National Studies on Assessing the Economic Contribution of the  
Copyright-Based Industries - Series no. 8 2014-12-09 World  
Intellectual Property Organization The 8th volume of national  
studies on the economic contribution of the copyright- based  
industries offers economic analysis on the size of the copyright  
industries in Argentina, Indonesia, Member States of the  
Organization of the East Caribbean States, Serbia and Turkey. The  
publication reviews the contribution of economic activities based  
on copyright and related rights to the creation of national value  
added, employment and trade in selected countries and broadens  
the scope of WIPO-led research on the economic aspects of  
copyright.

OECD Trade Policy Studies Looking Beyond Tariffs The Role of Non-  
Tariff Barriers in World Trade 2005-11-22 OECD This publication  
analyses where and why certain non-tariff measures are being  
applied to traded goods that are covered by multilateral rules and  
disciplines, and how they continue to represent challenges for  
exporters and policy makers.

Assessment of Development Results - Countries of the  
Organisation of Eastern Caribbean States & Barbados 2009-12-31  
United Nations Development Programme (UNDP) The Assessment  
of Development Results (ADR) covered the sub-regional

programme of the nine member countries of the Organisation of  
Eastern Caribbean States (OECS) and Barbados over the ongoing  
(2005-2009) and previous (2001-2004) programming cycles. The  
ADR notes that UNDP is working in a challenging and multifaceted  
development context, where relatively high levels of gross  
domestic product per capita and political stability occur side by  
side with considerable poverty, underemployment, gender and  
social inequities, institutional capacity weaknesses and  
vulnerability to risk, including extreme weather events. The  
publication concluded that although UNDP has undertaken a  
subregional programme with a strong profile and reputation it has  
achieved only moderate progress towards longer-term outcomes.  
It also found that the UNDP subregional programme had many  
commendable features and is respected by stakeholders and  
partners due to its consistent focus on improving human and  
social development in the Eastern Caribbean.

Democracy And Human Rights In The Caribbean 2018-02-02  
Ivelaw L Griffith The Caribbean, like regions elsewhere, is caught  
in what has been called democracy's global "Third Wave." In this  
volume, contributors examine the nature of democratization in the  
region together with its affiliate, human rights. The aim is to  
extend the analysis and debates beyond political democracy and  
civil and political rights to consider also economic democracy and  
economic and social rights. Early chapters address issues and  
dilemmas common to the democracy and human rights landscape  
throughout the region. In particular, economic crisis, drug  
trafficking, and political instability continue to threaten the

region's very healthy democracy human rights profiles. Next, contributors consider how the form of Caribbean democracy and the status of human rights have been influenced by foreign actors and external developments. Particular attention is paid to the role of the Organization of American States, the United Nations, nongovernmental organizations, and international law. Because the democracy and human rights challenges and dynamics vary across countries, the work also offers extensive single-country assessments.

Caribbean Integration Law 2014 David S. Berry Two key regional organisations in the Caribbean, the Caribbean Community and the Organisation of Eastern Caribbean States, had their roles fundamentally expanded in 2001 by treaties that developed a single market and a regional court. This book sets out the new roles of these organisations and their impact on regional integration in the Caribbean.

Latin American and Caribbean Trade Agreements 2009-06-02 Thomas O'Keefe Latin American and Caribbean Trade Agreements: Keys to a Prosperous Community of the Americas is the essential reference guide for companies trading with Latin America and the Caribbean or wishing to use a country in the region as an export platform. This work fills the void in academic texts that are used to teach courses on economic integration in the Western Hemisphere. It provides a road map for the Obama Administration to launch an ambitious project designed to encourage economic growth, promote energy security, and reduce harmful greenhouse gas emissions, while at the same time realistically meeting the development needs of Latin America and the Caribbean. Latin American and Caribbean Trade Agreements: Keys to a Prosperous Community of the Americas posits that the myopic focus of past United States administrations on free markets to spur economic development in the Western Hemisphere is not enough. A bolder

and more ambitious project that also seeks to redress many of the deep-seated problems that have long plagued the region is required. The Community of the Americas proposed in this book rests upon the important work that has already been done at the sub-regional level in terms of economic and political reform, identifying infrastructure and human capital needs, and regulating migration. It provides a new and cohesive vision for U.S. policy in Latin America and the Caribbean.

