Ben Benjamin J. Cayetano
2009 From a hardscrabble childhood in the rough Honolulu neighborhood of Kalihi to his two terms in the governor's mansion, Washington Place, Ben Cayetano's story offers a riveting look at Hawaii yesterday and today: ethnic voting, Hawaiian sovereignty, Bishop Estate, the drama of 9-11 and the back-room maneuverings of politicians and business leaders. Here is a rare

glimpse behind the scenes, an unflinching memoir with no punches pulled, told with warmth and candor in his own words. ..".a revealing exposure of the political sausage grinder of compromise and betrayal, loyalty and courage, fear and rage." U.S. Congressman Neil Abercrombie "In my 20 years of covering the political scene, Ben Cayetano was the most impressive I ever metan independent iconoclast, who eschewed not only

the political correctness of the day but also the cronyism of local politics."

Political reporter Robert Rees "Cayetano explains the intricacies and convolutions of Hawaii politics better than anyone ever has.

Must reading for understanding how government in the Aloha State really works."

reprinted for the first time since its original publication, is muckraking journalist Upton Sinclair's lively, caustic account of the 1934 election campaign that turned California upside down and almost won him the governor's mansion. Using his "End Poverty in California" movement (more commonly called EPIC) as a springboard, Sinclair ran for governor as a Democrat, equipped with a bold plan to end the Depression in California by taking over idle land and factories and turning them into cooperative ventures for the unemployed. To his surprise, thousands rallied to the idea, converting what he had assumed would be another of his utopian schemes into a mass political movement of extraordinary dimensions. With a loosely knit

organization of hundreds of local EPIC clubs, Sinclair overwhelmed the moderate Democratic opposition to capture the primary election. When it came to the general election, however, his opposition employed highly effective campaign tactics: overwhelming media hostility, vicious red-baiting and voter intimidation, high-priced dirty tricks. The result was a resounding defeat in November. I, Candidate tells the story of Sinclair's campaign while also capturing the turbulent political mood of the 1930s. Employing his trademark muckraking style, Sinclair exposes the conspiracies of power that ensured big-money control over the media and other powerful institutions.

the mind of Robert Kirkman, the legendary comic book auteur and creator of The Walking Dead, comes the complete e-book collection of WALKING DEAD novels steeped in the terrifying mythos of the Eisner Award winning comic. The first volume, THE WALKING DEAD: RISE OF THE GOVERNOR, explores the heart-wrenching and horrifying origin of the comic world's most infamous villain: Philip Blake, AKA The Governor. Following Blake and his ragtag band of survivors as they carve out a terrifying path through infested subdivisions and rotting cities, RISE OF THE GOVERNOR is a fever dream of a road trip that explores the making of a super-villain, culminating in a mind-bending twist-ending. The second volume in the series, THE WALKING DEAD: THE

ROAD TO WOODBURY, delves even deeper into the dark heart of the Governor, taking readers through the fractured looking glass of a small town turned into a deadly dictatorship. As seen through the eyes of a troubled bystander, Lilly Caul, this rotting utopia crumbles under the weight of its own excesses and lurid pastimes. The final installments, THE WALKING DEAD: FALL OF THE GOVERNOR: PARTS ONE and TWO, ties all the narrative strands and back stories together in a roller-coaster finale that spans two books—an epic conclusion that resonates for fans of the comic series in startling ways. Every dark promise made during the Governor's rise to power now pays off in a series of terrifying, dramatic confrontations. When collected as a set, these four installments

tell a heart-wrenching and terrifying saga of apocalyptic horror as well as human behavior in the extreme. The Confession James E. McGreevey 2009-10-13 In August 2004, Governor James E. McGreevey of New Jersey made history when he stepped before microphones, declared "My truth is that I am a gay American," and announced his resignation. The story made international headlines—but what led to that moment was a human and political drama more complex and fascinating than anyone knew. Now, in this extraordinarily candid memoir, McGreevey shares his story of a life of ambition, moral compromise, and redemption. From childhood, McGreevey

