[The Challenge of Crime in a Free Society](#) United States. President's Commission on Law Enforcement and Administration of Justice 1967 This report of the President's Commission on Law Enforcement and Administration

of Justice -- established by President Lyndon Johnson on July 23, 1965 -- addresses the causes of crime and delinquency and recommends how to prevent crime and delinquency and improve law enforcement and the administration of criminal justice. In developing its findings and recommendations, the Commission held three national conferences, conducted five national surveys, held hundreds of meetings, and interviewed tens of thousands of individuals. Separate chapters of this report discuss crime in America, juvenile delinquency, the police, the courts, corrections, organized crime, narcotics and drug abuse, drunkenness offenses, gun control, science and technology, and research as an instrument for reform. Significant data were generated by the Commission's National Survey of Criminal Victims, the first of its kind conducted on such a scope. The survey found that not only do Americans experience far more crime than they report to the police, but they talk about crime and the reports of crime engender such fear among citizens that the basic quality of life of many Americans has eroded. The core conclusion of the Commission, however, is that a significant reduction in crime can be achieved if the Commission's recommendations (some 200) are implemented. The recommendations call for a cooperative attack on crime by the Federal Government, the States, the counties, the cities, civic organizations, religious institutions, business groups, and individual citizens. They propose basic changes in the operations of police, schools, prosecutors, employment agencies, defenders, social workers, prisons, housing authorities, and probation and parole officers.

**Murder Imperfect** Neal Sanders 2009-12-30 "You can call this a confession if you must. Last year ... I murdered my husband. I did it with malice aforethought - a premeditated, cold blooded killing. No. On second thought, let's not call this a confession. A confession implies acknowledgement of guilt or remorse. I don't feel the least bit guilty and I certainly have no remorse. The bastard got what he deserved." With these words, Kat, a well-to-do suburban housewife with a flexible definition of morality, launches into her story. She has found ample evidence that her securities analyst husband, George, is cheating on her. But she has also discovered something else: George has squirreled away millions of dollars in secret accounts, violating every law in the SEC handbook. Claiming those assets in a divorce would alert authorities to George's crimes, and the resulting punitive fines might well wipe out their net worth. As Kat puts it, "The notion of George in prison was not so satisfying that I was willing to become poor." George's death becomes Kat's goal, and she carries out what she believes is the perfect murder with careful attention to detail. But she hasn't counted on a debonair district attorney with his eyes on higher political office, an aggressive SEC lawyer chafing because George died just as he was to be brought in for questioning, or an ambitious mistress with her own agenda. Funny, irreverent and introspective, *Murder Imperfect* traces Kat's tale through a roller coaster of financial shenanigans, ex-lovers and courtroom dramatics. If the essence of suspense is not, 'whodunit' but, rather 'will they get away with it?', *Murder Imperfect* will

leave you guessing right to the very end.

*The Great Catastrophe of My Life* Thomas E. Buckley, S.J. 2003-11-03 From the end of the Revolution until 1851, the Virginia legislature granted most divorces in the state. It granted divorces rarely, however, turning down two-thirds of those who petitioned for them. Men and women who sought release from unhappy marriages faced a harsh legal system buttressed by the political, religious, and communal cultures of southern life. Through the lens of this hostile environment, Thomas Buckley explores with sympathy the lives and legal struggles of those who challenged it. Based on research in almost 500 divorce files, *The Great Catastrophe of My Life* involves a wide cross-section of Virginians. Their stories expose southern attitudes and practices involving a spectrum of issues from marriage and family life to gender relations, interracial sex, adultery, desertion, and domestic violence. Although the oppressive legal regime these husbands and wives battled has passed away, the emotions behind their efforts to dissolve the bonds of marriage still resonate strongly.

**The Longevity Economy** Joseph F. Coughlin 2017-11-07 Oldness: a social construct at odds with reality that constrains how we live after middle age and stifles business thinking on how to best serve a group of consumers, workers, and innovators that is growing larger and wealthier with every passing day. Over the past two decades, Joseph F. Coughlin has been busting myths about aging with groundbreaking multidisciplinary research into what older people actually want -- not what conventional wisdom suggests they need. In *The Longevity Economy*, Coughlin provides the framing and insight business leaders need to serve the growing older market: a vast, diverse group of consumers representing every possible level of health and wealth, worth about \$8 trillion in the United States alone and climbing. Coughlin provides deep insight into a population that consistently defies expectations: people who, through their continued personal and professional ambition, desire for experience, and quest for self-actualization, are building a striking, unheralded vision of longer life that very few in business fully understand. His focus on women -- they outnumber men, control household spending and finances, and are leading the charge toward tomorrow's creative new narrative of later life -- is especially illuminating. Coughlin pinpoints the gap between myth and reality and then shows businesses how to bridge it. As the demographics of global aging transform and accelerate, it is now critical to build a new understanding of the shifting physiological, cognitive, social, family, and psychological realities of the longevity economy.

*The Brain That Changes Itself* Norman  
Doidge 2007-03-15 "Fascinating.  
Doidge's book is a remarkable and  
hopeful portrait of the endless  
adaptability of the human

brain.”—Oliver Sacks, MD, author of *The Man Who Mistook His Wife for a Hat* What is neuroplasticity? Is it possible to change your brain? Norman Doidge’s inspiring guide to the new brain science explains all of this and more An astonishing new science called neuroplasticity is overthrowing the centuries-old notion that the human brain is immutable, and proving that it is, in fact, possible to change your brain. Psychoanalyst, Norman Doidge, M.D., traveled the country to meet both the brilliant scientists championing neuroplasticity, its healing powers, and the people whose lives they’ve transformed—people whose mental limitations, brain damage or brain trauma were seen as unalterable. We see a woman born with half a brain that rewired itself to work as a whole, blind people who learn to see, learning disorders cured, IQs raised, aging brains rejuvenated, stroke patients learning to speak, children with cerebral palsy learning to move with more grace, depression and anxiety disorders successfully treated, and lifelong character traits changed. Using these marvelous stories to probe mysteries of the body, emotion, love, sex, culture, and education, Dr. Doidge has written an immensely moving, inspiring book that will permanently alter the way we look at our brains, human nature, and human potential.

**Marital Agreements** Linda J. Ravdin "... describes and analyzes three types of agreements: premarital agreements, postmarital agreements, and domestic partnership agreements. A premarital agreement is a contract between prospective spouses, including same-sex couples, made in contemplation of marriage. A postmarital agreement is a contract executed by parties to an ongoing marriage and not incident to a divorce or marital separation. A domestic partnership agreement, sometimes known as a cohabitation agreement, is a contract executed by a couple whose domestic arrangements may not be state-sanctioned. However, the term also includes such an agreement executed incident to a civil union or registered domestic partnership. Generally, all of these agreements are used to define the property and support rights of the parties upon termination of the marriage or other relationship by death or dissolution. Some parties also opt to include financial obligations during the marriage or other relationship. This Portfolio does not cover separation agreements

that settle property rights, spousal and child support obligations, and child custody matters incident to a separation or divorce"--Portfolio description.