Impact Evaluation in Practice, Second Edition 2016-09-12 Paul J. Gertler The second edition of the Impact Evaluation in Practice handbook is a comprehensive and accessible introduction to impact evaluation for policy makers and development practitioners. First published in 2011, it has been used widely across the development and academic communities. The book incorporates real-world examples to present practical guidelines for designing and implementing impact evaluations. Readers will gain an understanding of impact evaluations and the best ways to use them to design evidence-based policies and programs. The updated version covers the newest techniques for evaluating programs and includes state-of-the-art implementation advice, as well as an expanded set of examples and case studies that draw on recent development challenges. It also includes new material on research ethics and partnerships to conduct impact evaluation. The handbook is divided into four sections: Part One discusses what to evaluate and why; Part Two presents the main impact evaluation methods; Part Three addresses how to manage impact evaluations; Part Four reviews impact evaluation sampling and data collection. Case studies illustrate different applications of impact evaluations. The book links to complementary instructional material available online, including an applied case as well as questions and answers. The updated second edition will be a valuable resource for the international development community, universities, and policy makers looking to build better evidence

around what works in development.

Principles of International Environmental Law I 1995 Philippe Sands This post-UNCED account of the frameworks, standards and implementation of the international environmental law is intended for undergraduates and academics in the fields of international law, politics, geography, economics and environmental studies. It can be used on its own as a reference or course text or in conjunction with its companion collections of documents.

Dependency Under Challenge 1984 Anthony Payne Articles on development theory and the economic policy of dependence in the Commonwealth Caribbean - examines political developments in Jamaica (democratic socialism), Trinidad and Tobago (oil capitalism), Guyana, (cooperative socialism), and Grenada (the New Jewel Revolution); discusses regional level economic integration, industrial planning and CARICOM; studies international relations with USA, UK, EC, and Latin America; and the role of the Commonwealth Caribbean in a New International Economic Order. The Nurse Workforce in the Eastern Caribbean 2016-06-24 Carmen Carpio The health workforce must be able to cope with shifts in the pattern of causes of death and disease that are being seen worldwide—particularly with the rise in noncommunicable diseases (NCDs). This requires health personnel to have a set of skills and competencies that can adapt to meet the population's growing and changing health needs. This report examines the status of the nurse workforce in the Eastern Caribbean, assessing how best to strengthen its capacity to respond to the growing burden of NCDs. The report is based on four Eastern Caribbean case studies conducted in Dominica, Grenada, St. Lucia, and St. Vincent and the Grenadines. The case studies showed that, although overall nurse staffing levels seem to be sufficient across the four countries

in terms of numbers, there are nurse shortages at hospitals and health clinics, as well as in the availability of specialists. Better management of the nurse workforce is needed to ensure adequate coverage at the hospitals and clinics is maintained. In terms of specialists, while the quality of education is generally reported to be good, there are barriers to accessing specialized training which include the high-cost of seeking specialized training due to non-existing or very limited local options and the lack of built-in incentives for completing additional education. To help address the capacity constraints faced by the nurse workforce in the Eastern Caribbean to respond to NCDs, the report generated knowledge in support of two critical areas: (i) provide an understanding of the educational and training opportunities available to nurses to strengthen their capacity to meet the NCD challenges, and (ii) assess whether there is a supportive policy environment in place for nurses to play a role in addressing NCDs. As part of the study, a toolkit was developed, which can be used to strengthen the capacity for HRH planning and management with respect to NCDs.

