The Peabody Picture Vocabulary Test Fourth Edition (PPVT-4) is a highly regarded vocabulary assessment that has been in practice for close to half a century. Developed by Lloyd M. Dunn and Douglas M. Dunn, the test is designed to evaluate receptive vocabulary for American English. It is quick and easy to administer, saving valuable time so that concentration can be set on executing successful approaches.

The PPVT-4 assessment content covers a wide range of vocabulary comprehension grades, ranging from preschool through adulthood. The assessment problems extensively sample words that depict 20 content domains (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and home and educational vocabulary.

The test gives two identical forms which contain different vocabulary words, making sure that the person has not "learned" the assessment. One version can be used ahead of intervention implementation to assess people's vocabulary understanding and the other version can be employed for re-testing to evaluate and note advancement. The PPVT-4 also features a unique Growth Scale Value (GSV) which is responsive to minor changes with time.

Mystery of the Missing Diamond

It was a dark and stormy night. The downpour was falling heavily, and the breeze was whistling. In the heart of the metropolis, there was a gallery, where a precious diamond was on exhibit. The diamond was named the Star of Africa, and it was the biggest and most beautiful diamond in the world. It was guarded by a advanced security mechanism, and a squad of weaponized guards. No one could pilfer it, or so they thought. But someone did. Somebody managed to circumvent the protection, to avoid the watchmen, to break the window, and to grab the diamond. And no one noticed them, no one listened to them, no one identified who they were. They departed from no mark, no lead, no testimony. They disappeared into the night, with the African Star. And the riddle of the vanished diamond began.
