Hoosiers and the American Story 2014-10-01 Madison, James H. A supplemental textbook for middle and high school students, Hoosiers and the American Story provides intimate views of individuals and places in Indiana set within themes from American history. During the frontier days when Americans battled with and exiled native peoples from the East, Indiana was on the leading edge of America's westward expansion. As waves of immigrants swept across the Appalachians and eastern waterways, Indiana became established as both a crossroads and as a vital part of Middle America. Indiana's stories illuminate the history of American agriculture, wars, industrialization, ethnic conflicts, technological improvements, political battles, transportation networks, economic shifts, social welfare initiatives, and more. In so doing, they elucidate large national issues so that students can relate personally to the ideas and events that comprise American history. At the same time, the stories shed light on what it means to be a Hoosier, today and in the past.

The First American Grand Prix 2014-05-15 Tanya A. Bailey This book provides an in-depth look at the great motor races that took place in Savannah, Georgia, in the golden era of early road racing: the Grand Prize of the Automobile Club of America and the Vanderbilt Cup. By examining Savannah's earlier fame in national bicycle racing competitions and its ties to the powerful dynasties who controlled the racing world, the book explains how and why Savannah was chosen. It details the construction of the course, reveals why the races and course were considered "America's greatest" by international racing experts of the period and includes many biographies of the drivers who came to Savannah. Finally, the book explores the theories and complexities of why Savannah's races and road racing in general came to an end.

Heroes of Early Black AA 2017-07-02 Glenn Chesnut The stories of the first heroic black men and women who joined Alcoholics Anonymous, told wherever possible in their own words, recorded freely and frankly. The story begins with St. Louis (January 24, 1945); followed by Chicago (March 20, 1945), along with the factory and foundry towns which spread eastwards as suburbs. Later that same year (April 1945) came the story of Dr. James C. Scott, Jr., M.D., the black physician who founded the first black A.A. group in the nation's capital, and was the first black A.A. member to get his story in the Big Book. The book concludes with the story of Joe McQuany (March 10, 1962) of the Joe and Charlie tapes, the most famous black figure in A.A. History. The lives of thousands and thousands of alcoholics around the world were saved by listening to recordings of his careful page-by-page explanation of the message of the Big Book. The powerful spiritual messages of all these brave men and women struck the hearts of everyone who heard them speak.

Space Is the Place 2020-04-30 John Szwed Considered by many to be a founder of Afrofuturism, Sun Ra—aka Herman Blount—was a composer, keyboardist, bandleader, philosopher, entrepreneur, poet, and self-proclaimed extraterrestrial from Saturn. He recorded over 200 albums with his Arkestra, which, dressed in Egypto-space costumes, played everything from boogie-woogie and swing to fusion and free jazz. John Szwed's Space is the Place is the definitive biography of this musical polymath, who was one of the twentieth century's greatest avant-garde artists and intellectuals. Charting the whole of Sun Ra's life and career, Szwed outlines how after years in Chicago as a blues and swing band pianist, Sun Ra set out in the 1950s to impart his views about the galaxy, black people, and spiritual matters by performing music with the Arkestra that was as vital and innovative as it was mercurial and confounding. Szwed's readers—whether they are just discovering Sun Ra or are among the legion of poets, artists, intellectuals, and musicians who consider him a spiritual godfather—will find that, indeed, space is the place.

Western Rivermen, 1763-1861 1994-04-01 Michael R. Allen Western Rivermen, the first documented sociocultural history of its subject, is a fascinating book. Michael Allen explores the rigorous lives of professional boatmen who plied non-steam vessels—flatboats, keelboats, and rafts—on the Ohio and lower Mississippi rivers from 1763-1861. Allen first considers the mythical “half horse, half alligator” boatmen who were an integral part of the folklore of the time. Americans of the Jacksonian and pre-Civil War period perceived the rivermen as hard-drinking, straight-shooting adventurers on the frontier. Their notions were reinforced by romanticized portrayals of the boatmen in songs, paintings, newspaper humor, and literature. Allen contends that these mythical depictions of the boatmen were a reflection of the yearnings of an industrializing people for what they thought to be a simpler time. Allen demonstrates, however, that the actual lives of the rivermen little resembled their portrayals in popular culture. Drawing on more than eighty firsthand accounts—ranging from a short letter to a four-volume memoir—he provides a rounded view of the boatmen that reveals the lonely, dangerous nature of their profession. He also discusses the social and economic aspects of their lives, such as their cargoes, the river towns they visited, and the impact on their lives of the steamboat and advancing civilization. Allen's comprehensive, highly informative study sheds new light on a group of men who played an important role in the development of the trans-Appalachian West and the ways in which their lives were transformed into one of the enduring themes of American folk culture.