Tourism in the Caribbean 2004-07-31 David Timothy Duval This volume highlights the central issues of tourism development in the Caribbean. In the process it provides a range of theoretical frameworks, methodological tools and case-studies from which future directions in management and development might be based.

Challenges and Change in Middle America 2014-09-25 Katie Willis A comprehensive introduction to the important economic, social and political processes and development issues in this extremely popular region. The Central American nations and those of the Caribbean (including Guyana, Surinam and French Guiana on the mainland) share many historical processes as well as experiencing similar development problems today. These include European

colonialism, structural adjustment, small size, reliance on primary production, influence of the United States and moves towards democratisation. While Mexico is obviously a much larger country in area, economy and population terms, it is included in this volume because of its close ties to the other countries in the region through processes such as trade and migration.

Statehood à la Carte in the Caribbean and the Pacific 2023-04-15 Jack Corbett This book explains how leaders in the Caribbean and Pacific regions balance the autonomy-viability dilemma of postcolonial statehood - that political self-determination is a hollow achievement unless it is accompanied by economic development - by practising statehood à la carte. Previous research has focused on the pursuit of decolonial self-determination through and above the nation state, via regionalism and internationalism, or by creating non-sovereign alternatives to it. This book looks at how communities have sought the same goals below the state, including via secession and devolution. Downsizing is typically portrayed as the antithesis of progressive, cosmopolitan internationalism and employed as evidence for the claim that the age of anticolonial self-determination has ended. In this book, Jack Corbett shows how these movements are animated by similar ideas and motivations that are rendered viable by the simultaneous pursuit of regional integration and forms of non-sovereignty. He argues that the à la carte pursuit of political and economic independence through, above, and below the state, and via non-sovereign alternatives to it, is a pragmatic response to the contradictions inherent to coloniality.

Latin American and Caribbean International Institutional Law 2015-07-10 Marco Odello This book is one of the few comprehensive works focusing on the sub-regional institutions in

the Latin American and Caribbean region. These organisations and institutions enrich the co-operation at sub-regional level, but, in most cases, are neglected in legal literature. They have mainly economic purposes but they also contribute to new forms of institutional co-operation in other areas, including financial, political and social matters. The volume addresses some of the most representative of these institutions, such as the Mercosur, the Andean Community and sub-regional financial organisations (e.g. Central American Bank for Economic Integration and Andean Development Corporation) as well as new developments including the UNASUR and the Alliance for the Pacific. It provides updated information on the structure and changes of the institutions, and constitutes a valuable resource for those wishing to keep pace with legal developments in the fast-moving world of international institutional law. The book will appeal to a wide audience including researchers and practitioners specialising in international law and international organisations and related disciplines. Marco Odello, JD (Rome), LLM (Nottingham), PhD (Madrid) is a Reader in Law at Aberystwyth University, Wales, UK. Francesco Seatzu, JD (Cagliari), PhD (Nottingham) is Professor of International and European Law at the University of Cagliari, Sardinia, Italy.

Ministries of Education in Small States 1991 Commonwealth Secretariat The conventional literature on public administration is dominated by the patterns and concerns of large countries. It does not address the needs of small countries, which have very different organisational and managerial frameworks. For example, what degree of specialisation is possible in a ministry which has only a small group of professional staff? And what are the implications for management of highly personalised societies in which everybody seems to know everybody else? This book presents 14 studies written by people who are actually grappling with the issues about which they write. The book thus has both authenticity and practical value. The book is an amplification of a

companion work, and will be of value to academics as well as to administrators and trainers. The companion book is also available from the Commonwealth Secretariat. It is entitled Making Small Practical: The Organisation and Management of Ministries of Education in Small States.

