Autonomous Vehicle Technology 2014-01-10 James M. Anderson The automotive industry appears close to substantial change engendered by "self-driving" technologies. This technology offers the possibility of significant benefits to social welfare—saving lives; reducing crashes, congestion, fuel consumption, and pollution; increasing mobility for the disabled; and ultimately improving land use. This report is intended as a guide for state and federal policymakers on the many issues that this technology raises.

Media Law and Ethics 2021-09-30 Roy L. Moore This comprehensive textbook provides a thoughtful introduction to both the legal and ethical considerations relevant to students pursuing careers in communication and media. The fully revised, sixth edition continues to integrate fundamental legal and ethical principles with cases and examples from both landmark moments and recent history. It expands upon the previous edition's exploration of international and non-U.S. law, introduces a new chapter on digital and social media, and incorporates discussion of new technologies and media throughout its coverage of core topics such as privacy, intellectual property, defamation and commercial speech. Coverage of recent court cases and congressional hearings brings readers up to date on the evolving discussion surrounding Facebook, Twitter and today's other major online players. This hybrid textbook is ideal for undergraduate and graduate courses in media and communication that combine law and ethics. Online resources including chapter

Consumer Economics 2016-06-10 Elizabeth B. Goldsmith From identity theft to product recalls, from what we once thought of as unshakeable institutions to increasing concerns about sustainability, consumer issues are an integral part of modern life. This fully updated third edition of Consumer Economics offers students an accessible and thorough guide to the concerns surrounding the modern consumer and brings to light the repercussions of making uninformed decisions in today's economy. This definitive textbook introduces students to these potential issues and covers other key topics including consumer behavior, personal finance, legal rights and responsibilities, as well as marketing and advertising. Combining theory and practice, students are introduced to both the fundamentals of consumer economics and how to become better-informed consumers themselves. Highlights in this new edition include: New Critical Thinking Projects feature to encourage students to develop their critical thinking skills through analysing consumer issues. Expanded coverage of social media and the impact of social influence on consumers. Revised Consumer Alerts: practical advice and guidance for students to make smart consumer decisions. A new Companion Website with a range of presentation materials and exercises related to each chapter. Fully updated throughout, this textbook is suitable for students studying consumer sciences – what works, what doesn't, and how consumers are changing.

Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles 2015-09-28 National Research Council The light-duty vehicle fleet is expected to undergo substantial technological changes over the next several decades. New powertrain designs, alternative fuels, advanced materials and significant changes to the vehicle body are being driven by increasingly stringent fuel economy and greenhouse gas emission standards. By the end of the next decade, cars and light-duty trucks will be more fuel efficient, weigh less, emit less air pollutants, have more safety features, and will be more expensive to purchase relative to current vehicles. Though the gasoline-powered spark ignition engine will continue to be the dominant powertrain configuration even through 2030, such vehicles will be equipped with advanced technologies, materials, electronics and controls, and aerodynamics. And by 2030, the deployment of alternative methods to propel and fuel vehicles and alternative modes of transportation, including autonomous vehicles, will be well underway. What are these new technologies - how will they work, and will some technologies be more effective than others? Written to inform The United States Department of Transportation's National Highway Traffic Safety Administration (NHTSA) and Environmental Protection Agency (EPA) Corporate Average Fuel Economy (CAFE) and greenhouse gas (GHG) emission standards, this new report from the National Research Council is a technical evaluation of costs, benefits, and implementation issues of fuel reduction technologies for next-generation light-duty vehicles. Cost, Effectiveness, and Deployment of Fuel Economy Technologies for Light-Duty Vehicles estimates the cost, potential efficiency improvements, and barriers to commercial deployment of technologies

that might be employed from 2020 to 2030. This report describes these promising technologies and makes recommendations for their inclusion on the list of technologies applicable for the 2017-2025 CAFE standards.

The Everything Store 2013-10-15 Brad Stone The authoritative account of the rise of Amazon and its intensely driven founder, Jeff Bezos, praised by the Seattle Times as "the definitive account of how a tech icon came to life." Amazon.com started off delivering books through the mail. But its visionary founder, Jeff Bezos, wasn't content with being a bookseller. He wanted Amazon to become the everything store, offering limitless selection and seductive convenience at disruptively low prices. To do so, he developed a corporate culture of relentless ambition and secrecy that's never been cracked. Until now. Brad Stone enjoyed unprecedented access to current and former Amazon employees and Bezos family members, giving readers the first in-depth, fly-on-the-wall account of life at Amazon. Compared to tech's other elite innovators -- Jobs, Gates, Zuckerberg -- Bezos is a private man. But he stands out for his restless pursuit of new markets, leading Amazon into risky new ventures like the Kindle and cloud computing, and transforming retail in the same way Henry Ford revolutionized manufacturing. The Everything Store is the revealing, definitive biography of the company that placed one of the first and largest bets on the Internet and forever changed the way we shop and read.

The Financial Crisis Inquiry Report, Authorized Edition 2011-01-27 Financial Crisis Inquiry Commission The definitive report on what caused America's economic meltdown and who was responsible. The financial and economic crisis has touched the lives of millions of Americans who have lost their jobs and their homes, but many have little understanding of how it happened. Now, in this very accessible report, readers can get the facts. Formed in May 2009, the Financial Crisis Inquiry Commission (FCIC) is a panel of 10 commissioners with experience in business, regulations, economics, and housing, chosen by Congress to explain what happened and why it happened. This panel has had subpoena power that enabled them to interview people and examine documents that no reporter had access to. The FCIC has reviewed millions of pages of documents, and interviewed more than 600 leaders, experts, and participants in the financial markets and government regulatory agencies, as well as individuals and businesses affected by the crisis. In the tradition of The 9/11 Commission Report, "The Financial Crisis Inquiry Report" will be a comprehensive book for the lay reader, complete with a glossary, charts, and easy-to-read diagrams, and a timeline that includes important events. It will be read by policy makers, corporate executives, regulators, government agencies, and the American people.

