**History and Theory in Anthropology** Alan Barnard 2000-06-15

Anthropology is a discipline very conscious of its history, and Alan Barnard has written a clear, balanced and judicious textbook that

surveys the historical contexts of the great debates and traces the genealogies of theories and schools of thought. It also considers the problems involved in assessing these theories. The book covers the precursors of anthropology; evolutionism in all its guises; diffusionism and culture area theories, functionalism and structural-functionalism; action-centred theories; processual and Marxist perspectives; the many faces of relativism, structuralism and post-structuralism; and recent interpretive and postmodernist viewpoints.

**History of Philosophy Volume 2** Frederick Copleston 2003-06-12 Copleston, an Oxford Jesuit and specialist in the history of philosophy, created his history as an introduction for Catholic ecclesiastical seminaries. The 11-volume series gives an accessible account of each philosopher's work, and explains their relationship to the work of other philosophers.

*Advanced Differential Equations* M.D.Raisinghania 1995-03-01 This book is especially prepared for B.A., B.Sc. and honours (Mathematics and Physics), M.A./M.Sc. (Mathematics and Physics), B.E. *India's Ancient Past* R.S. Sharma 2006-09-18 This book presents a complete and accessible description of the history of early India. It starts by discussing the origins and growth of civilizations, empires, and religions. It also deals with the geographical, ecological, and linguistic backgrounds, and looks at specific cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as at the Harappan civilization. In addition, the rise of Jainism and Buddhism, Magadha and the beginning of territorial states, and the period of Mauryas, Central Asian countries, Satvahanas, Guptas, and Harshavardhana are also analysed. Next, it stresses varna system, urbanization, commerce and trade, developments in science and philosophy, and cultural legacy. Finally, the process of transition from ancient to medieval India and the origin of the Aryan culture has also been examined.

**Physical Geography** Savindra Singh 2008

**Fundamentals of Physical Geography** Majid Husain 2007 "Physical

geography deals with the spatial and temporal characteristics and relationships of all phenomena within the physical environment of the earth. A systematic study of physical geography is of immense help in understanding the numerous environmental challenges of the contemporary period. Earth is a place of great physical and cultural diversity, yet people know little about it. The book is aimed to explain the spatial dimensions of the earth's natural systems and their processes. The chapters of this thoroughly revised and updated third edition of the bestselling introductory reader have been organised in a logical sequence well suited to the curriculum of established physical geography courses. The text includes many special features that are intended to enhance and clarify students' understanding and mastery of the material. Throughout, the scientific ideas and processes are explained in a simple manner supported by a range of illustrative material including maps, diagrams and photographs. The book will be an essential resource for students and teachers, and for anyone wishes to acquire more knowledge about the physical aspects and the processes responsible for various orders of the earth."

**A Critical History of Greek Philosophy** Walter Terence Stace 1924

**Thinking and Problem Solving** Robert J. Sternberg 2013-10-22

Thinking and Problem-Solving presents a comprehensive and up-to-date review of literature on cognition, reasoning, intelligence, and other formative areas specific to this field. Written for advanced undergraduates, researchers, and academics, this volume is a necessary reference for beginning and established investigators in cognitive and educational psychology. Thinking and Problem-Solving provides insight into questions such as: how do people solve complex problems in mathematics and everyday life? How do we generate new ideas? How do we piece together clues to solve a mystery, categorize novel events, and teach others to do the same? Provides a comprehensive literature review Covers both historical and contemporary approaches Organized for ease of use and reference Chapters authored by leading scholars