Ethics of the Legal Profession 2016-04-08 Sir Fred Phillips In countries outside the developed world, although writers have written commentaries on specific legal codes, very little attention has been given to legal writing which has focused specifically on the ethics of the legal profession. This book makes a special contribution in that regard providing, as it does, a comparative study of prevailing efforts to enhance ethical standards in a profession potentially in crisis and under much public scrutiny. Countries which have been examined include the UK, the US, Canada, South Africa, and countries in the Pacific, South East Asia and the Caribbean. Valuable guidance and learning are provided on such topical issues as wasted costs orders, conflicts of interests, legal and judicial codes, confidentiality, privilege and the ethics of the criminal process, where the jury system comes in for critical evaluation. This book will be a valuable text on the ethics and status of the profession. It will be of considerable interest to law students, practitioners and legal academics, Bar Associations, Attorneys-General and Directors of Public Prosecutions as well as members of the judiciary.

The Evolution of Forward Surgery in the US Army 2018 Lance P. Steahly "This volume in the Borden Institute's history series will describe forward US Army surgery from the 1700s to the present time. The book will look at advances in medicine and surgery that improved the lot of the American soldier. In particular, the book will examine the impact of disease upon troop strength, which had special impact in the Revolutionary War through the post-Civil War period. Forward surgery in the modern sense came of age in World

War I. The challenge of so many different theaters of conflict in World War II will be examined from the portable surgical hospital of the China-Burma-India Theater of Operations to the surgical evacuation hospital teams of the European Theater of Operations. The evolving care models will feature the story of the Korean War mobile army surgical hospital. The defining performance of helicopter air evacuation in Vietnam, along with improved surgical techniques, will be discussed. Finally, the many advances of forward surgery from the post-Vietnam era to the present will be presented."--Provided by publisher.

The Significance of the Commonwealth, 1965-90 1991-10-23 W. McIntyre This book takes a new look at the Commonwealth from the founding of the Secretariat in 1965 to the 14th Commonwealth Games in 1990. The book is divided into three parts. Part 1 looks at origins, the Heads of Government Meetings, the Secretariat and the Commonwealth in a global setting. Part 2 covers race, Africa, inequalities and the security of small states. The final part, on Functioning, looks at regionalism, functional organisations, professional linkages, peoples, sport and the role of the Queen as Head of the Commonwealth. It concludes with an 'Agenda for the 1990s'.

Small States, Smart Solutions 2008 Edgardo Favaro Small states face special hurdles in achieving development gains. These states spend significantly more of their GDP on producing public goods and services, and they face higher connectivity costs than do their larger brethren. Small States, Smart Solutions examines how some small states use international trade and telecommunications technology to outsource services such as justice, banking supervision, public utilities regulation, high-quality medicine, and education. Sourcing these services internationally poses unique challenges but also opens broad opportunities. The eight case studies in this book, based on interviews with government officers

and citizens, describe pioneering initiatives undertaken by some small states to better the quality of life of their citizens.

Proceedings of the 1993 World Marketing Congress 2015-06-20 M. Joseph Sirgy This volume includes the full proceedings from the 1993 World Marketing Congress held in Istanbul, Turkey. The focus of the conference and the enclosed papers is on marketing thought and practices from a global perspective. This volume presents papers on various topics including marketing management, marketing strategy, and consumer behavior. Founded in 1971, the Academy of Marketing Science is an international organization dedicated to promoting timely explorations of phenomena related to the science of marketing in theory, research, and practice. Among its services to members and the community at large, the Academy offers conferences, congresses and symposia that attract delegates from around the world. Presentations from these events are published in this Proceedings series, which offers a comprehensive archive of volumes reflecting the evolution of the field. Volumes deliver cutting-edge research and insights, complimenting the Academy's flagship journals, the Journal of the Academy of Marketing Science (JAMS) and AMS Review. Volumes are edited by leading scholars and practitioners across a wide range of subject areas in marketing science.

