Ageless Nation

2017-07-05 Michael G. Zey In this intriguing volume, futurist and author Michael G. Zey imagines a time in which technology has stretched human life spans to four hundred years or more. Genetic engineering, cloning, and stem-cell technology will eradicate diseases and allow for nanoscopic repair and maintenance of the body. “Smart drugs” and caloric restriction programs will largely stop aging and ensure healthy bodies and sharp minds indefinitely. Grounding his speculation in contemporary scientific research, Zey's optimistic vision sees retirement replaced by hiatuses between careers, and leisure time spent in multi-generational homes. Key players in the debate include supporters like Cambridge University scientist Aubrey de Grey, who envisions five-thousand-year life spans, and the radical futurist author Ray Kurzweil, who foresees the merging of humans and computers. Organizations such as the Coalition to Extend Life lobby the government for immortality research funding and find opposition in the President's Council on Bioethics and “deep ecologists” advocating zero-population growth. Criticizing current environmental trends as anti-progress and anti-human, Zey's own solutions include controversial measures like human control of weather, colonization of outer space, and genetically modifying food. He concludes that the eventuality of a modern Fountain of Youth is closer than we think. Zey's predictions about the future are thoughtful and fascinating.

The Future of the Office

2021-08-10 Peter Cappelli A GLOBE & MAIL BEST BUSINESS BOOK OF 2021 The COVID-19 pandemic forced an unprecedented experiment that reshaped white-collar work and turned remote work into a kind of “new normal.” Now comes the hard part. Many employees want to continue that normal and keep working remotely, and most at least want the ability to work occasionally from home. But for employers, the benefits of employees working from home or hybrid approaches are not so obvious. What should both groups do? In a prescient new book, *The Future of the Office: Work from Home, Remote Work, and the Hard Choices We All Face*, Wharton professor Peter Cappelli lays out the facts in an effort to provide both employees and employers with a vision of their futures. Cappelli unveils the surprising tradeoffs both may have to accept to get what they want. Cappelli illustrates the challenges we face by in drawing lessons from the pandemic and deciding what to do moving forward. Do we allow some workers to be permanently remote? Do we let others choose when to work from home? Do we get rid of their offices? What else has to change, depending on the approach we choose? His research reveals there is no consensus among business leaders. Even the most high-profile and forward-thinking companies are taking divergent approaches: --Facebook, Twitter, and other tech companies say many employees can work remotely on a permanent basis. --Goldman Sachs, JP Morgan, and others say it is important for everyone to come back to the office. --Ford is redoing its office space so that most employees can work from home at least part of the time, and --GM is planning to let local managers work out arrangements on an ad-hoc basis. As Cappelli examines, earlier research on other types of remote work, including telecommuting offers some guidance as to what to expect when some people will be in the office and others work at home, and also what happened when employers tried to take back offices. Neither worked as expected. In a call to action for both employers and employees, Cappelli explores how we should think about the choices going forward as well as who wins and who loses. As he implores, we have to choose soon.

Great Soul

2012-04-03 Joseph Lelyveld A highly original, stirring book on Mahatma Gandhi that deepens our sense of his achievements and disappointments—his success in seizing India's imagination and shaping its independence struggle as a mass movement, his recognition late in life that few of his followers paid more than lip service to his ambitious goals of social justice for the country's minorities, outcasts, and rural poor. Pulitzer Prize-winner Joseph Lelyveld shows in vivid, unmatched detail how Gandhi's sense of mission, social values, and philosophy of nonviolent resistance were shaped on another subcontinent—during two decades in South Africa—and then tested by an India that quickly learned to revere him as a Mahatma, or “Great Soul,” while following him only a small part of the way to the social transformation he envisioned. The man himself emerges as one of history's most remarkable self-creations, a prosperous lawyer who became an ascetic in a loincloth wholly dedicated to political and social action. Lelyveld leads us step-by-step through the heroic—and tragic—last months of this selfless leader's long campaign when his nonviolent efforts culminated in the partition of India, the creation of Pakistan, and a bloodbath of ethnic cleansing that ended only with his own assassination. India and its politicians were ready to place Gandhi on a pedestal as “Father of the Nation” but were less inclined to embrace his teachings. Muslim support, crucial in his rise to leadership, soon waned, and the oppressed untouchables—for whom Gandhi spoke to Hindus as a whole—produced their own leaders. Here is a vital, brilliant reconsideration of Gandhi's extraordinary struggles on two continents, of his fierce but, finally, unfulfilled hopes, and of his ever-evolving legacy, which more than six decades after his death still ensures his place as India's social conscience—and not just India's.