**Essentials of Sociology** George Ritzer 2017-11-27 Essentials of Sociology, adapted from George Ritzer's Introduction to Sociology,

provides the same rock-solid foundation from one of sociology's best-known thinkers in a shorter and more streamlined format. With new co-author Wendy Wiedenhof Murphy, the Third Edition continues to illuminate traditional sociological concepts and theories and focuses on some of the most compelling features of contemporary social life: globalization, consumer culture, the internet, and the "McDonaldization" of society. New to this Edition New "Trending" boxes focus on influential books by sociologists that have become part of the public conversation about important issues. Replacing "Public Sociology" boxes, this feature demonstrates the diversity of sociology's practitioners, methods, and subject matter, featuring such authors as o Michelle Alexander (The New Jim Crow) o Elizabeth Armstrong and Laura Hamilton (Paying for the Party) o Matthew Desmond (Evicted) o Arlie Hochschild (Strangers in Their Own Land) o Eric Klinenberg (Going Solo) o C.J. Pascoe (Dude, You're a Fag) o Lori Peek and Alice Fothergill (Children of Katrina) o Allison Pugh (The Tumbleweed Society) Updated examples in the text and "Digital Living" boxes keep pace with changes in digital technology and online practices, including Uber, Bitcoin, net neutrality, digital privacy, WikiLeaks, and cyberactivism. New or updated subjects apply sociological thinking to the latest issues including: the 2016 U.S. election Brexit the global growth of ISIS climate change further segmentation of wealthy Americans as the "super rich" transgender people in the U.S. armed forces charter schools the legalization of marijuana the Flint water crisis fourth-wave feminism

**A Brief History of Modern India** Rajiv Ahir 2018

**India After Independence** Bipan Chandra 1999

*Contemporary World History (Eng Edn)* Arjun Dev 2009

**Our Political System** Subhash C. Kashyap 2011

**Bharat Ka Prachin Itihas** Ram Sharan Sharma 2018-04-06 Beginning with a discussion on frameworks of writing history, the volume sheds light on the origins and growth of civilizations, empires, and religions. It covers the geographical, ecological, and linguistic backgrounds, and looks at specific cultures of the Neolithic, Chalcolithic, and Vedic periods, as well as the Harappan civilization. The author discussed the

rise of Jainism and Buddhism, Magadha, and the beginning of territorial states. The period of Mauryas, Central Asian countries, Satavahanas, Guptas, and Harshvardhana are also analysed. He highlights important phenomena such as the varna system, urbanization, commerce and trade, developments in science and philosophy, and cultural legacy. He also examines the process of transition from ancient to medieval India and addresses topical issues such as the origin of the Aryan culture. This engaging and lucid text, by one of the best-known scholars of ancient India, will be indispensable for students and teachers of ancient Indian history. This book is the Hindi translation of the English edition.

History of Anthropological Thought Vijay S. Upadhyay 1993

**Emerging India** Bimal Jalan 2013-03-15 "As India marks the twenty-year milestone of economic liberalization, some concerns about the country's future prospects as an emerging power are beginning to be voiced; often, these stem from the past history of sharp swings in India's fortunes. Bimal Jalan, one of the country's well-known economists and former Governor of the Reserve Bank of India, has closely followed the path of India's economic policies across its changing trajectories, from before the time the economy was liberalized to the very present. The pieces that appear here were all written during the last twenty years, with the exception of three prescient notes from the mid-1970s highlighting the need for economic reforms to foster growth. The principal thought behind these essays is that, in the past twenty years, India's capacity to grow faster than ever before has increased substantially because of its comparative advantage in relation to other countries. However, Jalan points out that for India to seize the opportunities that lie ahead, it is essential to bring about further reforms in the running of India's politics and administration in order to ensure inclusive and incremental economic growth. "

Features: - 100+ case studies - Covers all major topics - As per the exam pattern

**Ethics, Integrity and Aptitude** Prabhu Datta Sharma 2015 In this second edition, the aptitudes of civil servants and the foundational values of public service in India have been examined in depth, in the light of new researches in the fields of 'neurology' and 'emotional intelligence.' The ethical concerns, dilemmas, and probity issues in governance have been examined in the context of declining moral values, accountability ethics, and galloping corruption in Indian public administration. The chapter on "Moral Philosophies and Philosophers" has been entirely rewritten. Further, a new chapter on "Corporate Social Responsibility and Global Transparency: The Ethical Issues" has been additionally incorporated to highlight the ethical/social responsibility of business and ethical interactions in global politics. The book will provoke civil service