Weird Scenes Inside The Canyon 2014-03-19 David McGowan The very strange but nevertheless true story of the dark underbelly of a 1960s hippie utopia. Laurel Canyon in the 1960s and early 1970s was a magical place where a dizzying array of musical artists congregated to create much of the music that provided the soundtrack to those turbulent times. Members of bands like the Byrds, the Doors, Buffalo Springfield, the Monkees, the Beach Boys, the Turtles, the Eagles, the Flying Burrito Brothers, Frank Zappa and the Mothers of Invention, Steppenwolf, CSN, Three Dog Night and Love, along with such singer/songwriters as Joni Mitchell, Judy Collins, James Taylor and Carole King, lived together and jammed together in the bucolic community nestled in the Hollywood Hills. But there was a dark side to that scene as well. Many didn't make it out alive, and many of those deaths remain shrouded in mystery to this day. Far more integrated into the scene than most would like to admit was a guy by the name of Charles Manson, along with his murderous entourage. Also floating about the periphery were various political operatives, up-and-coming politicians and intelligence personnel - the same sort of people who gave birth to many of the rock stars populating the canyon. And all the canyon's colorful characters - rock stars, hippies, murderers and politicians - happily coexisted alongside a covert military installation.

A Lynching in the Heartland 2003-01-31 NA NA On a hot summer night in 1930, three black teenagers accused of murdering a young white man and raping his girlfriend waited for justice in an Indiana jail. A mob dragged them from the jail and lynched two of them. No one in Marion, Indiana was ever punished for the murders. In this gripping account, James H. Madison refutes the popular perception that lynching was confined to the South, and clarifies 20th century America's painful encounters with race, justice, and memory.

White Kitty 2009-04-01 Chris R E Wells Charles is a grad-school dropout whose life and marriage are at an impasse, but a chance encounter will cause him to re-evaluate the choices he has made. Chris R. E. Wells' haunting debut novel chronicles the life of a man whose story is at once foreign and all-too-familiar as it meditates on the nature of memory, fantasy, love, and samaritanism. ""White Kitty, the debut novel by Chris Wells, is ... the smartest, saddest, most beautiful book I've read in a very long time.... The opening chapter is the most brilliant interior monologue I've read since Joyce—simply breathtaking—and from there it only gets better. It's incredibly introspective yet full of action, utterly heartbreaking yet full of hope, delightfully complex yet urgent and honest. A true work of literary art."" -Gilad Elbom, Scream Queens of the Dead Sea

The Indiana Way 1990 James H. Madison "This is a splendid example of how to write well balanced, highly readable state history." -- The Old Northwest "Madison has succeeded as have few other authors of state histories in blending modern scholarly concerns with the traditional narrative historiography of his state. This book is in many ways a model state history." -- Choice "Neither too detailed and provincial, nor too broad and comparative, The Indiana Way adopts an integrated analytical approach, but also includes some narrative and biography." -- Journal of American History

The Gas Boom of East Central Indiana 2005 James A. Glass One of the most dramatic eras in Indiana history, the natural gas boom in the east central region transformed a mostly agricultural area into a major industrial center. The discovery of natural gas created major cities in the place of county seat towns, boomtowns where there had been villages, and factories towering over former farm land. The impact of the boom lived on even after gas itself failed. Through a collection of vintage images, authors James A. Glass and David G. Kohrman provide an overview of the boom era and its legacy in the four county seats of the gas belt: Muncie, Anderson, Kokomo, and Marion, as well as smaller communities such as Elwood, Fairmount, and Gas City.

