trascorse più di duecento giorni in un laboratorio isolato sottoterra per indagare la percezione del tempo in condizioni di privazione sensoriale – e la lingua pirahã, quasi priva di riferimenti temporali. Per porre domande le cui risposte inevitabilmente aprono ad altri quesiti: perché se c'è una cosa sulla quale abbiamo sempre trovato il tempo di interrogarci è, per l'appunto, il tempo.

Asimov's Guide to Science Isaac Asimov 1980

Separate Rooms Pier Vittorio Tondelli 2004 Leo is an Italian writer in his thirties. Thomas, his German lover, is dead. On a plane to Munich, Thomas's home town, Leo slips into a reverie of their meeting and life in Paris, nights in Thomas's flat in Montmartre and a desperate, drug-induced flight through the forests of northern France that spells the end for Leo and Thomas' languid, erotic life together. Leo travels to find anonymity,Structured in three musical movements, Separate Rooms is a story of ideal love, broken by absence and separation. When Thomas was alive, he and Leo had separate rooms in order to preserve the urgency of their passion. Now, Leo faces solitude, the impossible striving of memory to recreate life and the hostility of a prejudiced world. Separate Rooms, Tondelli's last book, is a powerful novel of the strength of love and the trauma of death.

The White Family Maggie Gee 2022-03-03 Alfred White, a London park keeper, rules his home with a mixture of rigidity and tenderness that has estranged his three children. For years, Alfred's daughter Shirley and her black partner Elroy have avoided her comically ignorant younger brother Dirk, who admires his father and hates people of colour. But family ties are strong: when Alfred collapses on duty one day, all the children rush to be with him. The scene is set for bloodshed, forcing Alfred to make a climactic choice between justice and kinship. Exploring the roots of racism in British society, The White Family traces what happens when a family reaches breaking point after years of love and hate, violence and polite silence. This twentieth-anniversary edition includes an introduction by Bernardine Evaristo and a note from the author revealing the story behind this contemporary classic. **SHORTLISTED FOR THE ORANGE PRIZE FOR FICTION AND THE INTERNATIONAL IMPAC DUBLIN LITERARY AWARD** 'In this ground-breaking new novel, Maggie Gee bravely and uniquely explores the nuances of racism from the perspective of the perpetrators, within the context of family relationships. The resulting work is a brilliant depiction of British society at the end of the twentieth century.'-- Bernardine Evaristo, author of Girl, Woman, Other 'Outstanding ... tender, sexy and alarming.' -- Jim Crace 'Courageous, honest, powerfully real'-- The Times 'Gee is unflinching in her exploration of the causes and consequences of racism.'-- The Observer 'The White Family points to new directions in British writing. Full of power and passion as well as some timely warnings ... it deserves the widest possible readership.'-- Literary Review 'A transcendent work.'-- Daily Telegraph 'A triumph of hope over despair, reconciliation over bitterness ... an unashamedly contemporary novel that embraces the ideological and emotional chaos of our time.'-- The Independent 'An audacious, ground-breaking condition-of-England novel that delves for the roots of xenophobic hatred and violence in the English hearth ... The White Family is finely judged and compulsively readable. Its head-on scrutiny of the uglier face of fair Albion is the more impressive for its rarity in British fiction.'-- The Guardian

The Era of the Witness Annette Wieviorka 2006 What is the role of the survivor testimony in Holocaust remembrance? In this book, a concise, rigorously argued, and provocative work of cultural and intellectual history, the author seeks to answer this surpassingly complex question.

Heaven And Hell Aldous Huxley 2014-01-01 Inspired by the poetry of William Blake, Heaven and Hell delves into the murky topic of human consciousness through a discussion of religious mystical perception, biochemistry and psychoactive drug experimentation. Heaven and Hell explains how science, art, religion, literature, and psychoactive drugs can expand the reader’s everyday view of reality, offering a more profound grasp of the human experience. Like his earlier essay, The Doors of Perception, Aldous Huxley’s Heaven and Hell exerted a tremendous influence on the counter-culture movement of the 1960s, inspiring the imaginations of an entire generation of artists and revolutionaries like Jim Morrison and Jackson Pollack. HarperTorch brings great works of non-fiction and the dramatic arts to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperTorch collection to build your digital library.

Newton and the Antigravity Formula Luca Novelli 2017 Describes the life and accomplishments of the famous physicist and mathematician, detailing the advances he made in the fields of motion, universal gravitation, and calculus.

Einstein and the Time Machine Luca Novelli 2017 Albert Einstein wasn't afraid to think for himself. Working as a clerk in the patent office in Bern, Switzerland, he wrote papers with fantastical theories--that light is both a wave and a particl that matter can become energy, and energy can become matter, that space can "bend," and time is relative. His revolutionary theories turned the world of physics upside down, and earned him a Nobel Prize. Einstein and the Time Machine tells the story of one of the greatest thinkers of the 20th century, as well as the basics of his Theory of Relativity.