Big Data a Tool for Inclusion Or Exclusion? Understanding the Issues 2016-07-18

Federal Trade Commission We are in the era of big data. With a smartphone now in nearly every pocket, a computer in nearly every household, and an ever-increasing number of Internet-connected devices in the marketplace, the amount of consumer data flowing throughout the economy continues to increase rapidly. The analysis of this data is often valuable to companies and to consumers, as it can guide the development of new products and services, predict the preferences of individuals, help tailor services and opportunities, and guide individualized marketing. At the same time, advocates, academics, and others have raised concerns about whether certain uses of big data analytics may harm consumers, particularly low-income and underserved populations. To explore these issues, the Federal Trade Commission ("FTC" or "the Commission") held a public workshop, Big Data: A Tool for Inclusion or Exclusion?, on September 15, 2014. The workshop brought together stakeholders to discuss both the potential of big data to create opportunities for consumers and to exclude them from such opportunities. The Commission has synthesized the information from the workshop, a prior FTC seminar on alternative scoring products, and recent research to create this report. Though "big data" encompasses a wide range of analytics, this report addresses only the commercial use of big data consisting of consumer information and focuses on the impact of big data on low-income and underserved populations. Of course, big data also raises a host of other important policy issues, such as notice, choice, and security, among others. Those, however, are not the primary focus of this report. As "little" data becomes "big" data, it goes through several phases. The life cycle of big data can be divided into four phases: (1) collection; (2) compilation and consolidation; (3) analysis; and (4) use. This report focuses on the fourth phase and discusses the benefits and risks created by the use of big data analytics; the consumer protection and equal opportunity laws that currently apply to big data; research in the field of big data; and lessons that companies should take from the research. Ultimately, this report is intended to educate businesses on important laws and research that are relevant to big data analytics and provide suggestions aimed at maximizing the benefits and minimizing its risks.

Cfpb Supervision and Examination Manual 2012-10-01 Consumer Financial Protection Bureau This is version 2 of the CFPB Supervision and Examination Manual. It is the guide examiners use in overseeing companies that provide consumer financial products and services. Originally released in October 2011, it describes how the CFPB supervises and examines these providers and gives our examiners direction on how to determine if companies are complying with consumer financial protection laws. The manual has been updated in this edition to reflect the renumbering of the consumer financial protection regulations for which the CFPB is responsible. The numbering conventions in the Code of Federal Regulations (CFR) allow the reader to easily identify which regulations fall under a particular agency's responsibility. The renumbering incorporated throughout the manual reflects the Dodd-Frank Act of 2010 transfer of rulemaking responsibility for many consumer financial protection regulations from other Federal agencies to the CFPB. In December 2011, the CFPB published its renumbered regulations in the Federal Register. The renumbered regulations also included certain technical changes but no substantive changes. The CFPB's renumbering reflects the codification of its regulations in Title 12 (Banks and Banking), Chapter X (Bureau of Consumer Financial Protection) of the CFR. For example, before July 21, 2011, the Federal Reserve had rulemaking authority for the Home Mortgage Disclosure Act, which was codified in Title 12, Chapter II (Federal Reserve System), Part 203. The CFPB's implementing regulation for the Home Mortgage Disclosure Act is now codified in Title 12, Chapter X, Part 1003. In addition to changes related to the renumbering of the CFPB regulations, the manual incorporates updated interagency examination procedures for the Truth in Lending Act (TILA) and for the Fair Credit Reporting Act (FCRA), both of which were revised to reflect statutory and regulatory changes. Specifically, changes to the TILA procedures include amendments to TILA and its implementing Regulation Z pursuant to the Credit Card Accountability Responsibility and Disclosure Act of 2009. Changes to the FCRA procedures include Dodd-Frank Act amendments that require the disclosure of a credit score and related information when a credit score is used in taking an adverse action or in risk-based pricing. Finally, the manual was updated to incorporate: new examination procedures released since the issuance of the manual in October 2011 (covering mortgage origination; short-term, small-dollar lending; SAFE Act; and consumer reporting); the June 21, 2012, Interagency Guidance on Mortgage Servicing Practices Concerning Military Homeowners with Permanent Change of Station Orders; and, technical corrections and formatting changes. This examination manual provides internal guidance to supervisory staff of the CFPB. It does not bind the CFPB and does not create any rights, benefits, or defenses, substantive or procedural, that are enforceable by any party in any manner. While every effort has been made to ensure accuracy, examination procedures should not be relied on as a legal reference.

Dot Com Disclosures 2000-09 Barry Leonard Report by the Federal Trade Commission (FTC) on the information that businesses should consider as they develop online advertisements to ensure that they comply with the law. The same consumer protection laws that apply to commercial activities in other media apply online. The FTC Act's prohibition on unfair or deceptive acts or practices encompasses Internet advertisements, marketing & sales. It discusses: (1) the requirement for clear & conspicuous disclosures to prevent an advertisement from being misleading, to ensure that consumers receive material information about the terms of a transaction; (2) ways that advertisers can make such disclosures; & (3) FTC rules & guides that are adaptable to new technologies.