**Environment & Ecology** R. Rajagopalan 2009-04-09

**India Since Independence** Bipan Chandra 2008-02-11 A thorough and incisive introduction to contemporary India The story of the forging of India, the world's largest democracy, is a rich and inspiring one. This volume, a sequel to the best-selling India's Struggle for Independence, analyses the challenges India has faced and the successes it has achieved, in the light of its colonial legacy and century-long struggle for freedom. The book describes how the Constitution was framed, as also how the Nehruvian political and economic agenda and basics of foreign policy were evolved and developed. It dwells on the consolidation of the nation, examining contentious issues like party politics in the Centre and the states, the Punjab problem, and anti-caste politics and untouchability. This revised edition offers a scathing analysis of the growth of communalism in India and the use of state power in furthering its cause. It also documents the fall of the National Democratic Alliance in the 2004 General Elections, the United Progressive Alliance's subsequent rise to power and the Indo-US Nuclear Deal that served to unravel the political consensus at the centre. Apart from detailed analyses of Indian economic reforms since 1991 and wide-ranging land reforms and the Green Revolution, this new edition includes an overview of the Indian economy in the new millennium. These, along with objective assessments of Jawaharlal Nehru, Indira Gandhi, Jayaprakash Narayan, Lal Bahadur Shastri, Rajiv Gandhi, Vishwanath Pratap Singh, Atal Bihari Vajpayee and Manmohan Singh, constitute a remarkable overview of a nation on the move.

*Sociology* Michael Haralambos 1985

**Medieval Philosophy : A New History of Western Philosophy,**

**Volume 2** Anthony Kenny 2005-05-26 Sir Anthony Kenny continues his magisterial new history of Western philosophy with a fascinating guide through more than a millennium of thought from 400 AD onwards, charting the story of philosophy from the founders of Christian and Islamic thought through to the Renaissance. The middle ages saw a great flourishing of philosophy, and the intellectual endeavour of the era reaches its climax in the thirteenth and fourteenth centuries, with the systems of such great thinkers as Thomas Aquinas and John Duns Scotus. Specially written for a broad popular readership, but serious and deep enough to offer a genuine understanding of the great philosophers, Kenny's lucid and stimulating history will become the definitive work for anyone interested in the people and ideas that shaped the course of Western thought. - ;Sir Anthony Kenny continues his magisterial new history of Western philosophy with a fascinating guide through more than a millennium of thought from 400 AD onwards, charting the story of philosophy from the founders of Christian and Islamic thought through to the Renaissance. The middle ages saw a great flourishing of philosophy, and the intellectual endeavour of the era reaches its climax in the

thirteenth and fourteenth centuries, with the systems of the great schoolmen such as Thomas Aquinas and John Duns Scotus. Specially written for a broad popular readership, but serious and deep enough to offer a genuine understanding of the great philosophers, Kenny's lucid and stimulating history will become the definitive work for anyone interested in the people and ideas that shaped the course of Western thought. - ;from the reviews of the preceding volume..... This wonderful book . . . is not only an authoritative guide to the history of philosophy but also a compelling introduction to every major area of philosophical inquiry. . . . Kennys prose is exceptionally clear . . . He conveys his rich subject matter with a light touch of which only the greatest of writers are capable. . . . This, combined with his breadth and depth of learning and philosophical sophistication, make reading this book hugely rewarding. It is also worth mentioning that the book is beautifully illustrated . . . One is left eager for subsequent volumes and convinced that the intellectual cosmos is, indeed, boundlessly rich. - James Ladyman, Times Higher Education Supplement