You Know I'm Right

2010-10-05 Michelle Caruso-Cabrera Straight-talking CNBC reporter Michelle Caruso-Cabrera demands a modern solution to our nation's social and economic woes—a return to our political roots: fiscal conservatism, limited government, and personal accountability. Hypocrites and radicals on both sides of the political spectrum have left fiscally conservative, socially liberal Americans like CNBC's Michelle Caruso-Cabrera people without a party. If you tell your neighbors you're a card-carrying Republican, they'll assume you're opposed to abortion, hostile to gay marriage, and don't care about the environment or the poor. Democrats are portrayed as union-loving, tree-hugging activists, more concerned with making government big rather than effective. The reality is that both parties have been hijacked by the wrong issues and have abandoned the loyal Americans who believe that government should stay out of our private lives and out of our pocketbooks. Both parties are to blame for the exorbitant spending and excessive social interference over the last ten years that have left our country in a financial disaster. The core principles of Reaganomics rejuvenated an unstable economy and the Clinton-era policy successes took power away from the federal government and put money in our pockets. We must return to the fundamentals of American politics: small, not big, government. Less spending, not more. The first step is to more narrowly define the parties' platforms away from needlessly divisive social issues and refocus the political discussion on that really matters: economic policies that create jobs. In the smart, tell-it-like-it-is style that has made her popular with Democrats and Republicans like, Caruso-Cabrera outlines forward-thinking free-market solutions for health care, education, and immigration. These ideas will stop our growing deficit, boost our competitive capital, and strengthen our dollar, because an economy that is flexible and free of government interference can grow faster and get the country out of its current malaise. It's not too late to fix our nation, restore our credibility, and rebuild our political system with the tenets on which it was founded: fiscal conservatism and social liberty. Our future is counting on it.

Aftershocks

2021-08-24 Colin Kahl Two of America's leading national security experts offer a definitive account of the global impact of COVID-19 and the political shock waves it will have on the United States and the world order in the 21st Century. “Informed by history, reporting, and a truly global perspective, this is an indispensable first draft of history and blueprint for how we can move forward.” —Ben Rhodes The COVID-19 pandemic killed millions, infected hundreds of millions, and laid bare the deep vulnerabilities and inequalities of our interconnected world. The accompanying economic crash was the worst since the Great Depression, with the International Monetary Fund estimating that it will cost over \$22 trillion in global wealth over the next few years. Over two decades of progress in reducing extreme poverty was erased, just in the space of a few months. Already fragile states in every corner of the globe were further hollowed out. The brewing clash between the United States and China boiled over and the worldwide contest between democracy and authoritarianism deepened. It was a truly global crisis necessitating a collective response—and yet international cooperation almost entirely broke down, with key world leaders hardly on speaking terms. Colin Kahl and Thomas Wright's Aftershocks offers a riveting and comprehensive account of one of the strangest and most consequential years on record. Drawing on interviews with officials from around the world and extensive research, the authors tell the story of how nationalism and major power rivalries constrained the response to the worst pandemic in a century. They demonstrate the myriad ways in which the crisis exposed the limits of the old international order and how the reverberations from COVID-19 will be felt for years to come.

First Love that Never Fades

Anna could never forget her first love, Leo. Their paths had crossed when they were both 16, at a idyllic summer camp. They were drawn to each other like magnets, spending every day sharing laughter, exchanging heartfelt thoughts, and sharing stolen kisses. Their bond was solid, and they vowed to keep in touch, to wait for each other, and to love each other forever. But life, as it often does, had other arrangements in store for them. They lost communication, they moved on with their lives, and they eventually married other people. Years passed, and the turmoil of life took them in different directions. But fate, it seems, had not forgotten their unwavering connection. At a chance encounter, at a sentimental reunion, their paths crossed once again. The moment they laid eyes on each other, the flame of their first love rekindled. The same undeniable attraction that had drawn them together years ago was still potent. They felt the same excitement that had fueled their teenage romance, but they also felt the weight of time. Their emotions swirled for the deep connection they had shared, but their minds grappled with the tangled web of their current lives. They were caught in a conflict of the heart, torn between the alluring memories of their first love and the stability and security of their present. They stood at a crossroads, forced to make a heartbreaking choice. Would they choose the magnetic pull of their first love, risking the uncertainty that lay ahead, or would they hold onto the stability of their current lives, forever wondering what could have been?
