The Rise of India and China 2020-10-28 Kala S Sridhar This book offers a comparative analysis of the rise of India and China and their decisive economic and social roles in a global context. It presents a cumulative picture of the socio-economic challenges as well as the opportunities for growth and inclusive development before India and China. The volume analyses the performance of the two countries based on economic and human development indicators. It highlights the key achievements of the two countries in governance and financial growth, and the potential for further economic development. Drawing on government data and empirical research, the book examines India and China's relative growth in trade, investments, renewable energy technologies, urbanisation, and employment and their policies on agriculture, land use, public health, and rural-urban inequality. Further, it discusses the shared challenges of inequality, poverty, gender disparity, and environment degradation which both countries face and contrasts their policy priorities and governance mechanisms. Comprehensive and insightful, this book will be of great interest for researchers and scholars of development studies, economics, international relations, comparative politics, sociology, public policy, and Asian studies. It will also be useful for think tanks, policy makers, and general readers interested in the India-China relationship.

Handbook of Research on Strategic Human Capital Resources 2019-12-27 Anthony J. Nyberg Strategic human capital resources are a relatively new construct with a scholarly literature that is still evolving. Work in this area requires the integration of multiple theoretical perspectives and empirical approaches, but that integration rarely occurs. Within these pages, the editors have combined the voices of leading scholars from a wide range of disciplinary backgrounds to provide a comprehensive introduction to the current state of the field.

Staging Politics 2007-04-27 Julia C. Strauss This fresh and original study analyses how power presents itself in dramatic performance in these two increasingly economically and politically important continents. Emotion and politics play a hugely important role in the politics of Asia and Africa but, as this book sets out, too much of western political research into the subject concentrates on apparent deficiencies - on the weakness of institutions, defects in the bureaucracy or markets, poor management of elections, absent judicial autonomy. Viewing political performance through Western eyes in this way - where politics is primarily about the naked pursuit of power and interests - can lead to a misunderstanding of how politics actually works in Africa and Asia, where process plays a far more important role. Thus performance, drama and emotion are far more integral to political outcome there than in the West. By concentrating on this new perspective the authors, each a recognised specialist in one or more states in Asia and Africa, avoid this trap and offer a coherent picture of the impact political performance has on the culture and politics of these societies and how they function.

Design and Implementation of Fully-Integrated Inductive DC-DC Converters in Standard CMOS 2011-05-10 Mike Wens CMOS DC-DC Converters aims to provide a comprehensive dissertation on the matter of monolithic inductive Direct-Current to Direct-Current (DC-DC) converters. For this purpose seven chapters are defined which will allow the designer to gain specific knowledge on the design and implementation of monolithic inductive DC-DC converters, starting from the very basics.

Semiconductor Manufacturing Handbook, Second Edition 2017-10-06 Hwaiyu Geng Thoroughly Revised, State-of-the-Art Semiconductor Design, Manufacturing, and Operations Information Written by 70 international experts and reviewed by a seasoned technical advisory board, this fully updated resource clearly explains the cutting-edge processes used in the design and fabrication of IC chips, MEMS, sensors, and other electronic devices. Semiconductor Manufacturing Handbook, Second Edition, covers the emerging technologies that enable the Internet of Things, the Industrial Internet of Things, data analytics, artificial intelligence, augmented reality, and smart manufacturing. You will get complete details on semiconductor fundamentals, front- and back-end processes, nanotechnology, photovoltaics, gases and chemicals, fab yield, and operations and facilities.

- Nanotechnology and microsystems manufacturing
- FinFET and nanoscale silicide formation
- Physical design for high-performance, low-power 3D circuits
- Epitaxi, anneals, RTP, and oxidation
- Microlithography, etching, and ion implantations
- Physical, chemical, electrochemical, and atomic layer vapor deposition
- Chemical mechanical planarization
- Atomic force metrology
- Packaging, bonding, and

China's Trade, Exchange Rate and Industrial Policy Structure 2013 John Whalley This book aims at assessing the potential impacts of China's macro economic, trade, exchange rate and reserve management policies for industrial structure and performance. It uses data analysis and econometric methods applied to recent Chinese data. It has a special focus on the performance of the Chinese economy both during and after the 2008 global financial crisis. The book will be of interest to researchers and practitioners in governmental and international agencies both in China and outside of the country.

