The Garden Book

2017 Brian Castro Brian Castro's award-winning novel, *The Garden Book*, is a meditation on loneliness, addiction and exploitation. Set in the years between the Depression and the Second World War in Australia's Dandenong Ranges, it follows the emotionally turbulent life of the beautiful Swan Hay (born Shuang He)--her marriage to the passionate yet brutal Darcy Damon, her love affair with the aviator Jasper Zenlin and her rise to literary fame overseas after her poetry is translated into French without her knowledge. Fifty years after her disappearance into institutions and a life of poverty and despair, Norman Shih--a rare-book librarian and "expert in self-effacement"--begins to piece together the life and losses of Swan. Tracking down clues from guesthouse libraries, antiquarian bookshops and Swan's own haunted writings, Shih fills out a portrait of early twentieth-century Australian lives wracked by modernist impulses of racial prejudice.

An Anthology for Creative Writers

2006 Beth Anstandig For courses in creative writing. *A Garden of Forking Paths* is an anthology of contemporary literature that covers the full spectrum of genre possibilities while exploring diverse styles,

themes, experiences, and forms. The readings in this text inspire the emergence of innovative creative writing. In a multi-genre creative writing course, an instructor faces the dilemma of assigning several texts in order to offer good examples of writing in each genre. This text solves this problem by presenting large samplings of creative non-fiction, short fiction, poetry, alternative forms, and essays concerning craft. Story: Beth Anstandig and Eric Killough, guided by fiction writer, essayist, and poet Robert Creeley's belief that all writing is essentially the act of articulation and that "form is content, content form," brought together as many successful examples of creative ideas and writing styles as possible in a single volume. They grouped these writings by genre for ease of use so that you can choose how you want to spend your reading time. From science fiction writer Philip K. Dick to naturalist Charles Bowden, you will find in the garden that each author has labored to articulate at least one of the seemingly infinite possibilities that the creative spirit can bring into being. Many of the authors in the text have successfully created works of written art using more than one genre. Beth Anstandig and Eric Killough created this text in hope that these examples will inspire your students to experiment in multiple genres as well.

Love You to Pieces

2008-05-01 Suzanne Kamata The first collection of literary writing on raising a child with special needs, *Love You to Pieces* features families coping with autism, deafness, muscular dystrophy, Down syndrome and more. Here, poets, memoirists, and fiction writers paint beautiful, wrenchingly honest portraits of caring for their children, laying bare the moments of rage, disappointment, and guilt that can color their relationships. Parent-child communication can be a challenge at the best of times, but in this collection we witness the struggles and triumphs of those who speak their own language-or don't speak at all-and those who love them deeply.

The Soul of Creative Writing

2011-12-31 Richard Goodman "I have a faith in language," said the poet W. S. Merwin. "It's the ultimate achievement that we as a species have evolved so far." Language is a deep ocean of living words, as varied as undersea life. It is a gift inherited by each person when he or she is born; it can be corrupted and regulated, but it cannot be owned. It is an enormous, complex, inexhaustible gift. *The Soul of Creative Writing* is a tribute to language and to its potentials. It explores the elements of language, style, rhythm, sound, and the choice of the right word. Richard Goodman paints an image of how language can produce a life and meaning that otherwise cannot exist in the symbols themselves. Goodman's stunningly creative collection was written after a lifetime of working and struggling with language. He collects rich examples from writers of the past and present, both great and small, and uses them to illustrate how each element of our written language can be used. The book begins with an analysis of words and how they can be used to create music on the page. Goodman uncovers the strength of words, writing about the shades of meaning that make the search for the exact word both arduous and immensely rewarding. He discusses how to find the proper title and how to find a fitting subject. He shows how to create nonfiction work that is vivid and memorable through the use of the same techniques fiction writers employ. Goodman's volume is written with humor and clarity--with fascination and reverence. Writers will find it an indispensable source of creative inspiration and instruction. In Goodman's words, "reading is a tour of a writer's efforts at

manipulating language to create art, to create flesh and blood and mountains, cities, homes, and gardens out of inky symbols on the page." To literary critics, this book will be a guide to understanding the tools and devices of great writing.
