The book goes through real instances of casual conversations entailing participants diverging in age, gender, ethnicity, and socio-economic class². Pulling on insights from sociology, linguistics, and critical semiotics, the publication provides readers with the analytic skills to depict the levels of structure and critical interpretive structures to explain the 'social work' that goes on through chat.

The PPVT-4 evaluation material encompasses a wide array of vocabulary comprehension ranks, extending from pre-kindergarten through adulthood. The assessment problems widely sample words that depict 20 topic areas (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and school vocabulary. The assessment offers two equivalent forms which hold different vocabulary terms, making sure that the test-taker has not "mastered" the test. One edition can be employed before intervention to assess individuals' vocabulary comprehension and the second edition can be used for re-evaluation to evaluate and record advancement. The PPVT-4 also includes a special Growth Scale Value (GSV) which is sensitive to small changes with time.