Italian Futurist Poetry Willard Bohn 2005-01-01 Italian Futurist Poetry contains more than 100 poems (both Italian and English versions) by sixty-one poets from across Italy.

Jujutsu Kaisen. Vol. 1 Gege Akutami 2019-12-03 Although Yuji Itadori looks like your average teenager, his immense physical strength is something to behold! Every sports club wants him to join, but Itadori would rather hang out with the school outcasts in the Occult Research Club. One day, the club manages to get their hands on a sealed cursed object. Little do they know the terror they'll unleash when they break the seal... -- VIZ Media

Epoca 1984

Time of Silence Luis Martín-Santos 1964

Tragedy of Childhood Alberto Savinio 1991 Alberto Savinio is the pseudonym of Andrea de Chirico, brother of the surrealist painter Giorgio de Chirico, and this work, written in 1945, exemplifies the word surrealist. With the perspective of a child, Savinio recalls incidents that are on the border between reality and fantasy. Moments of illness, of trying to elicit satisfying answers from grownups, the joy of caring for an injured bird matched by the frustration of having it fly away, the desolation of being ignored by grownup friends, and the absurdities he saw at the theater--all are lyrically portrayed but juxtaposed against elements of the grotesque.

White as Silence, Red as Song Alessandro D’Avenia 2018-09-04 Hailed as Italy’s The Fault in Our Stars, this Italian bestseller is now available for the first time in English. “I was born on the first day of school, and I grew up and old in just two hundred days . . .” Sixteen-year-old Leo has a way with words, but he doesn’t know it yet. He spends his time texting, polishing soccer maneuvers, and killing time with Niko and Silvia. Until a new teacher arrives and challenges him to give voice to his dreams. And so Leo is inspired to win over the red-haired beauty Beatrice. She doesn’t know Leo exists, but he’s convinced that his dream will come true. When Leo lands in the hospital and learns that Beatrice has been admitted too, his mission to be there for her will send him on a thrilling but heartbreaking journey. He wants to help her but doesn’t know how—and his dream of love will force him to grow up fast.

Having already sold over a million copies, Alessandro D’Avenia’s debut novel is considered Italy’s The Fault in Our Stars. Now available in English for the first time, this rich, funny, and heartwarming coming-of-age tale asks us to explore the meaning—and the cost—of friendship, and shows us what happens when suffering bursts into the world of teenagers and renders the world of adults speechless.

L'Italia che scrive 1972

Blockade Diary Lidia Jinsburg 1995 A fictionalized account of the 900-day siege of Leningrad during World War II, describing the day-to-day business of finding something to eat while avoiding bombs and shells. The siege cost 600,000 lives.

Robot 88 Silvio Sosio 2019-11-19 rivista (235 pagine) - Racconti di Zen Cho - Fumio Takano - Franco Ricciardiello - Dario Tonani - Lanfranco Fabriani - Simonetta Olivo - Lorenzo Crescentini - Intervista con Galen Dara - Articoli su Nuove tendenze - Vonda McIntyre - Good Omens - Guido Morselli - Luigi Naviglio Secondo gli osservatori più attenti la fantascienza del futuro non verrà (o non verrà solo) dall'Occidente ma anche e forse soprattutto dall'Oriente. Alcuni paesi come la Cina addirittura investono nella fantascienza, la promuovono, la insegnano nelle scuole. Su Robot abbiamo avuto diversi autori cinesi o cino-americani, questa volta un'autrice giapponese e una malese (che vive a Londra) con due splendidi esempi di come si possa combinare il fantastico tradizionale orientale con la fantascienza più pura. Fumio Takano racconta una storia di esperimenti di fisica nucleare e Zen Cho propone un racconto (premio Hugo) che parla di creature davvero aliene. Tornando in Italia abbiamo una parata di grandissimi autori italiani: Dario Tonani col suo Mondo9, Franco Ricciardiello, Lanfranco Fabriani (sì, con il suo

UCCI) e due tra le più promettenti nuove voci che stanno dando vita alla nuova età d'oro del fantastico italiano. Poi parliamo di nuove tendenze con Sandro Pergameno, di una grande autrice poco valorizzata con Salvatore Proietti, di una colonna del fantastico italiano con Gianfranco de Turris, di Good Omens e intervistiamo una grande artista: Galen Dara. Fondata da Vittorio Curtoni, Robot è una delle riviste di fantascienza italiane più prestigiose, vincitrice di un premio Europa e numerosi premi Italia. Dal 2011 è curata da Silvio Sosio.

