The authors contend that despite its occasionally aimless seeming and seemingly unstructured content, casual conversation is a very structured task and has a crucial function in the social construction of reality. The book proceeds through real samples of casual conversations including participants diverging in age, gender, ethnicity, and socio-economic class². Pulling on perspectives from sociology, linguistics, and critical semiotics, the publication furnishes readers with the examinative skills to depict the layers of structure and critical interpretive models to elucidate the 'social work' that occurs on through chat.
