## **Gender, Poverty and Access to Justice**

2020-06-01 David Lawson  
Access to justice is a fundamental right guaranteed under a wide body of international, regional and domestic law. It is also an essential component of development policies which seek to adequately respond to the multidimensional deprivations faced by the poor in order to improve socio-economic well-being and advance the progress of the Sustainable Development Goals. Women and children make up most of Africa's poorest and most marginalized population, and as such are often prevented from enforcing rights or seeking other

recourse. This book explores and analyzes the issue of gendered access to justice, poverty and disempowerment across Sub-Saharan Africa (SSA), and provides policy discussions on the integration of gender in justice programming. Through individual country case studies, the book focuses on the challenges, obstacles and successes of developing and implementing gender focused access to justice policies and programming in the region. This multidisciplinary volume will be of interest to policy makers as well as scholars and researchers focusing on poverty and gender policy across law, economics and global development in Sub-

## Development and Institutions

2020-01-21 Jean-Marie

Baland The definitive reference on the most current economics of development and institutions The essential role that institutions play in understanding economic development has long been recognized across the social sciences, including in economics. Academic and policy interest in this subject has never been higher. The Handbook of Economic Development and Institutions is the first to bring together in one single volume the most cutting-edge work in this area by the best-known international economists.

The volume's editors, themselves leading scholars in the discipline, provide a comprehensive introduction, and the stellar contributors offer up-to-date analysis into institutional change and its interactions with the dynamics of economic development.

book focuses on three critical issues: the definitions of institutions in order to argue for a causal link to development, the complex interplay between formal and informal institutions, and the evolution and coevolution of institutions and their interactions with the political economy of development. Topics examined include the relationship between institutions and growth, educational systems, the role of the media, and the intersection between traditional systems of patronage and political institutions. Each chapter—covering the frontier research in its area and pointing to new areas of research—is the product of extensive workshopping on the part of the contributors. The definitive reference work on this topic, *The Handbook of Economic Development and Institutions* will be essential for academics, researchers, Nigerian Public Service Rules 2009 Pdf Pdf upload Jason t Paterson

and professionals working in the field.

*Lessons for Effective Fiscal Decentralization in Sub-Saharan Africa*

2018-07-06 Mr.Niko A Hobdari Fiscal

decentralization is becoming a pressing issue in a number of countries in sub-Saharan Africa, reflecting demands for a greater local voice in spending decisions and efforts to strengthen social cohesion. Against this backdrop, this paper seeks to distill the lessons for an effective fiscal decentralization reform, focusing on the macroeconomic aspects. The main findings for sub-Saharan African countries that have decentralized, based on an empirical analysis and four case studies (Kenya, Nigeria, South Africa, Uganda), are as follows: • Determinants and effectiveness: Empirical results suggest that (1) the major driving forces behind

fiscal decentralization in sub-Saharan Africa include efforts to defuse ethnic conflicts, the initial level of income, and the urbanization rate, whereas strength of democracy is not an important determinant for decentralization; and (2) decentralization in sub-Saharan Africa is associated with higher growth in the presence of stronger institutions. • Spending assignments: The allocation of spending across levels of government in the four case studies is broadly consistent with best practice. However, in Uganda, unlike in the other three case studies, subnational governments have little flexibility to make spending decisions as a result of a deconcentrated rather than a devolved system of government. • Own revenue: The assignment of taxing powers is broadly in line with best practice in the four case studies, with the bulk of subnational revenue

coming from property taxes and from fees for local services. However, own revenues are a very small fraction of subnational spending, reflecting weak cadaster systems and a high level of informality in the economy.

More Constitutional Dimensions of Contract Law  
2019-06-24 Luca Siliquini-Cinelli This second volume on the constitutional dimension of contract law explores this increasingly relevant subject in jurisdictions that are usually overlooked by mainstream scholarship in the English-speaking world. With chapters on Finland and other Nordic Countries from a comparative perspective, Spain, Japan, Somalia, Nigeria, Brazil, and Peru, the contributions presented here offer much-needed, context-informed insights on whether – and if so, why, how and to what extent – the development of contract law is being influenced by

constitutional values and fundamental rights issues (or vice-versa). The book represents a valuable addition to comparative law literature on the interplay between public (i.e., constitutional) and private (i.e., contract) law by revealing the inner dynamics through which these two branches interact and (at times) inform each other, whilst also enhancing our understanding of the law's nature, function, and transformative potential at the macro, meso, and micro levels.

### **Handbook on Law, Innovation and Growth**

2011-01-01 Robert E. Litan

This Handbook provides breakthrough analyses on an important, cutting-edge topic: the connections between the legal system, both in substance and process, and innovation and growth. Arguably the most important intellectual development in legal scholarship and judicial decision-making over the past four decades has been the increasing use of economic modes of analysis in legal reasoning. The Handbook on Law, Innovation and Growth sheds new light on the linkages between

legal system, answering questions that will help policymakers better understand and implement the law in an effort to advance economic welfare. This Handbook brings together many prominent scholars to examine the features of the legal infrastructure that affect both innovation and growth. Individual chapters explore different legal subject areas, in most cases offering recommendations for rule changes that could accelerate growth, primarily in the context of the US economy. The introductory chapter cohesively ties all of the contributions together and explains why it is time for legal scholarship and research to move in a new direction. Surpassing other literature on the subject, this landmark Handbook is certainly a critical volume for any student or scholar of law and economics.

## **Local Content Requirements**

2013-10-05 Gary Clyde Hufbauer In the wake of the Great Recession of 2008-09, economists feared that protectionist policies might sweep the world economy, echoing the wave of tariff escalations during the Great Depression of the 1930s. To some surprise, officials were more restrained and largely avoided [tradition.vla.ramtech.uri.edu](http://tradition.vla.ramtech.uri.edu) on December 6, 2023 by Jason t Paterson

forms of protection (tariffs and quotas). As a result, economists underestimated the incidence of new protectionism because policymakers increasingly turned to more opaque behind-the-border nontariff barriers (NTBs). Using a combination of statistical analysis and case studies, the authors show that local content requirements (LCRs), a form of NTB, have become increasingly popular. How much was global trade actually reduced on account of LCRs? A conservative estimate might be \$93 billion. Case studies featured cover the healthcare sector in Brazil, wind turbines in Canada, the automobile industry in China, solar cells and modules in India, oil and gas in Nigeria, and "Buy American" restrictions on government procurement.

**Law and Practice on Public Participation in Environmental Matters**

*Nigerian Public Service Rules 2009 Pdf Pdf upload Jason t Paterson*

2015-07-20 Uzuazo Etemire Public participation has become a recurring theme and a topical issue in the field of international environmental law, with many multilateral environmental instruments calling on states to guarantee effectively the concept in their laws and practices. This book focuses on public participation in environmental governance, in terms of public access to environmental information and public participation in environmental decision-making processes. Drawing on the body of international best practice principles in environmental law and taking a comparative stance, Uzuazo Etemire takes Nigeria as a key case, evaluating its procedural laws and practices in relation to public access to information and participation in decision-making in environmental matters. In working to clarify and deepen understanding of the

current status of environmental public participation rights in Nigeria, the book addresses key issues in environmental governance for developing and transitional countries and the potential for public participation to improve the state of the environment and public wellbeing. This book will be of great interest to undergraduate students (as further reading) and post-graduate students, academics, researchers, relevant government agencies and departments, policy-makers and NGOs in the fields of international environmental law, environmental justice, environmental/natural resource management, development studies and international finance.