The Political Economy Of European Monetary Unification 2018-03-08 Barry Eichengreen The first edition of this book was published in 1994, as the future of monetary unification in Europe was very much in doubt. With Economic and Monetary Union now in place, it is appropriate to bring the scholarship on the topic up to date for the students of international political economics. To this effect, essayists Jeffrey Frieden, Geoffrey Garrett, Lisa L. Martin, Benjamin J. Cohen revised four of the original chapters to reflect new conditions. Editors, Barry Eichengreen and Frieden completely

rewrote the introductory essay. Three new chapters by Matthew Gabel, Charles Engel, and Paul De Grauwe et al cover public support for EMU, local currency pricing, and whether Europe is now better off? The updated volume's purpose remains that of bringing the latest in scholarship in Economics and Political Science to bear on the European monetary integration

Principles of International Environmental Law 2018-03-01 Philippe Sands This new and fully updated edition of Principles of International Environmental Law offers a comprehensive and critical account of one of the fastest growing areas of international law: the principles and rules relating to environmental protection. Introducing the reader to the key foundational principles, governance structures and regulatory techniques, Principles of International Environmental Law explores each of the major areas of international environmental regulation through substantive chapters, including climate change, atmospheric protection, oceans and freshwater, biodiversity, chemicals and waste regulation. The ever-increasing overlap with other areas of international law is also explored through examination of the inter-linkages between international environmental law and other areas of international regulation, such as trade, human rights, humanitarian law and investment law. Incorporating the latest developments in treaty and case law for key areas of environmental regulation, this text is an essential reference and textbook for advanced undergraduate and postgraduate students, academics and practitioners of international environmental law.

OECD Development Pathways Development Strategy Assessment of the Eastern Caribbean 2022-10-07 OECD Eastern Caribbean countries enjoy rich natural endowments and have achieved significant economic development. Throughout the last decades, they have also been confronted with a number of rising economic, social and environmental challenges.

Tax Treatment of International Civil Servants 2009-11-23 Rutsel Silvestre J. Martha Drawing particularly on the case law of international (administrative) tribunals and on principles of international law and organization, the present study purports to contribute to a better understanding of the matter of taxation of the salary, emoluments and pensions of employees of international organizations.

World Migration Report 2020 2019-11-27 United Nations Since 2000, IOM has been producing world migration reports. The World Migration Report 2020, the tenth in the world migration report series, has been produced to contribute to increased understanding of migration throughout the world. This new edition presents key data and information on migration as well as thematic chapters on highly topical migration issues, and is structured to focus on two key contributions for readers: Part I: key information on migration and migrants (including migration-related statistics); and Part II: balanced, evidence-based analysis of complex and emerging migration issues.

Competitiveness in Small Developing Economies 2003 Alvin G. Wint Possibly no group is more conscious of the challenges created by the increasing integration of markets for capital, labour, products and information than small, developing economies. Policy makers from these economies have sought a two-track response to this integration. One response lies in increasing lobbying efforts for these economies to be accorded special, or more equitable treatment in market integration discussions. The second response lies in improving the competitiveness of their economies. It is this second response that provides the subject matter for this book. It explores the challenges and opportunities associated increasing competitiveness in small, developing economies based on research conducted in the Caribbean. The topics covered indicate

the breadth of activity that is required to enhance competitiveness. At the macro-policy level, the book explores the key drivers of competitiveness, examines the role of exchange rate regimes and of government policy, considers the implications of sovereignty, and assesses the extent to which competitiveness likely to be improved by attracting foreign direct investment. At the level of private-sector enterprise the book reports

Foreign Debt and Latin American Economic Development 2014-05-17 Antonio Jorge Foreign Debt and Latin American Economic Development focuses on the constructive discussion of views held by investigators and experts on the dynamic interaction between economic growth and external debt in Latin America. The selection first offers information on a background paper on the external debt and development in Latin America and a perspective on the external debt of Latin America. The text then elaborates on external financing and debt of the Latin American countries and Latin American external debt and economic growth. Topics include debt rescheduling, external debt and development, and flow of external financial resources. The manuscript takes a look at the economic growth and external debt of Jamaica and Commonwealth Caribbean. Discussions focus on external debt and economic growth, trends in external debt, structure and functioning of the Jamaican economy, and debt policy in the 1970's and 1980's. The book also ponders on the external debt and economic growth of Mexico, external debt situation of Haiti, Venezuela's foreign public debt, and foreign debt and economic development of Costa Rica. The selection is a dependable source of data for readers interested in the interaction between economic progress and external debt in Latin America.

