Building State Capacity in Africa

2004-01-01 Brian Levy This publication considers options for strengthening institutional capacity within the public sector in African countries, by drawing on the experiences of public sector reform programmes in over a dozen African states. Issues discussed include: the relationship between governance and economic development, public expenditure and accountability, anti-corruption reforms, the politics of decentralisation, political structures and public service delivery.

Confronting Allo-Semitism in Europe (paperback)

2014-04-17 Eliezer Ben-Rafael As with most European Jewries today, Belgian Jewry is attacked from many directions. How are these new hardships confronted? Research shows Belgian Jews as “like” many others but “a little more” and their plight highlights the question: is allo-Semitism surmountable?

Blood Brothers

2016-04-30 B. Lintner From pirates singing Ricky Martin to mob hits carried out with samurai swords, Bertil Lintner offers a fascinating look at organized crime in the Asia Pacific. Both Western and Asian pundits assert that shady deals are an Asian way of life. Some argue that corruption and illicit business ventures - gambling, prostitution, drug trafficking, gun running, oil smuggling - are entrenched parts of the Asian value system. Yet many Asian leaders maintain that their cities are

safer than Sydney, Amsterdam, New York, and Los Angeles. Making use of expertise gained from twenty years of living in Asia, Lintner exposes the role crime plays in the countries of the Far East. In *Blood Brothers*, he takes you inside the criminal fraternities of Asia, examining these networks and their past histories in order to answer one question: How are civil societies all over the world to be protected from the worst excesses of increasingly globalised mobsters?

World Science Report 1993

1993 UNESCO The World Science Report 1993 is made up of four major parts. The first part contains a collection of essays which together constitute an informative and thought-provoking review of the state of science and technology in various regions of the world. The second part describes how scientific R&D is organized - who carries it out, where, and with what means. International partnership and cooperation are discussed in Part 3, while the fourth part carries overviews of recent developments in the basic sciences. The Report concludes with an appendix of statistical tables on national and regional scientific activity and manpower. The World Science Report is both authoritative and readable. Written by authors recognized in their respective fields, the text is packed with facts, figures and discussion on present-day science. As a source of information, this work is a guide for all those with an interest in the shape of science and technology around the globe, be they decision makers, practitioners of science, active participants or observers.

The Unknowers

2019-09-15 Linsey McGoey Deliberate ignorance has been known as the 'Ostrich Instruction' in law courts since the 1860s. It illustrates a recurring pattern in history in which figureheads for major companies, political leaders and industry bigwigs plead ignorance to avoid culpability. So why do so many figures at the top still get away with it when disasters on their watch damage so many people's lives? Does the idea that knowledge is power still apply in today's post-truth world? A bold, wide-ranging exploration of the relationship between ignorance and power in the modern age, from debates over colonial power and economic rent-seeking in the 18th and 19th centuries to the legal defences of today, *The Unknowers* shows that strategic ignorance has not only long been an inherent part of modern power and big business, but also that true power lies in the ability to convince others of where the boundary between ignorance and knowledge lies.

Introductory Economics

2002-06-06 Arleen J Hoag Latest Edition: *Introductory Economics* (4th Edition) This textbook is carefully designed to provide the reader with a good understanding of the fundamental concepts of economics. The writing is lucid and at the student's level. There are twenty-nine "one-concept" chapters. Each chapter is suitably short, highlighting one economic principle. The student can study one concept and be reinforced by the learning process before proceeding to another chapter. Self review exercises conclude each chapter. The one-concept chapters also provide organizational flexibility for the instructor. The text is well

Space Battles which Transformed History

It was the time 2023, and the earth was on the brink of conflict. The U.S. and China, the two global powers, had been entangled in a fierce rivalry, contending for resources, influence, and supremacy. They had developed sophisticated armaments, like lasers, unmanned aerial vehicles, and spacecrafts, which could attack any place, any time. They had secretly established space stations, that could fire nuclear missiles, that can destroy the world. They were ready to use them, if necessary. But they were not the only ones. There was a third entity, a concealed force, which had been watching them both, waiting patiently for them, getting ready for them both. They were the ETs, and they had come arrived to halt them. They had come come to save the world, or to finish it all. They had arrived to initiate the space wars which changed history.

Nightmare that Never Ends

Sam awoke with a start, his body drenched in moisture. The same terrifying nightmare had once again haunted his sleep, the one where he was pursued by a menacing figure wielding a gleaming. He glanced at the clock; it was 3:15 am. He tried to calm his thundering heart, attempting to convince himself that it was merely a figment of his imagination. Yet, deep down, he knew it was far more than that. He knew the elusive figure was existent, and it was approaching towards him. He had seen it before, in the frightening news reports, in the precise police sketches, in the haunted faces of the victims. It was the notorious serial killer that had been haunting the city for what seemed like an eternity. And Sam was his next target.

Anna could never forget her first love, Leo. Their paths had crossed when they were both 16, at a enchanting summer camp. They were inseparable, spending every day sharing laughter, engaging in deep conversations, and experiencing the thrill of first love. Their bond was indestructible, and they vowed to maintain their bond, to cherish their connection, and to love each other forever. But life, as it often does, had a different path in store for them. They lost communication, they moved on with their lives, and they eventually married other people. Years passed, and the whirlwind of life took them in different directions. But fate, it seems, had not forgotten their undeniable connection. At a chance encounter, at a nostalgic reunion, their paths crossed once again. The moment they laid eyes on each other, the spark of their connection rekindled. The same electric spark that had drawn them together years ago was still potent. They felt the same thrill that had fueled their teenage romance, but they also felt the weight of time. Their hearts yearned for the unwavering devotion they had shared, but their minds grappled with the complexity of their current lives. They were caught in a emotional battle, torn between the alluring memories of their first love and the complications of their present. They stood at a critical juncture, forced to make a life-altering choice. Would they choose the intense connection of their first love, risking the unknown that lay ahead, or would they hold onto the predictability of their current lives, forever wondering what could have been? Only time would tell if their unwavering connection would overcome the challenges.

Best Seller : islam en mexico contemporaneo 50042 pdf pdf;Eva had always been intrigued by the realm of magic, but she never anticipated that she would uncover her own magical heritage. She had spent her childhood in a ordinary family, living in a unremarkable town, devoid of any signs of the

supernatural. However, on her sixteenth birthday, her life took an unexpected turn. A mysterious package arrived, sent by her grandmother, who had left this world years ago. Within the package lay an ancient leather-bound book, its cover adorned with the inscription, "The Book of Shadows". As Eva opened the book, a wave of energy coursed through her veins. She realized that the book held the secrets of her family's magical lineage, and that she was the last descendant of a long line of mighty witches. But she also discovered that she was not alone. There were others like her, individuals who possessed similar abilities, and some of them sought to wield their magic for nefarious purposes. Eva faced a pivotal decision: embrace her destiny as a witch and delve into the world of sorcery, or reject her newfound powers and continue living her life as she had always known it. Regardless of her choice, she knew that her life would forever be transformed from that moment forward.
