Scandinavian Blue 2015-09-02 Jack Stevenson This book traces the development of modern Scandinavian erotic cinema as it evolved in Denmark and Sweden, from the gentle Swedish naturalist films, starting with *One Summer of Happiness* in the 50s, to the controversial groundbreakers like *I Am Curious (Yellow)* of the 60s and on through to the dawn of "Liberated Denmark," where, in the early 70s, the abolition of censorship was celebrated in films like *24 Hours with Ilse* and the production of a number of other films that were blatantly pornographic. Also considered is the influence of these films on other countries, particularly the United States, where Scandinavian erotic cinema helped to set in motion the sexual revolution and contributed to the end of film censorship.

Girlhood, Schools, and Media 2016-09-13 Michele Paule This book explores the circulation and reception of popular discourses of achieving girlhood, and the ways in which girls themselves participate in such circulation. It examines the figure of the achieving girl within wider discourses

of neoliberal self-management and post-feminist possibility, considering the tensions involved in being both successful and successfully feminine and the strategies and negotiations girls undertake to manage these tensions. The work is grounded in an understanding of media, educational, and peer contexts for the production of the successful girl. It traces narratives across school, television and online in texts produced for and by girls, drawing on interviews with girls in schools, online forum participation (within the purpose-built site www.smartgirls.tv), and girls' discussions of a range of teen dramas.

The Outsiders 2012-05-15 S. E. Hinton Over 50 years of an iconic classic! This international bestseller and inspiration for a beloved movie is a heroic story of friendship and belonging. No one ever said life was easy. But Ponyboy is pretty sure that he's got things figured out. He knows that he can count on his brothers, Darry and Sodapop. And he knows that he can count on his

friends—true friends who would do anything for him, like Johnny and Two-Bit. But not on much else besides trouble with the Socs, a vicious gang of rich kids whose idea of a good time is beating up on “greasers” like Ponyboy. At least he knows what to expect—until the night someone takes things too far. The Outsiders is a dramatic and enduring work of fiction that laid the groundwork for the YA genre. S. E. Hinton's classic story of a boy who finds himself on the outskirts of regular society remains as powerful today as it was the day it was first published. "The Outsiders transformed young-adult fiction from a genre mostly about prom queens, football players and high school crushes to one that portrayed a darker, truer world." —The New York Times "Taut with tension, filled with drama." —The Chicago Tribune "[A] classic coming-of-age book." —Philadelphia Daily News A New York Herald Tribune Best Teenage Book A Chicago Tribune Book World Spring Book Festival Honor Book An ALA Best Book for Young Adults Winner of the Massachusetts Children's Book Award

Encyclopedia of American Humorists 2016-04-14 Steven H. Gale First published in 1988, this book contains entries on famous American Humorists. Humor has been present in American literature, from the beginning, and has developed characteristics that reflect the American character, both regional and national. Although American literature was, in the past, treated as inferior to British literature, there has always been a large popular audience for the genre, which this book shows. The figures with entries in this encyclopedia not only amuse in their writing, but also aim to enlighten- setting out to expose the foibles and foolishness of society and the individuals who compose it. It is the manner in which these authors try to accomplish this end that determines whether they appear in the volume. Indeed, the book will demonstrate that the best humor has at its base, a ready understanding of human nature.

The first goal is to explore the difference between fairness and justice in language assessment. The authors distinguish internal and external dimensions of the equitable and just treatment of individuals taking language tests which are used as gatekeeping devices to determine access to education and employment, immigrant status, citizenship, and other rights. The second goal is to show how the extent of test fairness can be demonstrated and improved using the tools of psychometrics, in particular the models collectively known as Rasch measurement. "This book will have an enormous impact on the field of language assessment. Using Rasch analysis models to explore and identify sources of unfairness, the authors make a compelling case for fairness in the design and implementation of language assessment instruments and for justice in the interpretation and use of test results. A real strength of the book is that it guides readers through analytical techniques in an accessible way." Dan Douglas, Professor Emeritus, Applied Linguistics Program, Iowa State University.

The Blue Angel - The Life and Films of Marlene Dietrich 2013-10-03 David Stuart Ryan The story of Marlene Dietrich's life is the story of the 20th century. Author David Stuart Ryan who wrote the bestselling biography 'John Lennon's Secret' explores the amazing and circuitous route that took her to Hollywood and riches. But to understand the essential Marlene it is necessary to go right

back in time to the era of La Belle Epoque when a very feudal and settled order still existed in Europe. 'The Blue Angel' transports you to a glittering world that is all about to disappear in the maelstrom of world war. What emerges from the conflict is a feverish gaiety that seeks to put behind it all the suffering that has taken place. You are entering the Jazz Age and a Berlin that having suffered hyperinflation decides anything goes. The Berliner Luft - the Berlin air - is what the locals call it. This madcap atmosphere was to be recreated by a young journalist - Billy Wilder - when he made the journey to Hollywood. Indeed, the plot for his greatest film, 'Some Like It Hot', drew on his experiences in Berlin, and Billy Wilder was one of the respondents to the author when he came to write Marlene's story. Marlene's big break came when she played a vampish nightclub singer of dubious morals, not a million miles away from her own background trying to survive in a world turned upside down. 'The Blue Angel' took her to America and a carefully constructed film star image which embodies all the dazzling wealth and influence of Hollywood at its most powerful and hypnotic. Yet the more you get into the life of Marlene Dietrich, the greater the mystery becomes. Who was she really? Only now can the expert analysis of David Stuart Ryan reveal the true Marlene Dietrich, the person behind the image, the human being behind the facade. Was she indeed the blue angel?

