Corporate Tax Base in the Light of the IAS/IFRS and EU Directive 2013/34: A Comparative Approach

2016-06-17 Mario Grandinetti The recent relaunch of the European Commission's Common Consolidated Corporate Tax Base (CCCTB) project promises a sorely needed leap forward in the harmonization of the rules by which companies calculate their taxable profits. In particular, the initiative hopes to remedy the severe barrier to cross-border business caused by the 'the accounting Tower of Babel' by which companies' tax bases are determined under national law. This thorough analysis and commentary covers the influence of accounting rules on tax, considering both generally accepted standards - international accounting standards (IAS) and international financial reporting standards (IFRS) - and EU Directive 2013/34. Three introductory chapters usher in detailed comparative overviews of the effect of these rules on taxation in nine EU Member States as well as in two other major EU trading partners, the United States and Brazil. Fully explaining the remarkable recent improvement in the comparability of accounts that represent favourable preconditions for creating a single market for financial services within the EU, this book covers every relevant detail, including the following and much more: - criterion of evaluation of alternative fixed assets based on revaluated amounts; - criterion based on fair value; - provisions applicable to income statements, notes, reports, and financial statements; - rules applicable to the publication of documents; - transparency in payments to governments; - dispositions on exemptions; - hierarchy of general provisions and principles; - balance sheet and profit and loss account; - simplifications for small and medium-sized enterprises (SMEs); - system of creditors' protection; and - protection of investors' interests. This book is a peerless explication of the taxation choices granted to Member States under IAS/IFRS and EU Directive 2013/34 and how they will be affected by ongoing Commission initiatives. Because relevant, timely, reliable, and comparable information assumes a leading role in protecting the interests of investors, creditors, and other stakeholders, as well as in ensuring that all operators act on a level playing field under equal conditions, the analysis presented here is of immeasurable value to lawyers, business persons, and officials concerned with taxation, not only in Europe but anywhere within the reach of international trade.

Proceedings of the Fourth International Conference on Administrative Science (ICAS 2022)

2023-09-28 Abdul Rahman This is an open access book. Central Themes: "Administrative Reform Toward Collaborative and Digital Governance Era". The main objective of the international conference is to identify and understand the opportunities and challenge of the sustainable development goals in the new normal era. Formulating the knowledge and experiences in regard to the sustainable development goals in the new normal era. Understanding the effect in multiple perspectives such as social, politics, political economy, governance, paradigm shift, economy, business, environmental, security, human resources management etc. Creating innovation in public policy and administration which is adaptive and sensitive to the multiplier effect of decision making and process made by the public sector governance in the pandemic era. Developing networking and partnership with international academicians, expertise and professionals in

arrange of filed in business, public policy, administration, political economy, development etc.

Human Factors in Transportation

2016-09-19 Giuseppe Di Bucchianico More and more the most traditional and typical applied ergonomics issues of the activities related to sea shipping, vehicle driving, and flying are required to deal with some emerging topics related to the growing automatism and manning reduction, the ICT's advances and pervasiveness, and the new demographic and social phenomena, such as aging or multiculturalism. With contributions from expert researchers, professionals, and doctoral students from a wide number of countries such as Australia, Austria, Canada, Italy, Germany, the Netherlands, Norway, Sweden, UK and USA, this multi-contributed book will explore traditional and emerging topics of Human Factors centered around the maritime, road, rail, and aviation transportation domains.

Advances in Human Aspects of Transportation: Part I

2021-07-19 Neville Stanton Human Factors and Ergonomics have made a considerable contribution to the research, design, development, operation and analysis of transportation systems which includes road and rail vehicles and their complementary infrastructure, aviation and maritime transportation. This book presents recent advances in the Human Factors aspects of Transportation. These advances include accident analysis, automation of vehicles, comfort, distraction of drivers (understanding of distraction and how to avoid it), environmental concerns, in-vehicle systems design, intelligent transport systems, methodological developments, new systems and technology, observational and case studies, safety, situation awareness, skill development and training, warnings and workload. This book brings together the most recent human factors work in the transportation domain, including empirical research, human performance and other types of modeling, analysis, and development. The issues facing engineers, scientists, and other practitioners of human factors in transportation research are becoming more challenging and more critical. The common theme across these sections is that they deal with the intersection of the human and the system. Moreover, many of the chapter topics cross section boundaries, for instance by focusing on function allocation in NextGen or on the safety benefits of a tower controller tool. This is in keeping with the systemic nature of the problems facing human factors experts in rail and road, aviation and maritime research- it is becoming increasingly important to view problems not as isolated issues that can be extracted from the system environment, but as embedded issues that can only be understood as a part of an overall system.

