The Peabody Picture Vocabulary Test 4th Edition (PPVT-4) is a highly regarded vocabulary assessment that has been in practice for close to 50 years. Developed by Lloyd M. Dunn and Douglas M. Dunn, the test is made to evaluate receptive vocabulary for Standard American English. It is quick and simple to conduct, conserving precious time so that concentration can be put on applying effective interventions.

The PPVT-4 assessment material includes a extensive range of vocabulary comprehension ranks, spanning from preschool through adulthood. The assessment items broadly include words that

represent 20 topic areas (e.g., actions, vegetables, tools), speech parts (nouns, verbs, attributes), and household and educational vocabulary.

The assessment offers two equivalent forms which hold distinct vocabulary terms, making sure that the individual has not “memorized” the test. One edition can be used prior to intervention to assess individuals’ vocabulary knowledge and the second version can be utilized for re-testing to assess and document improvement. The PPVT-4 also includes a special Growth Scale Value (GSV) which is reactive to minor changes in time.