My Life in Court 2016-11-11 Louis Nizer In this electrifying bestseller, the shrewd and voluble trial lawyer Louis Nizer, who made a long career of representing famous people in famous cases, recounts some of his significant civil and criminal cases. Nizer rose to national fame with his real-life accounts of tension-filled courtrooms and the fervor of the advocate, and “My Life in Court” proved to be no exception: it rose to the top of the Times's best-seller list on its publication in 1961 and logged 72 weeks as a sales leader. The book is an in-depth collection of some of Mr. Nizer's court case success stories, including his client Quentin Reynolds' famous libel action against the columnist Westbrook Pegler, which would also become the basis of the 1963 Broadway play “A Case of Libel.” Praised by critics as “entertaining and philosophically instructive, an unusual combination,” Nizer's movie-like plots of real-life courtroom drama will keep you captivated until the very last page.

Women of the Klan 2009 Kathleen M. Blee Ignorant. Brutal. Male. One of these stereotypes of the Ku Klux

Klan offers a misleading picture. In Women of the Klan, sociologist Kathleen M. Blee dismantles the popular notion that politically involved women are always inspired by pacifism, equality, and justice. In her new preface, Blee reflects on how recent scholarship on gender and right-wing extremism suggests new ways to understand women's place in the 1920s Klan's crusade for white and Christian supremacy.

Crash Course 2011-01-11 Paul Ingrassia “A definitive account . . . It’s hard to imagine anyone better than Paul Ingrassia to ‘ride shotgun’ on a journey through the sometimes triumphant, often turbulent, history of U.S. automaking. . . . [A] wealth of amusing, astonishing and enlightening nuggets.”—Pittsburgh Tribune-Review This is the epic saga of the American automobile industry’s rise and demise, a compelling story of hubris, missed opportunities, and self-inflicted wounds that culminates with the president of the United States ushering two of Detroit’s Big Three car companies—once proud symbols of prosperity—through bankruptcy. With unprecedented access, Pulitzer Prize winner Paul Ingrassia takes us from factory floors to small-town dealerships to Detroit’s boardrooms to the White House. Ingrassia answers the big questions: Was Detroit’s self-destruction inevitable? Why did Japanese automakers manage American workers better than the American companies themselves did? Complete with a new Afterword providing fresh insights into the continuing upheaval in the auto industry—the travails of Toyota, the revolving-door management and IPO at General Motors, the unexpected progress at Chrysler, and the Obama administration’s stake in Detroit’s recovery—Crash Course addresses a critical question: America bailed out GM, but who will bail out America? With an updated Afterword by the author Praise for Crash Course “In order to understand just how much of a mess it was—not to mention how it got that way and how, if at all, it can be cleaned up—you really need to read Crash Course.”—The Washinton Post “Ingrassia tells Detroit’s story with economy, vigour and restrained fury.”—The Economist “A delightful mix of history and first-person reporting . . . Employing superb storytelling skills, Ingrassia explains in head-shaking detail the elements of a wholly avoidable collision.”—Kirkus Reviews (starred review)

Interviewing 2021 Charles J. Stewart "This sixteenth edition of Interviewing: Principles and Practices continues to focus on the fundamental principles applicable to all forms of interviewing and to seven specific types while incorporating the latest in research, interpersonal communication theory, the uses of technology and social media, the role of ethics, and EEO laws that affect employment and performance interviews. We have included recent research findings and developments, but the emphasis remains on developing the skills of both interviewers and interviewees. Ten chapters address diversity (age, gender, culture) in the United States and our involvement in the global village as they impact the interviews in which we take part. A major goal was to make this edition more user-friendly by sharpening the writing style, eliminating redundancies, making definitions and explanations more precise, and employing different print types to emphasize critical words, terms, concepts, and principles. Several chapters were restructured to provide clarity and more logical progressions from point to point"--