Il transumanismo 2008-12-01 Un piccolo ma agguerrito movimento, risolutamente votato al futuro e al progresso tecnico-scientifico, è riuscito a fare parlare di sé, coinvolgendo nel dibattito alcuni degli esponenti più noti della cultura italiana. Ha alimentato le pagine di importanti testate giornalistiche e indotto anche la RAI a girare un documentario monografico, dal significativo titolo “Nascita del superuomo”. La differenza rispetto ad altri movimenti e associazioni di orientamento tecno-scientifico sta proprio qui, nell’attenzione al concetto di postumano o, se si vuole, superuomo. Il messaggio dei transumanisti ha colpito l’opinione pubblica, nel bene o nel male, perché è radicalmente diverso rispetto ad altre filosofie della storia o storiosofie. In un certo senso, è un messaggio rivoluzionario. Questo volume raccoglie i principali interventi apparsi sulla stampa italiana negli ultimi quattro anni.

Darwin and the True Story of the Dinosaurs Luca Novelli 2017 When Charles Darwin published The Origin of Species in 1859, he shocked the world. In it he claimed that humans were just another animal species that had evolved from more primitive life forms. Years earlier, Darwin had collected thousands of animal specimens during a five-year voyage around the world, specimens that he used to make his case for biologic evolution through natural selection. Darwin and the True Story of the Dinosaurs tells the story of the brilliant naturalist who changed humankind's understanding of its origins.

Personality: Determinants, Dynamics, and Potentials Gian Vittorio Caprara 2000-08-15 This book, first published in 2000, is a comprehensive survey of research and theory in personality psychology.

Hop - frog Edgar Allan Poe 2020-08-01 "Hop-Frog" (originally "Hop-Frog; Or, the Eight Chained Ourang-Outangs") is a short story by American writer Edgar Allan Poe, first published in 1849. The title character, a person with dwarfism taken from his homeland, becomes the jester of a king particularly fond of practical jokes. Taking revenge on the king and his cabinet for the king's striking of his friend and fellow dwarf Trippetta, he dresses the king and his cabinet as orangutans for a masquerade. In front of the king's guests, Hop-Frog murders them all by setting their costumes on fire before escaping with Trippetta. Critical analysis has suggested that Poe wrote the story as a form of literary revenge against a woman named Elizabeth F. Ellet and her circle. Edgar Allan Poe is also famous for such works as "The Raven", "The Cask of Amontillado", "The Fall of the House of Usher", "The Masque of the Red Death", "The Pit and the Pendulum", "The Murders in the Rue Morgue", "The Tell-Tale Heart", "The Gold-Bug", "The Black Cat", "The Facts in the Case of M. Valdemar", "Hop-Frog" and many more.

Batman Frank Miller 2002 Since Frank Miller revolutionised the concept of the superhero in 1986 with his timeless, multi-award winning Batman: The Dark Knight Returns, the entire comics world has been awaiting excitedly for a sequel. Now, finally, the wait is over! Three years after the events of The Dark Knight Returns, America has - beneath the glossy surface - become an even worse place to live. The President is a corporate puppet, the Batman has disappeared again, and even Superman - once our greatest hope - is little more than a soldier fighting to protect the status quo. But a hero has come to change everything, bringing an army of other forgotten heroes to bear in the war against crime and corruption. The Batman's time has come again...

Mathematics in Western Culture Morris Kline 1964-12-31 This book gives a remarkably fine account of the influences mathematics has exerted on the development of philosophy, the physical sciences, religion, and the arts in Western life.

Volta e l’anima dei robot Luca Novelli 2010-10-20 Alessandro Volta inventò molte cose e soprattutto la Pila. La sua scoperta aprì la strada all’infinità di innovazioni tecnologiche che fanno parte del mondo di oggi. In questo libro

Volta in persona racconta la sua vita nell’Europa del ’700, tra automi e macchine elettriche. E la sua amicizia con un altro straordinario personaggio: Napoleone.

Volta e l'anima dei robot Luca Novelli 2019

Black Science Rick Remender 2015 After losing their leader to Pillar's random jumps through the Eververse, the Anarchist League of Scientists must learn to fight and survive.

Rivista aeronautica 1989

Angelic Days Fumino Hayashi 2007 In an alternate universe, a group of students learn that they are being groomed as pilots of enormous artificial beings called Evangelion and will have to take part in many battles, as they deal with normal teenage issues.

Bibliografia nazionale italiana 2002

Proprietà del Boss Julia Sykes 2020-11-26 Io e Carmen Ronaldo abbiamo una lunga storia di odio. Lei è mia nemica, ha un ruolo influente in un cartello rivale. Quando anniento la sua organizzazione, decido di risparmiarla. Ora, l’altera e gelida Carmen non è più mia nemica. È semplicemente mia.
