Trends in Corrections Dilip K. Das
2019-09-04 With a fresh set of interviews exploring cross-cultural differences and similarities, Volume Three of this book includes lessons from practitioners in a diverse array of countries including Honduras, Japan, Lithuania, the Philippines, Thailand, the Slovak Republic, South Africa, and the United States. This book series is based on the premise that comparing countries around the world and getting 'inside' information about each country's correctional system can be best derived by having people who are seasoned practitioners in each country share their views, experiences, philosophies and ideas. Since most correctional practitioners do not have the time or inclination to encapsulate their experiences into a book chapter, the insight of the practitioner can be best captured by a revealing interview with a

researcher given the questions and interview guidelines associated with each chapter. Researchers selected are scholars in corrections, will possibly have conducted original research on the topic, and will have access to the corrections officials in his or her country. Additionally, the researcher exhibits a deep understanding and knowledge of his or her country's correctional system, and questions will be derived specifically from the laws and conditions present. Any current crises or solutions will be able to have focused questions crafted by each researcher, while still having each interviewer stay within the topic areas that the general questions probe. Each researcher explains any esoteric or unusual terminology used by the corrections official, and defines any current issues necessary for the reader's knowledge. While there are many books written on corrections management, ethics, and practices, there is great value in approaching international corrections practices and policies from this unique vantage point and as a result this book will be of interest to academics, researchers, practitioners and both undergraduate and postgraduate students with an interest in corrections and comparative criminal justice studies.

Environmental Crime Yingyi Situ 2000
"Yingyi Situ and David Emmons in Environmental Crime address a neglected area in Criminology and Criminal Justice and do so with masterful attention to details of environmental law, law enforcement, enthralling examples and up-to-date cases. Well-written, scholarly and incisive in its commentary and stellar in organization, their work will be well received by both undergraduate and graduate students." - Frank E. Hagan, Ph.D., Chair, Graduate Program in Administration of Justice, Professor of Sociology/Criminal Justice, Mercyhurst College, Pennsylvania We and our environment are at risk. Air, water, and soil pollution, hazardous waste disposal, global warming, acid rain, and reduction of the ozone layer threaten the natural environment and endanger people's health. Within the last decade, however, environmental violations have been defined as crimes and violators viewed as criminals; and criminal prosecution of the accused and criminal sanctions against the convicted have accelerated. This accessibly written book examines the criminalization of environmental wrong-doing. Designed as a textbook for environmental crime courses at the undergraduate or beginning graduate levels, it is comprehensive and logically organized. The text explores the nature, causes, investigation, prosecution, and prevention of environmental crime. Special emphasis is placed on the human, economic, social, and psychological impacts of the environmental crime by corporations, criminal organizations, the government, and individuals. Although examples throughout the book reflect not only North America but the world, a final chapter is devoted to global environmental law. The chapter also reviews promising approaches being used by other nations in fighting environmental crime.

prisons of America. In the post-9/11 world, profiling by law enforcement has become "standard operating procedure." Profiling by prosecutors, judges, and corrections officers is pervasive in other criminal justice contexts as well. Is profiling actually effective in preventing crime or identifying likely offenders and therefore justifiable? This accessible, single-volume reference book examines profiling as it pertains to the criminal justice system in the United States, providing non-partisan information that illuminates the full scope of the profiling issue and discusses the possible impact of profiling on all American citizens. Addressing this highly controversial topic holistically, the book considers questions such as whether the criminal justice system in the United States unfairly targets minorities, how the rights of minorities can be protected while enabling law enforcement to use every resource available, and whether justification for profiling techniques exists. This work will serve students at the high school and college level as well as general readers who are interested in criminal justice issues and issues relating to equality and fairness before the bar of justice.

Empowerment Series: Social Work and Social Welfare Rosalie Ambrosino 2015-02-03 Reflecting the latest practices, accreditation requirements, and developments from the field, the eighth edition of bestselling SOCIAL WORK AND SOCIAL WELFARE gives readers a broad understanding about the social work profession and the role it plays in the social welfare system. Part of the Brooks/Cole Empowerment Series, the text is completely up to date and thoroughly integrates the core competencies and recommended practice behaviors outlined in the current Educational Policy and Accreditation Standards (EPAS) set by the Council on Social Work Education (CSWE). With its signature systems/ecological approach to understanding social welfare, the book focuses on specific social welfare areas in which social workers play major roles in policy and practice. It adopts the philosophy that there are many reasons why social problems occur, and that students need to understand the history, values, and economic, political, and cultural factors that surround these issues and the attempts to solve or address them. Instead of presenting a specific political perspective, the authors encourage readers to think critically about issues in a new way. Each chapter opens with a vignette about a social worker in a specific setting and closes with information about the career opportunities for social workers in the area discussed. covering a gamut of topics ranging from African criminology, through mental health and psychology, to criminal justice systems, has lent a decolonizing voice toward African literary pursuit and thereby laid a solid foundation for further research by other scholars. I highly recommend it to readers, academic institutions and researchers on Africa." - Emmanuel Onyeozili, Ph.D., Professor of Criminology and Criminal Justice, Department of Criminal Justice, University of Maryland Eastern Shore, USA "This edited volume by an array of experts from West and Southern Africa has given a refreshing voice to psycho-criminological narratives in the continent. In a region of the world in which there is insufficient documentation of the patterns, determinants and outcomes of criminal behaviour, this book offers a culturally competent and contemporary flavour to an ancient discourse. Its focus on new areas of concern such as online dating scams, kidnapping and the mental health of officials in the criminal justice system compellingly captures the potential reader and gives good value for time. It is warmly recommended for its breadth of coverage, the authority of its claims and the multi-disciplinary outlook of its authors." - Adegboyega Ogunwale, MBBS, FWACP, Consultant Psychiatrist, Forensic Unit, Neuropsychiatric Hospital, Aro, Ogun State, Nigeria "This collection represents a significant step in the study of mental health, crime and criminal justice in sub-Saharan Africa. The breadth of topics covered is impressive, with each contribution based on methodologically-sound empirical analyses. It deserves to become a key reference for students, researchers and policy makers interested in suicide, drug use, violence, the work of prison officers, criminal investigations, and police-community interactions." - Justice Tankebe, Ph.D., Lecturer, Institute of Criminology, University of Cambridge, UK "Mental health and criminal justice issues are growing problems facing the world today. Questions about whether mental health affects crime or whether

involvement in the criminal justice system affects an individual's health have become part of national policy discussion. This nicely written book brings together eminent scholars and experts with extensive experience in their various fields to address these and other questions related to crime, mental health, and criminal justice in Africa. The editors did well to coordinate the efforts of the contributors into a valuable piece. I highly recommend it for all who are interested in the nexus between crime, mental health, and criminal justice systems." – Francis D. Boateng, Ph.D., Assistant Professor, Department of Criminal Justice and Legal Studies, University of Mississippi, USA