American Science Fiction Film and Television 2009-10-01 Lincoln Geraghty American Science Fiction Film and Television presents a critical history of late 20th Century SF together with an analysis of the cultural and thematic concerns of this popular genre. Science fiction film and television were initially inspired by the classic literature of HG Wells and Jules Verne. The potential and fears born with the Atomic age fuelled the popularity of the genre, upping the stakes for both technology and apocalypse. From the Cold War through to America's current War on Terror, science fiction has proved a subtle vehicle for the hopes, fears and preoccupations of a nation at war. The definitive introduction to American science fiction, this is also the first study to analyse SF across both film and TV. Throughout, the discussion is illustrated with critical case studies of key films and television series, including The Day the Earth Stood Still, Planet of the Apes, Star Trek: The Next Generation, The X-Files, and Battlestar Galactica.

Affective Sexual Pedagogies in Film and Television 2017-02-17 Kyra Clarke Popular film and television hold valuable potential for learning about sex and sexuality beyond the information-based model of sex education currently in schools. This book argues that the representation of

complicated—or "messy"—relationships in these popular cultural forms makes them potent as affective pedagogical moments. It endeavours to develop new sexual literacies by contemplating how pedagogical moments, that is, fleeting moments which disrupt expectations or create discomfort, might enrich the available discourses of sexuality and gender, especially those available to adolescents. In Part One, Clarke critiques the heteronormative discourses of sex education that produce youth in particularly gendered ways, noting that "rationality" is often expected to govern experiences that are embodied and arguably inherently incoherent. Part Two explores public intimacy, contemplating the often overlapping and confused boundaries between public and private.

The End of Karma: Hope and Fury Among India's Young 2016-03-07 Somini Sengupta "[A] sharply observed study . . . richly detailed portraits."—Economist Somini Sengupta emigrated from Calcutta to California as a young child in 1975. Returning thirty years later as the bureau chief for The New York Times, she found a vastly different country: one defined as much by aspiration and possibility—at least by the illusion of possibility—as it is by the structures of sex and caste. *The End of Karma* is an exploration of this new India through the lens of young people from different worlds: a woman who becomes a Maoist rebel; a brother charged for the murder of his sister, who had married the "wrong" man; a woman who opposes her family and hopes to become a police officer. Driven by aspiration—and thwarted at every step by state and society—they are making new demands on India's democracy for equality of opportunity, dignity for girls, and civil liberties. Sengupta spotlights these stories of ordinary men and women, weaving together a groundbreaking portrait of a country in turmoil.

The Smile File 2023-10-25 Christopher John Smith Chris Smith is a highly respected rock and blues musician who has been performing and writing for over six decades. His beginnings are very similar to so many aspiring pop and rock stars of the 60s, attending Art College and absorbing the explosion of music of that era. Art School was the unofficial music school for British musicians in the 60s and 70s and in 1967 Chris Smith attended Ealing Art College. It was there he started writing songs with Freddie Bulsara following the formation of the band, Smile. Bulsara became Freddie Mercury, Smile became Queen and Chris remained true to the blues music that had inspired him from his early teens. The rest is history. One song which Chris worked on with Freddie, he called the Cowboy song, but they were never able to finish it. Freddie came up with the first line: "Momma, just killed a man, put a gun against his head, pulled my trigger, now he's dead." The song was shelved, only to emerge seven years later as Bohemian Rhapsody. Curiously it contained a line Brian had composed for a song Smile played: "Is this the real life." His dream was never to be rich and famous. As he told Freddie Mercury: "I'd like to have a little blues band in which I'd be the songwriter." He has achieved this, and is never happier than in the company of fellow musicians. Today he performs as the CJ Smith Band. This is his story.

Expanded Cinema 2020-03-03 Gene Youngblood Fiftieth anniversary reissue of the founding media studies book that helped establish media art as a cultural category. First published in 1970, Gene Youngblood's influential *Expanded Cinema* was the first serious treatment of video, computers, and holography as cinematic technologies. Long considered the bible for media artists, Youngblood's insider account of 1960s counterculture and the birth of cybernetics remains a mainstay reference in today's hypermediated digital world. This fiftieth anniversary edition includes a new Introduction by the author that offers conceptual tools for understanding the sociocultural and sociopolitical realities of our present world. A unique eyewitness account of burgeoning experimental film and the birth of video art in the late 1960s, this far-ranging study traces the evolution of cinematic language to the end of fiction, drama, and realism. Vast in scope, its prescient formulations include "the paleocybernetic age," "intermedia," the "artist as design scientist," the "artist as ecologist," "synaesthetics and kinesthetics," and "the technosphere: man/machine symbiosis." Outstanding works are analyzed in detail. Methods of production are meticulously described, including interviews with artists and technologists of the period, such as Nam June Paik, Jordan Belson, Andy Warhol, Stan Brakhage, Carolee Schneemann, Stan VanDerBeek, Les Levine, and Frank Gillette. An inspiring Introduction by the celebrated polymath and designer R. Buckminster Fuller—a perfectly cut gem of countercultural thinking in itself—places Youngblood's radical observations in comprehensive perspective. Providing an unparalleled historical documentation, *Expanded Cinema* clarifies a chapter of countercultural history that is still not fully represented in the arthistorical record half a century later. The book will also inspire the current generation of artists working in ever-newer expansions of the cinematic environment and will prove invaluable to all who are concerned with the technologies that are reshaping the nature of human communication.