Pursuing Citizenship in the Enforcement Era 2020-08-25 Ming Hsu Chen Pursuing Citizenship in the Enforcement Era provides readers with the everyday perspectives of immigrants on what it is like to try to integrate into American society during a time when immigration policy is focused on enforcement and exclusion. The law says that everyone who is not a citizen is an alien. But the social reality is more complicated. Ming Hsu Chen argues that the citizen/alien binary should instead be reframed as a spectrum of citizenship, a concept that emphasizes continuities between the otherwise distinct experiences of membership and belonging for immigrants seeking to become citizens. To understand citizenship from the perspective of noncitizens, this book utilizes interviews with more than one-hundred immigrants of varying legal statuses about their attempts to integrate economically, socially, politically, and legally during a modern era of intense immigration enforcement. Studying the experiences of green card holders, refugees, military service members, temporary workers, international students, and undocumented immigrants uncovers the common plight that underlies their distinctions: limited legal status breeds a sense of citizenship insecurity for all immigrants that inhibits their full integration into society. Bringing together theories of citizenship with empirical data on integration and analysis of contemporary policy, Chen builds a case that formal citizenship status matters more than ever during times of enforcement and argues for constructing pathways to citizenship that enhance

both formal and substantive equality of immigrants.

The Tiger Leading the Dragon 2021-06 Shelley Rigger This book explores the key role Taiwan has played in facilitating China's economic "miracle." Rigger argues that without Taiwanese investment, the PRC would be decades behind its current position in the global economy. She also looks toward the future and asks whether Taiwan can maintain its status as a leader in China's economic development.

The Economy-security Nexus in Northeast Asia 2013 T. J. Pempel The dynamics of Northeast Asia have traditionally been considered primarily in military and hard security terms, however relations among the states of Northeast Asia are far more comprehensible when the interactions between economics and security are considered simultaneously. This book examines the conditions under which economics and security interact with each other in mutually shaping ways, and these interactions pose key empirical questions, the answers to which have important lessons for international relations more broadly beyond Northeast Asia.

Introduction to Evolutionary Computing 2013-03-14 Agoston E. Eiben The first complete overview of evolutionary computing, the collective name for a range of problem-solving techniques based on principles of biological evolution, such as natural selection and genetic inheritance. The text is aimed directly at lecturers and graduate and undergraduate students. It is also meant for those who wish to apply evolutionary computing to a particular problem or within a given application area. The book contains quick-reference information on the current state-of-the-art in a wide range of related topics, so it is of interest not just to evolutionary computing specialists but to researchers working in other fields.

Circadian Rhythms for Future Resilient Electronic Systems 2019-06-12 Xinfei Guo This book describes methods to address wearout/aging degradations in electronic chips and systems, caused by several physical mechanisms at the device level. The authors introduce a novel technique called accelerated active self-healing, which fixes wearout issues by enabling accelerated recovery. Coverage includes recovery theory, experimental results, implementations and applications, across multiple nodes ranging from planar, FD-SOI to FinFET, based on both foundry provided models and predictive models. Presents novel techniques, tested with experiments on real hardware; Discusses circuit and system level wearout recovery implementations, many of these designs are portable and friendly to the standard design flow; Provides circuit-architecture-system infrastructures that enable the accelerated self-healing for future resilient systems; Discusses wearout

issues at both transistor and interconnect level, providing solutions that apply to both; Includes coverage of resilient aspects of emerging applications such as IoT.

