Cancer Can Be Cured!

2008-11-24 Father Romano Zago Father Romano Zago, a Franciscan Friar and scholar, wrote the book Cancer Can Be Cured to reveal to the world an all natural Brazilian Recipe that contains the juice made from the whole leaf plant of Aloe Arborescens and honey that has been shown to rapidly restore the body's health so it heals itself of all types of cancer. The book tells how it was while administering to the poor in the shantytown of Rio Grande dol Sul , Brazil that he and the provincial Father Arno Reckziegel, witnessed the healing of simple people of cancer who used this recipe. Later, when he had assignments in Israel and Italy where this aloe species grows naturally he continued to see great success in the chronically ill being cured when he recommended they use this recipe. This inspired for him to spend the next 20 years in researching the science behind this aloe species and the publication of that research in this book along with his numerous first hand anecdotes of cancer healing by those using the Brazilian juice recipe. Chapters include information on how to prepare the recipe using the three ingredients of whole leaf Aloe arborescens juice, honey and a small amount of distillate (1%); how to take the preparation; questions and answers on everything from how to pick the aloe leaves, why each of the three ingredients is important in the recipe, the types of cancer that have been cured using the recipe, other diseases and health problems the recipe has shown to be beneficial in helping the human body solve; the internationalization of the recipe on five continents; anecdotal stories of some body healings; the composition of Aloe; and Aloe and Aids. There has been much publicized scientific research and literature on the synergistic benefits of the 300 phytotherapeutic biochemical and nutrient constituents of Aloe vera to aid the body's defenses to enhance the immune system and protect against diseases. However, this is the first book to reveal the little known potency

Weiss's Herbal Medicine

2001 Rudolf Fritz Weiss The classic edition is back! First published in 1988, Weiss's Herbal Medicine is revered by herbalists and medical professionals alike as the seminal work in the field of phytotherapy. This book has established itself as an indispensable resource and is widely acknowledged as the key text in the field of medical herbalism. You will find clear, detailed information on treating conditions ranging from colds and influenza to rheumatic problems, metabolic and endocrine disorders, cancer, and much more. Conveniently arranged by organ system, the text provides guidelines for prescribing herbal remedies, with sections on dosage, application, and precautionary measures. Plus, for each plant discussed, you will find lists of their occurrence, botanical features, differentiation from related species, constituents, and medical benefits. Proprietary formulations, full references, and a comprehensive subject index of almost 2,000 entries round out the superb coverage! Weiss's life's work examines the subject of herbal medicine from both a clinical and practical viewpoint, incorporating his personal observations and clinical experience with scientific studies. This material formed the basis of Herbal Medicine, 2E, also by Thieme. The second edition, revised, expanded and modernized by Volker Fintelmann, streamlines the work into a more clinical text, incorporating the latest scientific research and Commission E findings on the efficacy of herbs. This edition is recommended for allopathic physicians and other medical professionals who are new to the field of herbal medicine. Professor Rudolf Fritz Weiss (1895-1991) is highly regarded as the founding father of modern German phytotherapy. He studied botany and medicine at the University of Berlin, qualifying as a doctor in 1922 and subsequently taking additional qualifications in internal medicine. A teaching post in herbal medicine was interrupted by war service as an army doctor, followed by seven years in Russian captivity as a doctor in prisoner-of-war camp hospitals. After retiring from clinical practice in 1961, he devoted his life to the scientific development and acceptance of herbal medicine. Weiss was appointed as a member of the German Commission E in 1978. He was founder and editor of the Zeitschrift fuer Phytotherapie, and lectured on current advances in the subject at the University of Tuebingen.

How We Are Hungry

2010-05-28 Dave Eggers How We Are Hungry is a gripping, lyrical and soulful collection of stories from the acclaimed author of A Heartbreaking Work of Staggering Genius. Ranging from a doomed Irish setter's tales of running and jumping ("After I Was Thrown in the River and Before I Drowned") to a bitterly comic meditation on suicide and friendship ("Climbing to the Window, Extending to Dance"), and from the Egyptian desert to the asphalt of Interstate 5, these stories are Eggers at his finest. By turns devastating, clear-eyed and funn - incredibly funny - this collection is a marvel.

Headache and Facial Pain

1999 Franco Mongini Divided into four parts, the classification criteria as well as etiologic factors and pathogenic mechanisms of headache and different types of facial pain are examined in the first part of the book. The last two parts analyze the individual pathologies at the root of headache (part three) and facial pain (part four): A wide variety of classic and difficult clinical cases are presented. The book can therefore be regarded as a study and consultation manual for neurologists, headache specialists, algologists, anaesthetists, dentists, internists, general practitioners, and all those interested in the problem of headache and facial pain.

How the Other Half Lives

2011 Jacob A. Riis Jacob Riis's famed 1890 photo-text addressed the problems of tenement housing, immigration, and urban life and work at the beginning of the Progressive era. David Leviatin edited this complete edition of How the Other Half Lives to be as faithful to Riis's original text and photography as possible. Uncropped prints of Riis's original photographs replace the faded halftones and drawings from photographs that were included in the 1890 edition. Related documents added to the second edition include a stenographic report of one of Riis's lantern-slide lectures that demonstrates Riis's melodramatic techniques and the reaction of his audience, and five drawings that reveal the subtle but important ways Riis's photographs were edited when they were reinterpreted as illustrations in the 1890 edition. The book's provocative introduction now addresses Riis's ethnic and racial stereotyping and includes a map of New York's Lower East Side in the 1890s. A new list of illustrations and expanded chronology, questions for consideration, and selected bibliography provide additional support.
