## Museums in Motion

2008 Edward Porter Alexander In 1979, Edward P. Alexander's *Museums in Motion* was hailed as a much-needed addition to the museum literature. In combining the history of museums since the eighteenth century with a detailed examination of the function of museums and museum workers in modern society, it served as an essential resource for those seeking to enter to the museum profession and for established professionals looking for an expanded understanding of their own discipline. Now, Mary Alexander has produced a newly revised edition of the classic text, bringing it the twenty-first century with coverage of emerging trends, resources, and challenges. New material also includes a discussion of the children's museum as a distinct type of institution and an exploration of the role computers play in both outreach and traditional in-person visits.

## *Museum Ethics*

2005-09-27 Gary Edson A number of developments in the museum movement during the last few years have forced museums to give greater attention to ethical issues. Members of a profession are increasingly regarded constituting an ethical community. Every person with such a community must have a sense of personal obligation as well as a responsibility for others to assure ethical achievement. This volume firmly places notions of ethics in the field of action. *Museum Ethics* considers the theoretical and practical elements of the philosophy of conduct in relation to critical contemporary issues and museums. This discussion encompasses the procurement of artifacts, the rights of indigenous peoples, repatriation, the politics of display, the conservation of objects and the role of education, as well as the day-to-day management of a museum. All persons active in museum matters, whether custodian, curator, or trustee have an ethical obligation to the museum profession and the public. This volume will allow the professional and student to work towards a more responsible and responsive museum community.

## Museums in a Troubled World

2009-05-12 Robert R. Janes Are Museums Irrelevant? Museums are rarely acknowledged in the global discussion of climate change, environmental degradation, the inevitability of depleted fossil fuels, and the myriad local issues concerning the well-being of particular communities - suggesting the irrelevance of museums as social institutions. At the same time, there is a growing preoccupation among museums with the marketplace, and museums, unwittingly or not, are embracing the values of relentless consumption that underlie the planetary difficulties of today. *Museums in a Troubled World* argues that much more can be expected of museums as publicly supported and knowledge-based institutions. The weight of tradition and a lack of imagination are significant factors in museum inertia and these obstacles are also addressed. Taking an interdisciplinary approach, combining anthropology ethnography, museum studies and management theory, this book goes beyond conventional museum thinking. Robert R. Janes explores the meaning and role of museums as key intellectual and civic resources in a time of profound social and environmental change. This volume is a constructive examination of what is wrong with contemporary museums, written from an insider's perspective that is grounded in both hope and pragmatism. The book's conclusions are

optimistic and constructive, and highlight the unique contributions that museums can make as social institutions, embedded in their communities, and owned by no one.

## Howard Fast

2012-11-05 Gerald Sorin A biography of the Jewish American, left-wing author of *Spartacus* that explores his identity, his work, and his politics. Howard Fast's life, from a rough-and-tumble Jewish New York street kid to the rich and famous author of close to one hundred books, rivals the Horatio Alger myth. Author of bestsellers such as *Citizen Tom Paine*, *Freedom Road*, *My Glorious Brothers*, and *Spartacus*, Fast joined the American Communist Party in 1943 and remained a loyal member until 1957, despite being imprisoned for contempt of Congress. Gerald Sorin illuminates the connections among Fast's Jewishness, his writings, and his left-wing politics and explains Fast's attraction to the Party and the reasons he stayed in it as long as he did. Recounting the story of his private and public life with its adventure and risk, love and pain, struggle, failure, and success, Sorin also addresses questions such as the relationship between modern Jewish identity and radical movements, the consequences of political myopia, and the complex interaction of art, popular culture, and politics in twentieth-century America. "A notable study of a thorny protagonist whose life has much to reveal about the times in which he lived and about the interplay of political belief, personal identity, art, and ambition." —Publishers Weekly "Sorin . . . has written a heavily researched critical biography of Fast. . . . The volume's strength is its explication and analysis of the complex social and political context of Fast's activism and creative work. . . . Sorin's lengthy critique of Fast's adherence to Communism long after most American writers and intellectuals had abandoned the party, and his shameful public silence on Stalin's crimes and Soviet anti-Semitism, are of significant import. . . . Recommended." —Choice "An intriguing biography, not least for its examination of how Fast interwove his political activism, his Jewishness and his art during the heyday of McCarthyism. Recommended." —Recorder (Melbourne)