Escape 2021-05-04 Ming Chen CLING. Don't let go. Hold tight. Never give up. FLY. Rev up. Lift off. Soar. PEDAL. Set off. Cycle. Pedal for your life. Throughout history, ordinary people have been forced to leave their families and homes because of war, famine, slavery, intolerance, economic and political upheaval, or climate change. These remarkable true stories of escape show how courageous people all around the world have overcome seemingly insurmountable obstacles in their flight to freedom. "An arresting collection of deep, accessible stories of people on the move"—Kirkus Reviews, STARRED "A remarkable and beautifully illustrated book which helps children understand what it's like to be in someone else shoes. The extraordinary achievement is that it is still such a delight to read"—Emily Maitlis, BBC newsreader "A compelling and inspiring book that contains an array of personal accounts of heroic value, many of which aren't included in elementary school textbooks. This will undoubtedly be an invaluable resource for educators and students alike"—Manhattan Book Review, 5 STARS "Highly recommended for ages 9 to 80!"—Reading Pebbles "Both inspirational and moving. The outcome of each story is full of hope with a focus on positive achievements and outcomes without making light of the difficulties faced"—North Somerset Teachers' Book Awards

Healthy China: Deepening Health Reform in China 2019-04-04 The World Bank;World Health Organization  
The report recommends that China maintain the goal and direction of its healthcare reform, and continue the shift from its current hospital-centric model that rewards volume and sales, to one that is centered on primary care, focused on improving the quality of basic health services, and delivers high-quality, cost-effective health services. With 20 commissioned background studies, more than 30 case studies, visits to 21 provinces in China, the report proposes practical, concrete steps toward a value-based integrated service model of healthcare financing and delivery, including: 1) Creating a new model of people-centered quality integrated health care that strengthens primary care as the core of the health system. This new care model is organized around the health needs of individuals and families and is integrated with higher level care and social services. 2) Continuously improve health care quality, establish an effective coordination mechanism, and actively engage all stakeholders and professional bodies to oversee improvements in quality and performance. 3) Empowering patients with knowledge and understanding of health services, so that there is more trust in the system and patients are actively engaged in their healthcare decisions. 4) Reforming public hospitals, so that they focus on complicated cases and delegate routine care to primary-care providers. 5)

Changing incentives for providers, so they are rewarded for good patient health outcomes instead of the number of medical procedures used or drugs sold. 6) Boosting the status of the health workforce, especially primary-care providers, so they are better paid and supported to ensure a competent health workforce aligned with the new delivery system. 7) Allowing qualified private health providers to deliver cost-effective services and compete on a level playing field with the public sector, with the right regulatory oversight, and 8) Prioritizing public investments according to the burden of disease, where people live, and the kind of care people need on a daily basis.

At Your Service? 2021-10-18 Gaurav Nayyar Manufacturing-led development has provided the traditional model for creating jobs and prosperity. But in the past three decades the conventional pattern of structural transformation has changed, with the services sector growing faster than the manufacturing sector. This raises critical questions about the ability of developing economies to close productivity gaps with advanced economies and to create good jobs for more people. At Your Service? The Promise of Services-Led Development ([www.worldbank.org/services-led-development](http://www.worldbank.org/services-led-development)) assesses the scope of a services-driven development model and policy directions that can maximize the model's potential.

Siegmund Established in 1970, the PbZn symposium series is considered the leading international technical forum for the lead and zinc processing industries. The PbZn 2020 volume addresses all aspects of current processing technologies for primary and secondary lead and zinc, as well as emerging technologies for both metals.

Chinese Paintings in Chinese Publications, 1956–1968 2020-08-06 Ellen Johnston Laing This bibliography includes publications issued between 1956 and August 1968 that reproduce Chinese paintings now in Chinese public or private collections. The great majority of these publications were produced in Mainland China, Taiwan, Hong Kong, or Japan. Each publication included in the bibliography has been provided with a detailed physical description of the publication itself: the amounts of text, the number of plates in color and in monochrome, and a general evaluation of the quality of the reproductions. The title by which each work is referred to in the index is included at the end of each entry.

Chinese Military Reform in the Age of Xi Jinping: Drivers, Challenges, and Implications Joel Wuthnow China's People's Liberation Army (PLA) has embarked on its most wide-ranging and ambitious restructuring since 1949, including major changes to most of its key organizations. The restructuring reflects the desire to strengthen PLA joint operation capabilities- on land, sea, in the air, and in the space and cyber domains. The reforms could result in a more adept joint warfighting force, though the PLA will continue to face a number of key hurdles to effective joint operations. Several potential actions would indicate that the PLA is overcoming obstacles to a stronger joint operations capability. The reforms are also intended to increase Chairman Xi Jinping's control over the PLA and to reinvigorate Chinese Communist Party (CCP) organs within the military. Xi Jinping's ability to push through reforms indicates that he has more authority over the PLA than his recent predecessors. The restructuring could create new opportunities for U.S.-China military contacts.