Agricultural Trade Policy and Food Security in the Caribbean 2007 Deep Ford Agricultural trade is a major factor determining food security in Caribbean countries. In these small open economies,

exports are essential, whilst imports provide a large part of the food supply. This book examines various dimensions of trade policy and related issues and suggests policies to address trade and food security and rural development linkages. It is as a guide and reference documents for agricultural trade policy analysts, trade negotiators, policy-makers and planners in both the public and private sectors.

Transitioning to a Green Economy 2014-03-30 Nadine Smith While the term 'green economy' has been widely used at the international level, very little information exists about what the concept looks like in practice. What are the policies required? What are the challenges of implementation at national level? This book contains case studies from eight small states who have committed publicly to greening their economies: Botswana, Grenada, Guyana, Jamaica, Mauritius, Nauru, Samoa and Seychelles. It provides insights into the success of various initiatives and highlights how small states themselves are making practical progress on a green economy approach.

Finding Common Ground 2023-06-06 Ian Boxill This book, Finding Common Ground: Selected Newspaper Columns of Ian Boxill, 1993-2000, literally represents the best articles written by Ian Boxill over a period of seven years (March 1993 to August 2000) on the opinion page of the Daily Gleaner in Jamaica. The book seeks – more so than the individual articles themselves, which were written with the general public in mind – to help graduates across the Caribbean region fulfil that obligation ... to become habitual readers (and writers). The hope is that they will not only read on matters relating to their own training and work, but also

on issues of interest and concern to society in general and to the world today. In particular, the book also targets pre-university and first-year university students – especially those enrolled in degrees that involve basic or advanced expository or argumentative writing. In addition, it lends itself to 6th form students, those in community colleges, teacher- training colleges and other tertiary level institutions, who are learning to formulate and express a personal but informed opinion, in speech or writing, on topical events. - From the Editor's Preface

Shades of Sovereignty 2021-07-12 Paul Wilson This book traces the role of money in the creation of the state. From US independence to the establishment of the EU and the breakup of the USSR and beyond, Wilson examines changing attitudes about monetary sovereignty, arguing for a more rational attitude toward money as a means of transactions rather than as a symbol of national identity.

Impacts of climate change on fisheries and aquaculture 2019-01-06 Food and Agriculture Organization of the United Nations This report indicates that climate change will significantly affect the availability and trade of fish products, especially for those countries most dependent on the sector, and calls for effective adaptation and mitigation actions encompassing food production.

Interactions between Regional and Universal Organizations 2016-11-03 Laurence Boisson de Chazournes Cooperation through international organizations is fundamental to the international legal order. International organizations are nowadays ubiquitous and come in many different manifestations, each allowing for different levels of international cooperation. The profile of regional and universal organizations may vary greatly from one organization to another. At the same time, they do not live apart and this has led to the creation of a complex network of relationships. These relationships have seldom been the object of scholarship, and this book seeks to address that gap. In general, the relationships between international organizations can give rise to such issues as the conditions placed upon one organization by another, demarcations of competence, membership of other organizations, and various forms of collaboration involving the

conclusion of agreements between organizations. Optimal coexistence, cooperation and coherence all play a role in optimizing the relations between international organizations. The volume concludes by analysing current challenges, including those of legal identity, responsibility and accountability, as well as making proposals for reform, such as through the development of a common law between organizations.