lived a kind of idealized American life. The son of working-class Irish Catholic parents, named for an uncle who died at Iwo Jima, he strove to exceed expectations in everything he did, meeting each new challenge as though his "future rode on every move." As a young man he was tempted by the priesthood, yet it was another calling—politics—that he found irresistible. Plunging early into the dangerous waters of New Jersey politics, he won three elections by the age of thirty-six, and soon thereafter nearly toppled the state's popular governor, Christie Todd Whitman, in a photo-finish election. Four years later, he won the governorship by a landslide. Throughout his adult life, however, Jim McGreevey had been

forced to suppress a fundamental truth about himself: that he was gay. He knew at once that the only clear path to his dreams was to live a straight life, and so he split in two, accepting the traditional role of family man while denying his deepest emotions. And he discovered, to his surprise, that becoming a political player demanded ethical shortcuts that became as corrosive as living in the closet. In the cutthroat culture of political bosses, backroom deals, and the insidious practice known as "pay-to-play," he writes, "political compromises came easy to me because I'd learned how to keep a part of myself innocent of them." His policy triumphs as governor were tempered by scandal, as the transgressions of politicians

staff came back to haunt him. Yet only when a former lover threatened to expose him did he finally confront his divided soul, and find the authentic self that had always eluded him. More than a coming-out memoir, *The Confession* is the story of one man's quest to repair the rift between his public and private selves, at a time in our culture when the personal and political have become tangled like frayed electric cables. Teeming with larger-than-life characters, written with honesty, grace, and rare insight into what it means to negotiate the minefields of American public life, it may be among the most honest political memoirs ever written.

to Governor is Edwin Mtei's autobiography. It is a story of the journey a few Africans of his generation made, from humble beginnings to heights of success and power. Mr. Mtei was the first Governor of the Bank of Tanzania and the architect of Central Banking in Tanzania, Secretary General of the East African Community and Minister of Finance in Nyerere's Government. Born in 1932 in Marangu, Moshi, he was brought up in a grass-thatched conical hut by his mother, a single parent; he attended 'bush' school at Ngaruma Lutheran Parish Church, and herded goats after lessons finished; he attended Old Moshi Middle and Tabora Secondary schools and went on to Makerere University College in 1953. He graduated from there with a Bachelor of Arts degree in 1957.

Science, History and Geography in 1957. In his own words he states: "I have felt it worthwhile starting right at the beginning of my life. In this way, I aim to give some idea as to what it was like growing up in my birthplace, Marangu, in the tribal and colonial environment of Tanganyika in the 1930s, 1940s and 1950s. I touch on some of the traditions and beliefs of those days and on some colonial laws that impacted on our lives and surroundings." But as he himself states: "The most interesting part of my story is that relating to the events when I held senior positions in Nyerere's Government, and in the public service generally." That includes his falling out with Mwalimu Nyerere over IMF and its policies, and his

resignation from his post as Minister of Finance. For the first time he tells his side of that story. In 1992 Mr. Mtei threw himself deep into the waters of multiparty politics. He founded Chama cha Demokrasia na Maendeleo (CHADEMA) - the Party for Democracy and Development - and worked tirelessly to see it grow and emerge as an important party in the opposition, despite his own failure to win the parliamentary seat for Arusha Urban in the 1995 election. Even at 77 Mr. Mtei does not mince his words. He says what he believes and says it with courage and conviction. This is history, spanning well over half a century, written by someone who was involved in and who observed closely the key events of his time. He is retired and works on his farm, Ogaoni Estate,

but still manages to ruffle feathers whenever he is asked to comment on the economy and politics of Tanzania and East Africa.