Financing Pulp Mills: An Appraisal of Risk Assessment and Safeguard Procedures 2005-01-01 Machteld Spek This study analyses the risk assessment and socio-environmental safeguard procedures associated with the financing of pulp mill projects. The type and cost of the fibre source is clearly key to the economic competitiveness of any pulp mill. Nevertheless, investment institutions often carry out only limited assessment of the fibre source of the proposed mill. Although a growing number of financial institutions have adopted policies to employ social and environmental safeguard screening for investments in developing countries and transitioning economies, the scope of such screenings is in fact quite limited and they are often implemented ineffectively. Historical Background of Wang Yang-ming's Philosophy of Mind 2020-05-26 Ping Dong This open access

book offers comprehensive information on Wang Yang-ming's life, helping readers identify and grasp the foundations on which his philosophy was established. Though a great man, Wang had an extremely difficult life, full of many hardships. Based on various official histories, Wang's own writings, and his disciples' records, the book explores the legendary life of this ancient philosopher, who not only diligently pursued his objective of living as a sage, but also persistently sought the ideal state of a sage in ideology. The author also shares his own interpretations of the main aspects of Wang's philosophy using simple and straightforward language. This book will help readers understand and appreciate Wang Yang-ming's extraordinary life, his generous mind, deep thoughts and bright personality, inspiring them to pursue enriching lives. It offers a unique and insightful work for undergraduate students and all others interested in Wang's philosophy and life story.

IoT as a Service 2018 Yi-Bing Lin This book constitutes the thoroughly refereed proceedings of the 3rd International Conference on IoT as a service, IoTaaS 2017, held in Taichung, Taiwan, in September 2017. The 46 full papers were carefully selected from 65 submissions. The papers deal with the "Everything as a Service" deployment paradigm which enables the easy adoption of IoT based services and applications by end-users, and forces providers of smart objects and middleware platforms to architect their solutions accordingly. The three special sessions organized were Wearable Technology and Applications (WTAA), Building Smart Machine Applications (BSMA), and Security and Privacy in Internet of Things, Services and People (SP-IoTSP). The WTAA special session aimed to address the challenges of maintaining high efficiency of WTAA in terms of high recognition rate, energy consumption, computational costs and so forth. The BSMA special session aimed to explore how to construct smart machines architecture for the industry under the background of IoT and big data. The SP-IoTSP special session aimed to investigate recent research and future directions for IoTSP security and privacy.

Healing with Poisons 2021-06-22 Yan Liu Open access edition: DOI 10.6069/9780295749013 At first glance, medicine and poison might seem to be opposites. But in China's formative era of pharmacy (200–800 CE),

poisons were strategically employed as healing agents to cure everything from abdominal pain to epidemic disease. *Healing with Poisons* explores the ways physicians, religious figures, court officials, and laypersons used toxic substances to both relieve acute illnesses and enhance life. It illustrates how the Chinese concept of *du*—a word carrying a core meaning of “potency”—led practitioners to devise a variety of methods to transform dangerous poisons into effective medicines. Recounting scandals and controversies involving poisons from the Era of Division to the Tang, historian Yan Liu considers how the concept of *du* was central to how the people of medieval China perceived both their bodies and the body politic. He also examines the wide range of toxic minerals, plants, and animal products used in classical Chinese pharmacy, including everything from the herb aconite to the popular recreational drug Five-Stone Powder. By recovering alternative modes of understanding wellness and the body’s interaction with foreign substances, this study cautions against arbitrary classifications and exemplifies the importance of paying attention to the technical, political, and cultural conditions in which substances become truly meaningful. *Healing with Poisons* is freely available in an open access edition thanks to TOME (Toward an Open Monograph Ecosystem) and the generous support of the University of Buffalo.
