Mechanics for Engineers, Statics

2008 Ferdinand P. Beer The first book published in the Beer and Johnston Series, Mechanics for Engineers: Statics is a scalar-based introductory statics text, ideally suited for engineering technology programs, providing first-rate treatment of rigid bodies without vector mechanics. This new edition provides an extensive selection of new problems and end-of-chapter summaries. The text brings the careful presentation of content, unmatched levels of accuracy, and attention to detail that have made Beer and Johnston texts the standard for excellence in engineering mechanics education.

McGraw-Hill's Connect, is also available as an optional, add on item. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, how they need it, so that class time is more effective. Connect allows the professor to assign homework, quizzes, and tests easily and automatically grades and records the scores of the student's work. Problems are randomized to prevent sharing of answers and may also have a "multi-step solution" which helps move the students' learning along if they experience difficulty.

As Jonathan meandered through the town, he couldnt help but notice the subtle changes that signaled the shifting of seasons. Blossoms adorned the trees, and a gentle breeze carried the sweet scent of flowers in full bloom. Nature itself seemed to be whispering secrets, inviting him to join in its eternal dance of growth and renewal.