## Riches, Rivals, and Radicals

2020-09-15 Marjorie Schwarzer This book brings the reader up to date on the stories behind the people and events that have transformed America's museums from their beginnings into today's vibrant cultural institutions. ## **Riches, Rivals & Radicals**

2006 Marjorie Schwarzer "As author Marjorie Schwarzer tells us, a look at the past century of America's museums reveals a captivating if slightly imperfect real-life masterpiece, flowing with a vibrant palette of wealth and ambition, accented by bold patches of jealousy, generosity and rivalry, artfully woven together into an elegant tapestry of passion, mystery and intrigue. During the past century, U.S. museums have transformed themselves into cultural landmarks of our society; institutions that educate, inspire, and lead their communities. The story of that transformation is one that mirrors the history of the nation itself. It includes many notable, and some notorious, characters. And it involves some of history's most prominent American families: Getty, Rockefeller, Ford, Vanderbilt, Carnegie and many others. Published by the American Association of Museums to commemorate the "Year of the Museum" in 2006 and mark AAM's Centennial, *Riches, Rivals and Radicals: 100 Years of Museums in America* traces the rise of the American museum over the past century. "The history of museums in this country is one of America's greatest stories but it is a story that has never been told in its entirety until now," said Edward H. Able, Jr., President and CEO of the American Association of Museums. "Marjorie Schwarzer has done a superb job of capturing the

energy, excitement and significance of 100 years of museums; her book reminds us all just how much museums matter in our lives, and how valuable museums will always be in our culture." -- Publisher.

### *A People's History of the World*

2017-05-02 Chris Harman The best-selling comprehensive history of the world, from the perspective of struggling peoples throughout the ages—now with new material and a foreword by Howard Zinn From the earliest human societies to the Holy Roman Empire, from the Middle Ages to the Enlightenment, from the Industrial Revolution to the end of the twentieth century, Chris Harman provides a brilliant and comprehensive history of the human race. Eschewing the standard accounts of “Great Men,” of dates and kings, Harman offers a groundbreaking counter-history, a breathtaking sweep across the centuries in the tradition of “history from below.” In a fiery narrative, he shows how ordinary men and women were involved in creating and changing society and how conflict between classes was often at the core of these developments. While many scholars see the victory of capitalism as now safely secured, Harman explains the rise and fall of societies and civilizations throughout the ages and demonstrates that history moves ever onward in every age. This magisterial study is essential reading for anyone interested in how society has changed and developed and the possibilities for further radical progress. “I have had many people ask me if there is a book which does for world history what my book *A People’s History of the United States* does for this country. I always responded that I know of only one book that accomplishes this extremely difficult task, and that is Chris Harman’s *A People’s History of the World*.” —Howard Zinn

### *Riches, Rivals and Radicals*

2006-05-01 Marjorie Schwarzer Highly illustrated, exhaustively researched, and eminently readable, this new edition of *Riches, Rivals and Radicals* describes the rise of the museum in the United States from the early twentieth century to the early twenty-first—a story that parallels the historic changes in American society. Through the decades, museums transformed themselves from cabinets of curiosity to centers of civic pride and prestige and emblems of our shared heritage, good and bad. With a rich cast of characters and admirable narrative sweep, Marjorie Schwarzer brings to life the deep impact that museum culture had on society at large and vice versa. Published in celebration of the American Alliance of Museums' centennial and The Year of the Museum, *Riches, Rivals and Radicals* reveals the history of museums to be a gripping and remarkable facet of our American past. This new edition includes a new afterword by the author, and the main text has been updated and revised.
