Fragile Earth

2019-11-12 Jennifer Stettler Parsons Contemporary artists probe the impact of human intervention on the environment Just as artists of the 19th and 20th centuries participated in forging an American natural history as explorers, cataloguers, collectors, and early environmentalists, contemporary artists continue to incorporate and comment on the natural world in their art. Motivated by the inexorable rise of urban-industrial development and the subsequent deterioration of our planet, artists confront the vulnerability of our

of global climate change to illustrate the continued relevance of ecology and nature conservation to contemporary artistic practice. In *Fragile Earth: The Naturalist Impulse in Contemporary Art*, leading artists Jennifer Angus, Mark Dion, Courtney Mattison, and James Prosek make natural elements their medium conceptually and literally, from prints created with eel bodies, to ceramic sculpture mimicking coral bleaching, cabinets filled with colorful plastic collected from oceans and rivers, and walls covered with shockingly beautiful, preserved insects. Bringing an artistic perspective to natural science, these

(1886-1973) was a central figure at the genesis of modern art in her native Brazil, and her influence reverberates throughout 20th- and 21st-century art. Although relatively little-known outside Latin America, her work deserves to be understood and admired by a wide contemporary audience. This publication establishes her rich background in European modernism, which included associations in Paris with artists Fernand Léger and Constantin Brancusi, dealer Ambroise Vollard, and poet Blaise Cendrars. Tarsila (as she is known affectionately in Brazil) synthesized avant-garde aesthetics with Brazilian subjects, creating stylized, exaggerated figures and landscapes inspired by her native country that were powerful emblems of the Brazilian modernist project known as Antropofagia. Featuring a selection of Tarsila's major paintings, this important

volume conveys her vital role in the emerging modern-art scene of Brazil, the community of artists and writers (including poets Oswald de Andrade and Mário de Andrade) with whom she explored and developed a Brazilian modernism, and how she was subsequently embraced as a national cultural icon. At the same time, an analysis of Tarsila's legacy questions traditional perceptions of the 20th-century art world and asserts the significant role that Tarsila and others in Latin America had in shaping the global trajectory of modernism.

Americans began accumulating more and more goods, spurring a transformation in the field of interior decoration. Storage walls became ubiquitous, often serving as a home's centerpiece. Designers such as Alexander Girard encouraged homeowners to populate their new shelving units with folk art, as well as unconventional and modern objects, to produce innovative and unexpected juxtapositions within modern architectural settings. Playfulness can be seen in the colorful, child-sized furniture by Charles and Ray Eames, who also produced toys. And in the postwar corporate world, the concept of play is manifested in the influential advertising work of Paul Rand. Set against the backdrop of a society that was experiencing rapid change and high anxiety, *Serious Play* takes a revelatory look at how many of the country's leading designers connected with the audience through wit

Mass-Produced Original Paintings, the Psychology of Art, and an Everyday Aesthetics

2020-10-20 Martin S. Lindauer This book examines the contribution of mass-produced original painting to the psychology of art, psychological aesthetics, and art criticism. Mass-produced paintings are an inexpensive, accessible, ubiquitous, and hand-painted popular art by anonymous artists or teams. Sold in an array of outlets, ranging from flea markets to shopping centers to cruise ships, they decorate hotels, offices, and homes. Addressed is their neglect in current scholarship in favor of a nearly exclusive investigation of the high arts and their audiences, as represented by museum paintings. Lindauer contextualizes his analysis by tracing the historical origins of this type of painting, popular art in

general, and their evolutionary trajectory, exploring issues including: the impact of art and artists' creativity on viewers; the overemphasis on originality and name recognition; what is art and who can be called an artist; and the extension of aesthetics to include an everyday kind. The book concludes with directions for future research in the popular and traditional arts, the psychology of art, and, more broadly, the ties that transcend barriers between science, the arts, and the humanities. It will appeal to students and scholars from across the fields of psychology, sociology, philosophy, art history, and cultural, media and communication studies.

posters and other political art of the 1980s, and the wide variety of subjects and techniques explored by artists in printshops over the last two decades, printmaking has been a driving force in contemporary South African artistic and political expression. Impressions from South Africa: 1965 to Now, published to accompany an exhibition at The Museum of Modern Art, introduces the vital role of printmaking through works by more than twenty artists in the Museum's collection. The volume features prints by John Muafangejo and Dan Rakgoathe, a selection of posters produced for anti-apartheid coalitions in the 1980s, and nuanced political work by Sue Williamson, Norman Catherine and William Kentridge. The book features many more recent projects, demonstrating the contemporary relevance of the medium in South Africa today. The work, presented in a generous plate section, is contextualized in an introduction by Judith B. Hecker
