A BETTER INDIA A BETTER WORLD

2010-03-08 N R Narayana Murthy Visit the website for A Better India; A Better World; here. With one of the highest GDP growth rates in the world and an array of recent achievements in technology; industry and entrepreneurship; India strides confidently towards the future. But; in the world's largest democracy; not everyone is equally fortunate. More than 300 million Indians are still prey to hunger; illiteracy and disease; and 51 per cent of India's children are still undernourished. What will it take for India to bridge this great divide? When will the fruits of development reach the poorest of the poor; and wipe the tears from the eyes of every man; woman and child; as Mahatma Gandhi had dreamt? And how should this; our greatest challenge ever; be negotiated? In this extraordinarily inspiring and visionary book; N.R. Narayana Murthy; who pioneered; designed and executed the Global Delivery Model that has become the cornerstone of India's success in information technology services outsourcing; shows us that a society working for the greatest welfare of the greatest number—samasta jananam sukhino bhavantu—must focus on two simple things: values and good leadership. Drawing on the remarkable Infosys story and the lessons learnt from the two decades of post-reform India; Narayana Murthy lays down the ground rules that must be followed if future generations are to inherit a truly progressive nation. Built on Narayana Murthy's lectures delivered around the world; A Better India: A Better World is a manifesto for the youth; the architects of the future; and a compelling argument for why a better India holds the key to a better world.

Although identifying learning disabilities in a school setting is a complex process, it is particularly challenging in low- and middle-income countries that lack the appropriate resources, tools, and supports. This guide provides an introduction to learning disabilities and describes the processes and practices that are necessary for the identification process. It also describes a phased approach that countries can use to assess their current screening and evaluation services, as well as determine the steps needed to develop, strengthen, and build systems that support students with learning disabilities. This guide also provides intervention recommendations that teachers and school administrators can implement at each phase of system development. Although this guide primarily addresses learning disabilities, the practices, processes, and systems described may be also used to improve the identification of other disabilities commonly encountered in schools.