The Power of the Texas

Governor Brian McCall

2010-01-01 George W. Bush called it "the best job in the world," yet many would argue that the Texas governorship is a weak office. Given few enumerated powers by the Texas Constitution, the governor must build a successful relationship with the state legislature—sometimes led by a powerful lieutenant governor or speaker of the opposing party—to advance his or

her policy agenda. Yet despite the limitations on the office and the power of the legislative branch, many governors have had a significant impact on major aspects of Texas's public life—government, economic development, education, and insurance reform among them. How do Texas governors gain the power to govern effectively? The Power of the Texas Governor takes a fresh look at the state's chief executives, from John Connally to George W. Bush, to discover how various governors have overcome the institutional limitations of the office. Delving into the governors' election campaigns and successes and failures in office, Brian McCall makes a convincing case that the strength of a governor's personality—in particular, he

highly developed social skills—can translate into real political power. He shows, for example, how governors such as Ann Richards and George W. Bush forged personal relationships with individual legislators to achieve their policy goals. Filled with revealing insights and anecdotes from key players in each administration, *The Power of the Texas Governor* offers new perspectives on leadership and valuable lessons on the use of power.

Hollywood or History

Scott L. Roberts

2018-07-01 Teaching and learning through Hollywood, or commercial, film productions is anything but a new approach and has been something of a mainstay in the classroom for nearly a century. Purposeful and effective instruction through film, however, is not problem-free and there are many challenges that accompany classroom applications of Hollywood motion pictures. In response to the problems and possibilities associated with teaching through film, we have collaboratively developed a collection of practical, classroom-ready lesson ideas that might bridge gaps between theory and practice and assist

teachers endeavoring to make effective use of film in their classrooms. We believe that film can serve as a powerful tool in the social studies classroom and, where appropriately utilized, foster critical thinking and civic mindedness. The College, Career, and Civic Life (C3) framework, represents a renewed and formalized emphasis on the perennial social studies goals of deep thinking, reading and writing. We believe that as teachers endeavor to digest and implement the platform in schools and classrooms across the country, the desire for access to structured strategies that lead to more active and rigorous investigation in the social studies classroom will grow increasingly acute. Our hope is that this edited book might play a small

larger project of supporting practitioners, specifically K-12 teachers of United States history, by offering a collection of classroom-ready tools based on the Hollywood or History? strategy and designed to foster historical inquiry through the careful use of historically themed motion pictures. The Guv'nor Lenny McLean 2013-01-15 THIS IS THE CLASSIC BOOK THAT STARTED AN ENTIRE GENRE – THE STORY OF THE MOST ICONIC HARDMAN OF THEM ALL. Lenny McLean was one of the deadliest bareknuckle fighters Britain has ever seen. He had dear, powerful friends, but he also had

terrible enemies. So much so that he had two bullet wounds in his back – each from a different attack. He was also stabbed repeatedly – always from behind. But Lenny was also a warm, big-hearted grizzly bear of a man, whose main weakness was an overwhelming desire to put the welfare of his mates ahead of his own well-being. In his extraordinary autobiography, he tells of how the mafia flew him to New York to take on their greatest bareknuckle boxer in a multi-million pound illicit bout. The Mafia's man lasted less than three minutes. When the IRA fronted up a London gang in a money-laundering scam, Lenny was brought in to intimidate the terrorists. The IRA, not surprisingly, backed off. . . His most serious trial

he was accused of murder. Fighting to prove his innocence against a minimum sentence of twenty-five years, Lenny never gave up – and went on to be found not guilty. This is a tale of one man's triumph against almost insurmountable odds, in a battle that Len fought every day for himself, and to 'put steam on the table' for his wife and kids.

Pontius Pilate Warren Carter 2003 Explores the diverse portraits of Pontius Pilate in the Gospels. Focuses on reading the Gospels not only as personal religious texts but also as narratives shaped by their socio-political contexts. It identifies aspects of Roman imperial power that is assumed by each Gospel's presentation of Pilate, the Roman governor. It analyzes each Gospel's critical attitude to the

empire and outlines how that Gospel shapes Christian discipleship in a world dominated by Roman power.

Heroism and Wellbeing in the 21st Century

Olivia Efthimiou 2018-02-13

Offering a holistic take on an emerging field, this edited collection examines how heroism manifests, is appropriated, and is

constructed in a broad range of settings and from a variety of disciplines and perspectives.

