The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a well-respected vocabulary evaluation that has been in operation for almost 50 years. Formulated by Lloyd M. Dunn and Douglas M. Dunn, the assessment is made to measure receptive vocabulary for Standard American English. It is quick and effortless to administer, saving valuable time so that focus can be set on executing effective strategies.

The PPVT-4 assessment material includes a broad range of vocabulary comprehension grades, extending from preschool through adult age. The assessment questions extensively sample words that portray 20 subject domains (e.g., actions, vegetables, tools), parts of speech (nouns, verbs, attributes), and home and educational vocabulary.

The evaluation provides two identical editions which hold different vocabulary items, making sure that the test-taker has not "memorized" the test. One version can be utilized ahead of intervention implementation to assess individuals' vocabulary comprehension and the alternative form can be employed for re-evaluation to assess and note progress. The PPVT-4 also contains a distinctive Growth Scale Value (GSV) which is sensitive to minor changes with time.
