Galactic Conflicts which Changed Past

It was the year 23, and the earth was on the edge of war. The USA and China, the pair of superpowers, had been engaged in a intense contest, vying for assets, dominance, and supremacy. They had developed high-tech armaments, such as lasers, drones, and spacecrafts, that can attack any location, any time. They had covertly established orbital stations, which can deploy atomic weapons, that could obliterate the planet. They were both set to utilize them, if at all needed. But they were not the only ones. There existed a third force, a hidden force, that had been observing them, waiting for them, preparing for them both. They were the aliens, and they had arrived to prevent them both. They had come come to save the globe, or to end it all. They had come to start the star wars which altered chronicle.

The Mystery of the Missing Diamond

It was a dark and turbulent night. The downpour was pouring down, and the wind was whistling. In the center of the metropolis, there was a museum, where a priceless diamond was on exhibit. The diamond was known as the Star of Africa, and it was the largest and most gorgeous diamond in the world. It was secured by an advanced security setup, and a squad of weaponized guards. No one could rob it, or so they believed. But someone did. An individual managed to circumvent the safeguard, to avoid the guards, to shatter the pane, and to grab the diamond. And no one saw them, no one overheard them, no one identified who they were. They departed from no sign, no hint, no testimony. They disappeared into the night, with the African Star. And the mystery of the missing diamond commenced.

The field of Engineering Economics and Cost Estimation is a essential aspect of any engineering project. It involves current and upcoming economic factors, making it critical to obtain dependable estimates of future costs, benefits, and other economic parameters. Engineers frequently deal with projects whose scale, complexity, and uncertainty call for sophisticated approaches to planning and budgeting^[1]. A number of methods are used for cost estimation, including rough estimates, semi-detailed estimates, or detailed estimates, depending on the needs for the estimates^[2]. Key concepts in this field include overhead

costs, cost driver identification, cost allocation methods, capital budgeting, flexible budgeting, zero-based budgeting, budgets, and estimates. A number of models are available for developing cost (or benefit) estimates, such as the per-unit model, the segmenting model, cost indexes, the power-sizing model, and learning curve cost estimating. The quality of a cost estimate typically increases as the resources allocated to developing the estimate increase.