Psychologists, educators, lawyers, researchers and cultural analysts consider how heroism intersects with wellbeing, and how we still use—and even abuse—heroism as a vehicle to thrive and prosper in the everyday and in the face of the most unbearable situations. Highlighting some of the most pressing issues in today's world—including genocide, racism, deceitful business practices, bystanderism, mental health, unethical governance and the global refugee crisis—this book applies a critical psychological perspective in synthesizing the social construction of heroism and wellbeing, contributing

(People), “startling” (Baltimore Sun), “moving” (Chicago Tribune) true story of two kids with the same name from the city: One went on to be a Rhodes Scholar, decorated combat veteran, White House Fellow, and business leader. The other is serving a life sentence in prison. Selected by Stephen Curry as his “Underrated” Book Club Pick with Literati The chilling truth is that his story could have been mine. The tragedy is that my story could have been his. In December 2000, the Baltimore Sun ran a small piece about Wes Moore, a local student who had just received a Rhodes Scholarship. The same paper also ran a series of articles about four young men who had allegedly killed a police officer in a spectacularly botched

armed robbery. The police were still hunting for two of the suspects who had gone on the lam, a pair of brothers. One was named Wes Moore. Wes just couldn’t shake off the unsettling coincidence, or the inkling that the two shared much more than space in the same newspaper. After following the story of the robbery, the manhunt, and the trial to its conclusion, he wrote a letter to the other Wes, now a convicted murderer serving a life sentence without the possibility of parole. His letter tentatively asked the questions that had been haunting him: Who are you? How did this happen? That letter led to a correspondence and relationship that have lasted for several years. Over dozens of letters and prison visits, Wes discovered from

that the other Wes had had a life not unlike his own: Both had had difficult childhoods, both were fatherless; they'd hung out on similar corners with similar crews, and both had run into trouble with the police. At each stage of their young lives they had come across similar moments of decision, yet their choices would lead them to astonishingly different destinies. Told in alternating dramatic narratives that take readers from heart-wrenching losses to moments of surprising redemption, *The Other Wes* Moore tells the story of a generation of boys trying to find their way in a hostile world.

SHORTLISTED FOR THE ORWELL PRIZE FOR POLITICAL WRITING 2023
'This is what journalism is for' - Observer
Time to Think goes behind the headlines to reveal the truth about the NHS's flagship gender service for children. The Gender Identity Development Service (GIDS), based at the Tavistock and Portman Trust in North London, was set up initially to provide - for the most part - talking therapies to young people who were questioning their gender identity. But in the last decade GIDS has referred more than a

thousand children, some as young as nine years old, for medication to block their puberty. In the same period, the number of young people seeking GIDS's help exploded, increasing twenty-five-fold. The profile of the patients changed too: from largely pre-pubescent boys to mostly adolescent girls, who were often contending with other difficulties. Why had the patients changed so dramatically? Were all these distressed young people best served by taking puberty blockers and then cross-sex hormones, which cause irreversible changes to the body? While some young people appeared to thrive after taking the blocker, many seemed to become worse. Was there enough clinical evidence to justify such profound medical interventions in the lives of

people who had so much else to contend with? This urgent, scrupulous and dramatic book explains how, in the words of some former staff, GIDS has been the site of a serious medical scandal, in which ideological concerns took priority over clinical practice. Award-winning journalist Hannah Barnes has had unprecedented access to thousands of pages of documents, including internal emails and unpublished reports, and well over a hundred hours of personal testimony from GIDS clinicians, former service users and senior Tavistock figures. The result is a disturbing and gripping parable for our times.

Tumultuous Times Masaaki Shirakawa 2021 A rare insider's account of the inner workings of the Japanese economy, and the Bank of Japan's

monetary policy, by a career central banker. The Japanese economy, once the envy of the world for its dynamism and growth, lost its shine after a financial bubble burst in early 1990s and slumped further during the Global Financial Crisis in 2008. It suffered even more damage in 2011, when a severe earthquake set off the Fukushima Daiichi nuclear disaster. However, the Bank of Japan soldiered on to combat low inflation, low growth, and low interest rates, and in many ways it served as a laboratory for actions taken by central banks in other parts of the world. Masaaki Shirakawa, who led the bank as governor from 2008 to 2013, provides a rare insider's account of the workings of Japanese economic and monetary policy.

this period and how it challenged mainstream economic thinking.