ICAS-PGS 2019

2020-08-12 William Yeoh Following the successful of previous conference, 3rd International Conference on Administrative Science, Policy, and Governance Studies (ICAS-PGS) in strategic alliance with 4th International Conference of Business Administration and Policy (ICBAP) 2019 will be held on October 30-31, 2019 in Universitas Indonesia, Depok, West Java, Indonesia. This year's conference theme is "Strengthening Strategic Administrative Reform Policy to Promote Competitiveness and Innovation in Industrial Revolution 4.0: The Opportunities and Challenges." This conference is hosted by Faculty of

Administrative Science Universitas Indonesia (FIA UI). The conference covers debates over problematic situation, theoretical frameworks, as well as prescribed policies the way that governments, businesses, and civil societies essentially need to outline strategies to realize reform commitment and achieve change efficacy for purposes of harnessing innovation while considering the opportunities and challenges as well as maintaining sustainability, engaging in a more dynamic predicament such as regulatory frameworks that affect relations of multiple governance actors in today's dynamic towards Industrial Revolution 4.0. The main objective of this conference is to discuss and debate the recent trends in administrative science on a range of issues such as public, business, and fiscal and the interconnectedness of all in Industrial Revolution 4.0. This conference is aimed to bring researchers, academicians, scientists, policymakers, professional managers, students, and other related stakeholders; together to participate and present their latest research findings, developments, and practical solutions related to the various aspects of administrative challenges in public and private sector. The general theme of 3rd ICAS-PGS and 4th ICBAP 2019 is "Strengthening Strategic Administrative Reform Policy to Promote Competitiveness and Innovation in Industrial Revolution 4.0: The Opportunities and Challenges." The conferences consist of three streams representing differences of focus and scopes of research interests within the discipline of public, business, and fiscal administration and policy. We convey our gratitude to our esteemed Committee, Speakers and Participants, for giving their best to the success of the conference

Transdisciplinarity and the Future of Engineering

2022-11-15 B.R. Moser This book presents the proceedings of TE2022, the 29th ISTE International Conference on Transdisciplinary Engineering, held at the Massachusetts Institute of Technology in Cambridge, United States, from 5 - 8 July 2022. Transdisciplinary engineering is the exchange of knowledge in the context of an innovation, in product, process, organisation or social environment. ISTE aims to explore and promote the evolution of engineering to incorporate transdisciplinary practices in which the exchange of different types of knowledge from a diverse range of disciplines is fundamental. The theme for the TE2022 conference is the future of engineering, and the 75 papers included here, which have all undergone a rigorous peer-review process, cover a wide range of topics and are grouped under 10 headings: Requirements, Knowledge and Architecture in Engineering; Case Studies; Energy, Environment, and Sustainability; Engineering Teamwork; Digital Engineering; imulation, Optimization, and Analytics; Manufacturing; Policy, Decisions, and Innovation; Engineering Education; Research on TE. The book will be of interest to all those working in the field of engineering today.

20th European Symposium of Computer Aided Process Engineering

2010-06-03 S. Pierucci ESCAPE-20 is the most recent in a series of conferences that serves as a forum for engineers, scientists, researchers, managers and students from academia and industry to present and discuss progress being made in the area of "Computer Aided Process Engineering" (CAPE). CAPE covers computer-aided methods, algorithms and techniques related to process and product engineering. The ESCAPE-20 scientific program reflects the strategic objectives of the CAPE Working Party: to check the status of historically consolidated topics by means of their industrial application and to evaluate their emerging issues. * Includes a CD that contains all research papers and contributions * Features a truly international scope, with guest speakers and keynote talks from leaders in science and industry * Presents papers covering the latest research, key topical areas, and developments in computer-aided process engineering (CAPE)

Nightmare that Never Ends

Sam awoke with a jump, his body drenched in moisture. The same unsettling nightmare had once again plagued his sleep, the one where he was hunted by a ominous figure wielding a knife. He glanced at the clock; it was 3:15 am. He tried to placate his thundering heart, attempting to convince himself that it was merely a figment of his imagination. Yet, deep down, he knew it was far more than that. He knew the enigmatic figure was existent, and it was moving relentlessly towards him. He had seen it before, in the horrific news reports, in the meticulous police sketches, in the despairing faces of the victims. It was the infamous serial killer that had been haunting the city for what seemed like an eternity. And Sam was next.

The book "Analyzing Casual Conversation" by Suzanne Eggins and Diana Slade, first issued in 1997, develops a systematic model for the study and description of casual conversation in English. The authors argue that in spite of its occasionally aimless look and ostensibly unstructured substance, casual conversation is a very structured undertaking and performs a crucial function in the social building of reality. The work works through genuine samples of casual conversations entailing participants varying in age, gender, ethnicity, and socio-economic class¹². Deriving on understandings from sociology, linguistics, and critical semiotics, the work provides readers with the analytic skills to describe the levels of structure and critical interpretive models to explain the 'social work' that happens on through chat.

Read Only : icas computing skills paper pdf pdf~In the abandoned attic of an old antique mansion, where dust danced in the slanting sunlight, a chest rested beneath a tattered tapestry. Inside, letters bound in silk ribbons revealed the correspondence between two star-crossed lovers separated by ages. Their words, like echoes in time, held the key to a love that defied the boundaries of existence.
