In this comprehensive and user friendly book, the author translates years of experience working with students with Asperger Syndrome and social-communication difficulties. After brief introductory chapters on skills to target, instructional strategies, behavior management, promoting generalization, etc., as well as a special chapter by Brenda Smith Myles on relevant characteristics of autism spectrum disorders, the reader is presented with the essence of this must-have resource: 70 of the skills that most commonly cause difficulty for individuals with autism spectrum disorders and social-communications problems. The presentation of each skill consists of a reproducible skill handout, as well as activity sheets listing ways teachers and parents can demonstrate, practice, and reinforce the skill in the classroom and at home. A concluding chapter on promoting peer acceptance offers sensitivity training programs for both students of various age groups and school staff, making this a complete social skills training package for students of all ages.