Pamela Colman Smith, Tarot Artist Dawn Robinson 2020-05-29
Pamela Colman Smith is the mysterious artist behind the most renowned tarot deck in the world, for many years forgotten. In a revival of interest in esoteric artists and accessible tarot, curiosity about Pamela is now on the ascendant, but there are still many unanswered questions, especially concerning her later life. Born in London to American parents, Pamela was a prolific illustrator and artist who mixed with the great and good of art and theatre, among them W. B. Yeats and Bram Stoker. 'Adopted' by actress Ellen Terry, she

spent some years with the Lyceum Theatre crowd, also working as an exotic storyteller, known as Gelukiezanger, in bohemian London. People have questioned her sexuality, her ethnic origins and alleged synaesthesia, assuming her to be biracial and lesbian. These are discussed but the biggest mystery of all is why she converted from mysticism to Catholicism in 1911, removing herself from vibrant London to the isolated Lizard in the west of Cornwall. There, living in relative obscurity, she evangelised Catholicism in a heavily non-conformist area, before moving to Bude in her sixties.

2016-06-10 This practical book is dedicated to building ethical organizations. It has been written for college students preparing for careers in public service as well as for elected and appointed officials, administrators, and career public servants in the United States and elsewhere. Concise and comprehensive, Ethics Management for Public and Nonprofit Managers takes a managerial ethics approach to building and leading ethical public organizations. It includes: a discussion of the U.S. constitutional and administrative environment in which officials carry out their duties; descriptions and assessments of the tools available to elected and appointed officials who are committed to

building ethical organizations; an overview of legislative and administrative measures taken by Congress, presidents, the judiciary, and the fifty states to foster ethical governance; unique coverage of ethics management around the world, with a focus on the US, Europe, and Asia; and hands-on skill-building exercises with active learning opportunities that conclude each chapter. This third edition includes a new chapter on 'achieving ethical competence,' exploring a wide range of ethical issues that confront public and nonprofit managers in their efforts to lead and build organizations of integrity. Examples and cases from both the public and the nonprofit sectors are incorporated throughout the third edition so that the book

acts as a kind of 'field guide' for ethical behavior, with descriptions and assessments of the tools available to elected and appointed officials at every level.

Accompanying the third edition text is a series of exercises that build ethical competence skills, asking the reader to judge the ethical competence of key actors in cases drawn from recent headlines.

The Governor's Boss (Classic Reprint)

James S. Barcus 2018-02-05

Excerpt from The Governor's Boss Her mother, owing to practice in tidily doing her own clothes and the clothes for Ruth, was able to turn her hand to sewing for the neighbors - thus the wolf did not reach their door. Ruth, not quite purposeful enough to learn stenography or

bookkeeping, or anything like a female profession, sought a position as tele phone operator, and after two or three years of assisting and substituting, finally reached the goal of her ambition. And no one has been heard to say that she did not perform her duties with punctuality and dignity. Her graduation from this position, or her degradation from it, as the reader may choose to regard it, must be reserved. Whose Black Politics?

Andra Gillespie
2010-01-29 Using multiple case studies, this title probes the implications of the emergence of a vanguard of leaders of African American politics. It establishes a theoretical framework based on the interaction of three factors: black leaders' crossover appeal, their political ambition, and connections to the black

establishment.

The Governor, and Other Stories (Classic Reprint)

George A. Hibbard 2018-01-24 Excerpt from The Governor, and Other Stories HE sleek, spirited horses picked their scornful way up the avenue, held in restive subjection by the impassive coachman - stouter than his companion, the footman fresh-faced, clean-shaven, solid upon the box and apparently oblivious of all greatness save his own, as a coachman should be. The glossy carriage, almost noiseless

slow motion, held only a grim, gray - haired old man. Many eyes were bent upon him. Pedestrians paused to look at him. The occupants of other carriages broke short their conversations, and turned to catch another glance as he passed. Here and there a hat was lifted. Without change of expression, however, except when the light of personal recognition occasionally lit up his face and he half automatically returned a bow, the tall, thin, commanding, much noticed and most noticeable personage sat almost motionless.
